NOTES ON THE NAME OF THE HIGHER EDUCATION INSTITUTION

The name of the higher education institution *Pan-European University "Apeiron"* structurally consists of its main – generic part *university*, which essentially defines the institution it names (higher education as a field of work, activity), the auxiliary, i.e. attributive part *Pan-European* (adj. odr. v. (Greek) – referring to Pan-Europe and Pan-Europeanism; *Pan-European*, All-European), and the proper name *"APEIRON"*, which appears in the name as a kind of nominal addition to the main part of the name, without the necessary, structural and essential connections with the main part of the name.

"APEIRON" is a word of Greek origin and means limitlessness, infinity, the root cause of everything that exists. The Milesian philosopher Anaximander taught that everything arose from an experientially indeterminable beginning (*apeiron*) and that everything returns to it. The apeiron does not contain ready-made things, as everything happens through process and movement.

The creative design of giving the proper name *"APEIRON"* is the work of Prof. Dr. Jana Aleksić, a member of the University's Board of Directors, while the main generic and auxiliary attributive part of the name of the higher education institution *Pan-European University* was outlined by Darko Uremović, the founder and first Chairman of the Board of Directors of the higher education institution.

Editorial board of the publication

"Pan-European University "Apeiron" strives to be an institution that inspires innovation and excellence, encouraging personal and social progress through high-quality education and research."

PREFACE

On the occasion of marking twenty years of successful work and development of the Pan-European University "APEIRON" in Banja Luka (2005-2025), we are proud to present this monograph, which is a valuable collection of studies, research and reflections. The publication of this monograph represents a significant step towards documenting and valorizing the achievements that shaped our institution in the past period. Through the five chapters included in this publication, we aim to provide a comprehensive overview of the key moments, challenges, successes and development of the University, which, since its foundation, has become a symbol of academic excellence and innovation in the region.

This monograph would not have been possible without the contributions of numerous academic and administrative workers who built the foundations of our University with passion and dedication. The monograph summarizes the works and contributions of our researchers, teaching staff and students, led by the visionary commitment of the founders of the University – Darko Uremović, Siniša Aleksić and Cornelia Gilch. They were the *spiritus movens* – initiators and generators of changes which, as we may already state represent a turning point of historical importance in the transition, construction and development of the higher education system in the post-conflict restoration of social relations in Bosnia and Herzegovina and Republika Srpska. The founders of the Pan-European University "APEIRON" are proud to point out the contribution to the development of the University's vision made by numerous passionate academic workers, among whom the academician Prof. Dr. Rajko Kuzmanović and academician Prof. Dr. Esad Jakupović. Their dedication and vision were crucial in the early years of the establishment and development of the University. Their feedback and expert insights were fundamental support in strengthening the academic community, and therefore we decided to have them review the monograph.

The editorial board, led by Prof. Dr. Sanel Jakupović, rector of the Pan-European University in the period 2021-2025, gathered a total of 60 members from different organizational units of the University, which ensured a wide range of insights and perspectives in considering the achievements and challenges the University faced over two decades. The monograph includes significant aspects of the development of the educational offer, research work, international cooperation and social engagement of the University, and represents not only an overview of the achieved results, but also a roadmap for the future.

This publication is not only a retrospective, but also an inspiration for future generations of students, researchers and academicians. We hope that, through consideration of past successes and challenges, the monograph will serve as an incentive for further development and progress of the Pan-European University "APEIRON", but also as an illustration of the power of education and science in building the future of society.

Editorial board

Prof. Dr. Sanel Jakupović, full professor, Rector of the Pan-European University APEIRON in Banja Luka, 2021-2025

RECTOR'S NOTE

Twenty years ago, on October 10, 2005, the higher education institution Pan-European University "Apeiron" was founded in Banja Luka. An innovative institution with a practical and modern approach to education, which prepares students to face the challenges of a constantly changing world. In those years, Bosnia and Herzegovina and Republika Srpska were at the beginning of the post-war democratic reality and the transition of the entire social system, including the activity of higher education. In this difficult, critical period of our social community, a group of enthusiasts led by Mr. Darko Uremović (founder and chairman of the Board of Directors of the University), Doc. dr. Siniša Aleksić (founder and director of the University) and Cornelia Gilch (founder and member of the University Board of Directors), with the immeasurable support of an ensemble of prestigious university professors led by academician Prof. Dr. Rajko Kuzmanović (Chairman of the Academy of Sciences and Arts of Republika Srpska) – in 2003, in accordance with the University Law – founded and launched the Faculty of Business Economics, the first member of the future Pan-European University "APEIRON", which was founded two years later, in October 2005, in Banja Luka. The statutory goal of the then Faculty of Business Economics was to prepare students for business management in the emerging market economy, to educate personnel capable of taking on the challenges of socio-economic transformation. Soon, in accordance with the growing needs of the market, the Faculty of Legal Sciences and the Faculty of Information Technologies were founded, and after the registration of the University (in 2006), the Faculty of Sports Sciences and the Faculty of Health Sciences were added to its system.

These members of the University were joined by the Faculty of Philological Sciences (in 2009) and the Faculty of Tranffic (in 2013), so that the University currently has 7 faculties where teaching and scientific research activities of first-cycle academic studies, second-cycle master's studies and third-cycle doctoral studies are carried out in 41 study programs in contact and online study modes. Our prestigious institution is attended annually by an average of 3,000 students and researchers from all over the country, as well as from the Western Balkan region. In the past twenty years, a total of 25,335 students enrolled in the study programs of the Pan-European University "APEIRON" in all three study cycles, of which in the first cycle (bachelor) – 24,207; in the second cycle (master's) – 696, in the third cycle (doctoral) – 45; at postgraduate studies (according to the University Act) – 229; and in doctoral studies (according to the University Act) – 158. The number of students who completed academic studies (and obtained the corresponding diploma) at our University is 13,010, of which 12,353 are in the first cycle (bachelor); second cycle (master) – 317; third cycle (doctoral) – 24; postgraduate studies (according to the University Act) – 195; and doctoral studies (according to the University Act) – 121.

Teaching activities, according to study programs and in accordance with the Law on Higher Education, at the Pan-European University are carried out by 176 members of the teaching staff, i.e. professors and assistants, lecturers, and teachers of foreign languages and skills.

Today's "APEIRON" group also includes the "Gemit – Apeiron" High School Center, the Scientific Research Institute, the Vocational IT Academy, the Career Guidance Center, the Innovation Center of the Pan-European University, and the Employment Mediation Agency "Alumna".

The Pan-European University "Apeiron" was founded as a result of the goals of the founders. It is also a consequence of the revolutionary vision that focused on helping to implement the difficult restructuring processes of Bosnia and Herzegovina and Republika Srpska. We will celebrate the 20th anniversary of "Apeiron" in the current academic year 2024/2025. This is an important anniversary for our entire academic community and a good reason to be proud of the results of our work over the past two decades. It is also a time of summarizing and planning the future because, as the famous Goethe said, "he who moves not forward, goes backward."

Today, the Pan-European University is a growing and prestigious higher education institution that responds to contemporary socio-economic challenges. In the past period, we launched study programs in the areas of software engineering, multimedia and computer graphics, engineering and information systems security. In doctoral studies, students have the opportunity to conduct scientific research at the

Faculty of Information Technologies, the Faculty of Business Economics and the Faculty of Philological Sciences, while master's programs are conducted at all seven faculties, which boast a modern and dynamic modular-individual program of teaching and research curriculum.

Unfortunately, in the course of our work, there were a lot of challenges coming from the external environment. One such, which affected the whole world, was the corona virus pandemic. It significantly influenced the resource potential and workload of the University in order to provide the conditions for the smooth development of education and scientific research activities. However, we have learned to react quickly to changing circumstances. We were constantly guided by two main goals – the necessity of continuing the educational process at the highest level and preserving the health, safety and well-being of the entire academic community and staff. The key to combating the spread of the corona virus has been the active monitoring of ever-changing global educational trends and the immediate introduction of distance learning. It was not news to us. These procedures allowed us to speed up and improve processes that we already knew well. We successfully overcame this obstacle with the help of all our capacities and effective crisis management.

We are extremely proud of our result in the field of international cooperation within the ERASMUS + mobility program for teachers and students of the European Union, because we implemented mobility with 16 higher education institutions from 10 program countries (Slovenia, Czech Republic, Slovakia, Serbia, Bulgaria, Italy, Latvia, Spain, Poland, Turkey). Our International Cooperation Office has been strengthened by new staff who prepare international mobility and capacity building projects within the ERASMUS+ program. As a confirmation of exceptional quality, the Pan-European University "APEIRON" Banja Luka, by the decision of the European Commission of June 26, 2024, was awarded the Erasmus Charter for Higher Education – ECHE.

Important results continued to be achieved in obtaining and implementing national scientific research projects and activities within the funding program implemented by the Ministry of Scientific Technological Development and Higher Education of Republika Srpska, where we were approved for research projects in sports, health sciences, economics, traffic engineering, and information technologies. Scientific journals and scientific gatherings under the auspices of the University continued the tradition of receiving funds from programs supported by the competent national Ministry, so we can conclude that we have raised the level of quality of activities in the field of scientific and research work, which resulted in an increase in the number of projects received from international and national grantors.

We pride ourselves on having a great alumni community. Thousands of our alumni run their own businesses, work as employees of public institutions or are employed in private companies. Our alumni are present not only in our country and the region of the Western Balkans, but also all over the world, from China, Russia, Western Europe, to the United States of America and Canada.

Furthermore, the fact that we enabled our students to perform internships at institutions and companies in the country and abroad is of great value, and for this purpose we concluded contracts with 165 legal entities.

The twentieth anniversary of our University gives us reason to be truly proud. We are aware that the world does not stand still, it moves and everything is in motion. There are many challenges and exciting opportunities ahead. Join us. We still wish to closely monitor what is happening around us and to actively react and respond to the needs of business and science. We want to show all people that getting a good education is an invaluable asset in this day and age.

At the beginning of 2022, Pan-European University "Apeiron" received the exceptional privilege and honor of taking over the chairmanship of the Rectors' Conference of Republika Srpska for a term of two years from all public and private universities in Republika Srpska. I am proud that this honor and obligation fell to me as the rector of the Pan-European University, as I have tried to continue the tradition of good cooperation and systemic support for the development of higher education at the level of Republika Srpska, Bosnia and Herzegovina and the wider region.

I would like to take this opportunity to thank all those who, with their efforts, talent or ordinary human kindness, contribute to the development of our University every day. I would like to emphasize the word "our". This is our joint work, which is supported not only by the founders of the University, the rector and deans, but also professors, other academic staff,

administrative staff, pensioners, and especially a large number of students and graduates. I am convinced that without the talent, creative work and commitment of a wide group of people, we would not be able to create and develop one of the best private universities in Republika Srpska and Bosnia and Herzegovina. Today I want to express my deep gratitute to all these people. Let us also remember with gratitude all those exceptional members of the "APEIRON" community who are no longer among us, and whose work at this University not only contributed to its development, but also changed and shaped those of us who had the honor of learning from them and working with them.

To all students, academic workers, management, founders, administrative and support staff, retired employees, honorary members and alumni of the proud "APEIRON" family, I congratulate the great jubilee – the twentieth anniversary of the successful work and development of the University, with the desire to live in peace and good health, dedicated to developing and improving our home, our Pan-European University "Apeiron".

In Banja Luka, January 3, 2025

The Story About Us

ESTABLISHMENT AND HISTORICAL DEVELOPMENT

Pan-European University "Apeiron" Banja Luka was founded on October 10, 2005, marking a significant phase in higher education in Republika Srpska and Bosnia and Herzegovina. The visionary initiative to establish the University was launched by the talented founders: Darko Uremović, Siniša Aleksić, and Cornelia Regina Gilch, who were registered as individuals in the court register, while the College of Business Economics also became an important part of the foundational structure as a legal entity.

Since its inception, the University has taken on a role dedicated to innovation and quality, while also respecting tradition and upholding academic principles. The first dean of the Faculty of Business Economics, academician Prof. Dr. Rajko Kuzmanović (2003-2004), laid the foundations of the management and academic structures that helped shape the University's educational policy.

The institution's management, led by Darko Uremović and Siniša Aleksić, has continuously invested efforts in the development and adaptation of the University to the challenges of modern education. The Senate, as the highest academic body, composed of the rector, vice-rectors, deans of faculties, director of the Scientific Research Institute, and student representatives, regularly meets to find the right paths for improving educational programs. The first Senate session was held on May 11, 2006, and since then, 213 sessions have been held, indicating active and constructive work on enhancing quality.

The University's history is enriched by a sequence of notable individuals in the position of rector: from academician Prof. Dr. Dragan Danelišen (2006-2009), Prof. Dr. Risto Kozomara (2009-2013), to academician Prof. Dr. Esad Jakupović (2013-2018) and academician Prof. Dr. Zoran Ž. Avramović (2018-2021). Currently, the University is led by rector, Prof. Dr. Sanel Jakupović (2021-2025), who continues the tradition of striving for even higher academic standards.

The faculties of the University, including the Faculty of Business Economics, Faculty of Legal Sci-

Visit of the delegation of the Government of Republika Srpska to the Faculty of Business Economics – Milovan Pecelj, Minister of Education and Culture and Fuad Turalić, Minister of Science and Technology, June 2, 2005; the meeting was attended by Siniša Aleksić, Prof. Dr. Esad Jakupović, academician Prof. Dr. Rajko Kuzmanović, Prof. Dr. Željko Baroš, Darko Uremović

ences, Faculty of Information Technology, Faculty of Health Sciences, Faculty of Sports Sciences, Faculty of Philological Sciences, and Faculty of Traffic, offer a wide range of study programs. The first study program was licensed on September 23, 2003, laying the foundations for diverse academic activities. In total, the University currently offers 41 study programs at all study cycles. Since its founding, over 25,000 students have enrolled, with 13,010 successfully completing their studies.

Pan-European University "Apeiron" is also active in the field of scientific research. The Scientific Research Institute, founded on September 27, 2007, has dedicated itself to the expansion of scientific knowledge and the tradition of research, reflected in 72 doctoral theses and hundreds and thousands of published scientific papers. Constructive support for innovation has enabled the institution to establish the Innovation Center, which has received 10 awards and recognitions to date.

In recent years, the University has organized 13 scientific conferences, where over 800 scientific and professional papers have been presented, making it a significant hub for academic meetings and knowledge exchange in the region. Scientific papers and publications, including scientific journals, proceedings, and textbooks, have been published in significant numbers, contributing to the academic and research community.

The University's independence is also marked by the implementation of mobility programs, including successful cooperation with many foreign higher education institutions, as evidenced by 61 cooperation agreements, as well as ERASMUS+ programs, which engage students and staff at an international level.

Pan-European University "Apeiron" also does not forget the role of its alumni, who have formed an Alumni network since 2011, encouraging former students to stay connected and active in their professions. The scholarship fund "Dr Risto Kozomara," established in honor of the esteemed professor and rector, is proof of the University's leadership's commitment to supporting talented students.

Pan-European University "Apeiron" has had a truly excellent academic ensemble of professors, creators, and scientists, many of whom have been awarded honorary titles – professor emeritus or honorary doctor of science. Here, we also want to mention the members of the academies of sciences and

arts (academicians) who were employed or engaged at the Pan-European University: academician Prof. Dr. Rajko Kuzmanović (2003-2021), academician Prof. Dr. Dragan Danelišen (2006-2009), academician Prof. Dr. Esad Jakupović (2003-2021), academician Prof. Dr. Zoran Arsović (2007-2018), academician Prof. Dr. Dušan Starčević (2007-2019), and academician Prof. Dr. Zoran Ž. Avramović (2007-2024).

After two decades of successful work, Pan-European University "Apeiron" remains committed to its vision of providing quality education, innovation, and scientific work to future generations, and being a leading institution in higher education in the region. The University continually upgrades its capacities and resources, including modern equipment and multimedia centers, creating space for further development and progress. With persistence and dedication, "APEIRON" will continue to be a beacon in education, research, and innovation in the coming decades.

INFORMATION ON THE ACTIVITIES

Pan-European University "Apeiron" Banja Luka is a non-profit educational and scientific institution that, within its core activity of higher education, independently and/or in cooperation with foreign partners, conducts undergraduate academic studies of the first cycle, specialist and master's studies of the second cycle, and doctoral studies of the third cycle, as well as life-long learning programs and continuous professional training and development. The University also conducts basic and applied research in the core scientific fields of accredited study programs, as well as research that supports the development of educational activities. Pan-European University "Apeiron" Banja Luka is a teaching and scientific, non-profit higher education institution in private ownership, operating based on licenses from the Ministry of Education and Culture of Republika Srpska.

Pan-European University "Apeiron" was founded on October 10, 2005, in Banja Luka under the full name PAN-EUROPEAN UNIVERSITY FOR MULTI-DISCIPLINARY AND VIRTUAL STUDIES "APEIRON" BANJA LUKA. On October 19, 2005, the Ministry of Education and Culture of Republika Srpska issued a decision on the fulfillment of conditions for the opening of Pan-European University "APEIRON" Banja Luka under number: 6-01-3535/05. education institution, it was registered on March 17, 2006, in the court register of the Basic Court in Banja Luka under number: U/I 4847/05, as well as in the Register of Higher Education Institutions of the Ministry of Education and Culture of Republika Srpska under number 11-I/08 dated June 6, 2008.

All study programs conducted at the Pan-European University "APEIRON" at all study cycles (1st, 2nd, and 3rd study cycles) are licensed and accredited. Additionally, for all study programs of the first and second study cycles, a request for re-accreditation was submitted to the Agency for Higher Education of Republika Srpska within the legal deadline, and they are in the process of re-accreditation. The University holds institutional accreditation and accreditation of the study programs it conducts: Accreditation Decision No. 01/1.3.180-33/20 dated November 24, 2023 (AVORS); accreditation decision No. 01.1.3.74/16 dated March 24, 2016 (Agency for Accreditation of Higher Education Institutions of Republika Srpska); Decision on entry into the state register of accredited higher education institutions No. 05-33-1-368-19/21 dated December 22, 2023 and decision No. 04-33-1-78-7/24 dated May 03, 2024 (Agency for Development of Higher Education and Quality Assurance of Bosnia and Herzegovina).

Pan-European University "APEIRON" as a higher education institution, is registered in the State Register of Accredited Higher Education Institutions in Bosnia and Herzegovina, as well as the Register of Accredited Higher Education Institutions in Republika Srpska.

By prioritizing quality in its business policy, it ensures the provision of teaching and scientific services of the highest quality, in line with the needs and expectations of our students and society as a whole, providing a safe and healthy environment for all employees, as well as continuous improvement of the business process and the entire system.

The University has a permit for distance education No. 07.2-9624-1/07 dated December 28, 2007. The Pan-European University conducts higher education activities at its headquarters in Banja Luka and off-site in licensed study programs and cycles in Bijeljina according to the decision of the Ministry of Education and Culture of Republika Srpska No. 07.023/612-86-2/10 dated September 06, 2010.

Pan-European University "Apeiron" Banja Luka, as a higher education institution, is a non-prof-

Pan-European University APEIRON, headquarters building and courtyard in Banja Luka, 2012

Formal reception of first-year students, October 2012

it organization that operates as a public service, and any profit made is used exclusively for the development and improvement of its own higher education activities.

The University is headquartered in Banja Luka, where the student campus is located, with a capacity of 6,000 m² of enclosed space and 9,100 m² of surrounding landscaped land. In this space, which is equipped with the most modern educational equipment and tools, computer and telecommunications equipment, there are two amphitheaters, dozens of classrooms, faculty offices, a library and reading room, the rectorate and university administration offices, the dean's offices of all faculties, administrative offices, and student services of the University, basic medical sciences cabinets, and laboratories for chemistry, physical chemistry, clinical chemistry, and biochemistry. There is also a Laboratory for Information and Communication Technologies and Distance Learning, two computer science cabinets, and the University Radio and Television "APEIRON." The classroom space is organized to encourage interactive work between students and teachers, and all classrooms are digitized and equipped for distance learning with standard built-in teleconferencing and video-streaming equipment on the internet from each classroom (the standard equipment in each classroom includes an IP video camera, broadband stationary microphone, multimedia computer for acquisition and digitization of all input-output content in/out of the classroom, projection device, and projection panel). All lectures are recorded, digitized, and cataloged in the distance learning information system, allowing students to review any teaching unit at any time and from remote locations.

The Pan-European University is registered and organized as an integral university. The University's organizational units do not have legal entity status. As organizational units for achieving educational, scientific-research, and other educational activities, Pan-European University "Apeiron" organizes faculties and/or study programs, institutes, departments, branches (affiliates), and vocational academies for undergraduate studies of the first cycle, master's studies of the second cycle, and doctoral studies of the third cycle. Organizational units within the Pan-European University "APEIRON" are the following:

Organizational units for achieving educational and scientific-research activities:

Faculty of Business Economics with study programs (8):

- Entrepreneurial Management – 180/240 ECTS
- Public Administration Management – 240 ECTS
- Banking, Finance, and Trade Management – 180/240 ECTS
- Entrepreneurial Management – 60 ECTS (second cycle master's studies)
- Banking, Finance, and Trade Management – 60 ECTS (second cycle master's studies)
- Economics – Study Module: Business Management in Logistics – 180 ECTS (third cycle doctoral studies)

Faculty of Legal Sciences with study programs (2):

- General Legal Studies Program – 240 ECTS
- General Law – 60 ECTS (second cycle master's studies)

Faculty of Information Technologies with study programs (7):

- Business Informatics – 180/240 ECTS
- Computer Multimedia and Graphics – 180 ECTS
- Information Technology Engineering – 180/240 ECTS with orientations:
  - Programming and Software Engineering – 180/240 ECTS
  - Computer Security and Information Protection – 180/240 ECTS Business
- Informatics – Information Technology Engineering – 60 ECTS (second cycle master's studies)
- Information Systems in Communications and Logistics – 180 ECTS (third cycle doctoral studies)

Faculty of Health Sciences with study programs (11):

- Nursing – 180/240 ECTS
- Physiotherapy – 180/240 ECTS
- Sanitary Engineering – 180/240 ECTS
- Laboratory-Medical Engineering – 180/240 ECTS
- Nursing – 60 ECTS (second cycle master's studies)
- Sanitary Engineering – 60 ECTS (second cycle master's studies)
- Health Care Management – 60 ECTS (second cycle master's studies)

Faculty of Sports Sciences with study programs (6):

- Sports Management – 240 ECTS
- Sports Coach – 180/240 ECTS
- Educational and Teaching Study Program in Sports – 240 ECTS
- Sports Management – 60 ECTS (second cycle master's studies)
- Sports in Target Groups – 60 ECTS (second cycle master's studies)

Faculty of Philological Sciences with study programs (4):

- Russian Language – 240 ECTS
- Russian Language Teaching and Translation Study Program– 180 ECTS
- Russian Language – 60 ECTS (second cycle master's studies)
- Russian Language and Literature – 180 ECTS with orientations:
  - Linguistics and Literary Studies (third cycle doctoral studies)
  - Cultural-Civilizational Framework of Russian Language and Literature (third cycle doctoral studies)

Faculty of Traffic with study programs (3):

- Road Traffic and Transport – 180/240 ECTS
- Traffic and Transport – 60 ECTS (second cycle master's studies)

Organizational units for achieving educational and scientific-research activities:

- Scientific Research Institute “APEIRON”
- Vocational Academies
- Computer Multimedia Academy “MATRIX”
- Business Academy

Organizational units for business services (logistics):

- Rectorate
- Professional Services

Functional organizational units:

- University Radio and Television “APEIRON”
- Laboratory for Information and Communication Technologies and Distance Learning
- Library
- Publishing Activity Center
- Career Guidance
- Center Public Relations Center
- University Sports Center
- Innovation-Incubation Center “APEIRON” (in establishment)
- Territorial Organizational Units
- Headquarters in Banja Luka
- Branch in Bijeljina
- Branch in Novi Grad

Pan-European University organizes studies as:

- First cycle studies lasting three and four years
- Second cycle master’s studies lasting one and two years
- Third cycle doctoral studies lasting three years

In professional education programs, Pan-European University organizes:

- Life-long learning programs (outcome: vocational academy certificates)
- Continuous professional training and development programs (outcome: vocational academy certificates)

University professors at the first-year student welcoming ceremony, October 2012

Educational paradigms applied at the University:

A flexible system of Bologna levels of higher education and credit transfer and accumulation has been designed; In the design of study programs, the modular principle of curriculum construction with re-engineering of traditional curricula and redefining of syllabi has been applied, providing students with multidimensional, multidisciplinary, and interdisciplinary knowledge.

The courses of common basics ensure the development of general generic competencies of students parallel with academic-general education, theoretical-methodological, scientific-professional, and professional-applicative, i.e., specialist competencies; An integral Bologna University oriented towards the student, the so-called "Student-centered university," has been built with the synergy of all common resources, including educational resources, i.e., a University that is also a business, incubation, and "career guidance" center; A teaching process based on an integrated blended learning model has been introduced, which assumes a synthesis of contact teaching, distance education, and mobile education, i.e., a synthesis of different forms of delivery of teaching content and different teaching methods. Modern interactive forms of knowledge transfer such as dialogue and active participation of students in pedagogical workshops where the student equally discovers as much as he or she takes from the teacher, who is simultaneously in the role of lecturer and mentor, are preferred. Problem-based learning, symbiotic learning, and project-based learning are applied.

Visit of Milorad Dodik, President of Republika Srpska, on the occasion of University Day, accompanied by Darko Uremović, Chairman of the Board of Directors, Siniša Aleksić, Director, and Milanka Aleksić, Manager of HSC „Gemit-APEIRON," February 15, 2011

Vision / Mission / Quality Policy

VISION

The vision of the institution is to position itself as a leader in the realization of its social mission in the field of higher education, professional education, and scientific-research work in the region, by achieving the highest European standards in the organization of studies, the application of didactic methods, and curricula based on the best experiences and traditions of American colleges, European universities, and the reform principles initiated by the Bologna process of restructuring the European higher education system.

An optimal number of mandatory courses has been defined, and students are given the freedom and initiative to independently choose elective and optional courses within multidisciplinary study programs, i.e., to acquire additional knowledge and skills within vocational academies, institutes, and functional educational units of the University, personalizing and designing their own studies according to the changes in their social environment.

The study programs at the Pan-European University are aimed at acquiring knowledge that will qualify students for jobs in a high-tech environment requiring an understanding of processes and the ability to manage systems that possess “meta” intelligence, but also initiative, entrepreneurship, the ability to psychologically evaluate colleagues and orchestrate workgroups and teams, decision-making abilities under time constraints, the ability for continuous lifelong learning, the ability to focus on relevant information in environments of information abundance and pollution, the ability to perform multiple simultaneous tasks, and the ability for creative integration of knowledge and practice.

For the purposes of education and scientific-research development, personnel with scientific dignity have been engaged, whose competence coefficients correspond to their knowledge, ability, and readiness to take risks and responsibility for their own lives and for the renewal of their local and global communities, transforming these communities into

"societies of knowledge" and "societies of learning." Therefore, the Pan-European University's commitment is to develop multidisciplinary study programs in marginal scientific fields that are neglected in established studies at public universities but have the greatest potential for the future, and to implement modern pedagogical technologies based on interactive teaching, modern pedagogical workshops, virtual teaching environments, and the application of information and communication technologies for distance education. The efficiency and effectiveness of studies, the attractiveness of multidisciplinary teaching programs that meet future challenges, and the psychological and entrepreneurial animation of students through the application of interactive pedagogical methods in the organization and execution of the teaching-scientific process, produce high pass rates as a function of transferable knowledge and skills, but also as a consequence of high student motivation.

The University will also apply the principles of life-long learning in achieving the fundamental human right to learning and education, promoting European transparency of studies, mobility of students and professors, the "European dimension" (values of a united Europe) in higher education, a system of quality assurance and management, quality control and evaluation, student-centered education, public transparency, and accumulation of all forms of work in the system of knowledge and achievement evaluation for students. The educational process is

designed as a stepwise spiral where the accumulation of credit points for all forms of student work is a condition for vertical progression, personalized and credible studies designed according to the intellectual and psychological measures of students, and the versatile development of the University's research and business functions as an incubation and career guidance center.

MISSION

The mission of the Pan-European University "APEIRON" is to make a full contribution to improving the quality of life of the population and to play a significant role in the development of the state's economy by organizing academic studies for young people and life-long learning programs, educating future leaders capable of creating a sustainable social, economic, and technological strategy for the country, and valuing human resources that will successfully qualify the young academic generation to face their civic and economic environment and the challenges of the future.

Pan-European University "Apeiron" bases its mission on the assumptions that societies in the regions of Southeast and Eastern Europe are

The first ceremonial lecture for first-year students, October 3, 2022

in a process of change, reform, and transition towards a civic democratic society characterized by parliamentary pluralism, the rule of law, and a market economy dominated by private ownership. In times of transition, deep new knowledge, a new worldview, and a different approach to the economy, legal system, healthcare, information dissemination, and knowledge acquisition are required. Within this framework, the Pan-European University seeks to take on the responsibility of an educator.

With the slogans "University of European Knowledge" and "The University We Trust," drawing from the experiences of socially and economically successful and technologically developed countries, the University strives to create personnel educated in multidisciplinary fields through the process of studying and practical training, applying modern educational standards, with operational knowledge and a focus on developing students' creative abilities. Our social mission is, therefore, to educate future leaders capable of creating a sustainable social, economic, and technological strategy for the state and to value human resources that will successfully qualify the young academic generation to face their civic and economic environment and future challenges.

Ceremonial signing of the Cooperation Agreement between the National Academy for Public Administration of the Republic of Serbia and the Pan-European University APEIRON. Pictured: Prof. Dr. Mirjana Landika, Dean of the Faculty of Business Economics (FPE); Prof. Dr. Nina Uremović, Vice Dean of FPE; and Acting Director of the National Academy, Dejan Miletić. Belgrade, February 14, 2022

Therefore, the University applies a mentorship-supported dialogue system of teaching designed as a creative workshop for the teaching staff and author team with high scientific and pedagogical reputations, expert knowledge, and practical experience, capable of taking responsibility for their own results and for educating the younger generation. Student education is conducted using modern standards in the evaluation system, study organization, didactic methods, and curricula based on the best traditions of American colleges and European universities, along with the application of the Bologna principles of European higher education reform.

An optimal number of mandatory courses has been defined, and students are given the freedom to independently choose elective and optional courses within multidisciplinary study groups, i.e., to simultaneously acquire collateral knowledge and skills within vocational academies, functional organizational units, and institutes of the University (such as: Business Incubation Center, Career Guidance Center, Public Relations Center, Publishing Activity Center, University Sports Center), enabling students to earn secondary “minor” diplomas and optional qualifications.

The theoretical and practical knowledge and skills that students acquire during their stud-

Avramović, Rector; Jelena Davidović, General Secretary; Prof. Dr. Tomislav Vujnović, Dean of the Faculty of Traffic; Prof. Dr. Siniša Karan, Faculty of Legal Sciences; Prof. Dr. Danislav Drašković, Faculty of Traffic; Prof. Dr. Velibor Srdić, Dean of the Faculty of Sports Sciences, Banja Luka, November 2, 2018.

ies are designed to qualify them for future jobs in a high-tech environment, allowing students to develop initiative, entrepreneurship, the ability to psychologically evaluate and orchestrate workgroups and teams, decision-making abilities under time constraints, lifelong learning capabilities, the ability to focus on relevant information in environments of information abundance and pollution, the ability to perform multiple simultaneous tasks and lead complex projects, and the ability to creatively integrate knowledge and practice from disparate fields.

For the purposes of education and scientific-research development, personnel with scientific dignity and competence coefficients have been engaged, who are capable and ready to take risks and responsibility for the renewal of their local and global communities and the transformation of Bosnia and Herzegovina into a "society of knowledge" and "society of learning."

Therefore, the commitment of Pan-European University "APEIRON" is to develop multidisciplinary study groups in scientific fields that are neglected in established public university studies but have the greatest potential for the future, and to implement modern pedagogical technologies based on interactive teaching, contemporary pedagogical workshops, virtual learning environments, and the application of ICT (Information & Computer Technologies) and eLearning technologies.

The efficiency and effectiveness of studies, the attractiveness of multidisciplinary teaching programs that address future technological and social challenges, and the psychological and entrepreneurial engagement of students through the application of interactive pedagogical technologies in the organization and implementation of the teaching-scientific process, result in high pass rates as a function of the knowledge and skills transferred to students, but also lead to high student motivation. The University applies the principles of life-long learning in its practice, realizing the democratic right to learning and education, promoting European transparency of studies and mobility of students and professors,

A team of students from the Pan-European University APEIRON won the gold medal at the 15th International Exhibition of Ideas, Innovations, and Creativity "Inost mladih 2013," held from April 17 to 19, 2013. The gold medal was awarded to authors Mirza Ramičić, Zoran Ilić, Dario Mišić, and Dušan Stojaković for their project "Intelligent House." Another student team, consisting of Zoran Ilić, Nenad Božić, and Dejan Đajić, received the silver medal for their project "Plesni Robo Par" The mentor for both APEIRON teams was Doc. Dr. Željko Stanković; Banja Luka, April 2013.

The ceremonial awarding of the "European Quality in Education" prize took place in Oxford on June 20, 2011. In the photo: founders of the Pan-European University APEIRON - Darko Uremović and Siniša Aleksić, Oxford, June 20, 2011.

promoting the "European dimension" (values of a united Europe) in higher education, establishing a European system of quality assurance in higher education and a system of management, control, and evaluation of quality, principles of student-centered education, public transparency, and accumulation of all forms of work in the system of evaluating students' knowledge and achievements.

The versatile development and integration of the University's research and business functions represent the foundation for achieving the University as a business, incubation, and career guidance center.

Quality Policy

The vision of the institution is to position itself as a leader in the realization of its social mission in the field of higher education, professional education, and scientific-research work in the region, by achieving the highest European standards in the organization of studies, the application of didactic methods, and curricula based on the best experiences and traditions of American colleges, European universities, and the reform principles initiated by the Bologna process of restructuring the European higher education system.

Pan-European University is capable of achieving a high level of the teaching-scientific process in accordance with the integration processes defined by the Bologna Declaration, and ensuring lasting trust and satisfaction of students, industry, and society through service quality.

The quality policy of Pan-European University "APEIRON" is a priority of the overall business policy and aims for continuous progress, with the maximum fulfillment of requirements and meeting the needs of all service users, business partners, employees, and society as a whole.

The quality management system is focused on the continuous improvement of the teaching-scientific process and the constant innovation of work processes, based on ESG quality standards. Through continuous internal and external quality system checks, as part of the business policy, resources will be consistently directed towards the development of

the quality system.

The management of Pan-European University "APEIRON" has a special responsibility for quality and its continuous improvement. Ensuring quality is the obligation of every employee for the work they perform.

The mission of Pan-European University "APEIRON" is to make a full contribution to improving the quality of life of the population and to play a significant role in the development of the state's economy by organizing academic studies for young people and life-long learning programs, educating future leaders capable of creating a sustainable social, economic, and technological strategy for the state, and valuing human resources that will successfully qualify the young academic generation to face their civic and economic environment and future challenges. The University will continuously improve the quality of teaching programs, develop the highest quality standards, and affirm the highest standards of teaching and evaluation of acquired knowledge.

The quality policy is mandatory for all participants in the University's work processes.

- Accredited institution and study programs. Accreditation validity period: until November 24, 2028. *(Agency for Higher Education of Republika Srpska – AVORS)*
- Listed in the State Register of Accredited Higher Education Institutions and Study Programs. Accreditation validity period: from August 15, 2007, to November 24, 2028. *(Agency for Development of Higher Education and Quality Assurance of BiH – HEA BiH),*
- Compliance with standards and guidelines for quality assurance in the European Higher Education Area *ESG: ENQA*

ACCREDITATION OF HIGHER EDUCATION INSTITUTIONS AND STUDY PROGRAMS IN REPUBLIKA SRPSKA

The process of accrediting higher education institutions in Republika Srpska began in 2012 in accordance with legal solutions regulating the field of higher education in Republika Srpska and Bosnia and Herzegovina. Based on the prescribed legal provisions and criteria for evaluating the quality of work of higher education institutions, the conditions for initial accreditation were met by 9 universities, including 2 public and 7 private, as well as 9 colleges, including 2 public and 7 private. All the higher education institutions with initial accreditation met the conditions and criteria in the first accreditation cycle in accordance with the prescribed legal requirements. Institutions that met the conditions and criteria were issued accreditation decisions for a period of 5 years. Most higher education institutions accredited in the first cycle have gone through the process of the second accreditation cycle to date.

Accreditation of higher education institutions and study programs is part of the overall activities in the reform of higher education in accordance with the Bologna principles, with the ultimate goal of recognizing higher education in Republika Srpska in the European Higher Education Area (EHEA).

The subject of accreditation includes higher education institutions and the study programs they

1. U Državni registar akreditiranih visokoškolskih ustanova u Bosni i Hercegovini, u Knjigu I, izvršiće se upis Rješenja Ministarstva za naučnotehnološki razvoj i visoko obrazovanje Republike Srpske kojim se Panevropski univerzitet „Apeiron", za multidisciplinarne i virtuelne studije, Banja Luka i studijski programi koji su sadržani u Prilogu 1 ovog Rješenja smatraju akreditovanim u periodu od 15.08.2007. godine do dobijanja prve akreditacije tj. do 24.03.2016.godine.

2. Za izvršenje ovog Rješenja zadužuje se ovlaštena osoba za vođenje Državnog registra akreditiranih visokoškolskih ustanova u Bosni Hercegovini, u skladu sa aktom Agencije broj 06-07-6-298-1/21 od 13.07.2021.godine.

Obrazloženje

Ministarstvo za naučnotehnološki razvoj i visoko obrazovanje Republike Srpske dostavilo je Agenciji za razvoj visokog obrazovanja i osiguranje kvaliteta Bosne i Hercegovine Rješenje broj 19.040/612-3-3-1/24 od 01.04.2024.godine, radi upisa podataka za Panevropski univerzitet „Apeiron" u Državni registar akreditovanih visokoškolskih ustanova u Bosni i Hercegovini. Ovim Rješenjem stavljeno je van snage Rješenje Ministarstva za naučnotehnološki razvoj i visoko obrazovanje Republike Srpske broj: 19.040/612-3-3/24 od 26.01.2024.godine.

U obrazloženju Rješenja se navodi da se, na osnovu člana 61. stav 1 i člana 63. stav 2 Okvirnog zakona o visokom obrazovanju u Bosni i Hercegovini, te člana 26. stav 5, člana 23. stav 1 i člana 30. stav 2 Zakona o visokom obrazovanju Republike Srpske („Službeni glasnik Republike Srpske", broj 73/10, 104/11, 84/12, 108/13, 44/15, 90/16, 31/18, 26/19 i 40/20), ima smatrati da su sve visokoškolske ustanove u Republici Srpskoj koje su postojale na dan 15.08.2007. godine, bile akreditovane, i to u periodu od 15.08.2007.godine do dobijanja prve akreditacije.

U obrazloženju se dalje se navodi da je Panevropski univerzitet „Apeiron" osnovan Rješenjem Ministarstva prosvjete i kulture broj:6-01-3535/05 od 19.10.2005.godine., da je 2007.godine uskladio svoju organizaciju sa odredbama ranije važećeg Zakona o visokom obrazovanju, i da je upisan u Registar visokoškolskih ustanova koji vodi Ministarstvo Republike Srpske. Konačno se navodi da se na osnovu citiranih odredbi zakona Panevropski univerzitet „Apeiron" i studijski programi sadržani u Prilogu 1

Meeting of the management of the University and the Agency for the Development of Higher Education and Quality Assurance of Bosnia and Herzegovina. In the photo: Director and Rector of the University – Doc. Dr. Siniša Aleksić and Prof. Dr. Sanel Jakupović, as well as the Director and Deputy Director of the Agency – Prof. Dr. Enes Hašić and Assistant Prof. Dr. Stevo Škrbić, Banja Luka, January 11, 2022.

offer, including the management procedures of the higher education institution, the processes of study program implementation, the internal quality system within the higher education institution, as well as the capacities, resources, potentials, and capacities for change of the higher education institution.

The accreditation process for study programs at higher education institutions included 399 study programs within the first cycle of studies, of which 318 study programs are conducted at universities, and 81 study programs at colleges. Among these study programs, 163 are conducted at public higher education institutions, and 236 at private ones. Within the second cycle of studies at higher education institutions, 227 study programs are conducted, of which 145 study programs are at public higher education institutions, and 82 at private ones. In the third cycle of studies, 28 study programs are conducted, of which 24 are at public, and 4 at private higher education institutions. 75 study programs have been accredited in accordance with the prescribed legal regulations in the field of higher education in Republika Srpska and Bosnia and Herzegovina, 48 study programs are in the process of accreditation, while the others are in the process of preparing for accreditation. All the aforementioned study programs have initial accreditation, i.e., they have undergone the licensing process and are listed as licensed higher education institutions and study programs in Republika Srpska, as maintained by the Ministry of Scientific and Technological Development and Higher Education of Republika Srpska.

The accreditation process includes a review of the study program with an expert opinion aimed at evaluating the compliance of the structure and content of the study program with applicable standards in certain educational and scientific fields, as well as requirements related to learning outcomes, qualifications, and professions of graduates.

ACCREDITATION OF THE HIGHER EDUCATION INSTITUTION AND STUDY PROGRAMS OF THE PAN-EUROPEAN UNIVERSITY "APEIRON" BANJA LUKA

The Agency for Higher Education of Republika Srpska – AVORS issued an accreditation decision to Pan-European University "APEIRON" on November 24, 2023, under the number 01/1.3.180-33/20. The decision, valid until November 2028, confirmed the quality standards of the work of the University "APEIRON" concerning the criteria for accrediting higher education institutions in Republika Srpska and Bosnia and Herzegovina, and concerning the standards and guidelines for quality assurance in the European Higher Education Area. Given that the University "APEIRON"

met the criteria for institutional accreditation and the criteria for accrediting the first and second cycle study programs and ESG 2015 standards (European Standards and Guidelines), it received positive recommendations from expert committee members for issuing the accreditation decision and recommendations from the Agency for Development of Higher Education and Quality Assurance of Bosnia and Herzegovina – HEA for accrediting the University and study programs. Following this, the Agency for Higher Education of Republika Srpska issued the accreditation decision. As before, accreditation answers why Pan-European University diplomas are highly valued and why its graduates successfully position themselves in the domestic and foreign labor markets. Accreditation has also shown that "APEIRON" justified the method and direction in which it conducts its mission. "APEIRON" is a place where all prestigious universities of the old continent are – in the unique space of European higher education. This is the space that Pan-European University encompasses, its diplomas, students, and teachers – "side by side" with universities in Europe. The application for accreditation was preceded by extensive and comprehensive internal self-evaluation of quality (a total of six regular annual self-evaluations), in accordance with applicable legal regulations, the Rulebook on Accreditation of Higher Education Institutions and Study Programs, and the Standards and Guidelines for Quality Assurance in the European Higher Education Area.

Pan-European University "Apeiron" as a higher education institution, is registered in the State Register of Accredited Higher Education Institutions in Bosnia and Herzegovina.

All study programs conducted at Pan-European University "APEIRON" at all study cycles (1st, 2nd, and 3rd cycles) are licensed and accredited. Additionally, for all first and second cycle study programs, a request for re-accreditation was submitted to the Agency for Higher Education of Republika Srpska within the legal deadline, and they are in the process of re-accreditation.

By prioritizing quality in its business policy, the highest quality teaching and scientific services are ensured, in accordance with the needs and expectations of our students and society as a whole, providing a safe and healthy environment for all employees, as well as continuous improvement of the business process and the entire system.

Founders

Date of establishment of the University:	October 10. **2005.** years
Founders of the University and owners of shares in the capital, who are registered as natural persons in the court register:	Darko Uremović, Siniša Aleksić, Cornelia Regina Gilch, née Schnabel.
The founders of the University and the owner of the share in the capital, which is registered as a legal entity in the court register:	College of Modern Management Banja Luka

Pan-European University "Apeiron" was established on October 10, 2005, in Banja Luka under the full name PAN-EUROPEAN UNIVERSITY FOR MULTIDISCIPLINARY AND VIRTUAL STUDIES "APEIRON" BANJA LUKA, at the address Pete kozarske brigade 18. The Ministry of Education and Culture of Republika Srpska issued a decision on October 19, 2005, confirming the fulfillment of conditions for the opening of Pan-European University "APEIRON" under the number: 6-01-3535/05. As a higher education institution, it was registered on March 17, 2006, in the court register of the Basic Court in Banja Luka under the number: U/I 4847/05, as well as in the Register of Higher Education Institutions of the Ministry of Education and Culture of Republika Srpska under the number 11-I/08 dated June 6, 2008.

The founders and shareholders in the capital of the higher education institution Pan-European University "Apeiron" Banja Luka, registered in the court register as individuals are:

Darko Uremović, from Banja Luka, born January 1, 1955, a citizen of Bosnia and Herzegovina (and Republika Srpska), with a 31% share in the capital.

Siniša Aleksić, from Banja Luka, born December 2, 1955, a citizen of Bosnia and Herzegovina (and Republika Srpska), with a 31% share in the capital.

Cornelia Regina Gilch (née Schnabel), from Nuremberg, born June 1, 1968, a citizen of the Federal Republic of Germany, with an 18% share in the capital.

FOUNDER

Darko Uremović

Darko Uremović was born on January 1, 1955, in Banovići. He studied at the College of Informatics and Economics in Belgrade. He completed primary school in Sanski Most and high school in Banja Luka (1974). He participated in several social and educational projects in the Canadian student exchange program called Canada World Youth, staying in Canada from October 1972 to March 1973. In November 1997, he completed a global training program in Washington D.C. in the area of Small and Medium Enterprise Development, organized by World Learning Inc. under the auspices of USAID. He worked in the Company Autoprevoz Banja Luka as the head of the IT sector on the development and implementation of a business information system and a passenger road transport information system, as well as a human resources management information system. He was the founder and director of his own IT company, Neuromancer dd. He worked as a project manager in the international Orthodox charity organization IOCC International Orthodox Christian Charity on the project of monetizing American commodity reserves intended for humanitarian aid in Bosnia and Herzegovina. During the homeland war, he worked on the development and implementation of a military information system for regiment-level units.

As a regional project developer, along with partners and local experts, he worked on the development and implementation of a range of agricultural projects (mini-dairies, cheese dairies, development of primary herds, farm development), as well as a project to cross-breed the domestic sheep breed *Pramenka* with the German Alpine breed (Bergschaf) to improve certain genetic traits and meat yield of *Pramenka*, and with the Frisian sheep to improve milk production of *Pramenka*. This project was carried out in collaboration with Ludwig Maximilian University of Munich.

From September 2003, along with partners Dr. Siniša Aleksić and M.Sc. Cornelia Gilch from Nuremberg, as well as a team of esteemed academic workers from Banja Luka, he embarked on a project to develop a private higher education institution in the form of a public-private partnership. This project resulted in the registration and licensing of Pan-European University APEIRON Banja Luka in October 2005. As the lead project manager at the university, he worked on the development of studies for all study programs introduced at the university and the design of curricula based on modern scientific knowledge.

After the enactment of the Higher Education Law in August 2006, which introduced the first Bologna standards in higher education in Republika Srpska, he participated in the early adaptation of the university to these standards, including all benefits for the university in organizational, economic, pedagogical, and social aspects, working on the accelerated adaptation of general acts, the structure of study programs, the introduction of the credit system, and Bologna metrics of student and teacher workload, forming a student-oriented institution, developing programs based on competencies and educational outcomes, and introducing vertical and horizontal progression.

Simultaneously, he worked on the full informatization of the university infrastructure and the introduction of the teaching process supported by information technologies.

His greatest contribution is his participation in the development and implementation of new pedagogical methods, principles, goals, values, and educational content with which Pan-European University develops the "New School for the 22nd Century."

The educational process at the university is carried out as a synthesis of a dialogue system of interactive teaching with student mentoring. The institution implements an integrated blended learning model that combines contact teaching, digital online teaching, distance education, and mobile education, i.e., a synthesis of various forms of teaching content delivery, different teaching methods, and educational styles, which prefer problem-based learning, project-based learning, symbiotic learning, and research or practical work.

These are the values of positive flexibility, independence, and independent thinking that encourage creativity, innovation, and the ability to analyze and synthesize. At the University, students are educated to make decisions under time constraints, are resilient to uncertainty (experiencing uncertainty as a positive adrenaline stimulus), are willing to take risks, and are capable of solving and setting problems. With specific pedagogical methods and content, students not only develop logical thinking and cognitive abilities but also emotional and social intelligence, the brain and heart, passion (to experience life projects as challenges and to be dedicated to their work), and beliefs (to win over collaborators and their live audience) and social sensitivity.

Siniša Aleksić, founder of the Pan-European University APEIRON.
Portrait painted by the artist Miodrag Krsmanović.

FOUNDER

Siniša Aleksić

Siniša Aleksić was born on December 2, 1955, in Mrkonjić Grad. He is a graduate lawyer and holds a doctorate in legal sciences. He completed primary school in Banja Luka, the Economic School (1974), and the Faculty of Law at the University of Banja Luka (1980). He worked at the rubber factory "Sintetik" Banja Luka, where he was also the director of the legal, human resources, and general affairs sector. He passed the bar exam in Belgrade in 1990 and then practiced law, served as the deputy military prosecutor at the Military Prosecutor's Office in Banja Luka, and was a lecturer at the Center for Military Schools "Rajko Balać." In 2008, he earned a master's degree by defending his thesis on Constitutionality and Legality and the Rule of Law in Bosnia and Herzegovina, and in 2016, he obtained his doctorate by defending his dissertation on Economic and Social Rights and Their Realization and Protection in Bosnia and Herzegovina at the Faculty of Legal Sciences of the Pan-European University "APEIRON," of which he is a co-founder and co-owner. Since 2003, he has been the director of the Faculty of Business Economics, and since the founding of Pan-European University "APEIRON" in 2005, he has served as the university's director. At the Faculty of Legal Sciences, he was a senior assistant in the course Constitutional Law (2008-2016). In December 2016, he was appointed as an assistant professor in the narrow scientific fields of Constitutional Law and Business Law and Company Law.

Important articles: *Medical-Ecological Significance of Nutrition in the Quality of Life System* (co-author), Research and Development 28-29, Kruševac 2008; *Ecological Security in the Postmodern Environment and Decision-Making in Crisis Situations* (co-author), UNITECH, Gabrovo 2008; *Coordination of Bankruptcy Proceedings* (co-author), Yearbook of the Faculty of Legal Sciences 6, Banja Luka 2016; *Constitutional Court of Bosnia and Herzegovin*a (co-author); *State Liability for Damage Caused by Administrative Work* (co-author), 19th International Scientific Conference "Compensation for Damage and Insurance – Contemporary Challenges," Belgrade 2016, 72-87.

He is a member of the editorial boards of the following journals: JITA (Journal of Informational Technology and Applications), Quality Of Life, Sports Sciences and Health, Yearbook of the Faculty of Legal Sciences, "Economy and Market Communication Review – Journal for Economy and Market Communications." He is a member of the boards of international scientific conferences: ITeO – Information Technologies for e-Education, EDASOL – International Scientific Conference on Economic Development and Standards of Living, Sports Sciences and Health, New and Traditional in Translation Studies and Teaching Russian as a Foreign Language.

Cornelia Regina Gilch, née Schnabel, founder of the Pan-European University APEIRON. Portrait painted by the artist Miodrag Krsmanović.

FOUNDER

Cornelia Regina Gilch

née Schnabel

Cornelia Regina Gilch, née Schnabel, was born on June 1, 1968, in the city of Karlsruhe, Germany. She is a founder and a member of the Board of Pan-European University APEIRON Banja Luka, as well as the Executive Director for Economics, Finance, and Human Resources Development of the Mudra Association for Youth Aid and Drug Prevention in Nuremberg, Germany (German: mudra – Jugend – und Drogenhilfe e.V. in Nürnberg, Deutschland). She is a graduate economist and holds a master's degree in international management. She grew up in the German city of Nuremberg, where she also resides. She graduated in economics in 1997 from the University of Bremen and completed her master's degree in international management at the New School for Social Research in New York, USA. She holds professional qualifications as a mediator for inter-religious conflicts (Belgrade Open School) and as a trainer for consultants assisting unemployed individuals (Work Directions in London).

Since 1996, she has worked as a project manager for numerous governmental and non-governmental organizations in the Southeast European region, such as the European Commission, OSCE, and GTZ. Her work focuses were economic development, enterprise development, educational policy, and labor market development. In the German-Bosnian-Herzegovinian Society in Sarajevo, she took responsibility for reconstruction projects in cooperation with the UNDP, as well as for establishing the independent cultural center CIN in Travnik, central Bosnia. In 2000, she took over the management of the Society for the Development of Southeast Europe e.V. (GESO) and later the executive board of that organization. The GESO organization has significantly developed employment projects, educational institutions, and advisory centers in the former Yugoslavia, especially in Bosnia and Herzegovina. In this activity, she was responsible for more than 100 employees, and she established an agricultural research estate in collaboration with the Bavarian Sheep Breeders' Association, the University of Munich, and the Tyrolean Cattle Breeders' Society.

At the same time, since 2000, along with the future founder of Pan-European University Darko Uremović, she developed economic and cultural projects in Republika Srpska, as well as a revolving fund and microcredit organization MKO Banja Luka, which helped small and micro-enterprises. Another future founder of Pan-European University, Siniša Aleksić, joined them. In 2003, she participated with the two of them in founding the College of Modern Management Banja Luka, and two years later, on October 10, 2005, she participated in founding the higher education institution Pan-European University APEIRON Banja Luka.

Academician Prof. Dr. Rajko Kuzmanović, the first Dean of the Faculty of Business Economics (2003–2004).
Portrait painted by the artist Miodrag Krsmanović.

FIRST DEAN (2003-2004) of the Faculty of Business Economics

Rajko Kuzmanović

Academician Prof. Dr. Rajko Kuzmanović[1] was born on December 1, 1931, in Čelinac, then Vrbaska Banovina, Kingdom of Yugoslavia. He lives and works in Banja Luka. He is the Chairman of the Academy of Sciences and Arts of Republika Srpska (since 2004), a university professor emeritus (since 2009), the Chairman of the Association of Lawyers of Republika Srpska, the national representative of the World Association of Lawyers, and a senator of Republika Srpska. His education was systematic and comprehensive. He completed primary school in Čelinac (1946), Grammar School in Gradiška (1950), Teacher's School in Banja Luka (1954), Higher Administrative School of the University of Zagreb (1964), Faculty of Philosophy of the University of Zagreb (1973), master's studies in law at the Faculty of Law in Zagreb (1976), and defended his doctoral dissertation at the Faculty of Law in Mostar (1980). He devoted the majority of his career to higher education and science (40 years). His career path followed the usual progression – assistant, assistant professor, associate professor, and full professor.

At the Faculty of Law in Banja Luka, he served two terms as dean (1983-1985, 1996-2000). He was elected as the rector of the University of Banja Luka, also for two terms (1988-1992). He was the chairman of the municipality of Čelinac (1959-1963), a people's deputy in the Assembly of SRBiH (1963-1965), and the chairman of the Constitutional Court of Republika Srpska (1998-2002). He served as the president of Republika Srpska from 2007 to 2010.

He actively participated in numerous international conferences and congresses in Dubrovnik, Zagreb, Sarajevo, Novi Sad, Jerusalem, Barcelona, Kiev, Moscow, Paris, Brussels, Chișinău, Palermo, Sofia, Washington, Belgrade, and more. His main areas of scientific activity are constitutional law and comparative political systems. He has written around 200 scientific and professional papers published in domestic and international collections and journals. He has published 34 books, including: *Čelinac Through the Centuries*, Banja Luka 1973; *The Cultural and Educational Front of the Frontier Region, 1941-1945*, Banja Luka 1975; *The Provisional National Assembly of DFJ – From AVNOJ to the Constituent Assembly*, Beograd 1981; *Fundamentals of Management Science (co-author)*, Beograd 1984. (other editions in 1987 and 1994); *Subjective Forces in the Political System of SFRJ*, Banja Luka 1985; *Banja Luka's Education System in the Earthquake*, Banja Luka 1986; *Comparative Political Systems*, Banja Luka 1991; *Constitutive Acts of Republika Srpska*, Banja Luka 1994; *The Constitutional Court of Republika Srpska and the Protection of Constitutionality and Legality* (co-author), Banja Luka 1999; *The Constitution and Citizens' Rights* (co-author), Srpsko Sarajevo 2000; *Fundamentals of the U.S. Constitutional System – The Judicial System*, Banja Luka 2000; *Constitutional Law (multiple editions)*, Banja Luka 2002; *Fundamentals of State Organization and School Legislation* (co-author), Banja Luka 2003; *Essays on Constitutionality and Statehood*, Banja Luka 2004; *The Time of Stabilization – Interviews and Speeches of the President 2007-2010, Laktaši 2010; New Essays on Constitutionality and Statehood*, Banja Luka 2010; *New Essays on Constitutionality and Statehood*, in English, Banja Luka 2011; *Treatises on the Constitutional and Legal Status of Republika Srpska*, Moscow *2013; Constitutional Law Topics*, Banja Luka 2013; *Methodology of Scientific Research* (co-author), Banja Luka 2014; *Constitutional Law, fifth revised and expanded edition*, Banja Luka 2015; *Speeches – A Contribution to the Promotion of Science and Art*, Banja Luka 2016.

He was the editor of dozens of monographs, journals, and proceedings. Research and projects are a significant area of his activity. He participated as a team member or coordinator in over 30 projects. He is the editor-in-chief of the Encyclopedia of Republika Srpska, the most significant project of the Republic. In addition to scientific and professional papers, he has published several hundred newspaper articles, statements, comments, feuilletons, and interviews given to

[1] The biography of Academician Prof. Dr. Rajko Kuzmanović was taken from the official website of the Academy of Sciences and Arts of Republika Srpska. Source: (Academy of Sciences and Arts of Republika Srpska, 2024)

various agencies, print, and electronic media. He is the editor-in-chief of the journal "Pravna riječ."

He was elected as a corresponding member of the Academy of Sciences and Arts of Republika Srpska on June 27, 1997, and as a regular member on June 21, 2004. He was the first secretary of the Academy's Department of Social Sciences (1997–2003) and vice chair of this institution (2003-2004). In addition to being a member of the Academy of Sciences and Arts of Republika Srpska, he is a member of six other prestigious academies: the World Academy of Art and Science (WAAS), the European Academy of Sciences and Arts (EASA), the Royal Academy of Economic and Financial Sciences of Spain (RACEF), the Russian Academy of Natural Sciences (RAEN), the Balkan Academy of Sciences and Culture (BASC), and the Academy of Sciences for Higher Education of Ukraine (ANVOU).

He has received numerous social decorations and recognitions: the Order of Labor and the Order with Silver Rays (SFRY); the Order of Njegoš I Class; the Order of Honor with Golden Rays and the Order of Republika Srpska on the Ribbon (Republika Srpska); the Order of Peter the Great I Class (Russian Federation); the Order of Saint Sava I Class (Synod of the Serbian Orthodox Church); the Order of Law I Class of the World Association of Lawyers; the Order of Legal Order of the International Association of Lawyers; the Charter of the Municipality of Banja Luka; the Golden Crest of the City of Banja Luka; the Golden Plaque of the Municipality of Čelinac; the "Femida" Award of the International Alliance of Lawyers, for loyalty to the legal profession and moral consistency in the fight for the establishment and preservation of the legal system; the diploma "Knight of Science and Art" (Рыcарь nauki i iskustv), the highest recognition for science and art of the Russian Academy of Natural Sciences; the lifetime achievement award given by the Municipality of Čelinac, and numerous plaques, charters, diplomas, and other recognitions.

Academician Prof. Dr. Rajko Kuzmanović was a longtime professor at the Pan-European University "APEIRON" in Banja Luka, and during the mandate period of 2003-2004, he served as the (first) dean of the Faculty of Business Economics.[2]

[2] Part of the biography of academician Prof. Dr. Rajko Kuzmanović related to his engagement at the Pan-European University "APEIRON" represents an additional authorized text by the editor-in-chief of this publication, Prof. Dr. Sanel Jakupović, based on official records of the Pan-European University "APEIRON".

Board of Directors

of the Board of Directors are appointed for a period of four years, with the possibility of one re-election, except for student representatives whose mandate lasts for one year.

Senate

- The highest academic body of the University
- Composition of the Senate: Rector, Vice-Rectors, Deans of faculties, Directors of scientific research institutes, and students
- The Rector presides over the Senate
- The first Senate session: held on May 11, 2006
- Number of Senate sessions held: 213

The Senate of the Pan-European University is an academic and professional body that represents the highest academic authority of the University. It is responsible for academic matters concerning the University's operations and, as a professional body, ensures the fulfillment of the University's core educational and academic activities, the realization of the University's scientific research functions, planning development, and achieving its social mission.

The Senate consists of the Rector, Vice-Rectors, Deans of faculties, Directors of scientific research institutes, as well as student representatives from all cycles of studies organized at the higher education institution. The competences, mode of operation, and other significant issues for the functioning of the Senate of the Pan-European University are defined by Article 54 of the Law on Higher Education (Official Gazette of Republika Srpska, 67/2020), the Statute, and the Rules of Procedure of the Senate.

The Senate must comprise at least 15% members from among regular students who have enrolled in the year of study for the first time, from all cycles of studies organized at the Pan-European University. The student representatives are elected by the Presidency of the Student Parliament of the Pan-European University. If a student organization is not formed at the University, student representatives in the Senate are elected according to the defined structure in the student councils by years of study.

The Rector of the Pan-European University ex officio presides over Senate sessions. In the absence or inability of the Rector, the Vice-Rector for Teaching presides over the Senate.

The Rector of the University is elected through a public competition for a term of four years, with the possibility of one re-election. Upon the expiration of the Rector's mandate or in the case of the Rector's dismissal before the mandate expires, the Vice-Rectors' mandates also cease. The Rector of the University can be dismissed by the Senate before the end of the mandate through a secret ballot,

The 29th session of the Senate of the Pan-European University APEIRON, held on April 10, 2009, in the new conference hall. Close-up of the Rector, Prof. Dr. Dragan Danelišen, Chairman of the Senate, and Jelena Davidović, Secretary-General of the University.

The Jubilee 100th session of the Senate of the Pan-European University APEIRON, held on December 23, 2014. Close-up of the Rector, Prof. Dr. Esad Jakupović, Chairman of the Senate, and Jelena Davidović, Secretary-General of the University.

The 29th session of the Senate of the Pan-European University APEIRON, held on April 10, 2009, in the new conference hall. Close-up of Senate members - Prof. Dr. Risto Kozomara, Prof. Dr. Radoslav Grujić, Prof. Dr. Bogoljub Antonić, Prof. Dr. Vidosav Lolić, Lana Vukčević, Nina Uremović, and Siniša Aleksić, Director

The 29th session of the Senate of the Pan-European University APEIRON, held on April 10, 2009, in the new conference hall. Close-up of Senate members - Prof. Dr. Esad Jakupović, Prof. Dr. Dušan Starčević, Prof. Dr. Željko Baroš, Prof. Dr. Miladin Jovanović, Prof. Dr. Duško Medić, Prof. Dr. Mile Matijević, and Prof. Dr. Bogdana Vujnović Gligorić

The 143rd session of the Senate of the Pan-European University APEIRON, held on November 2, 2018. Close-up of the Rector, Prof. Dr. Zoran Ž. Avramović, Chairman of the Senate, and Jelena Davidović, Secretary-General of the University

with a majority vote of the total number of members.

The mandate of the members of the Senate of the Pan-European University appointed ex officio lasts as long as their appointment to the corresponding function or the employment of the member. The mandate of students lasts as long as their election in the student representative bodies or as long as they have student status.

The first session of the Senate of the Pan-European University "APEIRON" was held on May 11, 2006, in Banja Luka, where the first convocation of the Senate was constituted, chaired by Prof. Dr. Dragan Danelišen, the first Rector of the University (Decision on the constitution of the first convocation of the Senate, number 341/06 dated May 16, 2006). The first convocation of the Senate had 20 members.

Since the establishment of the first convocation until the conclusion of this publication, a total of 213 sessions of the Senate of the Pan-European University "APEIRON" have been held.

The Jubilee 100th session of the Senate of the Pan-European University APEIRON, held on December 23, 2014.

The 143rd session of the Senate of the Pan-European University APEIRON, held on November 2, 2018. Close-up on the right side are seated Senate members Prof. Dr. Larisa Čović, Prof. Dr. Bogdana Vujnović Gligorić, Prof. Dr. Slavica Lukić, and Prof. Dr. Vladimir Čolović

Rectors

- Academician Prof. Dr. Dragan Danelišen (2006-2009)
- Prof. Dr. Risto Kozomara (2009-2013)
- Academician Prof. Dr. Esad Jakupović (2013-2018)
- Academician Prof. Dr. Zoran Ž. Avramović (2018-2021)
- Prof. Dr. Sanel Jakupović (2021-2025)

Since its founding, the Pan-European University "Apeiron" has been under the academic leadership of a total of five rectors, each of whom left a significant mark on the development of this higher education institution. The rectors of the Pan-European University "APEIRON" in Banja Luka have been: academician Prof. Dr. Dragan Danelišen (2006-2009), Prof. Dr. Risto Kozomara (2009-2013), academician Prof. Dr. Esad Jakupović (2013-2018), academician Prof. Dr. Zoran Ž. Avramović (2018-2021), and Prof. Dr. Sanel Jakupović (2021-2025).

The first rector of the Pan-European University "APEIRON" was academician Prof. Dr. Dragan Danelišen, a doctor of medical sciences. His dedication and vision laid the foundation for the institution, leading it to academic success and recognition in the country and the region.

After him, the role of rector was taken over by Prof. Dr. Risto Kozomara, a doctor of medical sciences. During his tenure, the University "APEIRON" continued to expand and develop, introducing new study programs and modern teaching and learning methods.

The third rector, academician Prof. Dr. Esad Jakupović, a doctor of technical sciences, brought new initiatives in research and collaboration with other universities, enhancing the University's reputation within the academic community.

The fourth rector, academician Prof. Dr. Zoran Avramović, a doctor of technical sciences, continued the tradition of development and innovation, ensuring that the University kept pace with contemporary trends in higher education.

Currently, the rector of the Pan-European University "APEIRON" is Prof. Dr. Sanel Jakupović, a doctor of economic sciences. His tenure, which runs from 2021 to 2025, is marked by a focus on the digita-

R E C T O R (2006-2009)

Academician Prof. Dr.

Dragan Danelišen

Ademician Prof. Dr. Dragan Danelišen[3] (Banja Luka, June 14, 1941 – Banja Luka, January 15, 2024). He completed elementary school and Grammar School in his hometown (1959), and the Medical Faculty in Zagreb (1966). He passed his specialization exam in general surgery in 1974 in Zagreb and his specialization exam in pediatric surgery in 1985 in Belgrade. He defended his master's thesis "Post-Traumatic Splenectomy and Its Effect on Serum Immunoglobulins in Correlation with T and B Lymphocytes" in 1986 at the Medical Faculty in Zagreb, and his doctoral dissertation "Immunological Justification and Surgical Possibilities of Preserving the Injured Spleen" in 1989 at the Medical Faculty in Banja Luka. At the same faculty, he was appointed assistant in 1978, assistant professor in 1989, associate professor in 1996, and full professor in 2004. He taught the subjects Surgery with War Surgery and Biological Anthropology with Basics of Sports Medicine. He was elected professor emeritus in 2009. At the Pan-European University "APEIRON" in Banja Luka, he served as rector from 2006 to 2009.

He was the founder and long-time head of the Clinic for Pediatric Surgery at the University Clinical Center of Republika Srpska. He dedicated most of his professional life to surgery and science. He was the lead researcher of the scientific research project "Traffic Injuries" by the Yugoslav Academy of Sciences and Arts (1989). He underwent professional training multiple times both domestically and abroad, including in well-known centers for surgery and pediatric surgery in Ljubljana, Belgrade, Zagreb, Italy, the USA, Japan, and France. He possesses a certificate for continuous education in colorectal surgery (Cleveland Clinic, Ohio – Clinical Foundation).

Professor Danelišen began his surgical practice with abdominal surgery, achieving notable results in the field of innovative techniques: vagotomy, hepatobiliary surgery, and portal hypertension. Transitioning to pediatric surgery, he showed great interest in neonatal surgery, embryonic tumors, pediatric urology, and polytrauma. He introduced new, original surgical techniques in the treatment of congenital anomalies, vesicoureteral reflux, spleen reimplantation, and his own globally inaugurated method of treating colon and rectal injuries with local oxygen application (Seoul 1994). He was the author of fourteen books and 144 papers, many of which were published in leading international journals. His books on various aspects of the suffering of children during the war in BiH 1992–1995, written bilingually, garnered special attention and interest, with titles such as "Who Asks Them," Banja Luka 1995; "The Plucked Buds," Sarajevo 2002; "Pediatric Surgical Propaedeutics," Banja Luka 2002; "Health Care of Cardiopulmonary Patients" (co-author), Banja Luka 2009.

He was a member of the Advisory Council of the University Hospital Clinical Center Banja Luka and numerous international professional associations: European Network of Sport Science, Education and Employment, American Pediatric Surgical Association, Asia Pacific Federation of Coloproctology, Association Francaise de Chirurgie, Association of Pediatric Surgeons of Serbia.

Professor Danelišen was elected a corresponding member of the Academy of Sciences and Arts of Republika Srpska on September 5, 2008, and a full member on December 21, 2012. Since 2016, he has been elected as the secretary of the Department of Medical Sciences of the ANURS.

He was a versatile and successful athlete – a member of the Yugoslav athletics team, a handball player, a sailor, and a motor pilot.

Professor Danelišen received multiple recognitions and awards, including the Plaque of the Medical Society of BiH (1981); "Golden Hippocrates" of the Union of Health Workers of Yugoslavia (1990); Golden plaque for the inauguration of the original surgical method (Local Application of Oxygen in the Treatment of Infection of Extraperitoneal Rectal Segment War Wound, Asian Federation of Coloproctology, Seoul 1995); and the Charter for special merits and exceptional contribution to the affirmation of the Academy of Sciences and Arts of Republika Srpska (2013).

He passed away on January 15, 2024, in Banja Luka, where he was also buried.

[3] The biography of academician Prof. Dr. Dragan Danelišen was taken from the official website of the Academy of Sciences and Arts of Republika Srpska, with additional editing by the editor-in-chief of this publication, Prof. Dr. Sanel Jakupović, regarding information about the death of rector Danelišen. R E C T O R (2009-2013)

Prof. Dr.

Risto Kozomara

Prof. Dr. Risto Kozomara[4] (Glamoč, August 17, 1948 – Banja Luka, November 18, 2013) was a distinguished physician, ophthalmology specialist, university professor, and the second rector of the Pan-European University "APEIRON" during the term from 2009 to 2013.

Prof. Dr. Sc. Med. Risto Kozomara was born on August 17, 1948, in Glamoč, where he completed elementary school. He finished high school in Banja Luka and then enrolled in the Faculty of Medicine in Sarajevo, graduating with excellent grades. After graduation, he specialized in ophthalmology in Belgrade. After completing his studies, he worked as a general practitioner at the Health Center in Skender Vakuf/Kneževo, where he also served as the director.

From 1980 to 2007, he worked at the Clinical Center Banja Luka, holding various positions. For fifteen years, he was the head of the Eye Clinic, where he improved the clinic's operations through his patient-centered approach and dedication. From 2001 to 2003, he served as the general director of the Clinical Center Banja Luka, contributing to the increase in diagnostic and therapeutic procedures in patient care.

In 1985, he enrolled in postgraduate studies in ophthalmology at the Faculty of Medicine, University of Zagreb, where he defended his master's thesis in 1990, titled "The Etiology of Conjunctivitis in Newborns in Banja Luka." He defended his doctoral dissertation in 1995, titled "Contribution to the Etiological Diagnosis and Rational Therapy of Acute Infections of the Anterior Segment of the Eye" before a mixed commission of the Medical Faculties from Banja Luka and Belgrade.

He was promoted to Doctor of Medical Sciences (Ophthalmology) in 1995 at the Faculty of Medicine, University of Banja Luka. He was promoted to Master of Medical Sciences (Ophthalmology) in 1990 at the Faculty of Medicine, University of Zagreb. He was promoted to Doctor of Medicine in 1975 at the Faculty of Medicine, University of Sarajevo.

In April 2006, he was elected full professor in the Department of Ophthalmology, General Department, and the Department of Dentistry at the Faculty of Medicine, University of Banja Luka. He was elected associate professor in the same department and faculty in February 2000, while he was elected assistant professor in 2006. He was elected assistant in 1985 and senior assistant in 1990.

He was a professor at the Faculty of Medicine in Banja Luka, where he also served as the head of the Department of Ophthalmology. He served as the chairman of the Association of Ophthalmologists of Republika Srpska from its founding in 2000 until 2008. He was also a member of the Chamber of Doctors of Medicine of Republika Srpska and a member of the presidency of Doctors of Medicine of Republika Srpska.

Professor Kozomara was the founder and editor-in-chief of the journal of the Association of Ophthalmologists of Republika Srpska, "Srpski oftalmološki arhiv." He was also a member of the editorial board of the journal "Scripta Medica," published by the Faculty of Medicine in Banja Luka.

As an author or co-author, he published 37 scientific and professional contributions.

During his term from 2009 to 2013, he served as the rector of the Pan-European University "APEIRON" in Banja Luka. He published numerous scientific papers in the field of ophthalmology. He was posthumously awarded the Njegoš II Order.

Professor Kozomara passed away on November 18, 2013. He was buried on November 20, 2013, at the Sveti Pantelija Cemetery (Borik) in Banja Luka.

[4] The biography of rector Prof. Dr. Risto Kozomara is stored in the archives of the Pan-European University „APEIRON," with additional editing by the editor-in-chief of this publication, Prof. Dr. Sanel Jakupović, regarding information about the death of rector Kozomara. Academician Prof. Dr. Esad Jakupović, Rector of the Pan-European University APEIRON (2013–2018). Portrait painted by the artist Miodrag Krsmanović.

R E C T O R (2013-2018)

Academician Prof. Dr.

Esad Jakupović

Academician Prof. Dr. Esad Jakupović[5] was born on September 21, 1950, in Ćela, Prijedor municipality, where he completed his elementary and high school education. He graduated from the Faculty of Industrial Pedagogy (Physics) in Rijeka in 1975. He completed his postgraduate studies in 1984 at the Faculty of Agricultural Sciences, University of Zagreb, by defending his master's thesis "Energy Consumption in Transport". His doctoral dissertation, "Methodology of Energy Balance for Biomass," was defended in 1991 at the Faculty of Mechanical Engineering, University of Ljubljana. After completing his studies, he worked as a physics teacher at the High School Center in Prijedor and served as the director of the Administrative High School for one term. He also worked at the Pedagogical Academy of the University of Banja Luka, Department of Mathematics and Physics.

From 1992 to 1995, he worked at the Ministry of Education, Science, and Culture of the Bavarian Province in Munich (Germany), and then at the Faculty of Mechanical Engineering in Zenica (University of Sarajevo) as a physics professor and head of the Department of Mathematics and Physics. He also taught at the Faculty of Electrical Engineering and Mechanical Engineering, University of Tuzla; the Faculty of Mechanical Engineering, University of Bihać; the Faculty of Pedagogy, University of Bihać; and the Faculty of Natural Sciences and Mathematics, University of Tuzla. He served as the Minister of Education, Science, Culture, and Sports of the Una-Sana Canton in Bihać (1996–1999), and then as the rector of the University of Bihać (1999–2000). He taught Mathematics and Business and Financial Mathematics at the Faculty of Business Economics in Banja Luka (2003–2005) and served as the Vice Dean for Education for a while.

From 2005 to 2020, he was employed at the Pan-European University "APEIRON" in Banja Luka as a full professor of Physics and Biophysics, Mathematics, and Business and Financial Mathematics. At the same university, he served as Vice-Rector for Education and Deputy Chairman for Postgraduate and Doctoral Studies from 2005 to 2014. He served as the rector of the Pan-European University "APEIRON" from 2013 to 2018. His scientific research primarily focused on mathematical modeling of technological processes, analyzing energy balances in biomass production, analyzing dielectric and absorptive molecular crystals, and alternative energy sources.

He participated in projects such as "The Wind Energy Potential of Republika Srpska" and "Conductive and Optical Characteristics of Nanoscale Crystal Samples." He published numerous reviews, comments, articles, and presentations in journals and manuals.

Professor Jakupović was elected a corresponding member of the Academy of Sciences and Arts of Republika Srpska on December 4, 2015, and a full member on December 22, 2021. He is a member of the Academy's Committee for Higher Education.

His published books and textbooks include: Physics, Sarajevo 1995; Physics and Electromagnetism, Zenica 1997; Physics in Tables, Formulas, and Problems, Zenica 1997; Physics 2, Bihać 1998; Physics 3, Bihać 1998; Financial and Business Mathematics, Banja Luka 2007; Discrete Mathematical Structures, Banja Luka 2007; Physics and Biophysics, Banja Luka 2008; Higher Mathematics, Banja Luka 2008; Renewable Energy Sources, Banja Luka 2009; Ecology, Banja Luka 2010; Methodology of Scientific Research Work (co-author), Banja Luka 2014; Collection of Physics Problems (co-author), Banja Luka 2018; Trigonometry (co-author), Banja Luka 2018, and more.

[5] The biography of rector academician Prof. Dr. Esad Jakupović is stored in the archives of the Pan-European University „APEIRON," with additional editing by the editor-in-chief of this publication.

Academician Prof. Dr. Zoran Ž. Avramović, Rector of the Pan-European University APEIRON (2018–2021). Portrait painted by the artist Miodrag Krsmanović.

R E C T O R (2018-2021)

Academician Prof. Dr.

Zoran Ž. Avramović

Academician Prof. Dr. Zoran Ž. Avramović[6] was born on September 10, 1953, in Jarebice, Loznica municipality, Serbia (Yugoslavia). He graduated from the state University of Belgrade – Faculty of Electrical Engineering, with an average grade of 9.72. He obtained his master's degree and later a doctorate in technical sciences (1988) from the same faculty. Parallelly, he studied mathematics at the Faculty of Natural Sciences and Mathematics in Belgrade. He was a champion of Serbia in mathematics ("first prize") and Yugoslavia in electrical engineering ("gold medal").

He is an academician of the Russian Academy of Natural Sciences (RAEN, Moscow, Russia, since 2001) and the Russian Academy of Transport (RAT, St. Petersburg, Russia, since 1995). He is a regular member of the Engineering Academy of Serbia (IAS, Belgrade, since 2004) (formerly the Yugoslav Engineering Academy – JINA); and an academician of the Academy of Electrical Engineering Sciences of the Russian Federation (RAEN, Moscow, Russia, since 2007); He is the Scientific Secretary of the Electrical Engineering Department of the Engineering Academy of Serbia.

He held the position of university professor at the Faculty of Electrical Engineering, University of Belgrade (from 1992 to 2004); Faculty of Transport, University of Belgrade (since 1989); and the Pan-European University "APEIRON", Banja Luka, Republika Srpska, Bosnia and Herzegovina (since 2006).

He was a guest professor at the "St. Kliment Ohridski" University, Bitola, Republic of Macedonia (from 2001 to 2006); University "Vitez" in Travnik, Bosnia and Herzegovina (since 2006); University of East Sarajevo, Faculty of Traffic in Doboj, Republika Srpska, Bosnia and Herzegovina (since 2007); American University in Skopje, Republic of Macedonia (academic year 2009/10); Tambov State University named after G. R. Derzhavin, Tambov, Russian Federation (academic year 2013/14).

Professor Avramović defended his doctoral dissertation on the topic: "Modeling and Microcomputer Control of Marshalling Yards" (Faculty of Electrical Engineering, Belgrade, 1988).

He has participated in many scientific and professional papers and projects (a total of 291 scientific and professional papers); 8 papers in journals on the WoS (SCI) list; 3 papers in journals referenced in the Scopus bibliographic database; 21 papers in international scientific journals; 27 papers in domestic scientific and professional journals with reviews; 118 papers at international conferences held abroad and 114 papers at domestic scientific and professional conferences (Serbia, SR and SFR Yugoslavia) (28 by invitation).

As a leader, author, co-author, or collaborator, he participated in the development of 150 studies and projects. He was the leader of several subprojects financed by the Ministry of Science and Technology of Serbia (Yugoslavia). He has registered two patents. So far, he has published three scientific monographs, one university textbook, and one university guidebook. He has been a reviewer (or one of the reviewers) of 12 basic and auxiliary university textbooks, scientific and professional books.

He received the Gold Medal of the Academy of Electrical Engineering Sciences of the Russian Federation (RAEN) "for contributions in the field of electrical engineering" (2005). On the occasion of 150 years of existence and work of the Association of Engineers and Technicians of Serbia (1868-2018), he was declared an honorary member of SITS "for special achievements in the field of professional and scientific development of the Republic of Serbia" (February 2018). He was included in the edition "Who's Who in Bosnia and Herzegovina" for the period 2014-2018. Based on his inventions and patents, he was included in the "Monograph of Inventors", published by the Yugoslav Association of Inventors and Innovators (2001).

Professor Avramović received a special plaque from the Faculty of Traffic in Zagreb "in recognition of outstanding contributions to the development of scientific research work in the field of traffic" (1985). He was included in the esteemed seventh edition of the "International Directory of Distinguished Leadership" published in 1997, among 5,000 personalities worldwide, selected by the American Biographical Institute, Inc. (Raleigh, North Carolina, USA).

[6] The biography of rector academician Prof. Dr. Zoran Ž. Avramović is stored in the archives of the Pan-European University „APEIRON," with additional editing by the editor-in-chief of this publication.

Prof. Dr. Sanel Jakupović, Rector of the Pan-European University APEIRON (2021–2025).
Portrait painted by the artist Miodrag Krsmanović.

R E C T O R (2021-2025)
Prof. Dr.

Sanel Jakupović

Prof. Dr. Sanel Jakupović[7] was born on May 6, 1975, in Prijedor. He attended primary and secondary school in Prijedor. He graduated from the Faculty of Mechanical Engineering in Zenica, University of Sarajevo in 2001. He completed his postgraduate studies in 2007 at the Faculty of Business Economics, Pan-European University "APEIRON" in Banja Luka by defending his master's thesis on the Introduction of Flexible Models of Planning, Management, and Supervision Functions in Investment Processes and Their Impact on Optimal Decision Making. He defended his doctoral dissertation on Improvement and Development of the Modern Customs System of Bosnia and Herzegovina in the Process of Integration into the European Union in 2009 at the Faculty of Business Economics, Pan-European University "APEIRON" in Banja Luka. At his home University, he was elected to the positions of assistant professor in 2009, associate professor in 2014, and full professor in 2020, in the narrow scientific fields of management, theoretical economics, and international economics.

After completing his studies, he was employed at the Indirect Taxation Authority of Bosnia and Herzegovina (ITA) in Banja Luka, where he worked until 2010, and as a representative of ITA, he participated in the work of the customs expert bodies of the World Customs Organization and the European Commission in Brussels.

He has been employed at the Pan-European University "APEIRON" Banja Luka since 2010. Over the past 15 years, he has held significant positions at the Pan-European University "APEIRON" – he was Vice Dean of the Faculty of Business Economics (2011–2013), Dean of the Faculty of Business Economics (2013–2021), Director of the Scientific Research Institute (2016–present), Vice-Rector for Scientific Work and International Cooperation of the University (2019–2021).

He was elected Rector of the Pan-European University "APEIRON" for the mandate period 2021-2025 at the 176th session of the University Senate, held on September 10, 2021.

Professor Jakupović is the author of 6 university textbooks, 50 scientific papers in the field of economics, and 41 professional papers in the field of customs. He is a member and editor of several scientific and professional journals in the country and abroad, founder and member of the program and organizational committees of international and domestic scientific and business conferences, and participant in the quality assurance process in higher education in Bosnia and Herzegovina.

As a professor in charge, he teaches in the first and second cycles of studies (master) in the subjects of Microeconomics, Macroeconomics, Investment Management, Economic Development Management, Project Management, Fundamentals of System Theory and Management, and Customs Management and Customs Policies. Since the 2016/2017 academic year, he has been teaching Project Management in Logistics in doctoral studies in the Economics – Business Management in Logistics study program. He is a mentor to students in the first (bachelor), second (master), and third (doctoral) cycles of studies. To date, he has mentored over 150 graduates in undergraduate studies, 15 graduates in postgraduate and master studies, and 5 doctors of economic sciences.

He was a member of the leadership of the Italian Confederation of European Associations of Professionals and Companies based in Rome (AEPI) and served as the coordinator for Bosnia and Herzegovina for the mandate period 2021–2023. He actively speaks German and English, and also uses Italian.

Within his home University, he is the founder and chairman of the organizing committee of the International Scientific Conference on Economic Development and Standard of Living "EDASOL" (since 2011) and the editor-in-chief of the scientific journal for economics and market communications "EMC REVIEW" (since 2011), which is indexed in the citation database WoS ESCI.

Professor Jakupović is a guest lecturer at the Faculty of Economics, University of Zagreb (2018). He gave an inaugural lecture at the University "Juraj Dobrila" in Pula (2021).

During the mandate period 2022–2024, he served as chairman of the Rectors' Conference of Republika Srpska (RKRS), and for the mandate period 2024-2026, he was elected vice chairman of RCRS.

[7] The biography of rector Prof. Dr. Sanel Jakupović is stored in the archives of the Pan-European University „APEIRON" and has been processed for the purposes of this publication.

Vice-Rectors

During its work from 2008 to 2021, Pan-European University "Apeiron" appointed the following seven vice-rectors::

Prof. Dr. Gordana Radić (2009–2017), Vice-Rector for Scientific Work and International Cooperation

Prof. Dr. Radoslav Grujić (2008–2009), Vice-Rector for Scientific Work and International Cooperation

Prof. Dr. Đuro Mikić (2015–2017), Vice-Rector for Quality Assurance and Development

Prof. Dr. Esad Jakupović (2008–2013), Vice-Rector for Teaching

Prof. Dr. Duško Medić (2015–2017), Vice-Rector for Teaching

Prof. Dr. Željko Baroš (2009–2014), Vice-Rector for Finance and Cooperation with Industry

Prof. Dr. Sanel Jakupović (2019–2021), Vice-Rector for Scientific Work and International Cooperation

Rectorate

- Function: Professional service for supporting the work of the Senate, rector, and vice-rectors, as well as other academic bodies and internal organizational units of the University

- Secretary-General of the University and Assistant Director of the University for Legal Affairs: Elveldina Tatarević (2022-)
- Secretary – Senior Administrator: Maja Dujaković (2011-2022)
- Secretary of the University: Maja Dujaković (2022-)
- Professional Associate for Public Relations: Marijana Petković (2010-)

Jelena Davidović, Secretary-General (2008–2022)

Maja Dujaković, Secretary (2008 -)

Director

- Director of the University: Doc. Dr. Siniša Aleksić (2005-)
- The management team (office) of the director involves:
  - Assistant Director for Economics and Finance: Ljubiša Tomić (2005-),
  - Assistant Director for Legal Affairs: Elveldina Tatarević (2022-),
  - Expert Associate for General and Administrative Affairs: Bojan Aleksić (2019-).

Doc. Dr. Siniša Aleksić, Director of the Pan-European University APEIRON since 2005

Elveldina Tatarević, Assistant Director of the University for Legal Affairs, since 2022

Ljubiša Tomić, Assistant Director of the University for Economics and Finance, since 2005

Bojan Aleksić, Expert Associate for General and Administrative Affairs in the Office of the Director of the University, since 2019

In accordance with the provisions of Articles 268 and 269 of the Statute of the Pan-European University "APEIRON," the director is a professional or executive body of the Pan-European University. Together with the rector, and within their jurisdiction established by law and the Statute, they manage the work of the Pan-European University "APEIRON." The University's Board of Directors elects and dismisses the director. In fulfilling the function of management, the director of the university: represents and advocates for the University and fulfills their functions in the interest of the University. They ensure the legality of operations and are responsible for the legality of the University's operations by suspending any university acts from application and execution if they are contrary to the law, the Statute, general acts, and the interests of the University. The director of the University executes: decisions of the Board of Directors; conclusions and decisions of the Senate and other professional bodies of the University within their scope of work and authority; final court decisions; and ensures the implementation of security measures, protection of copyrights, and data confidentiality.

Doc. Dr. Siniša Aleksić, a graduate lawyer and one of the founders of the University, has held the position of director of the Pan-European University "APEIRON" since its founding (2005). The management team (office) of the director involves:

Doc. Dr. Siniša Aleksić, Director of the Pan-European University APEIRON since 2005

Ljubiša Tomić, Assistant Director of the University for Economics and Finance, since 2005

Siniša Aleksić was born on December 2, 1955, in Mrkonjić Grad. He is a graduate lawyer and doctor of legal sciences. He completed elementary school, the School of Economics (1974), and the Faculty of Law at the University of Banja Luka (1980) in Banja Luka. He worked at the Rubber Factory "Sintetik" Banja Luka, where he was the director of the legal, personnel, and general affairs sector. He passed the bar exam in Belgrade in 1990, then practiced law, served as deputy military prosecutor at the Military Prosecutor's Office in Banja Luka, and lectured at the "Rajko Balać" Center for Military Schools. He obtained his master's degree in 2008 with the thesis "Constitutionality and Legality and the Rule of Law in BiH," and his doctorate in 2016 with the thesis "Economic and Social Rights and Their Realization and Protection in Bosnia and Herzegovina" at the Faculty of Legal Sciences at Pan-European University "APEIRON," of which he is a co-founder and co-owner. Since 2003, he has been the director of the Faculty of Business Economics, and since 2005 and the founding of Pan-European University "APEIRON" to the present, he has served as the director of the University. At the Faculty of Legal Sciences, he was a senior assistant in the subject of Constitutional Law (2008-2016). In December 2016, he was elected as an assistant professor in the narrow scientific fields of Constitutional Law and Business Law and Company Law.

Ljubiša Tomić was born on July 15, 1975, in Doboj. He is married and has one child. He completed the Mathematical-Physical-Computing Grammar School in Doboj in 1994. He graduated from the Faculty of Economics in Banja Luka in 2001. From 1999 to 2000, he worked at Pro Credit Bank in Banja Luka as a credit analyst. He worked at the company "ELING-ENGINEERING" from Teslić as a commercialist and on quality system implementation according to ISO standards 9001:2000 (2001-2002). From 2002 to 2006, he worked at the Deutsche-Bosnisch-Herzegowinische-Gesellschaft as a credit analyst and as a member of the project team. He has been working at Pan-European University "APEIRON" since the institution's founding as the assistant director of the University for economics and finance and is a member of the Board of Directors. He performs management duties in the areas of strategic financial management and marketing at the institution. He also actively participates in activities related to quality system management, development strategies, the institution's management information system, as well as the development and implementation of internal projects of the institution. His specialties include financial management, marketing management, investment management, project management, financial analysis, creditworthiness determination and credit risk analysis, market risk analysis, marketing strategies, business plans, investment projects. He speaks English.

Elveldina Tatarević, Assistant Director of the University for Legal Affairs, since 2022

Bojan Aleksić, Expert Associate for General and Administrative Affairs in the Office of the Director of the University, since 2019

Elveldina Tatarević was born on July 26, 1967, in Bosanska Gradiška. She is a graduate lawyer and has been the assistant director for legal affairs since 2022. She was elected as the Secretary-General of the Rector's Conference of Republika Srpska for a two-year term from October 2022 to February 2024. She graduated in 2007 from the Faculty of Law at the University Vitez. She is enrolled in a master's program at Pan-European University, specializing in Administrative Law with a focus on administrative-legal aspects of quality assurance in higher education. From 2000 to 2006, she worked at GESO (Gesellschaft für die Entwicklung Südosteuropa) as a project development and implementation coordinator and translator for the German language. Since 2006, she has been engaged in higher education, initially as the head of student and teaching services and since 2008 as the assistant rector for teaching and student affairs at the University Vitez. From 2015 to 2022, she worked as the head of the Career Guidance Center and acting head of the Quality Assurance Center at Pan-European University "APEIRON." She has professionally improved in the field of quality assurance in higher education by participating in numerous consultations, workshops, projects, and other forms of training. She is a member of the University's Board of Directors. She speaks English and German.

Bojan Aleksić was born on January 6, 1988, in Banja Luka. He is a graduate lawyer and an expert associate for general and administrative affairs in the director's office at Pan-European University "APEIRON," since 2019. He completed the Secondary School of Economics in Banja Luka in 2007. He enrolled in the Faculty of Legal Sciences in the academic year 2007/2008 at Pan-European University "APEIRON," where he graduated in 2019 under the mentorship of Prof. Dr. Duško Medić. He is enrolled in the second cycle (master's) study program in General Law at the Faculty of Legal Sciences at the parent University. He has been employed at Pan-European University "APEIRON" since 2009. He is married and has two children. He speaks English.

The institution systematically and effectively plans, uses, and verifies its resources, spatial and material-technical, all in accordance with the strategic plan and space and equipment standards standardized by education areas.

The business space of the Pan-European University, with its structure and equipment, as well as the usable business space per enrolled student, meets all the standardized standards for the conduct of the teaching-scientific process. It possesses amphitheaters, classrooms, cabinets, and laboratories and other rooms for teaching, as well as library space and a reading room, all in accordance with the needs of the educational process of a specific educational-scientific field, appropriate work space for teachers and associates, as well as appropriate administrative space for the work of services, a place in the amphitheater, classroom, and laboratory for every student.

Photographs of classrooms at the institution's headquarters, numbered 16 to 22

22.

EQUIPMENT OF THE SPACE

The business premises are equipped with technical equipment for the modern conduct of teaching in accordance with the needs of each study program, health and safety standards. Space for the work of the student parliament is also provided. All classrooms are digitized with teleconferencing options, so with the built-in equipment and telecommunication options, they enable the application of the most modern pedagogical methods and the conduct of the teaching process. All lectures and exams are recorded and processed for distribution in the distance learning system and for control functions. All classrooms and amphitheaters are equipped with complete multimedia equipment, a teleconferencing system (computer, video projector, video camera, two studio microphones, sound acquisition system, classroom sound system, broadband internet access) which allows the recording of all lectures and exam activities, i.e., complete video surveillance of the teaching process. All classrooms meet the set requirements related to education standards and distance education standards.

Laboratories and Cabinets

In study programs in the field of natural sciences, appropriate laboratory space is provided for conducting experimental teaching, as well as conditions for field teaching and other conditions in accordance with the needs of each study program. Laboratories for information and communication technologies and distance learning are specially equipped for the development and maintenance of internet services

Photographs of the Innovation Center, numbered 30 to 32

The University has modernly equipped cabinets and laboratories for teaching in the fields of health care, physiotherapy, medical-laboratory, and sanitary engineering, where students perform exercises in professional subjects as part of regular classes at the Faculty of Health Sciences.

The institution has a language laboratory for teaching Russian (photos are shown in Chapter 4 under the title Laboratory for Information and Communication Technologies).

The University has a modernly equipped laboratory for traffic and motor vehicles for teaching at the Faculty of Traffic, where students perform laboratory exercises in several professional subjects. Students in regular classes master the use of software in terms of computer-aided design (CAD) and HCS in terms of road infrastructure capacity.

For the needs of practical teaching at the Faculty of Sports Sciences, a fully equipped gymnasium is provided, where most of the practical teaching in the first and second cycles of studies is conducted. The hall has an area of 197 m2 and is located on the ground floor of the University building. In addition, the hall of the Center for Sports Diagnostics, equipped with modern diagnostic devices and tools for teaching and scientific research work (basic anthropometric instruments, devices for measuring lactates, cholesterol, glucose and blood pressure, postural analyzer, dynamometer, and digital podoscope for plantar foot analysis), is also used.

Practical lessons are also conducted on the outdoor fields in front of the University building (football, basketball, volleyball) with an area of 260 m2. The University has mats with an area of 100 m2 (mats for practical classes in Martial Arts, Fitness and Conditioning Exercises, Rhythmic Gymnastics, Corrective Gymnastics, and Sports Gymnastics).

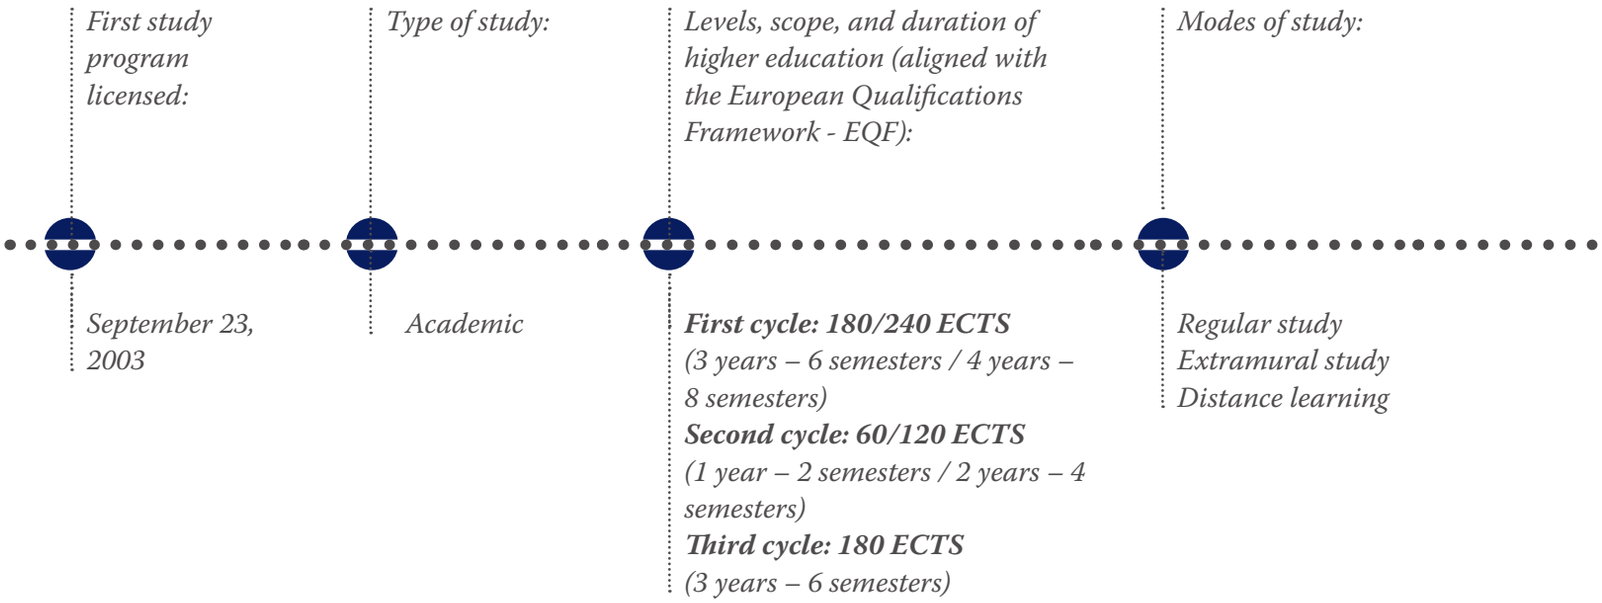
Educational Activity

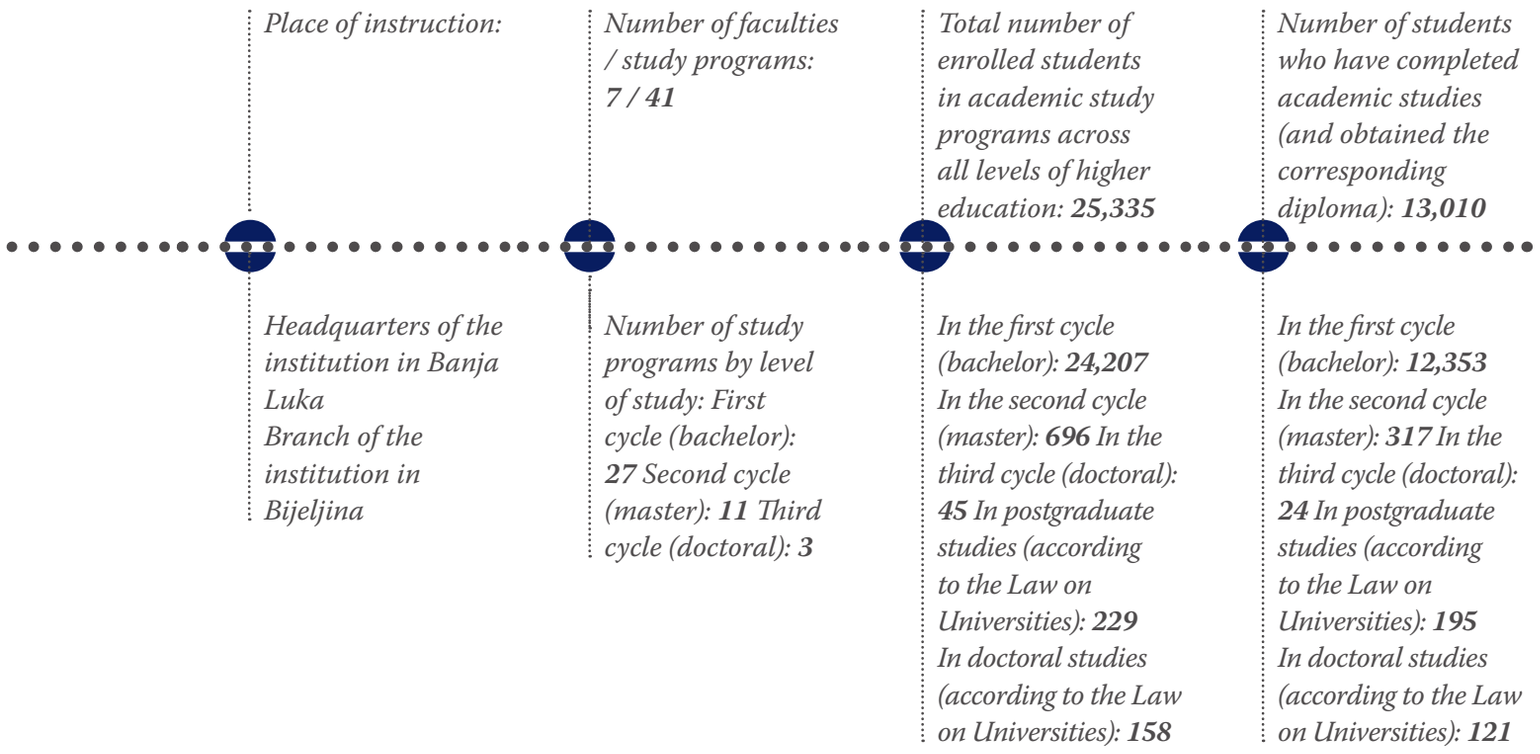


Education holds one of the most significant functions in every society, and therefore, states take responsibility for organizing and funding education. Through education, social norms and values are established, and a sense of belonging to one's community, social group, and religion is developed. The educational system also fosters feelings of cultural identity, respect for principles, and solidarity. Schooling shapes the awareness and perspective of individuals when it comes to societal processes and systems of governance.

In accordance with the provisions of Article 2, paragraph (1) of the Law on Higher Education ("Official Gazette of Republika Srpska, No. 67/20"), higher education is an activity of general interest for Republika Srpska. The objectives of higher education, according to Article 3 of this law, are: 1) education of professional staff in alignment with the strategic documents of the Republic and labor market needs, 2) development and advancement of science and artistic creation, 3) preservation of cultural identity, 4) creation of a stimulating environment for career development of highly educated professionals in the Republic, and 5) development of society and the economy.

The primary activity of the Pan-European University is higher education. It includes obtaining academic and vocational education after secondary school, resulting in the acquisition of a diploma at the first, second, and third levels of higher education at levels 5 and 6 of the ISCED, in accordance with acquired licenses. The Pan-European University "APEIRON" encompasses education obtained through regular and part-time studies, as well as teaching within the distance learning system.

The Pan-European University "APEIRON" is a non-profit educational and scientific institution that, within its core activity of higher education, independently and/or in collaboration with international partners, conducts basic academic studies of the first



cycle, specialist and master's studies of the second cycle, doctoral studies of the third cycle, lifelong learning programs, and continuous professional training and development. The University also conducts basic and applied research in the core scientific fields of accredited study programs, as well as research aimed at the development of educational activities.

The Pan-European University "APEIRON" is a teaching and scientific, non-profit higher education institution in private ownership, operating based on licenses issued by the Ministry of Education and Culture of Republika Srpska. The University was founded in 2005 and is registered as a higher education institution in the court register of the Basic Court in Banja Luka under the number U/I 4847/05, as well as in the Register of Higher Education Institutions of the Ministry of Education and Culture of Republika Srpska under the number 11-I/08. Accreditation: Accreditation decision no. 01.1.3.74/16 dated March 24, 2016 (Agency for Accreditation of Higher Education Institutions of Republika Srpska); Accreditation decision for the Pan-European University "APEIRON" no. 01/1.3.180-33/20 dated November 24, 2023 (Agency for Higher Education of Republika Srpska); Decision on registration in the National Register of Accredited Higher Education Institutions in Bosnia and Herzegovina, no. 05-33-1-537-19/15 dated September 2, 2016 (Agency for Development of Higher Education and Quality Assurance of Bosnia and Herzegovina); Decision on registration in the National Register of Accredited Higher Education Institutions in Bosnia and Herzegovina, no. 05-33-1-368-19/21 dated December 22, 2023 (Agency for Development of Higher Education and Quality Assurance of Bosnia and Herzegovina); Decision on registration in the National Register of Accredited Higher Education Institutions in Bosnia and Herzegovina, no. 04-33-1-78-7/24 dated May 3, 2024 (Agency for Development of Higher Education and Quality Assurance of Bosnia and Herzegovina). The University holds a permit for conducting distance education no. 07.2-9624-1/07

dated December 28, 2007. The Pan-European University conducts higher education activities at its headquarters in Banja Luka and outside its headquarters in licensed study programs and cycles in Bijeljina, according to the decision of the Ministry of Education and Culture of Republika Srpska no. 07.023/612-86-2/10 dated September 6, 2010, and in Novi Grad according to the decision of the Ministry of Education and Culture of Republika Srpska no. 07.023/612-35-2/10 dated December 6, 2010 (the department has been inactive since the 2023/24 academic year). The decisions on fulfilling conditions and licenses for operation and implementation of licensed study programs are public documents that the Pan-European University makes available to the public through its website and other suitable means (Rector's Office Secretariat, 2005–2025). The Pan-European University "APEIRON" Banja Luka, as a higher education institution, is a non-profit organization that operates as a public service, and any profit earned is used exclusively for the development and improvement of its own higher education activities. The Law on Higher Education of Republika Srpska ("Official Gazette of Republika Srpska, no. 73/10 dated July 30, 2010, chapter 3, article 11, paragraphs 1 and 2") stipulates that higher education institutions are non-profit institutions. All profits earned since the enactment of the mentioned Law are used for the development and improvement of their own higher education activities. The non-profit status of the institution is also confirmed by the current Law on Higher Education of Republika Srpska ("Official Gazette of Republika Srpska, no. 67/20 dated July 10, 2020, article 30"). The Pan-European University is registered and organized as an integral university. The organizational units of the University do not have the status of a legal entity. As organizational units for conducting educational, scientific research, and other educational activities, the Pan-European University "APEIRON" organizes faculties and/or study programs, institutes, departments, branches, and vocational academies for basic studies of the first cycle, master's studies of the second cycle, and doctoral studies of the third cycle.

Organizational units for implementing educational (and scientific-research) activities at the Pan-European University "APEIRON" are[1]:

[1] The list and names of study programs are provided according to the data of the higher education institution for the academic year 2024/25

Faculty of Business Economics
with study programs (8):

- Entrepreneurial Management – 180/240 ECTS
- Public Administration Management – 240 ECTS
- Banking, Finance, and Trade Management – 180/240 ECTS
- Entrepreneurial Management – 60 ECTS (Master's studies, second cycle)
- Banking, Finance, and Trade Management – 60 ECTS (Master's studies, second cycle)
- Economics – Study Module: Business Management in Logistics – 180 ECTS (Doctoral studies, third cycle)

Faculty of Legal Sciences
with study programs (2):

- General Legal Study Program – 240 ECTS
- General Law – 60 ECTS (Master's studies, second cycle)

Faculty of Information Technologies
with study programs (7):

- Business Informatics – 180/240 ECTS
- Computer Multimedia and Graphics – 180 ECTS

- Information Technology Engineering – 180/240 ECTS with specializations:
  - Programming and Software Engineering – 180/240 ECTS
  - Computer Security and Information Protection – 180/240 ECTS
- Business Informatics – Information Technology Engineering – 60 ECTS (Master's studies, second cycle)
- Information Systems in Communications and Logistics – 180 ECTS (Doctoral studies, third cycle)

"The more you know, the more you will dare."

MANAGEMENT

Dean

Prof. Dr. Mirjana Landika, Full Professor, Dean of the Faculty of Business Economics at the Pan-European University "APEIRON" since 2021

Prof. Dr. Mirjana Landika, full professor, was born on December 13, 1974, in Bosanska Gradiška. She completed her basic education at the Faculty of Economics in Brčko, where she graduated in 2005. Afterward, she continued her education at the Faculty of Economics at the University of Banja Luka, where she obtained her Master's degree in 2006 with a thesis

titled "Quantitative Models in the Function of Programming Parameters for Business Success in the Trade Sector." She defended her doctoral dissertation in 2010 at the same faculty with the topic "Quantitative Models in the Function of Aligning Managerial Vision and Reality."

Since 2006, Prof. Landika has been employed at the Paneuropean University "APEIRON" in Banja Luka. Her academic career advanced in 2010 when she was appointed as an assistant professor in the fields of actuarial science, operations research, and statistical analysis. In 2015, she was promoted to associate professor, and in 2021 to full professor. She was appointed as the Dean of the Faculty of Business Economics on October 1, 2021, with a four-year mandate.

Prof. Dr. Landika has also engaged in teaching as a guest professor at various higher education institutions, including the "College Prijedor," the Independent University of Banja Luka, the University "Vitez" in Travnik, and "Edusons" University in Novi Sad, Serbia.

She is an active member of various professional and administrative bodies. Since 2013, she has been a member of the Council for the Implementation of the Charter on Improving Science, Education, and Study Conditions at Universities in Republika Srpska. From 2017, she has been a member of the Board of Directors of the Paneuropean University "APEIRON," and since 2019, a member of the Croatian Statistical Society. Her involvement in projects has been particularly significant, especially her participation in the COVID-19 task force under FenStat since 2020.

Since 2018, Prof. Dr. Landika has also been a court expert in the field of economics, and during the same period, she worked as a reviewer for the Higher Education Accreditation Agency of Republika Srpska. Additionally, she has been active in the Ministry of Agriculture, Forestry, and Water Management of Republika Srpska as a member of the Working Group for preparing programs for surveillance and monitoring of infectious diseases for 2020.

Beyond her academic activities, Prof. Dr. Landika is also an educator and the owner of the franchise "SUPERZNALAC," which offers mental arithmetic programs for children aged 6 to 13. She is the author or co-author of six university textbooks, including a scientific monograph and over 50 scientific and professional papers, significantly contributing to the development of the fields of economics and education in the region.

She is married and a mother of two. She lives and works in Banja Luka.

Prof. Dr. Nina Uremović, Associate Professor, Vice-Dean of the Faculty of Business Economics at the Pan-European University „APEIRON" since 2021

Vice-Dean for Education

Prof. Dr. Nina Uremović, Associate Professor, was born on September 21, 1983, in Banja Luka. She completed her primary and secondary education in Banja Luka. She began her studies at the Faculty of Business Economics at the Paneuropean University "APEIRON" in Banja Luka, where she graduated in December 2008. After graduation, she enrolled in a Master's program at the same faculty and successfully defended her thesis in 2012, titled "The Development of Internal Factors of Strategic Management of Business Entities in the Growth Phase, with Reference to Private Higher Education Institutions." She defended her doctoral dissertation, "Intellectual Capital as a Generator of Business Growth," in February 2016 at the same faculty, achieving an exceptionally high grade point average during her education.

Prof. Dr. Nina Uremović's professional experience dates back to 2004 when she worked in various positions within the financial sector, as well as a research associate in the Laboratory for Information and Communication Technologies. Her passion for science and student education became her primary professional commitment, and in 2009, she began working as a teaching assistant, subsequently earning the title of senior assistant in 2012. She was appointed as an assistant professor in 2016 in the fields of "Management" and "Theoretical Economics" and was promoted to Associate Professor in 2021 in the narrow scientific field of "Theoretical Economics."

She has published a scientific monograph and numerous scientific and professional papers, as well as actively participated in many scientific conferences both domestically and internationally. Her development has not been limited to formal education—she actively participated in various professional and informal knowledge acquisition programs in fields such as informatics, foreign languages, quality, quality system auditing, and psychology.

In addition to her teaching and scientific engagement, Prof. Dr. Nina Uremović has been a member of the Editorial Board of the student magazine "Alumni," as well as the Editorial Board of the "Journal for Economics and Market Communications EMC Review." She is also active in organizing scientific gatherings and other professional events, including membership in the Organizing Committee of the International Scientific Conference "THE POWER OF COMMUNICATION 2015" and EDASOL Banja Luka 2019. In her current role, she is a member of the Board of Directors of the Paneuropean University "APEIRON" in Banja Luka.

She is married and a mother of four children. She lives and works in Banja Luka.

FORMATION AND DEVELOPMENT[3]

The Faculty of Business Economics, as an important organizational unit of the Paneuropean University "APEIRON" in Banja Luka, has a rich history spanning more than two decades of existence and development. It was initially established under the name Faculty of Business Economics Laktaši and has gone through various phases of development, including changes in organization and accreditation.

In English, the Faculty is also known as MM College and College of Modern Management, reflecting its focus on modern management and entrepreneurial studies. This name symbolizes its dedication to innovation in the fields of business economics and management.

The history of the Faculty has been marked by significant milestones in its establishment and accreditation process. Key decisions from the competent Ministry of Education and Culture include the approval to commence operations and activities issued on September 23, 2003, under reference number 6-01-2368-3/03. Accordingly, approval for the Faculty's Statute was granted on November 18, 2003, along with the registration in the court register on December 4, 2003. These documents officially marked the beginning of the Faculty's operations and its official registration.

The Faculty soon expanded its activities, including the introduction of new study programs. On June 30, 2005, the Faculty received approval to open new departments, such as Business Law, Service Management, and Business Informatics. Subsequently, on October 18, 2005, a document was issued confirming conditions for establishing new faculties within the Paneuropean University "APEIRON," while on October 26, 2005, approval was given for the introduction of distance learning.

In compliance with positive regulations, the Faculty of Business Economics, as part of the Paneuropean University "APEIRON," underwent various phases of accreditation. The first institutional accreditation of the Paneuropean University "APEIRON" was issued on March 23, 2016, under reference number 01/1.3.74/16. Subsequently, on September 2, 2016, the University was entered into the National Register of Accredited Higher Education Institutions maintained by the Agency for the Development of Higher Education and Quality Assurance of Bosnia and Herzegovina. A supplemental accreditation decision was issued on March 4, 2021, and the most recent accreditation decision for the higher education institution was issued by the Agency for Higher Education of Republika Srpska on November 24, 2023, under reference number 01/1.3.180-33/20.

Throughout its existence, the Faculty of Business Economics has offered various study programs that have evolved in line with market demands and academic standards. Study programs include Entrepreneurial Management, Banking, Finance, and Trade Management (originally known as Service Management), Public Administration Management, as well as Business Law and Business Informatics, which were transferred to other faculties after 2005.

According to official records, the Faculty of Business Economics has enrolled a significant number of students at all study cycles. From its establishment until the academic year 2023/2024, 6,596 students were enrolled in undergraduate studies, 258 in

[3] In the Work Permit of the Ministry of Education and Culture of Republika Srpska number 07.2-9624/07 dated December 28, 2007. there are also study programs that are conducted at the Faculty of Legal Sciences, the Faculty of Information Technologies, the Faculty of Health Sciences and the Faculty of Sports Sciences. Therefore, the document in question will not appear again in the text of the mentioned faculties.

The position of Dean of the Faculty of Business Economics was held by: Academician Prof. Dr. Rajko Kuzmanović (2003-2004); Prof. Dr. Željko Baroš (2004-2013); Prof. Dr. Sanel Jakupović (2013-2021); Prof. Dr. Mirjana Landika (2021–).

The Vice-Deans of the Faculty of Business Economics have been: Prof. Dr. Esad Jakupović (2007-2010); Doc. Dr. Sanel Jakupović (2010-2013); Prof. Dr. Vladimir Stojanović (2013-2021); Prof. Dr. Nina Uremović (2021–).

Duška Srdić, in the position of Secretary of the Faculty of Business Economics since 2009

The position of Secretary of the Faculty of Business Economics has been held by Duška Srdić since 2009.

In its first year of operation as an organizational unit, the total number of engaged academic staff was 34, including responsible lecturers (employees and guest professors with doctoral degrees), while the total number of employed and guest assistants and associates was 4.

In the academic year 2023/2024, the total number of employed and guest lecturers is 37, while the total number of employed and guest assistants and associates is 10.

The Faculty of Business Economics has engaged prominent professors and scientists, such as: Academician Prof. Dr. Rajko Kuzmanović, Academician Prof. Dr. Esad Jakupović, Academician Prof. Dr. Zoran Arsović, Prof. Dr. Željko Baroš, Prof. Dr. Zorka Grandov. (General Affairs Service, 2024)

Educational Activity

The Faculty of Business Economics specializes in the core scientific fields of entrepreneurial economics, management, business logistics, marketing, market operations management, applied economics, banking, finance and trade, public administration, business law, business informatics, applied political studies, as well as secondary scientific fields. These secondary fields are also studied at the Faculty and form the foundation of an interdisciplinary approach, including organizational sciences, decision theory, risk management and crisis management, project management, conflict management, e-business, change management, communication studies, interpersonal relationships and communication skills, public relations, mathematical economic analysis, probability, and statistics.

The Faculty of Business Economics enrolls students in first-cycle studies lasting three (6 semesters) or four years (8 semesters), offering 180 ECTS or 240 ECTS, respectively, in the following study programs:[4]

- Entrepreneurial Management – 180/240 ECTS
- Public Administration Management – 180/240 ECTS
- Banking, Finance, and Trade Management – 180/240 ECTS

Depending on the duration of the first-cycle studies (6 or 8 semesters), graduates of the Faculty of Business Economics are entitled to the following qualifications:

[4] Study programs of the first, second and third cycles at the Faculty of Business Economics by study levels and names of obtained qualifications are given according to the data of the higher education institution for all licensed and accredited study programs.

Teaching activities at the Faculty of Business Economics. Responsible lecturer: Prof. Dr. Sanel Jakupović, October 2024

Teaching activities at the Faculty of Business Economics, October 2024

- Bachelor of Economics – 180/240 ECTS
- Bachelor of Economics – Public Administration Manager – 180/240 ECTS

The Faculty offers a rich elective program that allows students to independently choose subjects and modules from the following fields: mathematical sciences, economics and business, management, and political sciences, which are relevant areas for acquiring the knowledge and skills of future economists. The elective program also includes the study of foreign languages. Students can select between two or four subjects per year, depending on the curriculum of the given study program. Upon completing their studies, students acquire both general and specific competencies.

In the second cycle of studies – Master's programs, the Faculty of Business Economics has, since 2011, enrolled students in programs lasting one year (2 semesters) or two years (4 semesters), as follows:

- Entrepreneurial Management – 60/120 ECTS (Master's program, second cycle)
- Banking, Finance, and Trade Management – 60/120 ECTS (Master's program, second cycle)

Upon completing the Master's studies and successfully defending their Master's thesis, students of the Faculty of Business Economics are entitled to obtain the qualification:

- Master of Economics – 300 ECTS.

In the third cycle of studies – doctoral programs lasting three years (6 semesters), since 2016, the Faculty of Business Economics has enrolled students in the following program:

- Economics – Study Module: Business Management in Logistics – 180 ECTS (doctoral studies, third cycle).

After completing the doctoral program and successfully defending their doctoral dissertation, students of the Faculty of Business Economics are entitled to obtain the scientific title:

- Doctor of Economic Sciences – 480 ECTS – Business Management in Logistics.

The study program Economics – Business Management in Logistics is core to the scientific fields of economics and social sciences, specifically in the areas of management, logistics, and operations research.

Scientific Activities[5]

The Faculty of Business Economics of the Paneuropean University "APEIRON" (FPE) has been actively engaged in scientific and research activities since its establishment, with a particular emphasis on the field of economics and market communications. A key aspect of these activities is scientific re-

[5] You can find more information about scientific research and international programs/activities of the Faculty of Business Economics in chapters 1, 3, 4, and 5 of this publication.

MANAGEMENT

Dean

Prof. Dr. Ljubinko Mitrović, Full Professor, Dean of the Faculty of Legal Sciences at the Pan-European University "APEIRON" since 2024

Prof. Dr. Ljubinko MITROVIĆ is a Doctor of Legal Sciences. He was born on August 23, 1958, in Olovo. Since 2016, he has held the title of full professor in the narrow scientific field of Criminal Law and Criminal Procedural Law, starting in 2014 as an associate professor in the narrow field of State and Legal Theory, in 2015 as an associate professor in the narrow field of Administrative Law and Administration, and, finally, in 2024, as

an assistant professor in the narrow field of Constitutional Law. By the decision on acquiring the scientific title by the Ministry of Education, Science, and Technological Development of the Republic of Serbia, reference number 660-01-00001/505 from March 27, 2019, he holds the scientific title of scientific associate in the field of social sciences – law. He graduated from the Faculty of Law in Banja Luka in 1981, earned his Master's degree from the same Faculty in 1998, and holds two doctoral degrees—one in State-Legal Sciences and another in Criminal Law Sciences, obtained in Belgrade and Niš, respectively. Prof. Dr. Ljubinko Mitrović has been involved in teaching at the Faculty of Legal Sciences at the Paneuropean University "APEIRON" in Banja Luka since 2009. He served as Dean of the Faculty of Legal Sciences from 2014 to 2015 and has held the position of Dean since January 24, 2024, to the present day. He has been a member and examiner in the Commission for the Bar Examination in Republika Srpska since 2005, as well as a member of the Commission for the Professional Examination for Work in Administration in Republika Srpska. He is a member of the Council of the journal "Review of Criminology and Criminal Law" in Belgrade and a member of the Editorial Board and Publishing Council of the scientific-professional journal "Yearbook of the Faculty of Legal Sciences" of the Paneuropean University "APEIRON" in Banja Luka. He is also a member of the Publishing Council and Scientific Committee of the journal "Pravna riječ" (Legal Word), a publication of the Association of Lawyers of Republika Srpska. Prof. Dr. Mitrović is on the Editorial Board of the Proceedings of the Institute for Criminological and Sociological Research in Belgrade. He is the Chairman of the Scientific Committee of the Research Center in Banja Luka and the Editor-in-Chief of the Center for Lobbying's collection of papers in Banja Luka. He is also a member of the Presidency of the Association of Lawyers of Republika Srpska and the Presidency of the Serbian Association for Criminal Law Theory and Practice in Belgrade. He participated in commissions for drafting about ten laws and has published over 250 scientific and professional papers, as well as 30 books—either independently or in co-authorship. He has presented his work at more than 150 national and international scientific gatherings and conferences and has participated in over 300 conferences and meetings in total. From the end of 2015 until September 2022, he served as the Ombudsman for Human Rights of Bosnia and Herzegovina.

Prof. Dr. Zorica Drljača, Full Professor, Vice-Dean of the Faculty of Legal Sciences at the Pan-European University „APEIRON" since 2024

Vice-Dean for Education

Prof. Dr. Zorica Drljača is a full professor specializing in Financial Law and Business Finance. She was born on June 13, 1961, in Jasenica, Municipality of Bosanska Krupa, where she completed primary and secondary school (gymnasium). She graduated from the Faculty of Law at the University of Banja Luka, earning the title of Bachelor of Laws. At the Faculty of Law at the University of Banja Luka, she completed a specialist study in Public Finance and Financial Law. At the Faculty of Legal Sciences at the Paneuropean University "APEIRON" in Banja Luka, she completed her Master's studies, and at the same university, in the General Legal Studies group, she completed her doctoral studies and defended her doctoral dissertation titled "Tax Systems in Bosnia and Herzegovina." She was appointed assistant professor in the narrow scientific areas of Financial Law and Business Finance at the Paneuropean University "APEIRON" in 2011. In 2016, she was promoted to associate professor in the same areas, and in 2022, she attained the title of full professor at the same university. Prof. Dr. Drljača is a lecturer at the Paneuropean University "APEIRON" at the Faculty of Business Economics and the Faculty of Legal Sciences, teaching multiple subjects in the financial-legal group. She has also been an invited lecturer at the Faculty of Law, University of Banja Luka, and engaged under academic personnel contracts at Alfa BK University in Belgrade, the Higher Business School "Academy of Business Economics" in Belgrade and Čačak, the Faculty of Legal Sciences at the University for Business Studies in Banja Luka, and the Fac-

ulty of Public Administration in Sarajevo. She is the author of numerous scientific papers in the fields of taxation and banking law, published in national and international journals, as well as five books used as university textbooks, and has contributed to the Encyclopedia of Republika Srpska. Prof. Dr. Drljača has worked in administrative bodies at all levels of government in Bosnia and Herzegovina, holding various positions, including in the municipal administration of Bosanska Krupa, the Ministry of Internal Affairs of Republika Srpska, the Civil Service Agency of Republika Srpska, the Indirect Taxation Authority of Bosnia and Herzegovina, and the Agency for Development of Higher Education and Quality Assurance of Bosnia and Herzegovina. Additionally, she has practiced law with a law office based in Banja Luka. Since October 2022, she has been employed as a full professor at the Paneuropean University "APEIRON." She has been a member of working groups for drafting several laws in Republika Srpska and Bosnia and Herzegovina, a member of legal teams for international projects in the field of public administration reform in Republika Srpska and Bosnia and Herzegovina, and a member of teams for international projects focused on indirect tax and customs reform, as well as higher education. She has received professional training in human resource management at the College of Public Administration in the United Kingdom and various state institutions in Northern Ireland. She has also completed training in customs and taxation with the Customs Service of Italy, the Customs Service of Albania, the Security Center in Hungary, the Federal Ministry of Education in Austria, and the Agency for Education and Internationalization of Austria. Prof. Dr. Drljača is a member of the Department of Education within the Academy of Sciences and Arts of Republika Srpska, a member of the Commission for Professional Examinations for Work in Administrative Bodies in Republika Srpska, the Association of Lawyers of Republika Srpska, and the expert commission for selecting candidates for civil servants in institutions of Bosnia and Herzegovina and Republika Srpska.

FORMATION AND DEVELOPMENT

The current Faculty of Legal Sciences was established in 2005 in Laktaši under the same name, based on the Decision on Fulfillment of Conditions for Commencement of Operations, number 6-01—3535/0518, dated October 18, 2005. Two years later (August 1, 2007), the Ministry of Education and Culture issued the Decision on Fulfillment of Conditions for the Commencement of Operations and Activities of the Paneuropean University "APEIRON" and approval for the implementation of study programs (General Law and Business Law), number 07.2-4777/07, which constituted the Faculty of Legal Sciences as an organizational unit within the Paneuropean University "APEIRON." The Faculty's activities were expanded on December 30, 2011, with the introduction of the second cycle of the General Law study program (Decision on Fulfillment of Conditions for Implementation of the Second Cycle of the General Law Study Program – 60 ECTS and 120 ECTS, number 07.023/612-193-6/11).

Today, the Faculty is a competent institution for legal sciences, based on the plans and programs of modern law studies.

In compliance with regulations, the Faculty of Legal Sciences, as part of the Paneuropean University "APEIRON," has undergone various stages of accreditation. The first institutional accreditation decision for the Paneuropean University "APEIRON" was issued on March 23, 2016, under number 01/1.3.74/16. Subsequently, on September 2, 2016, the University was registered in the National Register of Accredited Higher Education Institutions maintained by the Agency for the Development of Higher Education and Quality Assurance of Bosnia and Herzegovina. A supplemental institutional accreditation decision was issued on March 4, 2021, and the most recent accreditation decision for the higher education institution was issued by the Agency for Higher Education of Republika Srpska on November 24, 2023, under number 01/1.3.180-33/20.

Throughout its operation, the Faculty of Legal Sciences has offered two different study programs that have evolved to meet the needs of the labor market and academic standards: the General Law study program and Business Law.

According to official records, the Faculty of Legal Sciences has enrolled a significant number of students at all cycles of study. From its establishment in 2005 to the academic year 2023/2024, 4,881 students were enrolled in undergraduate studies, 169 in postgraduate studies, and 65 in doctoral studies. Of these, 2,422 students completed the first cycle, 59 completed the second cycle, and 55 students earned

Master's degrees according to the University Act. A total of 2,536 students graduated at all levels of study. From its establishment to the academic year 2023/2024, the total number of enrolled students at the Faculty of Legal Sciences was 5,156, of which 326 students were active in the 2023/2024 academic year. According to the University Act (old legislation), 35 doctoral candidates successfully defended their doctoral dissertations.

Dean position of the Faculty of Legal Sciences has been held by: Prof. Dr. Duško Medić (2006–2014); Prof. Dr. Ljubinko Mitrović (2014–2015); Prof. Dr. Vladimir Čolović (2015–2020); Prof. Dr. Vladimir Đurić (2020–2024); Prof. Dr. Ljubinko Mitrović (2024–).

Miljana Vuković, in the position of Secretary of the Faculty of Legal Sciences since 2018

Vice-Dean position of the Faculty of Legal Sciences has been held by: Prof. Dr. Mile Matijević (2007–2010); Doc. Dr. Duško Medić (2014–2015); Prof. Dr. Zorica Drljača (2024–).

Secretary position of the Faculty of Legal Sciences has been held by: Dragana Samardžija (2009–2016); Ivona Vujmilović (2016–2019); Miljana Vuković (2018–).

In the Faculty's first year of operation as an organizational unit, the total number of academic staff employed was 32, including responsible lecturers (employees and visiting professors with doctoral degrees), while the total number of employed and visiting assistants and associates was 4.

In the academic year 2023/2024, the total number of employed and visiting lecturers was 26, while the total number of employed and visiting assistants and associates was 7.

Over the years, the Faculty of Legal Sciences has engaged distinguished professors and researchers, such as: Academician Prof. Dr. Rajko Kuzmanović, Prof. Dr. Duško Medić, Prof. Dr. Vladimir Čolović, Prof. Dr. Ilija Babić, Prof. Dr. Milorad Živanović, among others.

Educational Activity

The mission of the Faculty of Legal Sciences is to educate professionals in the fields of general and business law, who will, through their knowledge and skills, advance practice, education, and scientific research work in these areas.

Since its establishment, the Faculty has engaged the most highly qualified lecturers from Bosnia and Herzegovina and the Republic of Serbia, who have earned national and regional recognition through their scientific and professional work. Each year, during admissions, the Faculty selects the best candidates to enroll in study programs based on the highest scientific research and professional standards, preparing them for the challenges of the labor market and changes in the legal system. As part of its study programs, the Faculty conducts seminars, organizes conferences and consultations, simulates trials and public debates.

In collaboration with the local community, the Faculty of Legal Sciences organizes practical training for students in institutions such as the Tax Administration of Republika Srpska, the Indirect Taxation Authority of Bosnia and Herzegovina, the RUGIP of Republika Srpska, numerous law offices in Banja Luka, and the District Court in Banja Luka. This is all aimed at achieving a shared interest in building and refining acquired knowledge and skills.

Great importance is given to encouraging student mobility and providing support to talents, primarily through directing them toward higher academic degrees to recruit future educators.

The Faculty is specialized in core scientific areas such as theoretical law, general law, historical law, constitutional and political law, civil law, economic law, financial law (public and business finance), family law, labor law, administrative law, judiciary and criminal law, forensic and criminological sciences, international law (public and private), European law (communitarian law), American law (precedential law), business law (domestic and international).

Teaching activities at the Faculty of Legal Sciences. Responsible lecturer: Prof. Dr. Veljko Ikanović, October 2024

Additionally, it includes secondary scientific areas that are also studied at the Faculty and form the basis of its interdisciplinary approach: rhetoric, communication studies, interpersonal relationships and communication skills, administration, documentation, legal informatics, decision theory, risk management and crisis management, project management, conflict management, e-business, and management of business changes.

Starting from the academic year 2024/2025, under the new curriculum, the Faculty of Legal Sciences will enroll students in first-cycle studies lasting four years (8 semesters) in the following study program:

- General Law Study Program – 240 ECTS.

Graduates of this study program will obtain the title:

- Bachelor of Laws – 240 ECTS credits.

Before the reform of the curriculum in the academic year 2024/2025, the Faculty of Legal Sciences enrolled students in first-cycle studies lasting three years (6 semesters) or four years (8 semesters), offering 180 ECTS or 240 ECTS credits, respectively, in the following study programs:[6]

- General Law Study Program – 180/240 ECTS
- Business Law – 240 ECTS.

Depending on the duration of the first-cycle studies (6 or 8 semesters), graduates of the Faculty of Legal Sciences have (or had) the right to obtain the following titles:

- Bachelor of Laws – 180/240 ECTS credits (General Law Study Program)
- Bachelor of Laws in Business Law – 180/240 ECTS credits (for the Business Law study program).

The Faculty offers an extensive elective program, allowing students to independently choose subjects and modules from the following areas: Judicial/Criminal Law Module, Economic/Civil Law Module, General International Law Module, Special Administrative Law, Control and Audit of Public Administration, EU Administrative Law, Civil Service Law, Constitutional Procedural Law, Debt Security Law, Diplomatic and Consular Law, International Criminal Law, Mediation and Juvenile Criminal Law.

Within the elective program, students also have access to foreign language studies. Students can choose between two or four subjects per year, depending on the curriculum of the given study program. Upon completing their studies, students acquire both general and specific competencies.

In the second cycle of studies – Master's program, the Faculty of Legal Sciences has, since 2011, enrolled students in programs lasting one year (2 semesters) or two years (4 semesters) in the following study program:

- General Law – 60/120 ECTS.

Upon completing the Master's studies and successfully defending their Master's thesis, students of the Faculty of Legal Sciences obtain the title:

- Master of Laws – 300 ECTS.

The General Law study program (60/120 ECTS) is core to the scientific fields of law and social sciences. The second-cycle study program is of an individual nature and is conducted through a system of personal mentorship, instructional and consultative teaching, exercises, and the organization of scientific research projects for students.

[6] Study programs of the first and second cycles at the Faculty of Legal Sciences, by study levels and the titles of final qualifications, are provided based on the data from the higher education institution for all licensed and accredited study programs.

Scientific Activities[7]

The Faculty of Legal Sciences at the Pan-European University "APEIRON" is accredited for conducting scientific research activities. These activities are carried out independently as well as within the Research Institute of the Pan-European University "APEIRON." Scientific research is continuously conducted, primarily through the improvement and modification of program documents. The Faculty is dedicated to fostering and developing scientific research and academic successors. Scientific research is carried out both in teams and individually, through participation in domestic and international projects. For these purposes, the Faculty is equipped with adequate laboratory space, a well-stocked library, and modern computer and information technology for collecting, processing, and presenting results. Under the guidance of lecturers, assistants, and associates, first-cycle students are included in scientific research work. For students in the second and third cycles, such work is mandatory and an integral part of their final thesis. The results of their research are presented at international student conferences and gatherings, such as "Students in Encounter with Science." The Faculty occasionally organizes scientific conferences with international participation. Additionally, the Faculty publishes an annual journal, the Yearbook of the Faculty of Legal Sciences, which addresses topics in legal science and practice. This publication contributes to the exchange of scientific knowledge and promotes legal practice and science within the country and the region. To enhance and modernize the education system, as well as to strengthen knowledge, skills, and employment opportunities for European citizens, the Faculty actively participates in the Erasmus+ program, particularly in the area of international student and faculty exchange. The Faculty of Legal Sciences has signed cooperation agreements with numerous institutions, including: the Faculty of Law in Osijek, the Faculty of Law in Niš, the Institute of Comparative Law in Belgrade, the Institute for Criminological and Sociological Research in Belgrade, the District Court in Banja Luka, the Faculty of Legal Sciences at the University of Donja Gorica in Podgorica, among others.

[7] More information about scientific research and international programs/activities of the Faculty of Legal Sciences can be found in chapters 1, 3, 4, and 5 of this publication.

MANAGEMENT

Dean

Prof. Dr. Siniša Tomić, Associate Professor, Dean of the Faculty of Information Technologies at the Pan-European University "APEIRON" since 2024

Prof. Dr. Siniša Tomić, Associate Professor, was born in 1972 in Doboj. He is permanently employed at the Faculty of Information Technologies at the Paneuropean University "APEIRON," where, on September 28, 2017, he was appointed as an Assistant Professor in the narrow scientific field of "Information Sciences and Bioinformatics."

From November 1, 2023, to September 30, 2024, he served as Vice-Dean of the Faculty of Information Technologies. By the decision of the Rector of the Paneuropean University, he was appointed as Dean of the Faculty of Information Technologies on October 1, 2024, for a four-year term.

He completed high school in 1991 in Doboj, specializing in the Mathematical-Physical-Computer Science program. He graduated from the Faculty of Information Technologies at the Paneuropean University "APEIRON" in 2010. At the same faculty in 2013, he defended his Master's thesis and earned the title of Master in Computer Science and Informatics. He defended his doctoral dissertation at the University of Vitez in 2017, earning the academic title of Doctor of Informatics.

Prof. Dr. Tomić works in the fields of computer design, audio production, video production, and computer animation for numerous reputable companies in the region, as well as in Europe, America, and Australia.

Vice-Dean for Education

Doc. Dr. Dalibor Drljača, Assistant Professor, Vice-Dean of the Faculty of Information Technologies at the Pan-European University "APEIRON" since 2024

Doc. Dr. Dalibor P. Drljača was born on June 18, 1971, in Bihać. He completed his primary and secondary education in Bosanska Krupa. He graduated from the Faculty of Information Technologies at the Paneuropean University "APEIRON" in 2010. He completed his Master's studies in 2013 and his doctoral studies in 2021, also at the Paneuropean University "APEIRON" in Banja Luka, after which he was appointed as an Assistant Professor.

Throughout his career, Dr. Drljača has worked in various roles in both the public and private sectors. Since 1996, he has been actively involved in the preparation and implementation of educational and scientific projects funded by domestic and international donors such as the World Bank, JICA, SIDA, NORAD, and the EU. He has gained particular experience working with the European Commission, which engaged him for several years as an expert in project management and the promotion of Framework Programs for funding science, innovation, and research in Southeast Asia (Thailand, the Philippines, Indonesia, Vietnam, Malaysia, and Singapore), Japan, and Africa (Rwanda, Tunisia, Kenya, and Ethiopia).

He has published numerous scientific and professional papers, authored five books, and as of 2024, he has been appointed the Editor-in-Chief of the Journal of Information Technology and Applications (JITA). Dr. Drljača currently serves as the Vice-Dean of the Faculty of Information Technologies at the Paneuropean University "APEIRON" in Banja Luka.

FORMATION AND DEVELOPMENT

The Faculty of Information Technologies, as an organizational unit of the Pan-European University "APEIRON" in Banja Luka, has been operating for nearly two decades. It was established in 2005 under the name Faculty of Business Informatics Laktaši. In 2010, the Faculty changed its name to the Faculty of Information Technologies, which it still operates under today.

Over time, the Faculty of Information Technologies has fulfilled its mission through continuous development of study programs tailored to the demands of the rapid evolution of computer and information sciences and technologies.

This is evidenced by the chronology of the following decisions obtained from the Ministry of Science and Culture of Republika Srpska:

- Decision on meeting conditions for commencement of operations, No. 6-01-3535/05 dated October 18, 2005, under which five faculties were established, including the Faculty of Business Informatics.
- Decision on meeting conditions for commencement of operations and activities of PEU "APEIRON", including the Faculty of Business Informatics, No. 07.2-4777/07 dated August 1, 2007.
- Decision on meeting conditions for conduct-

ing the second cycle of the study program Information Technology Engineering – Business Informatics – 60 ECTS and 120 ECTS, No. 07.023/612-193-5/11 dated December 15, 2011, starting from the 2011/12 academic year.
- Decision on meeting conditions for conducting the first cycle of the updated study program Teaching Informatics – 180 ECTS, No. 07.023/612-3/2013-2 dated July 19, 2013, starting from the 2013/14 academic year.
- Decision on meeting conditions for conducting the study program Information Systems in Communications and Logistics – 180 ECTS for the third cycle of studies, No. 07.05/612-191-5-4/14 dated September 28, 2015.
- Decision on meeting conditions for conducting the first cycle of the study program Computer Multimedia and Graphics – 180 ECTS, No. 07.050/612-197-2/15 dated September 1, 2016, starting from the 2016/17 academic year.
- Decision on meeting conditions for conducting the first cycle of the study program Information Technology Engineering, No. 07.050/612-7-2/18 dated July 20, 2018, in three-year and four-year durations with specializations in Programming and Computer Security and Information Protection, starting from the 2018/19 academic year.

In addition to improving the quality of education through the modernization of curricula and programs, this Faculty has made a significant contribution to the development and enhancement of electronic services and digital skills, aiming to better align with the needs of the domestic labor market.

Thanks to the Faculty's commitment to continuously innovate knowledge in line with contemporary trends in informatics and technology, new professionals have been educated in various multidisciplinary fields.

Over the years, the Faculty of Information Technologies has offered the following study programs: Business Informatics, Teaching Informatics, Computer Multimedia and Graphics, Information Technology Engineering, and Information Systems in Communications and Logistics.

During its two decades of operation, the Faculty has enrolled a significant number of students across all levels of study. From the 2005/2006 academic year to the 2023/2024 academic year, 4,274 students were enrolled in undergraduate studies, 107 in postgraduate, and 27 in doctoral studies. Of this number, 1,620 students completed the first cycle, 56 the second cycle, and 13 the third cycle. In total, 1,689 students graduated across all levels.

Under the Law on Universities (old law), 10 students completed their master's degree in postgraduate studies, while 12 doctoral candidates successfully defended their dissertations.

Stana Mišić, in the position of Secretary of the Faculty of Information Technologies since 2019

The position of Dean of the Faculty of Information Technologies has been held by Prof. Dr. Branko Latinović (2005–2024) and Prof. Dr. Siniša Tomić (2024–present). Vice-Deans of the Faculty of Business Economics included Prof. Dr. Gordana Radić (2008–2009), Prof. Dr. Željko Stanković (2017–2023), Prof. Dr. Siniša Tomić (2023–2024), and Doc. Dr. Dalibor Drljača (2024–present). The role of Secretary of the Faculty of Information Technologies has been held by Lana Vukčević (2008–2019) and Stana Mišić (2019–present).

In the Faculty's first year of operation, the total number of engaged academic staff was 24, including responsible lecturers (employed and visiting professors with doctorates), while the total number of employed and visiting assistants and associates was five.

In the 2023/2024 academic year, the total number of employed and visiting lecturers was 39, while the total number of employed and visiting assistants and associates was 12.

The Faculty of Information Technologies has hosted esteemed professors and researchers, such as Academician Prof. Dr. Zoran Avramović, Academician

Prof. Dr. Dušan Starčević, Prof. Dr. Lazo Roljić, and Prof. Dr. Željko Stanković.

Educational Activity

The Faculty of Information Technologies specializes in core academic fields of computer sciences (foundations of programming, algorithm theory, architecture and organization of computer systems, operating systems, network computing, programming languages, software engineering – modeling, analysis, and design of software, software management, human-computer interaction, graphics and visualization, artificial intelligence, information management – database theory and practice, relational and distributed databases, legal, ethical, and professional aspects of computing), fields of information technologies (information security and protection, platform technologies, IT system administration and maintenance, technical support), fields of information systems (system analysis and logical IS design, information systems design, implementation of information systems, maintenance of information systems, development of specific IS types, distributed systems), fields of computer engineering (computer systems engineering, networking and telecommunications), as well as secondary academic fields that are also studied at the Faculty and serve as a foundation for an interdisciplinary approach: (mathematical analysis, discrete mathematical structures, algorithm theory, probability and statistics, numerical methods and operations research, general systems theory, organization theory, decision theory, information theory, project management, pedagogical informatics, cryptography, e-business, change management, interpersonal relations, and communication skills).

Within the elective program, students are also offered the study of foreign languages. Depending on the curriculum of the study program, students select two to four courses per academic year.

The Faculty of Information Technologies enrolls students in first-cycle studies lasting three years (6 semesters) or four years (8 semesters), corresponding to 180 ECTS or 240 ECTS credits, respectively, across the following study programs:[8]

[8] Study programs of the first, second and third cycles at the Faculty of Information Technologies by study levels and names of obtained qualifications are given according to the data of the higher education institution for all licensed and accredited study programs.

Teaching activities at the Faculty of Information Technologies. Responsible lecturer: Doc. Dr. Dalibor Drljača, October 2024

- Business Informatics – 180/240 ECTS
- Teaching Informatics – 180/240 ECTS
- Computer Multimedia and Graphics – 180 ECTS
- Information Technology Engineering – 180/240 ECTS with specializations in:
  - Programming and Software Engineering – 180/240 ECTS
  - Computer Security and Information Protection – 180/240 ECTS

Academic titles (degrees) awarded upon completion of studies for each level and study program, in accordance with current regulations, are:

- Bachelor of Informatics – 180 ECTS
- Bachelor of Computer and Information Engineering – 180 ECTS
- Bachelor of Computer and Information Engineering – 240 ECTS
- Bachelor of Technical Education and Informatics – 180 ECTS
- Bachelor of Computer Science and Informatics – 240 ECTS
- Bachelor of Informatics – 180 ECTS – Computer Multimedia and Graphics
- Bachelor of Computer and Information Engineering – 240 ECTS – Software Engineering
- Bachelor of Computer and Information Engineering – 240 ECTS – Computer Security and Information Protection

At the second cycle of studies – master's studies, since 2012, the Faculty of Information Technologies has been enrolling students in study programs lasting one year (2 semesters) or two years (4 semesters), specifically:

Teaching activities at the Faculty of Information Technologies, October 2024

- Business Informatics – Information Technology Engineering – 60/120 ECTS.

Upon completion of the master's studies and successful public defense of the master's thesis, students of the Faculty of Information Technologies earn the degree:

- Master of Computer Science and Informatics – 300 ECTS.

At the third cycle of studies – doctoral studies, lasting three years (6 semesters), since 2016, the Faculty of Information Technologies has been enrolling students in the study program:

- Information Systems in Communications and Logistics – 180 ECTS.

Upon completion of doctoral studies and successful public defense of the doctoral dissertation, students of the Faculty of Information Technologies earn the academic title:

Doctor of Science in Computer Science and Informatics – 480 ECTS in the field of Information Systems in Communications and Logistics.

Scientific Activities[9]

The Faculty of Information Technologies of the Pan-European University "APEIRON" is active in scientific and research work, focusing on publishing research results in high-impact publications by renowned publishers.

As a result of its commitment to science, since 2009, the Faculty of Information Technologies has been organizing an annual international scientific-professional conference, ITe-O (Information Technologies for E-Education). This conference features presentations from faculty members, associates, doctoral candidates, alumni, and current students of the Faculty of Information Technologies at Pan-European University "APEIRON". Its goal is to showcase the current state and perspectives of the development and application of information technologies and make the results accessible to the interested public, both locally and globally.

A journal titled Journal of Informational Technology and Applications (JITA) has been categorized as an international journal of exceptional importance and accepted by the ERIH+ database of scientific journals.

During the 2017–2018 period, the Microsoft Skills Centre project was launched across four faculties in three cities in Bosnia and Herzegovina. This initiative provided completely free opportunities to acquire new and improve existing IT knowledge, as well as to take exams for official Microsoft certifications.

In 2014, a successful conference was organized by Microsoft BiH under the title Microsoft TechDay Banja Luka.

Under the auspices of the Ministry of Civil Affairs of Bosnia and Herzegovina and the Pan-European University "APEIRON", the "Information and Communication Technologies: Development of Surveillance – ICT:DS" Conference was held in Banja Luka on September 17, 2010. It presented the latest achievements in information and communication technology from both a scientific and an application perspective (practical applicability).

At innovation competitions, the Faculty of Information Technologies has received the following awards and recognitions:

- SARAJEVO INNOVATIONS FESTIVAL – competition in Sarajevo, 2023:
  - Special award Dr. Branislava Peruničić for the project *"RC platform controlled by a PlayStation 4 controller"*; students: Daniel Menićanin, Jelena Radanović, Nikola Račić, and Zoran Glamočak.
- INN&TECH competition, Innovation and Creativity Fair, 2024, Sarajevo:
  - Trophy and four gold medals for the project: *"RC platform controlled by a PlaySta-*

[9] More information about scientific research and international programs/activities of the Faculty of Information Technologies can be found in chapters 1, 3, 4, and 5 of this publication.

tion 4 controller".
  - Participating students: Daniel Menićanin, Jelena Radanović, Nikola Račić, and Zoran Glamočak.
- INOST Mladih 2024, Banja Luka:
  - Recognition and three diplomas:
    - ◊ Recognition with a gold plaque – Best student project "*Development of a software environment for hydraulic presses*" (Daniel Menićanin, Jelena Radanović).
    - ◊ Diploma with a gold plaque for the project *"Innovation Center"* (Jelena Radanović, Daniel Menićanin, Nikola Račić).
    - ◊ Diploma with a gold plaque for the project *"RC platform controlled by a PlayStation 4 controller"* (Daniel Menićanin, Jelena Radanović, Nikola Račić, and Zoran Glamočak).
    - ◊ Diploma with a gold plaque for the work *"AirNomad LoRa WAN"* (Daniel Menićanin, Jelena Radanović, and Zoran Glamočak).
- INOST MLADIH 2013:
  - Gold plaque for the project *"Smart House"*, students: Mirza Ramičić, Zoran Ilić, Dušan Stojaković, Dario Mišić, and Nedžad Kosović, mentor: Doc. Dr. Željko Stanković.
  - Silver plaque for the project *"Dancing Robot Pair"*, students: Zoran Ilić, Dejan Đajić, and Nenad Božić, mentor: Doc. Dr. Željko Stanković.
  - Special diploma awarded to the Pan-European University "APEIRON".
- INOST MLADIH 2012:
  - Gold plaque for the project *"Self-adjusting solar charger with GSM notification of charging parameters, voltage, and temperature"*, students: Mirza Ramičić, Zoran Ilić, Amer Mundžić, and Dejan Đajić, mentor: Doc. Dr. Željko Stanković.
  - Silver plaque for the project *"Information system for tracking UrbanBus arrivals at defined stops"*, students: Rajko Gojković, Zoran Ilić, Nedžad Kosović, Srđan Kasapović, Adis Huskić, and Haris Kebić, mentor: Doc. Dr. Željko Stanković.
- INOST MLADIH 2011:
  - Gold plaque for the project *"Robotic Solar Platform – Solario"*, students: Mirza Ramičić and Rajko Gojković, mentor: Doc. Dr. Željko Stanković.
  - Best project award for *"Differential Robotic Platform – Scarab"*, students: Nenad Knežević, Igor Maksimovski, Miroslav Radujković, and Milovan Popović, mentor: Doc. Dr. Željko Stanković.

MANAGEMENT

Dean

Prof. Dr. Ljiljana Stojanović Bjelić, Associate Professor, Dean of the Faculty of Health Sciences at the Pan-European University "APEIRON" since 2017

Prof. dr Ljiljana Stojanović Bjelić, Associate Professor, was born on August 20, 1974, in Banja Luka, where she completed her primary and secondary education, as well as the Faculty of Technology at the University of Banja Luka. She defended her master's thesis titled "Protection of Vrbas River Basin Water" in 2008 at the Faculty of Technical Sciences, University of Novi Sad, as well as her doctoral dissertation in 2014, titled "Model of Cross-Border Impact of Vrbas River Basin on the Sava River".

Combining theoretical knowledge with practical experience, she has published over 60 scientific and professional papers, participated in international conferences, and contributed to the development of numerous projects and studies. She is the author and co-author of several books. She was promoted to the rank of Assistant Professor in 2014 in the narrow scientific field of "Other Engineering and Technologies," and in 2019, she was elected as an Associate Professor. She is the author of three books, Editor-in-Chief of the journal Quality of Life, and a member of the Association of Technologists of Republika Srpska. She is married and a mother of one son. She lives and works in Banja Luka.

Vice-Dean for Education

Prof. Dr. Branislav Mihajlović, Full Professor, Vice-Dean for Education of the Faculty of Health Sciences at the Pan-European University "APEIRON" since 2015

Prof. Dr. Branislav Mihajlović, Full Professor, was born on March 17, 1970, in Banja Luka. He graduated from the Medical Faculty in Banja Luka. He defended his master's thesis titled "Risk Factors for Coronary Disease" at the University of Banja Luka. His doctoral dissertation, titled "The Impact of Diet on Serum Cholesterol Levels", was defended in 2011. He was promoted to the rank of Assistant Professor in 2011 in the narrow scientific field of "Public Health and Environmental Health," was elected Associate Professor in 2016, and Full Professor in 2022.

He is the author of four books: *Health Laws, Health Begins Today, Health Effects of Nutrition, and Nutrition and Health*. Previously, he was employed as a professor at a Medical School, teaching Pharmacology, Surgery, and Pediatrics. He is also a professional associate and lecturer for pharmaceutical companies such as Remedica and Abbott. He lives and works in Banja Luka.

Vice-Dean for Quality

Prof. Dr. Gordan Bajić, Associate Professor, Vice-Dean for Quality of the Faculty of Health Sciences at the Pan-European University "APEIRON" since 2016

Prof. Dr. Gordan Bajić, Associate Professor, was born on January 20, 1980, in Doboj. He completed primary school in Stanari and Secondary Medical School in Banja Luka. He graduated from the Higher Physiotherapy School at the University of Montenegro in Igalo in 2002, earning the title of Senior Physiotherapist. In 2006, he completed his studies at the Faculty of Applied Physiotherapy at the University of Montenegro in Igalo, earning a Bachelor of Applied Physiotherapy degree.

He obtained the title of Specialist Physiotherapist at the Faculty of Health Sciences at Pan-European University "APEIRON" in Banja Luka in 2008. He earned a Master's degree in Health Care, specializing in Physiotherapy and Occupational Therapy, in 2011 at the Faculty of Health Sciences (PUA), with a master's thesis titled "Proprioceptive Training in Kinesiotherapy for Knee Joint Arthrosis".

His doctoral dissertation, titled "Assessment of the Success of Rehabilitation Treatment in Hemiplegic Patients after Stroke through Specific Tests of Motor and Cognitive Functional Abilities", was defended in 2015. He was promoted to the rank of Assistant Professor in 2015 and Associate Professor in 2020.

FORMATION AND DEVELOPMENT

The Faculty of Health Sciences of the Pan-European University "APEIRON" in Banja Luka was established to meet the need for high-quality education in the field of healthcare. It has influenced the development of health professions in Republika Srpska and Bosnia and Herzegovina, providing students with the knowledge and skills necessary for successful careers in health sciences.

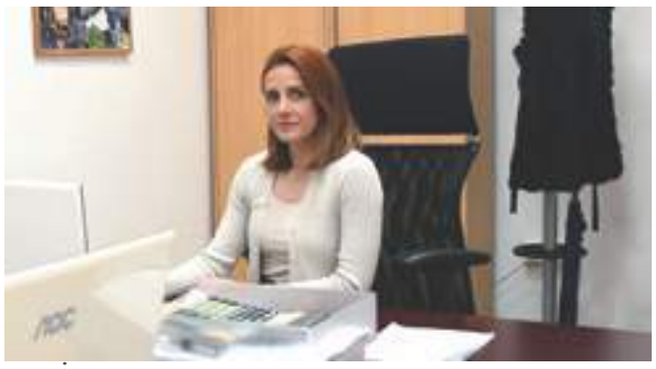
The Faculty of Health Sciences was founded on December 28, 2007, when the first first-cycle (undergraduate) study programs were licensed and accredited, including Nursing, Sanitary Engineering, Physiotherapy and Occupational Therapy, Laboratory-Medical Engineering, and Health Management. These programs were structured within the 180/240 ECTS credit system. The foundational decisions from the competent Ministry of Education and Culture included the authorization to begin operations, issued on December 28, 2007, under No. 07.2-964/07.

Throughout its development, the College introduced new study programs and cycles of studies. In 2014 and 2015, second-cycle (master's) programs were licensed and accredited for Nursing (60/120 ECTS), Sanitary Engineering (60/120 ECTS), and Health Management (60/120 ECTS).

Focusing on the continuous improvement of its services and processes, the Faculty of Health Sciences regularly submits requests for the (re)accreditation of study programs to the competent Agency for Higher Education of Republika Srpska, in compliance with current regulations. As part of Pan-European University "APEIRON", the College has gone through various stages of accreditation. The first institutional accreditation of Pan-European University "APEIRON" was issued on March 23, 2016, under No. 01/1.3.74/16. Subsequently, on September 2, 2016, the University was entered into the State Register of Accredited Higher Education Institutions, maintained by the Agency for Development of Higher Education and Quality Assurance of Bosnia and Herzegovina. A supplementary institutional accreditation decision was issued on March 4, 2021, and the latest accreditation decision for the institution was issued by the Agency for Higher Education of Republika Srpska on November 24, 2023, under No. 01/1.3.180-33/20.

According to official records, the Faculty of Health Sciences has enrolled a significant number of students in the first and second cycles of studies. From its founding until the academic year 2023/2024, 5,809 students were enrolled in first-cycle studies and 94 students in second-cycle (master's) studies. Of these, 3,433 students completed the first cycle, and 43 students completed the second cycle, totaling 3,476 graduates across the two cycles of study.

From its establishment until the 2023/2024 academic year, the total number of enrolled students at the Faculty of Health Sciences reached 5944,



Suzana Teodorović, in the position of Secretary of the Faculty of Health Sciences since 2019

Sanja Josipović, in the position of Secretary of the Faculty of Health Sciences since 2016

of which 742 students were active in the 2023/2024 academic year. Under the Law on Universities (old law), 20 students completed their master's degrees, while 13 doctoral candidates successfully defended their dissertations.

Today, the Faculty of Health Sciences continues to evolve, adapting to the modern needs of healthcare and education, remaining significant for the improvement of the healthcare system in Bosnia

and Herzegovina. With its broad spectrum of study programs and accreditations, the College has become a cornerstone of education in health sciences.

Deans of the Faculty of Health Sciences include Prof. Dr. Risto Kozomara (2007–2013), Prof. Dr. Branislav Mihajlović (2013–2015), Prof. Dr. Milorad Balaban (2015–2017), and Prof. Dr. Ljiljana Stojanović Bjelić (2017–present).

Vice-Deans of the Faculty of Health Sciences include Doc. Dr. Bogoljub Antonić (2008–2014), Doc. Dr. Ljiljana Stojanović Bjelić (2015–2017), Prof. Dr. Branislav Mihajlović (2015–present), and Prof. Dr. Gordan Bajić (2016–present).

Secretaries of the Faculty of Health Sciences include Sanja Dojčinović (2007–2016), Milijana Aleksić (2015–2019), Ivona Vujmilović (2016), Sanja Josipović (2016–present), and Suzana Teodorović (2019–present).

In its first year of operation, the organizational unit engaged a total of 55 academic staff, including responsible lecturers (employed and visiting professors with doctoral degrees), while the total number of employed and visiting assistants and associates was 16.

In the 2023/2024 academic year, the total number of employed and visiting lecturers is 50, and the total number of employed and visiting assistants and associates is 22.

The Faculty of Health Sciences has hosted esteemed professors and researchers, such as Prof. Dr. Risto Kozomara, Prof. Dr. Radoslav M. Grujić, Prof. Dr. Stevan Jović, Prof. Dr. Vesna Ivanišević, Prof. Dr. Zoran Semiz, Prof. Dr. Živorad Maličević, Prof. Dr. Slobodan Marinković, Prof. Dr. Ljubomir Šormaz, Prof. Dr. Bogoljub Antonić, and Prof. Dr. Milorad Balaban.

Teaching activities at the Faculty of Health Sciences. Responsible lecturer: Doc. Dr. Darijana Antonić, October 2024

Teaching activities at the Faculty of Health Sciences, October 2024

Educational Activity

The Faculty of Health Sciences specializes in human-biological sciences (anatomy, histology, embryology, physiology, genetics, cytology), microbiological, biochemical, clinical-chemical, and physical functional scientific fields. It also covers general medical sciences, applied medical sciences such as propaedeutics and healthcare in various branches of medicine and clinical-hospital practice, pharmacology and toxicology, dietetics, geriatrics, epidemiology, medical and developmental psychology, sports medicine, social medicine, as well as the history and ethics of medicine.

In the broader scientific field of physiotherapy, the College focuses on physical medicine and physiotherapy in various areas of medicine and clinical-hospital practice, kinesiology, kinesiometry and biomechanics, prosthetics and orthotics, balneology, rehabilitation for different groups of diseases and disabilities, occupational therapy in the community, occupational therapy for psychosocial disorders, and ergonomics.

The College also specializes in the fields of laboratory medicine connected to the aforementioned specific scientific areas.

In the broader field of sanitary engineering, it covers scientific fields such as sanitary chemistry, parasitology, general and social ecology, environmental engineering, workplace and environmental

protection, water technologies for drinking and water management, physical-chemical and microbiological food analysis, food preservation technology, air analysis, control and protection, waste management, sanitary-technical construction principles, and sanitary-ecological legislation and supervision.

The College conducts interdisciplinary studies in fields such as healthcare management and marketing, market operations and applied economics in healthcare institutions, health insurance and funds within the healthcare sector, medical statistics, business and applied informatics, organizational sciences in healthcare, as well as communication, administrative-documentation sciences, and applied pedagogical studies in healthcare.

The Faculty of Health Sciences enrolls students in first-cycle studies lasting three years (6 semesters) or four years (8 semesters), corresponding to 180 or 240 ECTS credits, across the following study programs:[10]

- Nursing – 180/240 ECTS
- Physiotherapy – 180/240 ECTS
- Sanitary Engineering – 180/240 ECTS
- Health Management – 180/240 ECTS
- Laboratory-Medical Engineering – 180/240 ECTS

Depending on the duration of the first-cycle studies (6 or 8 semesters), graduates of the Faculty of Health Sciences are entitled to the following titles:

- Bachelor of Medicine (Nursing) – 180 ECTS
- Bachelor of Medicine (Nursing) – 240 ECTS
- Bachelor of Physiotherapy – 180 ECTS
- Bachelor of Physiotherapy – 240 ECTS
- Bachelor of Sanitary Engineering – 180 ECTS
- Bachelor of Sanitary Engineering – 240 ECTS
- Bachelor of Medical-Laboratory Engineering – 180 ECTS
- Bachelor of Medical-Laboratory Engineering – 240 ECTS
- Bachelor of Health Care Management – 180 ECTS
- Bachelor of Health Care Management – 240 ECTS

Since 2014 and 2015, the Faculty of Health Sciences has been enrolling students in second-cycle (master's) programs lasting one year (2 semesters) or two years (4 semesters) in the following study programs:

- Nursing – 60/120 ECTS
- Sanitary Engineering – 60/120 ECTS
- Health Management – 60/120 ECTS

Upon completion of the master's studies and successful public defense of the master's thesis, students of the Faculty of Health Sciences are entitled to the following academic titles:

- Master of Nursing – 300 ECTS
- Master of Sanitary Engineering – 300 ECTS
- Master of Health Management and Health Care Management – 300 ECTS

[10] Study programs of the first and second cycle at the Faculty of Health Sciences by study levels and names of obtained qualifications are given according to the data of the higher education institution for all licensed and accredited study programs.

Scientific Activities[11]

The Faculty of Health Sciences of the Pan-European University "APEIRON" (FZN) has been actively engaged in scientific and research activities since its establishment, with a particular emphasis on health and biotechnical sciences. A key aspect of this work is scientific research conducted through the Research Institute of the Pan-European University "APEIRON," as well as the editing and publication of the scientific journal Quality of Life and the organization of the annual international scientific conference Sports Science and Health.

The Department of Health Research within the Research Institute of the Pan-European University "APEIRON," the mentioned scientific journal, and the scientific conference play a crucial role in advancing scientific research in the field of health and biotechnical sciences. These efforts contribute to interdisciplinarity and the exchange of knowledge within the scientific, academic, and professional community. (Faculty of Health Sciences, 2024)

MANAGEMENT

Dean

Prof. Dr. Velibor Srdić, Full Professor, Dean of the Faculty of Sports Sciences at the Pan-European University "APEIRON" since 2016

Prof. Dr. Velibor Srdić was born on March 22, 1977, in Zagreb. He completed primary school in Zagreb and high school in Banja Luka with excellent results. He completed his undergraduate and master's studies at the Faculty of Sports Sciences of the "APEIRON" University with a grade average of 10. He defended his master's thesis, "The Training Process as a Factor of Sports Management," in 2009 and his doctoral dissertation, "The Effects of Transformational Processes in Junior Dance," in 2012 at the same faculty. He was promoted to the rank of Assistant Professor in 2012,

Associate Professor in 2017, and Full Professor in 2023 in the scientific field of Sports and Rehabilitation Sciences.

He teaches several subjects in the subfields of Sports Management, Theory of Sports and Training Science, and Rhythmic Gymnastics Dance. Since 2019, he has also been responsible for the subject "Methodology of Scientific Research in Sports."

He has been employed at the University since 2006. Prof. Dr. Srdić is the author and co-author of over 80 scientific and professional papers, 12 of which have been published in journals listed on the SCI and Scopus indices. He has also authored and co-authored five textbooks and monographs. Among these, he is the author of the textbook "Dance," which has been translated into Slovak for teaching purposes at the University in Bratislava and is also used at universities in Serbia. Additionally, he is the co-author of the English-language monograph "IDO History," distributed in over 90 countries worldwide.

He serves as the President of the Organizing Committee of the International Scientific Conference "Sports Science and Health" and the Editor-in-Chief of the conference's journal, which is indexed on the Scopus list. He is a member of the boards of several international journals and conferences and a reviewer for three international journals.

Prof. Dr. Srdić's professional career is tied to sports dance and modern competitive dances. He currently holds the position of President of the International Dance Organization (IDO) and Director of the IDO Judges Committee. He is an authorized lecturer and examiner for judge, chief judge, and delegate licenses within the IDO. He is also a member of the IDO Educational Committee.

Previously, he served as the Vice-President of the International Dance Organization, a position to which he was elected in 2007 as the youngest Vice-President in its history. He is the President of the oldest and largest dance club in Bosnia and Herzegovina, the "Gema" Dance Club in Banja Luka, where he has worked since 1994. He has organized numerous international and domestic sports dance competitions in Banja Luka.

Prof. Dr. Srdić has been repeatedly elected as President of the Modern Dance Federation in Bosnia and Herzegovina (2008–2024). He is also the founder of the Educational Institution "First Ballet School" in Banja Luka, the first ballet school in the education system of Republika Srpska.

Vice-Dean for Education

Prof. Dr. Osmo Bajrić, Full Professor, Vice-Dean of the Faculty of Sports Sciences at the Pan-European University "APEIRON" since 2016

Prof. Dr. Osmo Bajrić holds a doctorate in the field of physical education and sports. He was born on August 14, 1957. He completed primary school in 1972 in Tojšići with excellent results and graduated from high school in 1976 in Sarajevo, also with excellent success. He continued his education at the Military Academy in Belgrade, graduating in 1980 as the top student of his generation. In 1988, he completed studies at the Faculty of Physical Education in Belgrade.

He pursued postgraduate studies at the Faculty of Philosophy, Department of Physical Education, University of Tuzla, where he successfully defended his master's thesis in 2000 titled "The Success of Overcoming a Combined Obstacle Test Depending on the Level of Basic Motor Abilities and Situational Motor Tasks." In 2008, he successfully defended his doctoral dissertation titled "The Effects of Training Transformational Processes on Morphological Characteristics, Motor Abilities, Situational-Motor Abilities, and the Performance of Football Players Aged 14–16" at the Faculty of Sports and Physical Education, University of Sarajevo.

From 1980 to 2008, he worked at the ŠCOiMJ in Banja Luka and the MSTŠ in Travnik. Since 2008, he has been engaged at the Pan-European University "APEIRON" in Banja Luka, where he was appointed Assistant Professor in the narrow field of Sports and Rehabilitation Sciences, subfields of Sports Games/Theory of Sports and Training Science, Biomechanics and Anthropomotorics, and Methodology of Educational Work in Sports.

In 2013, he was promoted to Associate Professor in these same fields, and since 2019, he has been

a Full Professor in Sports and Rehabilitation Sciences, specializing in Sports Games/Theory of Sports and Training Science. In 2020, he became a Full Professor in Biomechanics and Anthropomotorics, and in 2021, he was appointed Full Professor in Methodology of Educational Work in Sports.

Prof. Dr. Bajrić has published nine university textbooks, one monograph, and over 170 scientific and professional papers in international journals and conference proceedings. He has participated in numerous scientific congresses and conferences both domestically and internationally. He is also a participant in the International ERASMUS+ Program.

In addition to his teaching and research roles, he is a member of various scientific and review boards of international journals. He is a member of the expert committee of NK Travnik in Travnik and serves as the Chairman of the Youth Football Commission of the Federation of Bosnia and Herzegovina.

FORMATION AND DEVELOPMENT

The Faculty of Sports Sciences is an educational and scientific organizational unit that was established on October 18, 2005, in accordance with the then-applicable Law on Higher Education (SG RS-85/06) and based on the Decision of the Ministry of Education and Culture of Republika Srpska on meeting the conditions for the commencement of operations, No. 6-01-3535/05 dated October 18, 2005. This decision led to the establishment of five faculties, including the Faculty of Sports Sciences.

In 2007, the Faculty underwent organizational and status alignment with the new Law on Higher Education of Republika Srpska (SG RS-85/06). The Faculty of Sports Sciences was granted the status of an organizational unit within the Pan-European University "APEIRON" based on the Decision on meeting conditions for the commencement of operations and activities of PEU "APEIRON," No. 07.2-4777/07 dated August 1, 2007. It has operated in this capacity to the present day.

As part of its continuous effort to adapt its operations to modern market demands, the Faculty obtained from the Ministry of Education and Culture in 2014 the Decision on meeting the conditions for conducting the second cycle of the study program "Sport in Target Groups" – 60 ECTS, No. 07.050/612-195-2/13, dated October 6, 2014, and the Decision on meeting the conditions for conducting the second cycle of the study program "Sports Management" – 60 and 120 ECTS, No. 07.023/612-193-11-1/11, dated October 6, 2014. Since August 2007, the Faculty has also offered distance education.

Throughout its existence, the Faculty of Sports Sciences has offered three different study programs that have been continuously updated to meet market needs and academic standards. These study programs include Sports Management, Sport in Target Groups, Sports Coach, and the Pedagogical-Teaching Study Program.

According to official records, the Faculty of Sports Sciences has enrolled a significant number of students across all study cycles. From its establishment until the 2023/2024 academic year, 1,273 students were enrolled in undergraduate studies, 43 in postgraduate studies, and 5 in doctoral studies. Of this number, 626 students completed the first cycle, 19 completed the second cycle, and 5 completed the third cycle of studies. A total of 650 students graduated across all levels of study, while 69 students were active in the 2023/2024 academic year.

Nebojša Anđelić, in the position of Secretary of the Faculty of Sports Sciences since 2011

From its establishment until 2023/2024, the total number of enrolled students at the Faculty of Sports Sciences was 1,321, of which 69 students were active in the 2023/2024 academic year. Under the Law on Universities (old law), 5 doctoral candidates successfully defended their dissertations.

The role of Dean of the Faculty of Sports Sciences was held by Prof. Dr. Velimir Vukajlović (2006–

2008), Prof. Dr. Vidosav Lolić (2008–2013), Prof. Dr. Miladin Jovanović (2013–2016), and Prof. Dr. Velibor Srdić (2016–present).

The Vice-Deans of the Faculty were Doc. Dr. Slobodan Goranović (2006–2008), Doc. Dr. Đorđe Nićin (2008–2009), Doc. Dr. Pane Mandić (2009–2014), Doc. Dr. Velibor Srdić (2014–2016), and Prof. Dr. Osmo Bajrić (2016–present).

The position of Secretary of the Faculty of Sports Sciences was held by Velibor Srdić (2007–2011) and Nebojša Anđelić (2011–present).

In its first year of operation, the organizational unit engaged a total of 35 academic staff, including responsible lecturers (employed and visiting professors with doctoral degrees), while the total number of employed and visiting assistants and associates was 5.

In the 2023/2024 academic year, the total number of employed and visiting lecturers is 31, while the total number of employed and visiting assistants and associates is 13.

The Faculty of Sports Sciences has been home to or continues to collaborate with renowned professors, scientists, and sports professionals, including Prof. Dr. Vidosav Lolić, Prof. Dr. Đorđe Nićin, Prof. Dr. Osmo Bajrić, Prof. Dr. Milan Nešić, Prof. Dr. Miladin Jovanović, Prof. Dr. Milovan Bratić, Prof. Dr. Pane Mandić, Prof. Dr. Aleksandar Milić, Prof. Dr. Milanko Mučibabić, Prof. Dr. Jovan Ćulum, Prof. Dr. Kada Delić-Selimović, among many others.

Educational Activity

The Faculty of Sports Sciences specializes in various fields of sports sciences, including the biological-medical foundations of sports, biomechanics and anthropomotorics, statistics, informatics and methodologies in sports, pedagogy and psychology of sports and exercise, sociology, philosophy and ethics of sports, sports economics and management, sports theory and training science, individual sports and sports disciplines, rhythmic gymnastics and dance, fundamental motor activities, sports recreation and outdoor activities, as well as sports for selected target groups. It also focuses on related interdisciplinary areas such as sports medicine, sports tourism and wellness, pharmacology and toxicology, nutrition and dietetics, physical medicine and rehabilitation, sports massage, and balneology.

Teaching activities at the Faculty of Sports Sciences. Responsible lecturer: Prof. Dr. Osmo Bajrić, October 2024

Thanks to the enthusiasm and dedication of the management and teaching staff, the Faculty has successfully engaged high-quality talent, including talented students, at a time when teaching staff were scarce. The academic and scientific potential of the Faculty is not only rooted in its human resources but also in its ongoing innovations in curricula, the intensification of international cooperation, the organization of international conferences, and the publication of internationally recognized journals. These have become guiding principles for the Faculty in the present day.

Over the last 20 years, the Faculty has developed and introduced study programs that provide students with a broad education, professional competencies, creativity, competitive spirit, and leadership skills. Many students and staff members, as athletes or coaches, have demonstrated the quality of the Faculty's study programs through their achievements and medals.

Since 2008, the Faculty has organized the University Sports Games, the "APEIRON Trophy," with students. Notable achievements include participation in international sports games in Novi Sad and Zagreb in 2011–2012, returning with several medals. The Faculty's outdoor practical activities, such as skiing, camping, and outdoor sports activities, have been highly recognized and well-received by the public. Students and staff from the Faculty volunteered at the Winter Youth Olympic Festival held in Sarajevo and East Sarajevo in 2019.

The Faculty of Sports Sciences enrolls students in first-cycle studies lasting three years (6 semesters) or four years (8 semesters), corresponding to

180 or 240 ECTS credits, across the following study programs:[12]

- Sports Management – 180/240 ECTS
- Sports Coaching – 180/240 ECTS
- Pedagogical-Teaching Study Program in Sports – 240 ECTS

Depending on the duration of the first-cycle studies (6 or 8 semesters), graduates of the Faculty of Sports Sciences are entitled to the following titles:

- Bachelor of Sports Management – 180 ECTS
- Bachelor of Sports Management – 240 ECTS
- Bachelor of Physical Education Teaching – 240 ECTS
- Bachelor of Coaching – 180 ECTS
- Bachelor of Coaching – 240 ECTS (with or without specifying the branch of sports specialization)

The Faculty offers a rich elective program, allowing students to independently choose subjects and modules in areas such as fitness and shaping exercises, sports and recreation for individuals with special needs, and sports organization management. The elective program also includes foreign language studies, where students can choose between two or four subjects per year, depending on the curriculum of the study program. Upon graduation, students acquire both general and specific competencies.

Since 2014, the Faculty of Sports Sciences has also been enrolling students in second-cycle (master's) programs lasting one year (2 semesters) or two years (4 semesters) in the following study programs:

- Sports Management – 60/120 ECTS
- Sport in Target Groups – 60 ECTS

Upon completing their master's studies and successfully defending their master's thesis, students are entitled to the following titles:

- Master of Management in the Field of Sports Sciences – 300 ECTS
- Master of Sports – 300 ECTS

[12] Study programs of the first and second cycle at the Faculty of Sports Sciences by study levels and names of exit qualifications are given according to the data of the higher education institution for all licensed and accredited study programs.

Scientific Activities[13]

The Faculty of Sports Sciences builds its foundation on knowledge from fundamental scientific fields such as biology, medicine, philosophy, history, physics, and chemistry, as well as from sociology, psychology, pedagogy, cybernetics, and other sciences. Alongside this reliance on the aforementioned sciences, sport, as primarily a social but also a biological phenomenon, remains interdisciplinary and not fully defined, leaving room for constant development and improvement, particularly through scientific and research work. Recognizing its mission early on, the Faculty of Sports Sciences has been involved in scientific research since its establishment, both independently and as part of the Research Institute of the Pan-European University "APEIRON."

Scientific research is conducted at the Faculty's headquarters, equipped with dedicated space and modern equipment, as well as in collaboration with the Public Health Institute "Miroslav Zotović," which provides specialized staff and equipment for functional diagnostics and rehabilitation. The Faculty has procured necessary equipment for anthropometric testing of morphological, functional, and motor abilities, as well as for diagnosing impaired postural status. The Diagnostic Center is located on the ground floor of the University building.

Since 2011, the Faculty has organized the International Conference "Sports Sciences and Health" as a powerful tool for integrating new scientific knowledge into sports practice. To date, 14 conferences have been held, accompanied by an equal number of proceedings. The conference is held annually and features presentations by eminent experts from Bosnia and Herzegovina, the region, and the world.

In the same year, in cooperation with the Faculty of Health Sciences at PEU "APEIRON," the international scientific journal Sports Sciences and Health was launched, focusing on sports and medical-rehabilitation sciences. The journal has gained recognition in European and global databases such as Turnitin, Erih Plus, DOAJ, and Scopus. Its aim is to increase theoretical and practical knowledge in sports and provide scientists and professionals in the field with a platform to promote their research and publish new

[13] More information about scientific research and international programs/activities of the Faculty of Sports Sciences can be found in chapters 1, 3, 4, and 5 of this publication.

Logo and cover of the scientific journal Sports Science and Health

findings. The creators of the Conference and the Journal were Prof. Dr. Đorđe Nićin and Prof. Dr. Vidosav Lolić.

Advancement of the the scientific-research dimension of the Faculty is also reflected in its international cooperation with regional faculties and in facilitating mobility for professors and students. These efforts aim to strengthen networking, foster interdisciplinarity, and promote knowledge exchange within the scientific, academic, and professional communities.

The Faculty of Sports Sciences, alongside its teaching staff and collaborators, has successfully carried out three scientific research and professional projects (Faculty of Sports Sciences, 2024):

- The scientific research project "Assessment of Service Quality at Higher Education Institutions in Republika Srpska" with international researchers was implemented from 2018 to 2020. It was co-financed by the Ministry of Scientific and Technological Development, Information Society, and Higher Education of Republika Srpska (Decision No. 19/6-020/961-37/18 dated 31.12.2018). The project coordinator was Prof. Dr. Velibor Srdić.
- The scientific research project "Monitoring the Physical and Motor Development of Preschool and Early Primary School Children" with international researchers was also conducted from 2018 to 2020. It was co-financed by the Ministry of Scientific and Technological Development, Information Society, and Higher Education of Republika Srpska (Decision No. 19/6-020/961-120/18 dated 31.12.2018).
- The Faculty led the project "IDO Online Academy", an educational platform for training dance professionals since 2018, which remains operational to this day.
- Since 2019, the Faculty has hosted the educational, competitive, and research project "Inclusive Sports Days at 'APEIRON'", bringing together primary and secondary school students, university students, parents, professionals, and researchers in sports.

- Enrolled students: 350
  - Graduated – First-cycle studies (Bachelor): 108
  - Graduated – Second-cycle studies (Master): 12
  - Graduated – Third-cycle studies (Doctorate): 1
- Professors: 11
- Assistants and associates: 5

MANAGEMENT

Dean

Prof. Dr. Katarina Držajić Laketić, Associate Professor, Dean of the Faculty of Philological Sciences at the Pan-European University "APEIRON" since 2021

Prof. Dr. Katarina Držajić Laketić was born on December 31, 1987, in Belgrade. After graduating from the Fifth Belgrade Grammar School, she completed her undergraduate and master's studies in English Language and Literature at the Faculty of Philology, University of Belgrade. At the same faculty, in 2016, she defended her doctoral dissertation in the field of English literature with the topic "Jungian Motifs in the Novels of John Fowles."

Since 2014, she has been working in higher education, and since 2015 at the University "APEIRON" (initially as a lecturer, then from 2016 to 2021 as an assistant professor, and since 2021 as an associate professor). She teaches English Language 1, 2, 3, and 4 at all faculties within the University, as well as Literary Theory at the Faculty of Philological Sciences.

Before her academic career, she worked as an English teacher in primary and secondary schools. At the Institute for Foreign Languages in Belgrade, she conducted preparatory classes for international English exams and taught Serbian as a second language to foreign nationals. She works as a translator and editor for scientific journals published by the University "APEIRON", and has been engaged in translation work in the private sector for over 10 years.

Professor Držajić Laketić is the author of the monograph titled "Jung and Literature: Archetypal Symbols in the Novels by John Fowles," published in 2018 by the Andrejević Endowment in Belgrade. She is also one of the authors of the thematic script "Art of Communication," published in 2017 by the College of Professional Studies in Marketing Communications in Belgrade. She is married and a mother of two.

FORMATION AND DEVELOPMENT

The Faculty of Philological Sciences operates as an organizational unit of the Pan-European University "APEIRON" in Banja Luka. Over its 15 years of operation, it has played a significant role in acquiring knowledge in the fields of language, literature, and culture, as well as in implementing modern teaching methods through student mobility.

Throughout its development, the Faculty has aligned its activities with the latest regulations on higher education, thereby establishing academic legitimacy. The ongoing goal of these studies is to position a range of Russian studies disciplines within a broader Slavic context, aiming to provide a comprehensive insight into Slavistics as a whole. This approach connects language, literature, and culture with national culture, laying the groundwork for further scientific work and applying its results in practice.

Through its implementation of the Bologna Process, dedication to improving the quality of higher education, committed students, and a devoted teaching staff, the Faculty of Philological Sciences has become a desirable partner for collaboration with prestigious universities in the Russian Federation and neighboring countries. During its development, the Faculty has continuously enhanced its teaching and scientific processes, establishing an organization at the highest academic and scientific level and striving to participate in the widest international context. This development is reflected in steps of organization and accreditation with the relevant Agency.

The Faculty began its activities upon obtaining approval from the Ministry of Education and Culture for implementing the Russian Language study program, first-cycle studies lasting four years, under the decision number 07.023/602-3172-5/08 dated September 28, 2009.

The Faculty soon expanded its activities, which included the introduction of new study programs. On September 16, 2013, the Ministry of Education and Culture issued a decision for implementing the Teaching and Translation Russian Language study program, 180 ECTS credits in the first cycle lasting three years, under the decision number 07.023/612-3-1/13.

Two years later, on September 23, 2015, the Ministry of Education and Culture issued a decision for implementing the Russian Language study program – 60 ECTS credits, second-cycle studies, under the decision number 07.050/612-200-1/15.

Since September 17, 2019, the third-cycle studies were introduced based on the decision for implementing the Russian Language and Literature study program – 180 ECTS credits, with specializations in Linguistics and Literary Studies, and Cultural-Civilizational Framework of Russian Language and Literature, under the decision number 19/66-040/612-12/18.

Since its establishment, the Faculty of Philological Sciences has been conducting its teaching processes through distance learning, which was introduced at the Pan-European University "APEIRON" on October 26, 2005.

Throughout its activity, the Faculty of Philological Sciences has offered two study programs tailored to market needs and academic standards. The study programs include the Teaching and Translation Study Program and the Russian Language.

According to official records, the Faculty of Philological Sciences has enrolled a specific number of students across all study cycles. From its founding until the 2023/2024 academic year, 328 students were enrolled in undergraduate studies, 20 in postgraduate studies, and 2 in doctoral studies. Of these, 108

Layout of the diploma of the Faculty of Philological Sciences

students completed the first cycle, 12 the second, and 1 the third cycle, with 229 students actively attending in the 2023/2024 academic year.

Despite having fewer students compared to other faculties within the Pan-European University "APEIRON," it is noteworthy that this University was the first private institution in Republika Srpska to begin offering Russian language studies. Analyzing the status of the Russian language in the current curriculum, as well as the textbooks and manuals used for teaching this language, it is essential to highlight the prominence of its lecturers, who are also the authors of most of the teaching materials. Moreover, the role of graduates in further spreading the Russian language, particularly in globalization and fostering international relations with countries where Russian is spoken, cannot be overlooked.

The position of Dean of the Faculty of Philological Sciences has been held by Prof. Dr. Larisa Čović (2009–2021) and Prof. Dr. Katarina Držajić Laketić (2021–).

Miljana Vuković, in the position of Secretary of the Faculty of Philological Sciences since 2018

The position of Vice-Dean of the Faculty of Philological Sciences was held by Prof. Dr. Slavica Lukić (2013–2020).

The role of Secretary of the organizational unit (FFN) has been carried out by Jelena Kuzmanović (2013–2014), Miljana Vuković (2014–2017), Suzana Teodorović (2017–2019), and Miljana Vuković again from 2018 onwards.

In the first year of operation of the organizational unit, the total number of academic staff was 5, including permanent and visiting professors with doctorates, while the total number of employed and visiting assistants and associates was 3.

In the 2019/2020 academic year, the total number of employed and visiting lecturers increased to 11, with 5 employed and visiting assistants and associates.

The Faculty of Philological Sciences has engaged distinguished professors and researchers, such as academician Prof. Dr. Branimir Čović, Prof. Dr. Larisa Čović, Prof. Dr. Slavica Lukić, Prof. Dr. Jelena Bajović, and Prof. Dr. Jelena Vojinović Kostić.

Educational Activity[14]

The Faculty of Philological Sciences specializes in core academic disciplines such as general language studies, general literary studies, literary theory, specific languages, specific literatures, and linguistics. Additionally, it focuses on secondary academic fields that form the basis of an interdisciplinary approach: computer and information sciences, general pedagogy, methodology, didactics, communication studies, management, and social psychology.

The Faculty enrolls students in first-cycle studies lasting three (6 semesters) or four years (8 semesters), awarding 180 ECTS or 240 ECTS credits, in the following program[15]:

- Russian Language – 240 ECTS
- Teaching and Translation Study Program for Russian Language – 180 ECTS

Depending on the duration of the first-cycle studies (6 or 8 semesters), graduates of the Faculty of Philological Sciences earn the following titles:

- Bachelor of Russian Language and Literature – 240 ECTS
- Bachelor of Russian Language and Literature – 240 ECTS (Bachelor Philologist – Translator)
- Bachelor – Translator of Russian Language – 180 ECTS

[14] In the section titled International Cooperation with Educational Institutions from the Russian Federation (Subchapter 4), detailed information is provided regarding the international collaboration and student internships of the Faculty of Philological Sciences at the Pan-European University "APEIRON" with higher education institutions in Russia.

[15] The study programs for the first, second, and third cycles at the Faculty of Philological Sciences, categorized by study levels and the titles of the qualifications awarded upon graduation, are presented according to the data from the higher education institution for all licensed and accredited study programs.

Teaching activities at the University. Featured: Doc. Dr. Radmila Pejić, responsible lecturer for the course Philosophy of Life (Academic Skills) within the shared foundations of various study programs in the first cycle, October 2024

Through elective programs, students can independently choose courses and modules from various fields: economics and business, computer and information sciences, and pedagogical sciences. The elective program also offers the study of foreign languages, including: English (Levels I-IV), German (Levels I-IV), Italian (Levels I-IV), Slovenian (Levels I-IV), Greek (Levels I-II), Modern Serbian Language, Latin.

Students select between two or four elective subjects per year, depending on the curriculum of their study program. Upon completion of their studies, students acquire both general and specific competencies. According to the Faculty's curriculum, students are required to complete part of their academic activities, lasting one or two semesters, at partner universities in Russia.

Since 2016, the Faculty has enrolled students in second-cycle – master's studies, which last one year (2 semesters) or two years (4 semesters), in the following program:

- Russian Language – 60 ECTS

After completing master's studies and successfully defending their master's thesis, graduates earn the title:

- Master of Russian Language and Literature – 300 ECTS

The University conducts second-cycle studies as a combination of a dialogue-based interactive teaching system with mentoring guidance for students.

Since 2020, the Faculty of Philological Sciences has been enrolling students in third-cycle – doctoral studies, which last three years (6 semesters), in the study program:

- Russian Language and Literature – 180 ECTS with specializations:
  - Linguistics and Literary Studies
  - Cultural-Civilizational Framework of Russian Language and Literature

Upon completion of the doctoral studies and the successful public defense of their dissertation, graduates of the Faculty of Philological Sciences earn the academic title:

- Doctor of Philological Sciences – 480 ECTS (Linguistics and Literary Studies)
- Doctor of Philological Sciences – 480 ECTS (Cultural-Civilizational Framework of Russian Language and Literature)

The Russian Language and Literature study program belongs to the scientific field of Languages and Literature, specifically narrow academic fields including: General Language Studies, General Literary Studies, Literary Theory, Linguistics.

Teaching activities at the University, October 2024

Scientific Activities[16]

The Faculty of Philological Sciences at the Pan-European University "APEIRON" has been dedicated to scientific and research activities since its establishment, with a focus on the Russian language, as well as the theory, practice, history, and methodology of translation. Scientific research is conducted within the framework of the Research Institute of the Pan-European University "APEIRON." The Faculty is recognized for editing and publishing the periodic Proceedings from the International Conference "New and Traditional in Translation Studies and Teaching Russian as a Foreign Language."

In addition, the Faculty of Philological Sciences organizes the scientific conference with international participation "New and Traditional in Translation Studies and Teaching Russian as a Foreign Language" (classified as the second category on the ranking list of categorized scientific conferences in Republika Srpska). This scientific conference is held once every two years, and its Proceedings are included in the Russian scientific database RINC.

The Faculty has achieved significant and visible results in collaboration with numerous Russian universities and the Institute of Slavonic Studies of the Russian Academy of Sciences, a central institution of Russian Slavistics. This collaboration includes jointly organizing scientific gatherings and conferences, establishing a high-quality environment and preconditions for research activities (libraries, scientific publications, and databases), and fostering international and inter-university cooperation. This foundation supports the educational and scientific activities of the Faculty, ensuring the transfer of philological knowledge and skills to generations of students.

In addition to the above, the Faculty facilitates serious scientific research and individual professional development for professors and assistants within a wide network of partner higher education institutions in the same linguistic region. The Faculty of Philological Sciences has signed international cooperation agreements with 20 Russian universities, including: Moscow State University "Lomonosov", Russian New University in Moscow, State Institute of the Russian Language "A.S. Pushkin", Russian University of Peoples' Friendship (Moscow), State University of St. Petersburg, Russian State Pedagogical University "Herzen", among others.

At all these universities, students of the Faculty of Philological Sciences deepen the knowledge acquired at their home Faculty, explore Russian culture, traditions, and customs, and participate in international scientific conferences, where they present the results of their research before an international audience.

So far, over 40 students from the Faculty have attended these Russian universities. Maintaining its established tradition, the Faculty organizes, in collaboration with the Higher School of Translation (Faculty) at Moscow State University "Lomonosov" and the Institute of Slavonic Studies of the Russian Academy of Sciences, an international scientific conference titled "New and Traditional in Translation Studies and Teaching Russian as a Foreign Language."

Additionally, in collaboration with the Higher School of Translation at Moscow State University "Lomonosov," the Faculty hosts the international student conference "Russian Language in the Modern World" (Faculty of Philological Sciences, 2024).

New and traditional approaches in translation studies and teaching Russian as a foreign language

[16] More information about the research and international programs/activities of the Faculty of Philological Sciences can be found in Chapters 1, 3, 4, and 5 of this publication.

Faculty of Traffic

MANAGEMENT

Dean

Prof. Dr. Danislav Drašković, Full Professor, Dean of the Faculty of Traffic at the Pan-European University "APEIRON" since 2022

Prof. Dr. Danislav Drašković was born in 1959 in Kalinovik. He completed his undergraduate studies in 1986 at the Faculty of Transport in Sarajevo, and his master's degree in 2007 at the Faculty of Business Studies in Belgrade ("Alternative Management Models in the Public Transport Sector of Republika Srpska"). In 2011, he defended his doctoral dissertation at the same faculty ("Concessions in Urban Passenger Public Transport"). He earned another doctorate in the field of transport engineering in 2013 at the Faculty of Transport in Travnik ("Selection of Orga-

nization Models for Urban Passenger Public Transport in Bosnia and Herzegovina"). He is the author of four university textbooks and one monograph in the field of transport engineering, as well as a handbook on traffic safety. He has reviewed dozens of scientific and professional papers and several university textbooks, with over 30 original scientific and review papers published in international and domestic scientific journals and proceedings, as well as more than 60 professional papers in the field of transport engineering. To date, he has participated in 18 international and domestic projects in the areas of traffic planning, design, and safety. He has conducted over 1,500 expert analyses of traffic accidents. Since 2016, he has been organizing and conducting professional training in the education of driving instructors, lecturers, and examiners in the driver training process. He is one of the founders and the current editor-in-chief of the international scientific journal "Traffic and Transport Theory and Practice" (TTTP), published by the Pan-European University "APEIRON," which is indexed in the Copernicus database. His licensed competencies include: Lecturer (knowledge of traffic safety regulations), Examiner (knowledge of traffic safety regulations), Expert analysis of traffic accident causes, Damage assessment on vehicles, Preparation of spatial planning documentation, Development of technical documentation – traffic signaling and supervision phases, Technical documentation review – traffic signaling and supervision phases, Road Safety Audit (RSA), Road Safety Inspection (RSI). Professor Drašković is a member of the Subcommittee for Transport, Energy, Environment, and Regional Development of Bosnia and Herzegovina (representing Republika Srpska) in discussions with the EU. He is also a member of the committee for conducting exams for traffic engineering experts and a member of the Working Group for coordinating traffic safety activities in Republika Srpska. From 2001 to 2021, he served as the Chief Republic Traffic Inspector in the Government of Republika Srpska. At the Faculty of Traffic, Pan-European University "APEIRON," he is engaged as a full professor in transport engineering courses. As of December 1, 2022, he has been serving as the Dean of the Faculty of Traffic at the Pan-European University "APEIRON."

Vice-Dean for Education

Prof. Dr. Tomislav Vujinović, Full Professor, Vice-Dean of the Faculty of Traffic at the Pan-European University „APEIRON" since 2022

Prof. Dr. Tomislav Vujinović was born in 1958 in Ratkovo, Municipality of Ključ. He completed primary school in Sitnica and attended the Mechanical Technical High School in Daruvar. He graduated from the Faculty of Mechanical Engineering in Banja Luka, where he also earned his master's degree. At the Faculty of Mechanical Engineering in Kragujevac, he defended his doctoral dissertation titled "Deep Drawing of Thin Sheets with Edge Slip Control." In his professional career, he worked as a designer, technologist, technical director, and general director in medium and large companies, including Čajavec, Jelšingrad Foundry, Jelšingrad Machine Tool Factory, and Vrbas Furniture Factory. In the Employers' Association of Republika Srpska, he served as the president of the electrical, chemical, rubber, and non-metal industries sector. He holds certifications as a forensic expert in mechanical engineering, technical inspection supervisor, bankruptcy administrator, and for designing and supervising mechanical structures. In education, he worked as a professor of specialized subjects at the Mechanical Technical High School in Daruvar and as a senior assistant at the Faculty of Mechanical Engineering in Banja Luka. Since 2012, he has been a professor of mechanical engineering courses at the Faculty of Traffic and the Faculty of Information Technologies at the Pan-European University "APEIRON" in Banja Luka. He has published over 40 scientific and professional papers in domestic and international jour-

nals and conference proceedings. He is the author of one university textbook and a member of the editorial board of the international journal "Traffic and Transport Theory and Practice" (TTTP), published by the Pan-European University "APEIRON." From 2018 to 2022, he served as the Dean of the Faculty of Traffic.

FORMATION AND DEVELOPMENT

The Faculty of Traffic operates as an organizational unit of the Pan-European University "APEIRON" in Banja Luka. Although it is one of the youngest faculties, its educational, scientific, and professional work has made it recognized in educating experts in the fields of traffic, transport, communication, and logistics. With 11 years of operation, the Faculty has made a significant impact on general efforts to make life and work easier and more efficient, given that traffic is the foundation for the development of other economic activities.

The Faculty began its activity in 2013, based on the Decision on Fulfillment of Conditions for Conducting the First-Cycle Study Program in Road Traffic and Transport (180 and 240 ECTS), No. 07.023/612-4-1/13, dated May 13, 2013, issued by the Ministry of Education and Culture of Republika Srpska.

After six years of operation, the Faculty's management concluded that there was a need for a higher level of academic education for traffic engineers. Accordingly, on August 4, 2020, it obtained from the Ministry of Education and Culture the Decision on Fulfillment of Conditions for Conducting the Second-Cycle Study Program in Traffic and Transport – 60 ECTS, No. 19.040/612-192-7/19, as well as the Decision on Fulfillment of Conditions for Conducting the Second-Cycle Study Program in Traffic and Transport – 120 ECTS, No. 19.040/612-192-8/19.

In line with its strategic goal, the Faculty of Traffic is focused on continuously improving the teaching process, ensuring practical training, cooperating with economic entities and other higher education institutions domestically and internationally, and participating in international organizations.

The Faculty regularly conducts professional education and training, as well as developmental research in the areas of traffic, roadways, traffic informatics, and motor vehicles. For these purposes, it is equipped with modern tools tailored to the needs of theoretical and practical teaching, laboratories, and computer equipment.

The Faculty of Traffic has enrolled a significant number of students in both study cycles. From the 2013/2014 academic year to the 2023/2024 academic year, 1,046 students were enrolled in undergraduate studies and 15 in postgraduate studies. Of this number, 338 students completed the first cycle, and 2 completed the second cycle. A total of 340 students graduated across both levels of study.

Throughout its activity, the Faculty has continuously improved operational standards and aligned its study programs with real-world needs.

Deans of the Faculty of Traffic have included: Prof. Dr. Mirsad Kulović (2013–2018),

Prof. Dr. Tomislav Vujinović (2018–2022), Prof. Dr. Danislav Drašković (2022–present).

Dijana Dujlović, in the position of Secretary of the Faculty of Traffic since 2023

Vice-Deans of the Faculty of Traffic have included: Prof. Dr. Danislav Drašković (2017–2022), Prof. Dr. Tomislav Vujinović (2022–present).

Secretaries of the Faculty of Traffic have included: Tanja Marjanac (2015–2023),

Stana Mišić (2019–2020), Dijana Dujlović (2023–present).

In its first year of activity, the organizational unit employed a total of 17 academic staff members, including full-time and visiting professors with doctoral degrees, and 6 employed and visiting assistants and associates.

Број: 07.023/612-4-1/13
Бања Лука, 13.05.2013. године

На основу члана 154. Закона о високом образовању („Службени гласник Републике Српске", бр.73/10, 104/11 и 84/12), члана 13. став 4 Уредбе о условима за оснивање и почетак рада високошколских установа и о поступку утврђивања испуњености услова („Службени гласник Републике Српске", бр. 35/11 и 51/11) поступајући по захтјеву Универзитета Апеирон Бања Лука, министар просвјете и културе доноси:

Р Ј Е Ш Е Њ Е

1. Утврђује се да Универзитет Апеирон, са сједиштем у Бањој Луци, испуњава услове за извођење првог циклуса студијског програма:
Друмски саобраћај и транспорт -180 ECTS и
Друмски саобраћај и транспорт -240 ECTS, од академске 2013/14. године.

2. Универзитет Апеирон је обезбиједио 16 наставника са пуним радним временом, ангажованих по основу уговора о раду на неодређено вријеме и 7 сарадника са пуним радним временом, ангажованих по основу уговора о раду на неодређено вријеме за извођење студијског програма из тачке 1 овога рјешења.

3. Универзитет Апеирон је обезбиједио 4 рачунарске учионице са 249 рачунара и 4 намјенске лабораторије са по 15 мјеста за извођење наставе на првом циклусу студијског програма Друмски саобраћај и транспорт.

4. Универзитет Апеирон је обезбиједио пословни простор, на адреси: Ул. Пере Кресе бр. 13, Бања Лука, укупне корисне површине од 5535 м².

5. Универзитет Апеирон располаже библиотеком са 14.957 библиотечких јединица и претплатом на 5 научних часописа за извођење наставе на студијском програму Друмски саобраћај и транспорт.

6. Универзитет Апеирон је ради обезбјеђивања настављања и завршетка студија затеченим студентима у случају престанка рада или престанка извођења студијског програма из тачке 1 овог рјешења обезбиједио банкарску гаранцију за извршење бр.567-151-62202123-05 у износу од 75.000,00 КМ (словима: седамдесетпетхиљада конвертибилних марака и 00/100) на период важења од 01.08.2012. године до 01.08.2013. године, издату код Volksbank a.д. Бања Лука.

7. Универзитет Апеирон може уписати укупно 65 вандредних студената и 25 редовних студената на први циклус студијског програма утврђеним тачком 1 овог рјешења, у

Educational Activity

The Faculty of Traffic specializes in the primary scientific field of Engineering and Technology: Road Traffic and Transport, covering subjects such as traffic planning, design, and management, traffic safety, transport technology and organization, logistics, and combined transport systems. Additionally, it incorporates secondary scientific fields that complement an interdisciplinary approach, including computer and information sciences, general psychology, management, mathematics, statistical analysis, physical sciences, and civil rights.

Educational activities are conducted across two study cycles, each offering appropriate academic degrees and programs. Through its teaching and research, the Faculty trains personnel who, with their expertise in traffic, can make a significant contribution to the development of Bosnia and Herzegovina. The Faculty has also gained recognition for offering professional consultancy services in road traffic through seminars and professional gatherings, as well as conducting expert analyses and projects for government or corporate needs.

Students enroll in first-cycle studies lasting three (6 semesters) or four years (8 semesters), earning 180 or 240 ECTS credits, within the following program: [17]

- Road Traffic and Transport – 180/240 ECTS

This study program aligns with practical requirements, as traffic engineers must possess a broad range of knowledge across diverse fields.

Depending on the duration of the first-cycle studies (6 or 8 semesters), graduates of the Faculty of Traffic are eligible for the following title:

- Bachelor of Traffic Engineering – 180 ECTS
- Bachelor of Traffic Engineering – 240 ECTS

[17] The study programs for the first and second cycles at the Faculty of Traffic, categorized by study levels and the titles of qualifications awarded, are presented according to the data provided by the higher education institution for all licensed and accredited programs.

Teaching activities at the Faculty of Traffic. Featured: Prof. Dr. Danislav Drašković, responsible lecturer, October 2024

Teaching activities at the Faculty of Traffic, October 2024

As part of the elective program, students are offered the opportunity to independently choose courses and modules in the following areas: Mathematics (Financial and Business Mathematics), Computer and Information Sciences (Application of Computer Technologies in Traffic, Graphic Design, Digital Photography), Energy and Fuels (Renewable Energy Sources), Entrepreneurial Economics (Innovative Entrepreneurship), Statistics (Advanced Course in Statistics), Logistics (Management of Business Logistics and Freight Forwarding, Supply Chain Management), Management (TQM – Quality Management, Customs Management and Policies, Technological Management, and Technological Forecasting).

Additionally, the elective program includes the study of foreign languages. Students can se-

Teaching activities at the Faculty of Traffic. Featured: Doc. Dr. Sladana Radaković, responsible lecturer, October 2024

lect between two or four elective courses per year, depending on the curriculum of the specific study program.

Since 2021, the Faculty of Traffic has enrolled students in second-cycle – master's studies, lasting one year (2 semesters) or two years (4 semesters), in the following programs:

- Traffic and Transport – 60/120 ECTS

Upon completing the master's studies and successfully defending their master's thesis, students of the Faculty of Traffic earn the title

- Master of Traffic – 300 ECTS

The Traffic and Transport study program is rooted in the scientific field of engineering and technology.

Scientific Activities[18]

The Faculty of Traffic at the Pan-European University "APEIRON" has been actively engaged in scientific and research activities since its establishment, with a particular focus on road traffic and transport. As a result of its efforts, the Faculty edits and publishes the international professional journal "Traffic and Transport Theory and Practice" (TTTP), which has been indexed in the Copernicus citation database. Additionally, the Faculty organizes an annual international scientific conference on road traffic and transport, titled "Safe – Urban – Mobile (Bezbjedno – urbano – mobilno – BUM)". The Faculty of Traffic is also an integral part of the Research Institute at the University "APEIRON." The Institute involves top-level educational and professional staff specializing in traffic and tran-

[18] More detailed information about the scientific research and international programs/activities of the Faculty of Traffic can be found in Chapters 1, 3, 4, and 5 of this publication.

sport, who have established themselves in solving problems in their core fields for the benefit of government institutions and industry. In its research activities, the Faculty is the organizer or co-organizer of international and national conferences, as well as seminars within its core fields. In 2024, the Faculty of Traffic continues to actively participate in international cooperation and scientific development through mobility programs for teaching staff and students, such as Erasmus+.

SCIENTIFIC ACTIVITY

Scientific Research Activity

Scientific Research Activity

- Scientific Research Institute – established on September 27, 2007.
- Scientific research within doctoral studies – 150 doctoral dissertations.
- Number of published scientific papers, scientific publications, and university textbooks: 463
  - Scientific journals – 7 (132 issues)
  - Proceedings – 44
  - University textbooks – 221
  - Scientific and professional monographs – 26
- Number of scientific gatherings/conferences held: 62
  - International professional-scientific conference "Information Technologies for e-Education – ITeO" (2009-2024)
  - International scientific conference on economic development and Standards of Living "EDASOL" (2011-2024)
  - International scientific conference "Sports Science and Health" (2011-2024)
  - International scientific conference "New and Traditional in Translation Studies and Teaching Russian as a Foreign Language" (2015, 2017, 2021, 2024)
  - International scientific conference "BUM" (Safe-Urban-Mobile) (2024)
  - International scientific conference "Harmonization of Domestic Law with EU Legal Acquis" (2024)
  - Symposium – Expertise of Traffic Accidents and Insurance Fraud (2018)
  - International scientific conference on market communication development "The Power of Communication" (2012-2017)
  - International conference "Violent Criminality" (2011)
  - Scientific conference with international participation "Sustainable Development and Biodiversity Conservation – ICASUS" (2011)
  - International scientific conference "Renewable Energy Sources and Sustainable Development" (2011)
  - Scientific conference with international participation "Information-Communication Technologies: Development of Monitoring – ICT:DS" (2010)
  - Scientific conference with international participation "Ecological Security in the Postmodern Environment – ICAMA" (2009)
- Innovation Center – 10 awards and recognitions.

The scientific research activity at the Pan-European University "APEIRON" includes fundamental, applied, developmental, and expert research. The annual scientific research program ensures the inclusion of students and the training of young scientists for research work. Scientific-educational and scientific-research work are equally significant activities of the Pan-European University. The Pan-European University "APEIRON" was established in 2005 with the goal of promoting education and research across various disciplines. Since its inception, the University has focused on integrating theoretical knowledge with practical applications, creating an environment that fosters innovation and interdisciplinarity. It has rapidly established itself as a hub for scientific research. Its research units cover diverse fields, including social sciences, technical sciences, biomedical sciences, and humanities. Through projects and collaborations with domestic and international institutions, the University active-

ly contributes to the advancement of science and technology.

The Pan-European University "APEIRON" encourages innovation through research projects, seminars, and conferences. Collaboration with industry and other academic institutions allows for the practical application of research. The University also supports young researchers through various scholarship programs and mentoring initiatives.

Researchers at the University regularly publish their works in international journals, thereby contributing to global scientific knowledge. Additionally, the University engages with the local community through projects aimed at improving the social, economic, and environmental aspects of life.

Within its publishing activities, the University has published a total of 463 scientific articles, scientific publications, and university textbooks, including 261 university textbooks, 26 scientific and professional monographs, 44 collections of papers, and 132 journals. All publications of the Pan-European University are available in both printed and electronic formats.

The Pan-European University "APEIRON" serves as an important pillar for scientific research in Republika Srpska and Bosnia and Herzegovina, continuing to strengthen its role as a key player in the development of education and research in the region.

FORMATION AND DEVELOPMENT

The Scientific Research Institute of the University "APEIRON" in Banja Luka was founded on September 27, 2007. By the decision of the Ministry of Science and Technology in Banja Luka, number 06/6-040/050-3/08 dated March 11, 2008, it received approval to operate and was entered into the register of scientific research institutions. The Institute collaborates on scientific research projects and has signed agreements on scientific-teaching and scientific-research cooperation with several renowned scientific research and educational institutions, including the Institute of Economic Sciences in Belgrade, the Institute for Development (IDCE) in Paris, the University of Norrkoping Institute (Sweden), and the Fraunhofer IAO Institute (Germany).

The Institute conducts scientific and development research in fields relevant to the Pan-European University "APEIRON," Banja Luka. It participates in projects funded by state, entity, and local community budgets, as well as EU funds and other domestic and international organizations and institutions, in accordance with the Law on Scientific Research Activity and Technological Development. In addition to scientific and developmental research in these projects, the Institute also conducts market-oriented activities in line with the Law, by-laws, and Statute. Scientific research work at the Institute is organized and carried out in the research departments of the Institute. (Scientific Research Institute, 2024)

The following scientific research departments are organized within the Institute:

- Department for Research in Economics and Other Social Sciences,
- Department for Research in Law and Legal Sciences,
- Department for Research in Traffic Engineering and Technical Sciences,
- Department for Research in Health and Biotechnical Sciences,
- Department for Research in Computing and Information Technologies,
- Department for Research in Sports and Other Kinesiology Sciences, and
- Department for Research in Slavic Languages and Other Philological Sciences.

In the scientific research departments, the following specialized activities are carried out:

- Scientific and development research is conducted in the fields for which the University "APEIRON" is the parent institution, on projects achieved through competitions and funded from state, entity, and local community budgets, as well as funds of the European Union and other domestic and international organizations and institutions, as well as on market-oriented projects and other activities, in accordance with the Law and Statute.
- Competencies are developed for conducting research in specialized areas in accordance with the best contemporary research practices, comparable to those in leading European and global research organizations.
- Research methods appropriate to specific fields of study are developed.
- Development and implementation of new technologies are carried out.
- Future staffing needs in research fields are planned to ensure the necessary research capacity for addressing topics deemed relevant in specific research areas.
- The needs for research infrastructure for developing specialized areas of research (books, journals, databases, software, etc.) are identified and procured.
- Systematic collection of publicly available data and targeted field research in specialized research areas are carried out.
- Content from specific research fields (databases, professional publications, guides, reports, manuals, etc.) is defined and prepared for public availability.

Projects are carried out by project teams formed independently of the allocation of scientific associates and researchers within organizational units, in line with the needs of each individual project. Market-oriented projects are organized and led by project coordinators appointed by the Institute's director upon the recommendation of the heads of scientific research departments, in accordance with the regulations.

The process of proposing, approving, and monitoring market-oriented projects is conducted in accordance with the Institute's general act regu-

РЈЕШЕЊЕ

о одобрењу за рад и упису у Регистар научноистраживачких установа

1. Одобрава се рад **Научноистраживачком институту Паневропског Универзитета "АПЕИРОН " Бања Лука,** за мултидисциплинарне и виртуелне студије, са сједиштем у Бањој Луци, Ул. Пере Креце 13., који је основао Паневропски Универзитет "АПЕИРОН " Бања Лука, за мултидисциплинарне и виртуелне студије, Бања Лука, и у чијем је саставу.

2. **Научноистраживачки институт Паневропског Универзитета "АПЕИРОН " Бања Лука,** за мултидисциплинарне и виртуелне студије, Бања Лука, уписан је у књигу Регистра научноистраживачких установа под редним бројем 23., дана 11.03.2008. године.

Образложење

Научноистраживачки институт - Паневропског Универзитета "АПЕИРОН " Бања Лука, за мултидисциплинарне и виртуелне студије, Бања Лука, обратио се овом Министарству са захтјевом за одобрење за рад и упис у Регистар научноистраживачких установа а све у складу са чланом 31. и 43. став 1. Закона о научноистраживачкој дјелатности -пречишћени текст ("Службени гласник Републике Српске ", 112/07)

lating these procedures. The project coordinator is responsible to the Institute's director for the timely and proper execution of contracted obligations, as well as the appropriate use of project funds. If necessary, external collaborators not employed by the Institute may participate in project execution, based on their scientific and professional qualifications, as decided by the Institute's director upon the project coordinator's proposal. Collaboration with external associates is regulated by contracts concluded between the Institute and the external collaborators.

Scientific research work is conducted by scientific associates, senior scientific associates, and scientific advisors, in accordance with the Law, as well as other employees of the Institute and the University "APEIRON," whose positions are standardized in the general acts.

The position of director of the Scientific Research Institute of the University "APEIRON" in Banja Luka has been held by Prof. Dr. Sanel Jakupović since 2016,[1] with Prof. Dr. Danislav Drašković as his deputy since 2023.[2] From 2008 to 2016, the position of director was held by Prof. Dr. Lazo Roljić.

ACTIVITIES AND PROJECTS OF THE INSTITUTE

Scientific research at the University encompasses fundamental, applied, developmental, and expert research. The annual scientific research program ensures conditions for the inclusion of students and the training of young researchers in scientific work. The Institute engages in a variety of activities, including:

- Research Projects: Implementation of national and international projects in various fields such as social sciences, technical sciences, biomedicine, and ecology.
- Education and Training: Organization of seminars, workshops, and training sessions for students and young researchers to develop their research skills and knowledge.
- Collaboration with Industry: Development of partnerships with the business sector for the practical application of research and innovation of products and services.
- Publication of Papers: Encouraging researchers to publish their work in domestic and international journals and organizing scientific conferences.

The Scientific Research Institute has completed numerous projects that have contributed to the development of local and scientific communities, including:

- Sustainable Development Projects: Exploring the application of sustainable practices in local industries and agriculture.
- Healthcare Innovations: Projects focused on improving healthcare services and exploring new therapeutic methods.
- Technological Development: Work on projects dealing with new technologies and their application in various sectors.

The Pan-European University "APEIRON" participates in several international scientific research projects, as well as in projects of the Ministry of Scientific and Technological Development, Higher Education and Information Society, and projects financed by its own resources. So far, funded projects have covered fields such as ecology, biodiversity, and genetic modifications in plant products in the RS area, diabetic retinopathy, organic agricultural production, entrepreneurial economy, the role of lifelong learning in public-private partnerships, reproduction and sustainable development of the RS population, environmental crime, juvenile crime, research into recreational sports resources, projects for the development of digital interactive television, development of symbiotic learning, and the international project for the digitization of European cultural heritage.

The Institute actively participates in social initiatives, providing expert assistance and advice to local authorities and non-governmental organizations. Through its projects, the Institute contributes to improving the quality of life within the community.

Below are the most significant projects implemented by (and/or in cooperation with) the Scientific Research Institute: (2017–2024)

YEAR OF IMPLEMENTATION: 2019, 2020, 2021
.....

- TITLE: Inclusive Sports Days (in cooperation with Special Olympics BiH)

YEAR OF IMPLEMENTATION: 2018, 2019

Therefore, the Scientific Research Institute of the Pan-European University "APEIRON" represents an important factor in the development of scientific research work in Republika Srpska and Bosnia and Herzegovina. Its activities and projects not only enrich the academic community but also have a positive impact on the broader social community.

Scientific Research within Doctoral Studies

- Titles and affiliation of doctoral study programs according to the Law on Higher Education:
  - Information Systems in Communications and Logistics (Faculty of Information Technology)
  - Economics - Business Management in Logistics (Faculty of Business Economics)
  - Russian Language and Literature (Faculty of Philological Sciences)
- Number of published scientific researches as doctoral dissertations in accordance with the Law on Higher Education and the University Law (2006-2024): 145

GOALS AND PROGRAMS OF DOCTORAL STUDIES

The primary goals of third-cycle doctoral studies are the development and acquisition of scientific competencies by doctoral candidates, including but not limited to the ability of doctoral students to conduct independent, original, and publishable research in one or more scientific fields related to either fundamental or applied knowledge. The program also aims to develop the competencies of doctoral students in the research process and foster creativity, systematic understanding of the field of study, mastery of research skills and methods, and the ability to design a research study. Additionally, candidates are expected to contribute original research that expands the boundaries of knowledge in their field, demonstrate the ability for critical analysis, evaluation, synthesis, and further development of new and complex ideas and approaches.

These goals assume that the enhancement and expansion of knowledge in the scientific fields of doctoral study programs are conducted following international ethical standards. Doctoral studies achieve a synergy of education, research, and innovation.

In compliance with the Law on Higher Education, the Pan-European University "APEIRON" conducts third-cycle doctoral studies within licensed study programs based on the decision of compliance and approval issued by the competent ministry in Republika Srpska, which are the following:

1. **Information Systems in Communications and Logistics** (Faculty of Information Technology)
   - Academic Title: Doctor of Science in Computing and Informatics – 480 ECTS

2. **Business Management in Logistics** (Faculty of Business Economics)
   - Academic Title: Doctor of Economic Sciences – 480 ECTS

3. **Russian Language and Literature** (Faculty of Philological Sciences) with specializations:
   - Linguistics and Literary Studies
     - Academic Title: Doctor of Philological Sciences – 480 ECTS – Linguistics and Literary Studies
   - Cultural and Civilizational Framework of the Russian Language and Literature
     - Academic Title: Doctor of Philological Sciences – 480 ECTS – Cultural and Civilizational Framework of the Russian Language and Literature

SCIENTIFIC RESEARCH OF DOCTORAL STUDENTS

Doctoral studies at the Pan-European University "APEIRON" represent a crucial segment of education, focusing on guiding students toward independent scientific research and innovation. These studies aim to develop scientific capacities and contribute to creating new knowledge across various fields.

Doctoral students actively participate in research projects spanning disciplines such as social

Универзитет је дужан да за студијски програм из тачке 1. диспозитива овог рјешења, за сваку наредну годину студија која се први пут изводи у тој академској години, достави доказе Министарству за научнотехнолошки развој, високо образовање и информационо друштво (у даљем тексту: Министарство) о заснивању радног односа са пуним радним временом за најмање једну половину од укупног броја наставника потребних за извођење

sciences, natural sciences, engineering, and humanities. They have the opportunity to work under the mentorship of experienced researchers, which fosters their professional development.

Students are trained in modern research methods and techniques, including quantitative and qualitative analyses, experimental methods, and field-based research. This training equips them to develop innovative solutions to contemporary issues.

Doctoral students actively collaborate with other institutions, both locally and internationally. This collaboration includes participation in scientific conferences, workshops, and projects, expanding their network of contacts and professional connections. Students are encouraged to publish the results of their research in renowned scientific journals and to take part in scientific conferences. This not only enhances their scientific profile but also strengthens the visibility of the Pan-European University "APEIRON" in the global scientific community.

In conclusion, the scientific research conducted by doctoral students at the Pan-European University "APEIRON" plays a key role in developing new knowledge and innovations. This activity not only enriches the academic community but also contributes to addressing current social and scientific challenges.

In accordance with the Regulations on Doctoral Studies at the Pan-European University "APEIRON," doctoral students are required to undertake a research-action program. This program includes activities related to research within the doctoral dissertation/thesis, which involves preliminary research for defining the research project, source investigation, introductory research for defining the doctoral thesis topic, primary scientific research defined by the scientific research project within the scope of the thesis, and final research related to the completion of the doctoral work. The research-action program may also include professional, clinical, and laboratory practice if part of the research project, as well as doctoral candidates' participation in other scientific research projects conducted during the doctoral studies. The components of the research-action program that carry credit points are a mandatory part of the study program. The research-dissemination component of the doctoral study program involves public presentations and defenses of the research project and findings, publication of research results in scientific journals, participation in scientific gatherings with or without presenting research results, and the preparation and public defense of both the entrance and final doctoral thesis.

SCIENTIFIC RESEARCH PUBLISHED IN THE FORM OF DOCTORAL DISSERTATIONS

A doctoral dissertation represents an original and independent scientific work that summarizes the scientific research conducted by the doctoral candidate within the scope of their thesis. By its nature, it contributes new scientific knowledge or discoveries. It serves as an independent expression of the knowledge, skills, creativity, and competencies that the doctoral candidate has acquired during their third-cycle studies and related scientific research. The thesis represents a scientific discovery in the form of an original contribution to knowledge or innovative application of knowledge, based on appropriate research, the application of specific scientific methodologies, and the dissemination of new scientific insights within the scientific community. The final doctoral dissertation must meet general criteria for academic writing, adhere to standards for accurate citations, fulfill minimum "work volume" requirements, and comply with "content standards" as outlined in the methodology for preparing student and final works at the Pan-European University and mentor recommendations. The final doctoral dissertation must also undergo plagiarism checks in accordance with the University's Regulations on Plagiarism.

From its establishment until September 30, 2024, **a total of 145 doctoral dissertations have been defended** at the Pan-European University "APEIRON." Since this includes candidates who defended their dissertations under the previous Law on Higher Education and University Law, the list of defended dissertations applies to all study programs of the constituent faculties of the University that were entitled, under the previous law, to guide doctoral candidates toward earning the scientific title of Doctor of Science in their respective fields.

Below is a list of published doctoral dissertations at the Pan-European University "APEIRON" (2006-2024) (Student Service, 2024):

Public defense of a doctoral dissertation, Živana Kljajić, 2022

Public defense of a doctoral dissertation, Nedim Smailović, 2008

Public defense of a doctoral dissertation, Milorad Barašin, 2016

Public defense of a doctoral dissertation, Mirjana Lovrenović, 2020

Public defense of a doctoral dissertation, ivo Miro Jović, 2012

Public defense of a doctoral dissertation, Severin Rakić, 2010

Public defense of a doctoral dissertation, Dinko Ćorluka, 2012

Presentation of the work of the commission for the public defense of the doctoral dissertation at the University. From left to right, the members of the commission: Prof. Dr. Vladimir Đurić, Academician Prof. Dr. Dušan Starčević, Prof. Dr. Branko Latinović, Prof. Dr. Siniša Karan, 2018

Public defense of a doctoral dissertation, Boris Ribarić, 2024

Public defense of a doctoral dissertation, Velibor Srdić, 2012

Public defense of a doctoral dissertation, Slavica Lukić, 2016

Public defense of a doctoral dissertation, Jasmin Bajić, 2020

Public defense of a doctoral dissertation, Borislav Marić, 2017

Scientific Journals

- First scientific journal registered: 2010
- Number of scientific journals: 7
- International Visibility of Scientific Journals:
  - 1 scientific journal indexed in the international citation database Web of Science Core Collection, Emerging Sources Citation Index (ESCI)
  - 1 scientific journal indexed in the international citation database SCOPUS
  - 6 scientific journals indexed in the international citation database ERIH+

The Pan-European University "APEIRON" publishes seven scientific journals that serve as a platform for the dissemination of research results in various fields. These journals contribute to the development of science and promote academic exchange. All papers undergo a rigorous peer-review process, ensuring high standards of quality and scientific validity. The "APEIRON" scientific journals are an important resource for teachers, students, and researchers. They not only encourage the development of new ideas and innovations but also facilitate the exchange of knowledge on both local and international levels. The journals published by the Pan-European University "APEIRON" play a key role in supporting the scientific community, contributing to the dissemination of knowledge, and fostering scientific activity in the Western Balkans region and beyond. (Center for Publishing Activities, 2024).

Закона о издавачкој дјелатности ("Службени гласник Републике Српске", бр. 46/04), те члана 3. и 4. Правилника о начину и поступку вођења Регистра издавача ("Службени гласник Републике Српске", бр. 61/04), рјешавајући по захтјеву Паневропског универзитета "Апеирон" Бања Лука, за упис у Регистар издавача, *д о н о с и м*

РЈЕШЕЊЕ

о упису Паневропског универзитета "Апеирон" Бања Лука у Регистар издавача

1. Одобрава се Паневропском институту "Апеирон", са сједиштем у Бањој Луци, 5. козарске бригаде 18, упис у Регистар издавача под редним бројем 168.
2. Лице овлашћено за заступање и представљање издавача - Паневропски универзитет "Апеирон" Бања Лука, је Синиша Алексић.
3. Издавач је основан Споразумом о оснивању број 001/05 од 18.10.2005. године, уписан је у Основном суду Бања Лука рјешењем број У/И-4847/05 од 17.03.2006. године, а почео је да се бави издавачком дјелатношћу 2006. године.
4. Издавач ће се бавити издавањем књига, брошура, часописа, звучних записа, музичких књига и периодичних публикација на подручју Босне и Херцеговине.
5. Издавач ће самофинансирати своју дјелатност.
6. За обављање своје дјелатности издавач има сљедећи кадар: директора, главног и одговорног уредника и остали стручни кадар по позиву.
7. Рјешење ступа на снагу даном достављања издавачу.

Scientific Conferences

The first scientific conference organized: 2009

Scientific conferences by registered name and periodicity (years of occurrence):
- International Scientific-Professional Conference "Information Technologies for e-Education – ITeO" (2009 – 2024)
- International Scientific Conference on Economic Development and Standards of Living "EDASOL" (2011 – 2024)
- International Scientific Conference "Sports Science and Health" (2011 – 2024)
- International Scientific Conference "New and Traditional in Translation Studies and Teaching Russian as a Foreign Language" (2015, 2017, 2021, 2024)
- International Scientific Conference "BUM" (Safe-Urban-Mobile) (2024)
- International Scientific Conference "Harmonization of Domestic Law with the Legal Acquis of the European Union" (2024)
- Symposium: Expertise in Traffic Accidents and Insurance Fraud (2018)
- International Scientific Conference on Market Communication Development "The Power of Communication" (2012-2017)
- International Conference "Violent Crime" (2011)
- Scientific Conference with International Participation "Sustainable Development and Biodiversity Conservation – ICASUS" (2011)
- International Scientific Conference "Renewable Energy Sources and Sustainable Development" (2011)
- Scientific Conference with International Participation "Information and Communication Technologies: Surveillance Development – ICT:DS" (2010)
- Scientific Conference with International Participation "Environmental Safety in the Postmodern Environment – ICAMA" (2009)

Summary: A total of 62 scientific conferences have been held within 13 categorized scientific groups:
- 3 categorized scientific conferences have a tradition of more than 10 years.
- 10 categorized scientific conferences have a tradition of less than 5 years.

More than 1,000 researchers and students have participated.

Over 800 scientific and professional contributions have been presented and published.

Scientific conferences at Pan-European University "APEIRON" play a key role in promoting scientific exchange, collaboration, and innovation. These conferences include conferences, seminars, and workshops, bringing together researchers, academics, and students from various fields. Scientific conferences serve as a platform for exchanging ideas, research findings, and new concepts. Participants have the opportunity to present their work, receive feedback, and improve their research projects. These conferences encourage collaboration between different institutions, both nationally and internationally. Participants establish new contacts and partnerships, contributing to the development of joint projects and the exchange of knowledge. (Pan-European University Apeiron, 2024).

Scientific conferences enrich the academic community through diverse topics and research fields. This fosters new perspectives and innovations, enhancing the quality of scientific work at the University. By organizing scientific conferences, Pan-European University "APEIRON" increases its visibility

in the global scientific community. These conferences attract the attention of researchers and academics, improving the University's reputation.

Since 2009, when the first international scientific-professional conference "Information Technologies for e-Education – ITeO" was organized, the Pan-European University has held numerous international scientific conferences, some of which are annual, established international conferences. Three international scientific conferences have been continuously held for over 10 years, while 10 scientific conferences have been held periodically or continuously for less than 5 years. These conferences have hosted more than 1,000 researchers and authors, who published over 800 scientific and professional contributions in the proceedings of the conferences, covering core and interdisciplinary fields based on the conference themes.

SCIENTIFIC CONFERENCES WITH A TRADITION OF OVER 10 YEARS

ITeO

- **International Scientific and Professional Conference "Information Technologies for e-Education – ITeO"**
  Website: ***https://www.iteo.rs.ba/***

The International Scientific and Professional Conference "Information Technologies for e-Education – ITeO" is typically held annually, starting from 2009. The conference aims to promote the importance and role of information technologies in modern life and education through discussions and knowledge exchange between the academic community and IT professionals. The Faculty of Information Technology (PUA) is responsible for the organizational and program-related activities of the conference.

The chair of the conference's organizational committee is Doc. Dr. Dražen Marinković, with previous chairs including Prof. Dr. Branko Latinović and Prof. Dr. Gordana Radić. The chair of the program (scientific) committee is Doc. Dr. Dalibor Drljača, with former chairs including academician Prof. Dr. Zoran Avramović and academician Prof. Dr. Dušan Starčević.

- **International Scientific Conference on Economic Development and Standards of Living "EDASOL"**
  Website: ***http://www.edasol-au.com/***

The International Scientific Conference on Economic Development and Standards of Living "EDASOL" has been held annually since 2011. The conference focuses on discussions among the academic, scientific, and professional communities on broad thematic areas of economics and economic development in Southeast European countries, addressing contemporary challenges. It serves as a platform for the exchange of knowledge, ideas, and results between science and industry. The conference is classified as an international scientific conference and is ranked in the second category of classified and categorized scientific conferences in Republika Srpska. The Faculty of Business Economics (PUA) is responsible for organizing and programming activities.

The chair of the conference's organizational committee since its inception is Prof. Dr. Sanel Jakupović. The chair of the program committee is Prof. Dr. Vesna Novaković, with the role previously held by Prof. Dr. Zorka Grandov.

- **International Scientific Conference "Sports Science and Health"**
  Website: ***https://www.siz-au.com/***

The International Scientific Conference "Sports Science and Health" has been held annually since 2011. Its primary goal is to promote a healthy, active lifestyle through physical movement and exercise, supported by scientific research, and to enable knowledge and experience exchange among scientists and professionals. The conference is classified as an international scientific conference and is ranked in the second category of classified and categorized scientific conferences in Republika Srpska. The Faculty of Sports Sciences and the Faculty of Health Sciences (PUA) are responsible for the organizational and program-related activities.

The chair of the conference's organizational committee is Prof. Dr. Velibor Srdić, with previous chairs including Prof. Dr. Miladin Jovanović and Prof. Dr. Vidosav Lolić. The chair of the scientific committee is Prof. Dr. Osmo Bajrić, with former chairs including Prof. Dr. Aleksandar Milić and Prof. Dr. Đorđe Nićin.

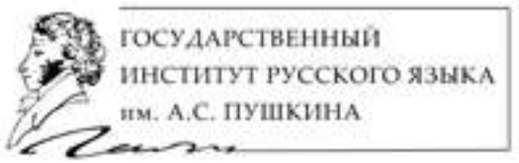
SCIENTIFIC CONFERENCES WITH A TRADITION OF LESS THAN 5 YEARS



- **International Scientific Conference "New and Traditional in Translation Studies and Teaching Russian as a Foreign Language"**
  Website: ***https://www.APEIRON-uni.eu/***

The International Scientific Conference "New and Traditional in Translation Studies and Teaching Russian as a Foreign Language" was held in 2015, 2017, 2021, and 2024.

The conference aims to promote the role and importance of the Russian language in culture, education, and communication through topics such as the Russian language in the training system of international communication specialists or the challenges and prospects of distance learning Russian as a foreign language. The Faculty of Philological Sciences (PUA) is responsible for the organizational and program-related activities of this scientific conference.

The chair of the organizational committee of the conference is Prof. Dr. Larisa Čović, while the chair of the program committee is Prof. Dr. Aleksandar Šuklin.

At the first conference, organized by the Moscow State University "M.V. Lomonosov" (Faculty of Translation Studies) and the Faculty of Philological Sciences of the University "Apeiron," held on March 7, 2015, participants included the dean of the Faculty of Translation Studies of Moscow State University Lomonosov, Prof. Dr. Nikolai Garbovski, the dean of the Faculty of Humanitarian Technologies of the Russian New University in Moscow, Prof. Dr. Olga Ivanova, the dean of the Faculty of Russian as a Foreign Language of Moscow State University RKI, Prof. Dr. Maria Esakova, along with representatives of the Ministry of Foreign Affairs of the Russian Federation, professors from Magnitogorsk Technical University, Southwest State University "Kursk" Russia, Perm State Pharmaceutical Academy, the Ambassador of the Russian Federation to Bosnia and Herzegovina - His Excellency Petar Ivancov, and the cultural attaché of the Russian Federation Embassy in Bosnia and Herzegovina Ana Ivleva.

On March 17, 2017, the Institute for Slavic Studies of the Russian Academy of Sciences (Moscow), the Faculty of Philological Sciences of the Pan-European University "Apeiron," and the association "Serbian-Russian Bridge" organized the second international conference on the theme "New and Traditional in Translation Studies and Teaching Russian as a Foreign Language." The conference was attended by the delegation of the Russian Academy of Sciences, including Rector Anatoly Chudinov and professors from the University of Yekaterinburg, Russia, Deputy Rector of the New Moscow University Evgeny Palkin, Dean Prof. Dr. Nikolai Konstantinovich Garbovski, and professors from Moscow State University Lomonosov, Dean Haracidis Elefterios, professors from the Faculty of Russian Language in Greece, lecturers from the Faculty of Translation Studies and Faculty of Russian Language in Perm (Russia), the director and professors of the Translators' Association in Belgrade, and many others.

On April 12, 2024, the Faculty of Philological Sciences of the Pan-European University "Apeiron," supported by the Moscow Institute of Russian Language A.S. Pushkin, Moscow State University "Lomonosov," and the Translators' Association of the Russian Federation, organized the international scientific conference "New and Traditional in Translation Studies and Teaching Russian as a Foreign Language." Over 80 domestic and international authors from Russia, Greece, North Macedonia, Spain, China, Turkey, India, Indonesia, Serbia, Kazakhstan, and Uzbekistan presented their scientific papers. Some of the participants included Hamrayeva Yelisaveta Alexandrovna, Head of Education Management at the Center for International Cooperation of the Ministry of Education of the Russian Federation and Head of the Department of Linguodidactics and Bilingualism at Moscow Pedagogical State University; Elmira Maratovna Afanasyevna, Senior Researcher at the State Institute of Russian Language A.S. Pushkin in Moscow; Russian Academy of Sciences representative (Moscow) Daria Yurievna Vashchenko; Russian academic Nikolai Konstantinovich Garbovski, Director of the Higher School of Translation Studies at Moscow State University "Lomonosov." The conference was held online.

BUM 2024

- **International Scientific Conference "BUM" (Safe-Urban-Mobile)**
  Website: ***https://www.APEIRON-uni.eu/***

The first International Scientific Conference "Safe, Urban, Mobile" (BUM 2024) was held on June 20–21, 2024. The primary aim of this conference is to gather international experts from academia, research institutions, and industry, relevant to the broader area of sustainable urban mobility and traffic safety. The conference serves as a platform for the exchange of knowledge, ideas, and results between science and industry. The Faculty of Transport (PUA) is responsible for the organizational and program-related activities of the scientific conference.

The chair of the organizational committee of the conference is Prof. Dr. Ljubinko Mitrović, while the chair of the program committee is Prof. Dr. Danislav Drašković.

The scientific conferences at Pan-European University "APEIRON" represent a significant instrument for the development of science and research. Not only do they encourage the exchange of knowledge and collaboration but also play a key role in advancing the academic community and spreading innovation across various fields.

Proceedings

The first proceedings published: 2009

Number of scientific conferences that publish proceedings: 7

Since 2009, Pan-European University "APEIRON" has been publishing proceedings from scientific conferences, serving as an important resource for researchers and the academic community. These proceedings cover various fields of science and provide a platform for publishing research findings presented at scientific conferences.

The proceedings include papers addressing current topics and issues across different disciplines, including social, technical, and natural sciences. Participants in scientific conferences have the opportunity to publish their work, thus contributing to the dissemination of knowledge and innovation.

All papers in the proceedings undergo a rigorous peer-review process, ensuring high quality and scientific validity of the published work. This practice enhances the University's reputation within the scientific community.

The proceedings serve as a valuable resource for students, researchers, and professionals, offering insights into new research and current trends in various fields. They also promote collaboration and knowledge exchange between different institutions.

The proceedings of scientific conferences published by Pan-European University "APEIRON" play a significant role in fostering scientific activity and promoting research. These proceedings not only encourage the exchange of ideas but also contribute to improving the quality of academic work in the Western Balkans region and beyond.

- **Proceedings – International Scientific Conference on Information Technologies for e-Education – ITeO**

  - **Publisher:** Pan-European University "APEIRON" (2009–present)
  - **Publication Period:** From 2009 to today
  - **Focus:** Exploring new developments and discoveries regarding the use of information technologies for structuring an information society
  - **Editors:** Professor Emeritus Zoran Ž. Avramović, Doc. Dr. Dražen Marinković (2021–2023); Prof. Dr. Gordana Radić, Professor Emeritus Zoran Ž. Avramović (2011–2020)
  - **Publication Language:** Languages of the people of Bosnia and Herzegovina, English

Innovation Center

- Founded: December 12, 2023
- Director: Prof. Dr. Negovan Stamenković
- Innovation Center – 10 Awards and Recognitions

DIRECTOR

Prof. Dr. Negovan Stamenković, Director of the Innovation Center at the Pan-European University "APEIRON" since 2023

Prof. Dr. Negovan M. Stamenković was born on March 30, 1979, in Gnjilane. He graduated from the Faculty of Technical Sciences in Kosovska Mitrovica in 2006 in the field of electronics and telecommunications. He defended his doctoral dissertation titled "Implementation of Filters for Sub-band Coding Based on Residue Arithmetic" in 2011, obtaining the title of Doctor of Electrical Engineering and Computer Science at the Faculty of Electronics in Niš. He has been the director of the Innovation Center and was appointed to this position in December 2023.

FORMATION AND DEVELOPMENT

The Innovation Center was established on December 12, 2023, by a decision of the Management Board of the Pan-European University "APEIRON," decision number 1.3-969-2123, within the Business Incubation Center of the Pan-European University, as part of a student initiative to enhance innovation. Prof. Dr. Negovan Stamenković was appointed as its first director. The Innovation Center was founded to support students in implementing innovative projects.

Since its establishment, the Center has focused on promoting scientific research and involving students in innovation processes. Through the initiative of students from the Faculty of Information Technology, in December 2023, the University founded the student section of the Innovation Center, within which programming, robotics, IoT, and microelectronics sections were launched. The students proposed creating a section where they would learn programming logic, which could later be applied in different programming languages to execute specific projects.

Through the activities of the student section of the Innovation Center, students are provided the opportunity to learn directly from their senior peers. This working model encourages interactivity and mutual support among students, creating a dynamic environment for acquiring new knowledge.

In this section, students learn the programming language "C" (40 hours), the programming language "C++" (40 hours), Arduino, NodeMCU, and STM microcontrollers, as well as the basics of microelectronics, hardware, IoT, and embedded systems (40 hours). The head of the student section of the Innovation Center is student Daniel Menićanin, supported by student associates Jelena Radanović and Nikola Račić.

The Innovation Center aims to become a key platform for fostering and supporting innovative individuals, specifically students of Pan-European University, who wish to efficiently and effectively realize their innovations within their home institution. The center also seeks to encourage students to actively participate in scientific research work and to take a more active role in research, scientific endeavors, and the teaching-educational process.

Through its activities, the center motivates students to create professional works and innovations. With the material-technical, professional, and financial support of the University, these are then presented at conferences and fairs in Bosnia and Herzegovina and beyond. A wide range of informal professional training is conducted in the center, focusing on spe-

Broj: 1.3-969-2/23
Datum: 12.12.2023. godine

Na osnovu člana 51. Zakona o visokom obrazovanju Republke Srpske i člana 282. Statuta, Upravni odbor Panevropskog univerziteta Apeiron je na sjednici održanoj 12.12.2023. godine, donio sljedeću odluku:

ODLUKA

o organizovanju Inovacionog centra Panevropskog univerziteta

Donosi se odluka o organizovanju inovacionog centra, koji će djelovati u sastavu Biznis inkubacionog centra Panevropskog univerziteta kao zasebna organizaciona jedinica, pod imenom Inovacioni centar „APEIRON" Banja Luka.

Imenuje se prof. dr NEGOVAN Stamenković za rukovodioca Inovacionog centra „APEIRON". Za svoj rad rukovodilac centra odgovara rektoru i direktoru Panevropskog univerziteta, a izvještaje o radu podnosi periodično i Upravnom odboru panevropskog univerziteta.

Inovacioni centar djeluje kao poseban profitni i troškovni centar u sastavu Univerziteta.

Osnovna vizija Inovacionog centra je da postane ključna platforma za poticanje i podršku inovativnim pojedincima, studentima Panevropskog univerziteta. Panevropski univerzitet će za potrebe inovacionog centra obezbijediti materijalno-tehničku i stručnu podršku, kao i odgovarajući prostor (kabinet fizike), studentima Panevropskog univerziteta koji žele da realizuju svoje inovacije na efikasan i efektivan način na matičnoj ustanovi na kojoj studiraju.

Za potrebe obezbjeđenja minimalnih tehničkih resursa za početak rada, nabaviće se oprema u iznosu do 5.000 KM.

Organizacija rada Inovacionog centra će se urediti Poslovnikom o radu inovacionog centra. Zadužuje se rukovodilac centra da formira tim za izradu ovog Pravilnika.

Predsjednik UO-a
DARKO Uremović

Student Section of the Innovation Center led by student Daniel Menićanin, Banja Luka, December 2023

cific areas that are highly attractive and recognized in the job market. Upon completion, students obtain relevant certificates.

Goals of the Innovation Center are the following:

- Training in programming, robotics, and IoT;
- Encouraging students to actively participate in research and innovation work;
- Development of innovations and professional works with University support;
- Presentation of student papers at conferences and fairs.

The Center enables students to efficiently implement projects by providing technical, material, and expert support. Four people are engaged in the Center, including the director and students actively participating in its operations. The Center coordinates students' innovative activities, offers technical and expert support, and facilitates the presentation of their work at national and international events.

The Center is located in modern working spaces and laboratories within the Pan-European Uni-

versity headquarters. It is equipped with technical resources, including computers with the necessary software for research and development, as well as essential tools for experiments and projects (soldering irons, consumables, microcontrollers). In terms of laboratory equipment, the Center houses devices for testing and prototype development. (Pan-European University Apeiron, 2024)

ACTIVITIES, AWARDS, AND RECOGNITIONS

Students of the Faculty of Information Technologies at Pan-European University "APEIRON"– Daniel Menićanin, Jelena Radanović, Nikola Račić, and Zoran Glamočak – won the special "Dr. Branislava Peruničić" award for the best-rated student project at the Sarajevo Innovations Festival on October 28, 2023. Their project, an RC platform controlled using a PlayStation 4 controller, was evaluated by academic Dr. Sc. Branislava Peruničić, Professor Emeritus at the Faculty of Electrical Engineering at the University of Sarajevo and a member of the Academy of Sciences and Arts of Bosnia and Herzegovina, alongside other jury members and all festival participants. The "Apeiron" team received the award personally from Professor Peruničić, along with accolades from Maja Tursunović, the director of the Telemach Foundation – sponsor of the festival.

At the ceremonial academy marking Banja Luka City Day on April 22, 2024, the City Assembly awarded Daniel Menićanin, a highly decorated student of Pan-European University "APEIRON," the Banja Luka City Plaque. The plaque was awarded to Daniel for his exceptional achievements in the fields of science, education, culture, and arts, based on the proposal of Ana Lojić, President of the Banja Luka Innovators Association, and the unanimous decision of the City Assembly councilors.

On June 6, 2024, Ana Lojić, President of the Innovators Association of Republika Srpska, presented gold medals to students of the Faculty of Information Technology, which were won at "INOST MLADIH 2024" – the 26th International Exhibition of Ideas, Innovations, and Creativity in four categories. University students Daniel Menićanin, Jelena Radanović, Nikola Račić, and Zoran Glamočak excelled with their innovations, winning four gold medals and becoming the best in the student category at INOST. "The INOST 2024," held in April 2024, awarded the team for their projects: AirNomad LoRaWAN, an RC platform controlled using a PlayStation 4 controller, the development of a software environment for hydraulic presses, and their work in the Innovation Center.

At the Regional Butterfly Innovation Forum 2024, held in Podgorica, Montenegro, the PressCoders team from Pan-European University "APEIRON" in Banja Luka achieved outstanding success by winning the prestigious Butterfly Innovation Award in the Youth category. This remarkable achievement showcased Bosnia and Herzegovina and Republika Srpska in the best light. The event was organized by the Regional Cooperation Council (RCC), recognizing innovative projects by youth from six Western Balkan countries. The team consisted of students from the Faculty of Information Technology (PUA) – Daniel Menićanin, Jelena Radanović, and Nikola Račić. Their innovation, PressBrake Software, revolutionizes the modernization of outdated hydraulic presses in the metal industry. This advanced software solution brings significant improvements in the precision, efficiency, and productivity of industrial processes, offering companies the opportunity to gain a technological and economic advantage in an increasingly competitive market environment.

It is worth mentioning the awards achieved by young innovators and students of the Faculty of Information Technologies at Pan-European University "APEIRON" before the establishment of the Innovation Center. At the International Exhibition of Ideas, Innovations, and Creativity "INOST MLADIH" in Banja Luka, during 2011 and 2012, students Mirza Ramičić, Zoran Ilić, Amer Mundžić, and Dejan Đajić were awarded a diploma with a gold plaque on April 20, 2012, for their exhibit "Self-Adjusting Solar Charger with GSM Reporting of Charging Parameters, Voltage, and Temperature." Students Rajko Gojković, Zoran Ilić, Nedžad Kosović, Srđan Kasapović, Adis Huskić, and Haris Kebić received a diploma with a silver plaque for their exhibit "Information System for Urban Bus Arrival at Defined Stations."

Students of Pan-European University won a gold medal at the 15th International Exhibition of Ideas, Innovations, and Creativity "INOST MLADIH 2013," held from April 17 to April 19, 2013. The gold medal was awarded to authors Mirza Ramičić, Zoran Ilić, Dario Mišić, and Dušan Stojaković for their project "Smart Home." Another University team – Zoran Ilić, Nenad Božić, and Dejan Đajić – received a silver

At the 26th International Festival of Innovations, Knowledge, and Creativity "Tesla Fest," held from October 12 to October 15, 2012, in Novi Sad, student Mirza Ramičić from the Faculty of Information Technology received the most prestigious award, "Best Innovation of the Festival," from the Moscow International Salon of Innovations and Innovation Technologies "ARCIMEDES" for his project "Solario – Ecological Robotic Platform." Mirza was also awarded a gold medal at "Tesla Fest." Student Rajko Gojković received a gold medal for his project "Information System for Urban Bus Arrival at Defined Stations." All the students' projects at Pan-European University were conducted under the mentorship of Prof. Dr. Željko Stanković.

University student team consisting of Daniel Menićanin, Jelena Radanović, and Nikola Račić at the Butterfly Innovation Award ceremony, Regional Cooperation Council (RCC), Podgorica, November 26, 2024

- **Participation and Achievements in Competitions and Conferences:**
  - "Sarajevo Innovations Festival" 2023: Winner of the Dr. Branislava Peruničić award.
  - Second Innovation and Creativity Fair "INN&TECH" 2024: Four gold medals and a trophy.
  - International Symposium INFOTEH-JAHORINA 2024: Paper published in the Proceedings of the symposium.
  - Youth INOST 2024: Four gold medals with diplomas, as well as recognition for the best student project titled "Development of Software Environment for Hydraulic Presses."
  - Butterfly Innovation Forum 2024: Held in Podgorica (Montenegro) and organized by the Regional Cooperation Council (RCC). A university student team won the prestigious "Youth" category innovation award – Butterfly Innovation Award.
- **Other Participation and Activities:**
  - Fair of Innovators and Investors, Banja Luka, 2024.
  - Workshops organized by the City Development Agency "PREDA," 2024.
  - Daniel Menićanin: Received the Plaque of the City of Banja Luka for exceptional achievements in education, science, culture, arts, sports, physical education, and bravery, 2024.
  - Daniel Menićanin: President of the jury at INOST, 2024.
  - Jelena Radanović: Winner of the Supernova BIH award for her story within the competition Super Human Stories, 2024.

PROFESSIONAL SERVICES AND FUNCTIONAL UNITS

Support for the implementation of educational and scientific activities of the University

Student Service

Professional service at the University: since 2005

Head: Dragan Jović (2008–present)

Responsibilities and tasks:
- Enrollment and registration of students
- Academic support and counseling
- Organization of exam terms
- Student documentation

Number of cases processed (annual average): 5,000

Number of employees: 7

TASKS OF THE SERVICE

The **Student Service Department of the Pan-European University "APEIRON"** was established in 2005 with the aim of providing support, comprehensive information, and services to students during their educational process. This office includes various activities and tasks vital for the academic success and personal development of students. According to the systematization and job description, the Student Service is organized for the following types of tasks and responsibilities:

- **Enrollment and registration of students:** The office is responsible for the enrollment process of new students, as well as maintaining and updating their academic records in the system.
- **Academic support:** Provides information about programs, courses, and requirements, as well as advice on course selection and academic planning.
- **Organization of exam terms:** Coordinates exam schedules, ensures necessary resources, and informs students about exam rules and procedures.
- **Student documentation:** Manages the issuance of all necessary documents such as indexes, certificates, diplomas, and other relevant papers.
- **Collaboration with other services:** Coordinates with various faculty and university services to provide comprehensive support to students.
- **Advisory and support services:** Offers counseling services to students on academic, professional, and personal challenges, including directing them to appropriate resources.

On an annual basis, the Student Service handles approximately 5,000 different types of cases. These cases pertain to various issues of the student population at the Pan-European University "APEIRON", such as: diploma printing, requests for defense scheduling, status confirmation requests, preparation of diplomas and diploma supplements, graduation certificates, topic approval, study contracts, grade transcripts, requests for status suspension, replacement courses, new DL codes, diploma supplements, continuation of studies, financial requests, requests for committee exams, diploma corrections, issuance of duplicate diplomas, topic changes and mentor appointments, exam cancellations, changes in personal data, document validation, requests for extraordinary deadlines, retrospective exam recognition, changes in study mode, equivalency requests, exam registration and recognition, continuation of studies in sequence (level changes), dean's requests, internships, withdrawals, curriculum plans, transitions to new curricula, index duplicates, rector's requests, nostrification, study program changes, incoming mail from organizational units, and procedures for enrolling new students.

PERSONNEL OF THE STUDENT SERVICE
Head of the Student Service (2008–):

Dragan Jović was born on December 4, 1959 in Banja Luka, where he completed primary and secondary school. He graduated in 2009 from the Faculty of Business Economics at Pan-European University "APEIRON." Until 2008, he was employed in private entrepreneurship. On February 1, 2008, he was appointed Head of the Student Service at Pan-European University "APEIRON" in

Dragan Jović, Head of the Student Service Department at the Pan-European University "APEIRON" since 2008

Banja Luka, where he remains for the rest of his career.

The Student Service at Pan-European University "APEIRON" is systematized to have 7 staff members, including the head of the office, senior officers, and officers for student affairs. Below are the names of personnel who were or are still employed in the Student Service from its formation to 2024: Aleksić Milijana, Anđelić Draško, Anđelić Nebojša, Bajić Filip, Bajić Žarko, Bajić Miroslav, Damjanović Nemanja, Dujlović Dijana, Gajić Jovana, Gajić Ljiljana, Josipović Sanja, Kovačić Danijela, Krstić Biljana, Kunić Anita, Majstorović Krunoslava, Manojlović Ozrenka, Marjanac Tanja, Mihailović Vanja, Mišić Stana, Pandurević Snježana, Perić Vesna, Samardžija Dragana, Savanović Jelena, Smoljić Tanja, Srdić Duška, Sredojević Vanja, Stević Suzana, Tomašević Jelena, Vučenović Biljana, Vujmilović Ivona.

The Student Service at Pan-European University "APEIRON" represents an important support system for students, helping them orient themselves in the academic environment and develop their potential during their studies. The office is dedicated to enhancing the student experience, fostering a positive and supportive atmosphere within the university community.

Departments Outside the University's Headquarters

Periods of operation for organizational units outside the headquarters:
- Branch in Bijeljina (2010–)
- Branch in Novi Grad (2011–2023)

Support provided to students studying outside the headquarters:
- Administrative-technical support
- Professional-technical support

STUDIES OUTSIDE THE UNIVERSITY HEADQUARTERS

The Pan-European University "APEIRON" has authorization from the relevant authorities to conduct first-cycle studies outside the University's headquarters. This option has been utilized in the departments located in Bijeljina (2010–present) and Novi Grad (2011–2023). Currently, in the 2024/25 academic year, the Pan-European University "APEIRON" operates a department in Bijeljina, offering first-cycle studies in the following programs: Entrepreneurial Management, Banking, Finance and Trade Management, General Law, and Business Informatics.

In accordance with Articles 244 and 245 of the Statute of the Pan-European University, a department (branch) is a remote organizational unit that covers a specific geographical area, where the necessary authorization has been granted for conducting educational activities for which the University is licensed by the relevant authority, and where the educational process is organized. Within the departments, the entire educational process takes place, including the taking of exams. Departments also serve as logistical centers for organizing parts of the distance learning educational process.

In the departments outside the University headquarters, full regular classes and traditional exams are conducted for study programs licensed in those departments. However, in accordance with the legal and statutory rights of students, all students of the Pan-European University, regardless of the enrolled study program or regional/geographical affiliation, enjoy comprehensive and substantial support, which includes informational, communicational, professional, consulting, logistical, and administrative assistance. All students are provided with quality, comprehensive, and efficient support through a unified concept of digital education. Regional study centers, in accordance with the Higher Education Act, take on a significant part of the aforementioned support for all students, regardless of their enrolled study program or regional affiliation. Within the framework of the study centers, students can also access knowledge assessments permitted by applicable legal and subordinate regulations. Additionally, at the headquarters of the Pan-European University, a special teaching process and examination periods are organized, tailored in terms of timing and scheduling to meet the needs and possibilities of part-time students, regardless of their geographical affiliation.

Support for students studying outside the University's headquarters

Licensed university departments enable the full organization of the teaching process outside the headquarters for study programs that have been authorized to operate in these departments. These departments, also known as study centers, provide appropriate information, communication, professional, consulting, logistical, and administrative support to all students from the geographical area covered by the department (internet center/study center), regardless of their enrolled study program.

Administrative-technical support:
- Information and technical assistance during student enrollment for all study programs, providing details, forwarding enrollment, technical, pedagogical, and marketing materials related to enrollment, and collecting student applications.
- Receiving all written submissions from students and forwarding them to headquar-

ters, providing feedback to the applicant.
- Providing information on teaching schedules for all study programs at the university headquarters and departments for all categories of students, including regular and part-time students, and those utilizing distance learning resources.
- Collecting, verifying, and forwarding student exam applications to the responsible teaching staff.
- Determining student lists from the department's area for conducting teaching for part-time studies and accessing exam sessions.
- Providing information related to student services (exam sessions, exam results, etc.).
- Organizing and collecting student surveys.

Additionally, these centers enable the following professional-technical functions:
- Internet access: High-speed broadband connection ensures fast, efficient, and quality internet usage for downloading content as well as uploading student queries and work results (e.g., submitting seminar papers and other written works via the university's web-mail service).
- Multimedia computer systems: Sufficient multimedia computer systems networked within the local network of the study center provide video and audio communication in educational forums and online sessions organized at the university headquarters and other organizational units. They also allow immediate online communication and consultation with professors, colleagues, or other students in specific interest and work groups.
- **Access to network devices:** Ensuring access to other input/output network devices (printers, plotters, scanners) and other electronic equipment installed within the department's local network, thus providing free support to all students for printing and scanning documents, engaging in computer graphics, creating seminar papers and other student works, conducting research activities, and practical work.
- **Collaborative learning spaces:** Study centers are designed to support group, collaborative, and individual learning. Besides computer equipment, they are equipped as standard academic reading rooms. Each center is also set up as a regional library of the Pan-European University.
- **Teleconferencing and streaming services:** Direct insight for students into parts of the teaching process at the Pan-European University via online teleconferencing, as well

as insight into the teaching process held directly at the university headquarters broadcasted via video streaming. This service is specifically aimed at students without adequate broadband access to high-speed internet.

- **Audio, video, and teleconferencing equipment:** Fully equipped centers with necessary audio equipment, video projection tools, and teleconferencing devices.
- **Educational support:** Study centers supporting distance education at the Pan-European University also provide certain professional and pedagogical support to all students, regardless of their enrolled study program.

HEAD

Prof. Dr. Aleksandra Vidović was born on July 5, 1972, in Doboj. She completed her primary and secondary education in Doboj. She earned the title of Bachelor of Management at the Pan-European University "APEIRON" – Faculty of Business Economics in Banja Luka in 2007. At the same faculty, she obtained her Master's degree in Economics in 2009 and her Doctorate in Economics in 2012. Since April 2017, she has been an Associate Professor at the Pan-European University "APEIRON", Banja Luka, and since 2023, a Full Professor. She has published approximately 60 papers, 8 university textbooks, and 2 guidebooks. Since 2008, she has served as the Editor-in-Chief of the university's publishing activities. She was also a member of the editorial board and Editor-in-Chief of the University Journal "Alumni." She has been a certified court expert in economic sciences in the Brčko District of Bosnia and Herzegovina from 2022 to the present.

Prof. Dr. Aleksandra Vidović, Head of the Publishing Activity Center at the Pan-European University "APEIRON" since 2006

FORMATION AND DEVELOPMENT

The Publishing Center was established as a functional unit of the Pan-European University "APEIRON" with the founding of the institution in 2005. This Center represents one of the core functions of the Pan-European University "APEIRON", providing logistical, documentary, and legal support in the preparation for the printing of all publications of the Pan-European University "APEIRON" (textbooks and professional or scientific books published by the Pan-European University "APEIRON") within the University's registration licenses as a publishing house. This includes obtaining and processing ISBN and ISSN codes, as well as printing and duplicating books and other publications in the University's digital printing facility.

The Pan-European University "APEIRON" has the status of a publishing house, which was registered in the Register of Publishers under resolution number 6-01-113-27/06 on August 21, 2006.

The Center for Publishing Activities of the Pan-European University involves:

- Digital printing house
- Bookstore.

The Publishing Center of the Pan-European University includes publicistic publishing, newspaper publishing, digital printing, and a bookstore.

In the field of publicistic publishing, the Center collaborates with the National and University Library of Republika Srpska for ISBN and CIP cataloging and standardization of all publications, while in newspaper publishing, it cooperates with the National and University Library of Bosnia and Herzegovina for ISSN cataloging and standardization of the university's journal and other serial publications.

The main activities of the Publishing Center of the Pan-European University include:

- Publication of books, brochures, music books, and other publications;
- Publication of journals and similar periodicals (of a professional nature);
- Publication of audio recordings (authorized lectures and edited exercises);
- Other publishing activities;
- Preparatory activities related to printing;
- Reproduction of audio recordings;

Rector Prof. Dr. Sanel Jakupović visited the Apeiron University stand at the Book Fair on September 16, 2021

Rector, Academician Zoran Avramović visited our stand at the Book Fair

Rector Sanel Jakupović visited our stand at the Book Fair in September 2022

- Reproduction of video recordings (authorized lectures);
- Reproduction of computer records; and
- Sale of books and other publications.

So far, the University has published a total of 463 scientific papers, scientific publications, and university textbooks, including 261 university textbooks, 26 scientific and professional monographs, 44 collections of papers, and 132 journals. All publications of the Pan-European University are available in print and electronic formats.

The professional team of the Publishing Center (as of 2024) includes:

- Siniša Aleksić, Doctor of Legal Sciences, authorized representative of the publisher (2006–present);
- Prof. Dr. Aleksandra Vidović, Head of the Publishing Center (2006–present) and editor-in-chief2008–present); and
- Sretko Bojić, graphic designer (2010–present).

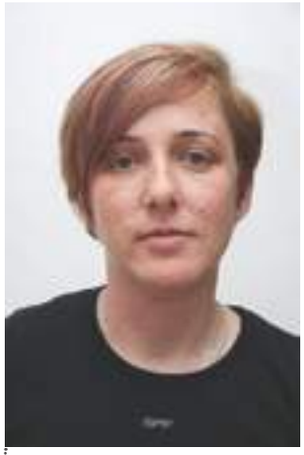
Previous employees of the Publishing Center include:

- Sanja Šaula, graphic designer (2006–2008), and
- Dušan Stranatić, graphic designer (2008–2010).

UNIVERSITY LIBRARY

The Library of the Pan-European University "APEIRON" was established in 2005 and performs tasks related to the systematic collection of library materials from scientific fields for which the University is accredited. It also ensures access to relevant electronic professional media and databases. Library staff provide efficient and transparent access to library materials for all students and staff of the University, supporting the study process and scientific research work. All students of the Pan-European University "APEIRON" can borrow any book from any study program upon presenting their student index. (*Laboratory for ICT, 2024*)

Sretko Bojić, graphic designer, member of the professional team of the Publishing Activity Center since 2010



Helena Savanović, librarian, member of the professional team of the Library since 2018

GODIŠNJAK

Library services:

- **Information and assistance in selecting materials**
  Librarians, upon consulting the catalog (traditional or electronic), will retrieve any requested book.

- **Lending**
  Library users can borrow one book or scientific journal for 15 days or two for 30 days.

- **Interlibrary loans**
  In collaboration with other libraries, such as the National and University Library of Republika Srpska, titles not available in the University's library collection can be provided to our students.

■ Reading room

The reading room is available to all students and staff for scientific research work. Computers with internet access are installed in the reading room, available 24/7. The reading room is equipped for group learning, collaborative student work, digital presentations, teleconferencing, and distance learning.

■ Electronic library

Access method

- Access to library resources is provided through the University "APEIRON" website, using credentials (username and password) provided at the start of the academic year, as outlined in the document titled *"Access Data*

The library of the Pan-European University uses licensed software:

■ *Economica-E-Library*

Students and academic staff can access the mentioned resources from any computer installed at the Pan-European University, including those intended for learning in the University library, as well as through their user credentials from any computer connected to the Internet. The University library systematically publishes graduate, specialist, master's, and doctoral theses by students, teachers, and collaborators of the University in both print and electronic editions.

The Pan-European University aims for complete digitalization and modernization of all processes, including the process of collecting library materials in electronic form.

Library Statistics: The library's collection consists of **42,938 titles**, of which **27,599 are printed publications**: books, textbooks, and scientific publications in broader scientific fields of social sciences, technical sciences, medical sciences, and biotechnology, located directly in the library. **16,709 titles are electronic editions.**

Subscriptions to scientific and professional journals:

1. *Društvena istraživanja* (Social Research), IVO PILAR Institute of Social Sciences, Zagreb, Croatia
2. *Arhiv za higijenu rada i toksikologiju* (Archives of Industrial Hygiene and Toxicology), Zagreb, Croatia
3. *Tehnika* (Technology), Union of Engineers and Technicians of Serbia, Belgrade, Serbia
4. *Svet rada* (World of Work), Center for Socio-Ecological Research and Documentation, Belgrade, Serbia
5. *ZIPS,* Privredna štampa D.O.O., Sarajevo, Bosnia and Herzegovina
6. *Izbor iz sudske prakse* (Selection from Judicial Practice), Glosarijum, Belgrade, Serbia
7. *BUG,* BUG D.O.O. for press-publishing activities, Zagreb, Croatia
8. *Mreže* (Networks), BUG D.O.O., Zagreb, Croatia
9. *Put i saobraćaj – Journal of Road and Traffic Engineering,* Society for Roads of the Republic of Serbia, Belgrade, Serbia
10. *Panoeconomicus,* Association of Economists of Vojvodina, Novi Sad, Serbia

13. *Medici.com,* Medici.com, Banja Luka, Bosnia and Herzegovina

The Pan-European University "APEIRON" subscribed to the **EBSCO host database** from 2009 to 2018.

Library professional team (2005–2025):

- Helena Savanović, Librarian (2018–present)
- Aleksandra Kecman, Librarian (2022–2024)
- Marko Milovanović, Librarian – Assistant (2021–2022)
- Ivan Pavlović, Librarian – Assistant (2020–2021)
- Nela Čalić, Librarian – Assistant (2019–2022)
- Verica Čavić, Librarian – Assistant (2008–2019)
- Goran Aleksić, Librarian – Assistant (2009–2019)
- Marica Banović, Editor – Publishing Activity (2009–2019)
- Bojan Babić, Technical Maintenance – Graphic Assistant (2010–2018)
- Vladimir Domazet, Librarian – Assistant (2011–2015)

- Aleksandra Savanović, Librarian – Assistant (2010–2013)
- Zoran Milijašević, Technical Maintenance – Graphic Assistant (2007–2009)

Information on the System for Checking Final Papers for Plagiarism at the University – Protecting Academic Ethics and Integrity

The Pan-European University "APEIRON" subscribes to a system for checking final papers for plagiarism. The Ephorus system subscription was active from 2013–2016, while the Turnitin system has been in use from 2016 to the present.

The plagiarism-checking system operates as follows:

1. The student submits an electronic version of the paper (Word) to their mentor.
2. The mentor assesses the scope and quality of the paper.
3. If the paper meets defense criteria, the plagiarism check is initiated.
4. The mentor logs into the system (via the University's website).
5. The document is uploaded, and the check takes 5 to 15 minutes.
6. Once the check is complete, a report can be viewed, and if desired, saved as a PDF document.
7. When the candidate meets the anti-plagiarism criteria (allowed level of copying and properly cited parts), the electronic version of the paper is sent to the system supervisor, who enters the paper into the main software database for a final check.
8. After the final review, feedback is received, and
9. The defense is scheduled.

The above procedure is mandatory for all students and professors. Plagiarism is not allowed. Up to 1/3 (33%) of the total paper may be quoted, provided proper citation rules are followed (quotation marks, footnotes, bibliography, etc.). All final papers reviewed are included in the global database and become references for future searches. All defended theses at our University are stored in the database and have become references for future checks, preventing the use of other people's work for personal gain (though they can be cited).

Laboratory for Information and Communication Technologies and Distance Learning

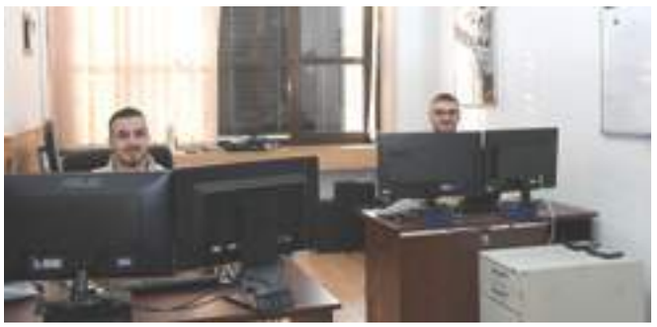
University functional unit:
since 2005

Head: Aleksa Marčeta (2022–present)

Function: Maintenance, support, and development of the University's information and distance learning systems.

Key resources of the ICT Laboratory:
- Decision Support System (DSS) with 11 information subsystems;
- Digital education information subsystem (distance learning system - MS Teams): Over 10,000 hours of recorded instructional video content;
- Software packages for students, faculty, and staff: "Microsoft Office 365";
- Multimedia computer labs;
- Internet television and radio "APEIRON" (channel, studio, and equipment);
- Authorized testing centers: "Pearson Vue" and "Certiport."

Number of IT staff: 7



Staff of the Laboratory for Information and Communication Technologies at the Pan-European University "APEIRON," November 2024

HEAD

Aleksa Marčeta, Head of the Laboratory for Information and Communication Technologies at the Pan-European University "APEIRON" since 2022

Aleksa Marčeta was born on March 8, 1995, in Banja Luka, where he completed primary and secondary school, as well as undergraduate studies. He holds a degree in Information Technology

(specializing in software development). During high school, he actively volunteered on a project organized by the staff of Banja Luka Gymnasium in collaboration with the website "Znanje.org." This project aimed to solve mathematical and logical tasks in the programming language "C++", and his personal contribution included over 300 solved tasks available on the mentioned website. After completing high school, he moved to Vienna, Austria, for further education, learning German, enrolling in studies, and employment. He attended Vienna University of Technology, studying business informatics for two academic years. He later decided to continue his higher education at the Pan-European University "APEIRON" in Banja Luka, where he currently serves as the Head of the Laboratory for Information and Communication Technologies. He was appointed to this position on August 1, 2022. His primary areas of interest in information technology include developing mobile and web applications using various technologies, application testing, and managing information resources. Additionally, he is a long-time athlete and recreational runner, with several medals from water polo and half-marathon competitions. In the future, he aspires to focus more on experimental research in software development, exploring new and continuously evolving technologies. He speaks English at a B2 level, German at a B1 level, and Norwegian at an A1/1 level. In his free time, he plays chess and studies history and astronomy.

FORMATION AND DEVELOPMENT

Laboratory for Information and Communication Technologies and Distance Learning – abbreviated as ICT Laboratory The ICT Laboratory (Laboratory for ICT & DL) is one of the core functional units of the Pan-European University "APEIRON", established with the founding of the University in 2005.

The ICT Laboratory ensures the functioning and maintenance of the University's information system, including the maintenance of the University's WEB portal, the development of educational content for the distance learning system, the development of external projects such as software reengineering, WEB and graphic design, and internet-related tasks, as well as support for the implementation of the University as a testing and educational center (Article 253 of the Statute).

Functions of the ICT Laboratory include maintaining, supporting, and improving the University's information system and the distance learning system through a continuous process of updating and enhancing services and resources in the field of information technology used by students as well as administrative staff.

The primary goal and mission of the ICT Laboratory are to provide a reliable information system that the staff and students of the Pan-European University "APEIRON" can fully rely on in their daily work and studies.

According to internal task distribution and job classification, the ICT Laboratory is divided into several branches of information technology (Laboratory for ICT, 2024):

- Development of websites and applications,
- System administration,
- Multimedia and design,
- Technical support.

Task distribution is organized on the principle of 2 persons per task to ensure higher quality, agility, and responsiveness in addressing specific situations. The current team consists of 7 IT professionals, including 2 system administrators, 2 associates for website and application development, 1 associate in the field of design and multimedia, 1 general associate, 1 head of the laboratory.

The laboratory's tasks also include continuous monitoring of the University's electronic services, their analysis, and communication with external partners who provide support services for specific software as well as partners involved in procuring hardware components necessary for the smooth operation of the University's information system. Responsibilities within the headquarters include regular analysis of existing services, enhancement and upgrade of technologies, data storage, maintenance of computer units, and monitoring of system security aspects. Responsibilities outside the headquarters involve improving secure communication between the headquarters and the University's remote department, as well as providing support at regular time intervals.

From its establishment until the 2023/24 academic year, the ICT Laboratory staff has consisted of the following individuals:

- Name and surname: Milan Zastavniković First position: System Administrator – IT Manager (2007–2009) Second position: Head of ICT Laboratory – Administrator of ODL (2009–2012) Total work period: (2007–2012)
- Name and surname: Sanja Šaula Position: Expert Associate – "Course Developer" work period: (2007–2018)
- Name and surname: Siniša Kljajić Position: Expert Associate – "WEB Development" (ICT and ODL Laboratory, "APEIRON" TV) work period: (2008–2019)
- Name and surname: Vedran Uremović First position: Computer Graphics Design and Layout (ICT and ODL Laboratory, Publishing Center) (2009–2010) Second position: Expert Associate – "Course Developer" (2010–) Total work period: (2009–)
- Name and surname: Živana Kljajić Position: Expert Associate – "Course Developer" work period: (2009–2015)
- Name and surname: Momčilo Đukić First position: System Administrator – IT Manager (2009–2017) Second position: Head of ICT Laboratory – Administrator of ODL (2017–2019) Total work period: (2009–2019)
- Name and surname: Miroslav Krminac First position: Technical Maintenance of IT Equipment (2010–2010) Second position: Expert Associate – "WEB Development" (ICT and ODL Laboratory, "APEIRON" TV) (2015–2020) Total work period: (2010–2010); (2015–2020)
- Name and surname: Siniša Tomić First position: Expert Associate – "WEB Development" (ICT and ODL Laboratory, "APEIRON" TV) (2010–2012) Second position: Head of ICT Laboratory – Administrator of ODL (2012–2017) Total work period: (2010–2017)
- Name and surname: Đorđe Mitrović Position: Technical Maintenance of IT Equipment work period: (2010–2012)
- Name and surname: Miloš Pašić First position: Expert Associate – "Course Developer" (2010–2014) Second position: System Administrator – IT Manager (2014–2019) Total work period: (2010–2019)
- Name and surname: Sretko Bojić Position: Expert Associate – "Course Developer" work period: (2010–2019)
- Name and surname: Vladimir Domazet First position: Expert Associate – "Course Developer" (2015–2019) Second position: System Administrator – IT Manager (2019–2021) Total work period: (2015–2021)
- Name and surname: Alen Tatarević Position: Expert Associate – "WEB Development" (ICT and ODL Laboratory, "APEIRON" TV) work period: (2019–2022)
- Name and surname: Ognjen Vujasinović Position: Expert Associate – "Course Developer" work period: (2019–2022)
- Name and surname: Siniša Gligorić First position: Expert Associate – "Course Developer" (2020–2020) Second position: System Administrator – IT Manager (2021–2022) Total work period: (2020–2022)
- Name and surname: Amar Badnjević Position: Expert Associate – "Course Developer" work period: (2020–2021)
- Name and surname: Aleksa Marčeta First position: Expert Associate – "WEB Development" (ICT and ODL Laboratory, "APEIRON" TV) (2021–2022) Second position: Head of ICT Laboratory – Administrator of ODL (2022–) Total work period: (2021–)
- Name and surname: Milan Panić First position: Expert Associate – "WEB Development" (ICT and ODL Laboratory, "APEIRON" TV) (2021–

2022) Second position: System Administrator – IT Manager (2022–) Total work period: (2021–)

- Name and surname: Mihailo Tomić Position: Expert Associate – "WEB Development" (ICT and ODL Laboratory, "APEIRON" TV) work period: (2022–)

- Name and surname: Marko Milovanović Position: Expert Associate – "WEB Development" (ICT and ODL Laboratory, "APEIRON" TV) work period: (2022–)

- Name and surname: Harun Hotić First position: Expert Associate – "WEB Development" (ICT and ODL Laboratory, "APEIRON" TV) (2022–2023) Second position: System Administrator – IT Manager (2023–) Total work period: (2022–)

- Name and surname: Anastasija Dragonić-Uremović Position: Associate for Multimedia and Computer Graphic Design work period: (2023–)

The staff of the ICT laboratory at the Pan-European University "APEIRON" undergoes continuous training as needed, in accordance with areas of information technology that interest the individual and their application in work tasks. This type of training primarily comes through incentives from the institution's management in the form of funding for training and courses for the ICT laboratory staff, primarily in the fields of system administration, software development, design, and other areas of information technology.

LABORATORY RESOURCES (material and non-material)

The management of the Pan-European University "APEIRON" is committed to creating all material-technical and spatial conditions for a modern higher education institution that will enable the realization of the concept of education for life and the knowledge society. All classrooms are digitalized with teleconference options, allowing the use of the most modern pedagogical methods and the execution of the teaching process with the installed equipment and telecommunication options. All lectures and exams are recorded and processed for distribution within the distance learning system on the "MS TEAMS" platform and for monitoring purposes.

All classrooms and amphitheaters are equipped with complete multimedia equipment, teleconferencing systems (PC, video projector, video camera, two studio microphones, sound acquisition system, classroom sound system, broadband internet access), enabling distance learning and complete video surveillance of the teaching process. It can be stated that all classrooms meet the requirements related to distance education standards.

The Information and Communication Technology and Distance Learning Laboratory is specially equipped for the development and maintenance of internet services introduced at the University, for the development of multimedia applications, and for the development of the information security system.

The Multimedia Technology Laboratory is integrated within the "APEIRON" multimedia center and TV studio. The university continually enhances the telecommunication IP infrastructure and initiates numerous services in the domain of distance learning, internet IP television, and the development of user-oriented information systems.

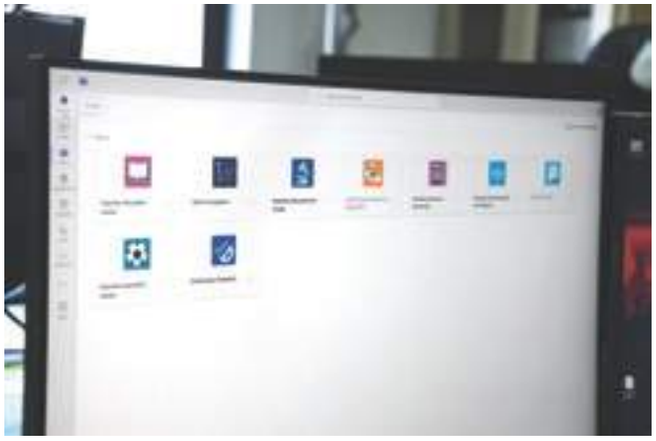
The Pearson Vue Test Center – The Pan-European University "APEIRON", in collaboration with the company "Pearson Vue", is registered as an official test center where candidates can take online exams related to certificates issued by various companies through the "Pearson Vue" test center. The ICT laboratory staff supervises and monitors candidates during exams to ensure all activities proceed regularly and in accordance with regulations.

"APEIRON" TV and radio – The Pan-European University "APEIRON" has its official university television, which is currently migrating to a hybrid system of live streaming and podcasts on the "YouTube" platform. The university also has its own radio station, broadcasting radio content within the main university building.

The university's information system, with subsystems "Ekonomika" (a business information system with the following application modules: finance, payroll, inventory management, human resources, cashier, fixed assets), eDocument, eLi-

Resources of the Laboratory for Information and Communication Technologies and Distance Learning at the University, October 2024

CVK APEIRON



brary, eLearning, eUniMIS, and Learning Management System, are interconnected and integrated. They provide a unified information foundation as a unique management information system for decision support (Decision Support System – DSS).

Built-in computer and telecommunications equipment:

- A cluster of 7 interconnected dedicated servers (generations DL160, DL380, DL385 G5, G6, G7, and G8);
- Administration of telecommunication resources and hardware protection of network and application resources and WEB services is achieved using hardware firewall devices: "Cisco ASA5510" (two units in Banja Luka), "Cisco core 3650 switch" (two units in Banja Luka), "Cisco router 1841" (one in Banja Luka and Bijeljina), and 10 "CISCO 2960" switches, along with an upgraded "Intrusion Detection and Protection System (IDP and IPS) Fortigate 80F – SMB Protection NGFW";
- 160 computer workstations (70 desktop-office configurations, 14 multimedia computers for data acquisition and digitization of input-output educational content, 76 computers in computer labs);
- 32 laptop mobile computer systems (outdated equipment/devices stored in a warehouse);
- 32 printers (17 HP 1018/20, 1 color laser printer "CANON Pixma IP4300/4600", 6 multifunctional devices "CANON MF5770/4150, 1 HP2420dn", 1 dot-matrix printer "Epson LQ680", 1 duplex smart card printer "EDISECURE XID 8300", 3 "Fujitsu" document scanners "Fi 6670", 2 "Brother HL1110" printers);
- "HP DesignJet 800" PLOTTER;
- 5 digital printers "CANON IR 8070, CANON IR 5000i, CANON IR 8295, CANON IR 400i, and CANON IR 4025";
- "Fujitsu Fi 6670" color duplex production scanner – 3 units.

Built-in computer-multimedia equipment:

- 10 projection devices (Video BIM) class "ACER XD1170D, HP VP6311, EPSON S5";
- 11 plasma presentation devices "SAMSUNG 50", LG, and Tesla;
- "Prestigo Multiboard 70" Multi-touch" interactive whiteboard;
- 19 network cameras for video content acquisition in classrooms "AXIS 207 + Dahua";
- 2 digital studio mixers for sound acquisition "ALLEN&HEATH iDR8";

- 20 analog audio mixers distributed across classrooms "PEAVY 10, PEAVY 8, PEAVY 6";
- 40 omnidirectional microphones, class "Electo Voice RE90B" and "Rode NTG-2", for sound transmission and acquisition;
- 19 preamplifiers "BEHRINGER MIC 100" with vacuum tubes and integrated limiter for audio signal acquisition;
- Video-conferencing system "TANDBERG MXP-75";
- Multimedia equipment for a 20-seat conference room equipped for digital multimedia data acquisition (audio, video, internet), "online, video-streaming", teleconferencing, and simultaneous translation;
- 2 digital phone exchanges "Ericsson BusinessPhone 250", with a phone network of 60 digital numbers, 20 analog numbers, 80 numbers in "DDI", with access to 8 "ISDN-BRA" connections, 1 primary "ISDN" with 100 numbers;
- 8 secretary phone devices "Ericsson Dialog 4223";
- 40 telephone devices "Ericsson Dialog 4222".

Implemented information and telecommunication technologies (in the work and teaching process at the University):

- All computers are connected to the Internet in 24/7 mode;
- "Microsoft" licensed operating system "Windows 7 and Windows 8" (60 units);
- "Microsoft" licensed operating system "Windows Server Standard 2012" (8 units);
- "Microsoft" licensed operating system "Windows DataCenter Server 2012" (4 units);
- "Microsoft" licensed operating system "Windows Server Standard Core 2016" (8 units);
- "Microsoft Office 365" five licenses per student for different system platforms (Windows, Android, iOS);
- "Core CAL Client Access licenses" (70 units);
- "Office Pro Plus 2013" (70 units);
- "SQL Server Standard Edition" (2 units);
- "Frfrnt Identity Mgr CAL" (70 units);
- "Frfrnt Identity Mgr Server" (1 unit);
- "Windows 11/10 Pro Upgrade" (17 units – in the procurement process due to migration);
- "Windows 11 PRO OEM" (6 units – in the procurement process due to migration);
- "Windows Server 2022 Datacenter" (1 unit), - "TURNITIN software" for anti-plagiarism;
- Internet radio and television platform based on "Linux" and "PHP" technologies;
- "Microsoft Office 365 Cloud" with integration into the University's active directory;
- "Adobe CS5" complete package license (1 unit – 5 devices);
- "ABBYY Flexi Capture" licensed software for scalable and automated processing of structured and unstructured data, as well as export of desired documents to databases or existing information systems and other applications;
- The primary optical link to the Internet is symmetrical, with a speed of "40 Mbps to 100 Mbps";
- "Backup" internet link based on "Wi-Fi" technology with a symmetrical speed of 40 Mbps;
- WLAN network protection technology based on "Cisco ASA 5500 Adaptive Security";
- "SSL VPN" connection with "3DES" encryption algorithm to remote locations in the distance learning system;
- "PKI" information system infrastructure with traffic encryption, digital certificate technology, and issuance of public and private keys, as well as 32-bit "SMART" cards for authentication of access to network and application resources and "WEB" services;
- "Windows Server 2008, Windows Server 2008R2, Windows Server 2012" operating system on 7 server devices, Windows Server 2019 (one machine – migration process ongoing);
- "AV- AntiVirus KASPERSKY Business Space Security" (100 licenses);
- "Firewall Fortigate 80F – SMB Protection"

(annual protection license): software technologies for traffic control from the corporate network to the Internet.

Integrated Information System: Subsystems of the integrated University information system:

1. System resources (server, network, and telecommunication);
2. Information subsystem for the security of the integrated University information system – "eSecurity";
3. Information subsystem "Development and planning of teaching and working processes" – "eFaculty", which provides processing and support for student enrollment, human resource management at the University, student services, as well as the development and planning of the teaching process (including application modules: student enrollment, human resource management, University Student Services, development and planning of the teaching process, monitoring of the teaching process, personnel records, and academic staff management, student enrollment, student services, evaluation of student performance, and quality assurance), academic/scientific staff dossier;
4. Information subsystem for "Digital Education" – "MS Teams";
5. Information subsystem for "Scientific Research Activities" – "eResearch", which includes the recording and monitoring of scientific research and other projects, the application module for the Institute, monitoring and support for scientific conferences organized by the Pan-European University, and support for the University's innovation center;
6. "Library and Publishing" information subsystem – "eLibrary", which includes the application module for the Library of the Pan-European University, monitoring of the University's publishing activities, monitoring and support for scientific and professional journals published by the Pan-European University, management of public scientific information databases ("EBSCO", etc.);
7. "Business information subsystem of the University" – "eUniBusiness", which includes application modules: fixed assets, financial accounting, goods accounting, material accounting, personnel records, payroll calculation, cash operations, "WEB" commerce, global records of business partners, monitoring of administrative, technical, and managerial work processes;
8. Information subsystem for document management – "eDocument";
9. Information subsystem for "Marketing and Public Relations" – "UniPR & Marketing";
10. Management information subsystem for University management – "eUniMIS";
11. Information subsystem for "Social Networking and Labor Market" – "eAlumni".

All listed software packages and technologies are licensed, in the process of being licensed, or utilize a version that does not require licensing. The University serves as a testing center for leading global companies providing these services worldwide: "Pearson Vue" from England and "Certiport" from the USA.

Multimedia Computer and Technological Resources:

1. Audio-Video Processing Laboratory:

- Multimedia workstations: 3 units
- CPU Core i7
- RAM DDR3 16GB
- Graphic Card: GEFORCE GTX 850
- SSD 500GB, HDD 4TB
- Audio Card: M-AUDIO Audiophile 192
- Windows 10 Pro
- Office 365 – WaveLab6
- Sony Sound Forge 10
- Corel Draw X7
- LCD Monitor
- Dell 24" (6 units)
- Ableton Live 9 Suite (Full Feature Set, 3000+ Sounds 54GB, 9 Instruments, 41 Effects)
- Ableton Live Push (Dedicated hardware for complete integration with Live 9) – LG-TV 42" (Full HD)

2. TV Studio:
- OBS Open Broadcaster Software
- Camera: Sony HVR-Z7u
- Digital SLR cameras
- Nikon D5000
- Nikon D750
- Nikon D90
- LED Lighting: FloLight MicroBeam 1024 (4 units)
- Microphone: Shure PGX1 (2 units)
- Mixer: Peavey PV6
- Smart TV: Sony Bravia 42”

3. Radio Studio 1:
- Digital mixer: Presonus Studio Live 16.4.2
- Analog mixer: Carvin Concert Series C844
- Microphone: Shure SM7B (2 units)
- Samson CM20P
- Lavalier microphones: Shure PGX1 (5 units)
- CD Player: Station C.502
- Audio Monitor: Dynaudio Acoustic BM6A
- Headphones: Shure SRH 840 (2 units)
- UltraQuiet Systems PC (3 units)
- CPU i3 8100
- RAM DDR3 8GB
- SSD 256GB
- Audio Card: M-AUDIO Delta 1010LT
- Windows 7 Pro – Office 2013 Pro
- WaveLab6
- RadioBOSS
- Shoutcast (Radio Broadcast server)
- Spectar 3.5 (Radio Broadcast server)
- LCD Monitor – LG 22”

4. Radio Studio 2:
- Voice Processor – “TL Audio 5051 – Mono Tube Voice Processor”
- Audio Card – “Focusrite Scarlett 6i6 USB”
- Audio Monitor – “Adam F5 ProAudio”
- Microphone – “Shure SM7B”
- Headphones – “Shure SRH-440” (2 units)
- “UltraQuiet Systems PC” (3 units)
- CPU i3
- RAM DDR3 8GB
- SSD 256GB
- Audio Card – “M-AUDIO Delta 1010LT”
- Windows 7 Pro
- Office 2013 Pro
- PreSonus Studio One

5. Multimedia Computer Lab:
Workstations (13 units)
- **Hardware:**
  - “CPU Core i7”
  - “RAM DDR3 16GB”
  - “SSD 1x500GB”
  - “Geforce 210”
  - “Monitor Asus 22””
  - “Windows 10 Pro”

- **Software:**
  - “Adobe Photoshop”
  - “Adobe Illustrator”
  - “Adobe Audition”
  - “Adobe Acrobat”
  - “Adobe After Effects”
  - “Adobe Premiere”
  - “3DS Max Studio 2023”
  - “Maya 2023”
  - “Office 365”

- Smart Board – “Prestigio MultiBoard 70 G-series”
- Audio Distribution System – “iDR-8 – Allen & Heath”
- Microphone – “Rode NTG2”
- Microphone – “Shure PGX1”
- Mixer – “Peavey PV10”
- Audio Amplifier – “Apart Audio MA125”
- Speakers – “Apart COLS41”
- Camera – “AXIS 1051”
- TV – “LG 50” Full HD”

6. Telecommunications Equipment
(related to TV studio):
- Server – “HP DL380 G7”
- “Switch – Cisco 2960”
- “Switch – Cisco SG200-26”
- Broadband Symmetrical Internet Link – Optical

SUPPORT PROVIDED BY THE ICT LABORATORY FOR STUDENTS STUDYING OUTSIDE THE UNIVERSITY HEADQUARTERS

Licensed departments of the Pan-European University "APEIRON" enable the teaching process to be organized in full capacity outside the headquarters for study programs authorized for operation in those departments. The departments, or study centers, also provide adequate informational, communication, professional, consulting, logistical, and administrative support to all students from the geographical areas covered by the department (study center), regardless of the enrolled study program.

Administrative-Technical Support:

- Informational and technical support during student enrollment across all study programs, including providing information, forwarding enrollment, technical, pedagogical, and marketing materials related to enrollment, and collecting student applications.
- Receiving all written submissions from students and forwarding them to the headquarters, as well as providing feedback to the applicant.
- Providing information about the class schedules for all study programs at the University's headquarters and departments for all student categories: regular, part-time, and distance learning students.
- Collecting, verifying, and forwarding exam applications from students to the responsible teaching staff.
- Determining lists of students from the department's region for part-time studies and exam session attendance.
- Providing information related to student services (exam sessions, exam results, etc.).
- Organizing and collecting student surveys.

In addition to the mentioned features, the following functions are also provided:

Access to the internet via high-speed broadband connection that ensures fast, efficient, comfortable, and high-quality internet usage for both downloading content from the internet and uploading queries and results of student work (e.g., submitting seminar papers and other written work through the university's "WEB-mail" service).

A sufficient number of multimedia computer systems are networked within the local network of the study center itself. The multimedia capabilities of the computers enable video and audio communication in educational forums and online sessions organized at the University's headquarters and in other organizational units of the University, direct online communication and consultation with professors, professional associates, or fellow students in specific interest and working groups.

Access to other input-output network devices (printers, plotters, scanners) and other electronic equipment installed within the department's local network is provided, creating conditions for free support to all Pan-European University students for printing and scanning documents, computer graphics, preparation of seminar and other student papers, research activities, and practical student work.

Study centers are designed to enable group, collaborative, and classic individual student learning, as they are equipped with standard academic reading rooms in addition to computer equipment. Each center is also equipped as a regional library of the Pan-European University.

In study centers, students are provided direct insight into part of the teaching process conducted at the Pan-European University through online teleconferencing, as well as insight into the teaching process conducted at the University's headquarters, broadcasted via video streaming. This service is particularly intended for students who do not have adequate broadband access to high-speed internet.

The centers are fully equipped with the necessary audio equipment, video projection equipment, and teleconferencing equipment. Within the study centers for supporting distance education at Pan-European University, certain professional-pedagogical support is provided to all students, regardless of their enrolled study program.

Learning, Individual and Group Work for Students/Study Outside of the Headquarters

- Individual learning by students through the internet, accessing the Pan-European University's distance learning system and other knowledge bases and educational resources online.
- Individual learning by students using written sources and printed textbooks in the study center's reading room.
- Group learning by students via the internet on educational forums formed for each course or specific scientific area within the distance learning system.
- Online verbal and written consultations with teaching and associate staff.
- Collaborative learning among students in workgroups within the study center premises.
- All forms of practical work and student research projects requiring computer, telecommunication, and information support.

Teaching Activities/Study Outside of Headquarters

- In study centers organized in departments, only consultative, or instructional teaching, is conducted. Contact teaching will not take place for study programs that are not licensed in specific departments. The full teaching process for part-time students is organized at the University's headquarters.
- In study centers, ad-hoc consultations with mentors, tutors, teaching, and associate staff will be organized as needed or at the request of students.
- Seminars, conferences, round tables, and various forms of pedagogical workshops held in departments are available to all students of the Pan-European University.

DATA ON INTERNET PAGES ADVERTISED BY THE PAN-EUROPEAN UNIVERSITY "APEIRON"

- **http://naucnikarton.apeiron-uni.eu/** – Through the "Scientific/Academic Staff Dossier" application, all participants in the teaching process at the Pan-European University "APEIRON" are presented to the public. The web application is linked to the institution's integrated information system. Data entered into the Human Resources Management information subsystem, relevant to the academic/scientific staff dossier, is retrieved in real-time into the web application and becomes immediately available to the public.

DATA ON PARTNERS – ICT SERVICE PROVIDERS

The Pan-European University "APEIRON", in line with its developmental needs, has established collaborations with a wide range of partners providing services in the field of information and communication technologies. According to available data from the academic year 2023/2024, the following ICT systems from partners are in use at the University:

- **"MICROSOFT"** – Office 365 A1 for students + Cloud Exchange Mail. The A1 package is intended for educational institutions and students, including some basic tools and services. "Microsoft Office 365 Cloud" is integrated with the University's active directory.

- **"TURNITIN"** – "TURNITIN software" for anti-plagiarism. Turnitin is a software tool used for checking the originality of textual content, such as essays, seminar papers, theses, dissertations, and other works, identifying similarities with already existing materials on the internet and in its database. It uses advanced algorithms to detect plagiarism and provides detailed originality reports, thereby assisting academic institutions in maintaining the integrity of learning and research. Additionally, it offers tools for feedback and grading, facilitating professors in efficiently managing teaching and assessing student papers.

Strategic Partner: The University's strategic partner for developing ICT systems is the company "MEDIA PRO" Prijedor. This company developed the University's information system with subsystems:

- **"Ekonomika"** (business information system with the following application modules: Finance, Payroll, Goods and Material Management RMP, Personnel, Cash Operations, Fixed Assets).
- **eDocument**, **eLibrary**, **eLearning**, **eUniMIS**, and a Learning Management System (LMS) are interconnected and integrated, providing a unified informational basis as a single management decision support information system (Decision Support System – DSS).

Additional information systems include:

- Information Subsystem for "Development and Planning of Teaching and Working Processes" – **"eFaculty":** Provides processing and support for student enrollment,

human resource management at the University, Student Services, and the development and planning of the teaching process. This includes application modules such as student enrollment, human resource management, academic staff management, student evaluations, and quality assurance.
- Information Subsystem for Scientific Research Activities – **"eResearch":** Includes recording and monitoring of scientific research and other projects, the Institute's application module, monitoring and support for scientific conferences organized by the University, and support for the University's Innovation Center.
- Library and Publishing Information Subsystem – **"eLibrary":** Includes the application module for the University's Library, monitoring of publishing activities, support for scientific-professional journals, and management of public scientific information databases ("EBSCO", etc.).
- Business Information Subsystem of the University – **"eUniBusiness":** Includes application modules for fixed assets, financial accounting, goods accounting, material accounting, personnel records, payroll, cash operations, "WEB" commerce, and global records of business partners.
- Information Subsystem for Document Management – **"eDocument".**
- Information Subsystem for Marketing and Public Relations – **"UniPR & Marketing".**
- Management Information Subsystem – **"eUniMIS".**
- Information Subsystem for Social Networking and Labor Market – **"eAlumni".**

In the field of network infrastructure, the University has developed a partnership with the company TELEKLIK, regarding internet links:
- Primary optical link to the Internet with a symmetrical speed of "40 Mbps to 100 Mbps";
- "Backup" internet link based on "Wi-Fi" technology with a symmetrical speed of 40 Mbps;
- "Firewall Fortigate 80F – SMB Protection" (annual protection license): software technologies for controlling traffic from the corporate network to the Internet; Ordering licenses for workstations and servers.

In the field of landline ixed telephony, internet, and mobile telephony services, ihe University collaborates with the following partners:
- "TELEGROUP" – landline telephony services;
- SUPERNOVA – "Wi-Fi" Internet via optical infrastructure with a capacity of "50/3 Mbps";
- M:TEL – mobile "VPN" telephony. The "TOTAL GROUP" service allows M:TEL's business subscribers to create a private telephone network ("VPN groups") whose members enjoy benefits in mutual communication.

"Digital Education" Concept

- Purpose of implementing the "Digital Education" Concept: Integration of digital technologies into the educational process.

- Key Elements of the "Digital Education" Concept:
  - Online learning platforms.
  - E-learning courses
  - Interactive content
  - Digital literacy
  - Virtual laboratories and simulations
  - Collaboration with other institutions
  - Support and training for teaching staff
  - Focus on a "student-centric" approach

The concept of "digital education" at the Pan-European University "APEIRON"

GENERAL SETTINGS OF THE "DIGITAL EDUCATION" CONCEPT

The "digital education" concept at the Pan-European University "APEIRON" encompasses various aspects related to the integration of digital technologies into the educational process. The key elements of this concept are presented through the following forms:

1. **Online learning platforms**: Utilizing Learning Management Systems (LMS), such as Microsoft Teams, which provide students access to teaching materials, exercises, online tests, and communication with lecturers.

2. **E-learning courses**: Developing and implementing online courses that enable students flexibility in learning and access to educational content from any location.

3. **Interactive content**: Incorporating multimedia resources, video lectures, virtual simulations, and other interactive tools that encourage active learning and student engagement.

4. **Digital literacy**: Training students in digital skills, including the use of digital tools, internet security, and critical thinking about information available online.

5. **Virtual laboratories and simulations**: Equipment and tools for conducting virtual experiments, particularly significant for technical and natural sciences.

6. **Collaboration with other institutions**: Partnerships with other universities and organizations to exchange resources and best practices in the field of digital education.

7. **Support and training for teaching staff**: Investing in the training and professional development of instructors to ensure effective use of digital technologies in teaching.

8. **Focus on the "student-centric" approach**: Developing educational programs tailored to the needs and interests of students, often using digital tools for personalized learning.

These elements collectively contribute to the modernization of the educational process at the Pan-European University "APEIRON" and enable the acquisition of contemporary knowledge and skills necessary in today's digital society.

IMPLEMENTATION OF THE "DIGITAL EDUCATION" CONCEPT

The Pan-European University "APEIRON" conducts the educational process as a synthesis and combination of classical educational forms, innovated into interactive teaching, and modern educational forms of next-generation digital education, strongly supported by information-communication technologies (ICT).

The institution implements an integrated blended learning model, which assumes the synthesis of contact teaching, digital online teaching, distance education, and mobile education. It combines various forms of delivering teaching content (project-based learning), teaching methods, and educational styles that favor: problem-based learning, project-based learning, symbiotic learning, as well as research and practical work.

Types of teaching implemented at the Pan-European University "APEIRON":

1. Contact Teaching: In-person classes with physical presence of teachers and students.
2. Digital Online Teaching

Some live lectures, occurring as classical teaching with the physical presence of teachers and students, are simultaneously broadcast online via the "Microsoft Teams" system on the appropriate course channel. This mode of teaching is organized for courses where attendance of more than 50 students is planned.

This introduces a spatially asynchronous model of the digital teaching process, providing additional support to students who, for various reasons, are unable to directly consume the teaching process from the classroom.

Ways of conducting digital online teaching:

- Broadcasting contact teaching from a classroom or other teaching space, and
- Broadcasting contactless teaching from a classroom, office, or other designated space.

Material Support for Digital Education

All classrooms at the Pan-European University "APEIRON", both at its headquarters and in its licensed departments, are digitalized and equipped with multimedia equipment for digital content acquisition, as well as professional teleconference and telecommunication equipment. This enables the application of the most modern methods in conducting the distance learning teaching process.

The Information and Communication Technology Laboratory is particularly equipped for the development and maintenance of internet services introduced at the University, as well as for the development of multimedia applications and an information security system. The University has implemented an integral University Information System and an information system that supports distance education.

Recordings of all lectures and other pedagogical activities and events from classical teaching for all courses are available in the University "Microsoft Teams" system no later than two days after the lectures take place. These recordings are uploaded to the appropriate channel associated with the course. Students will have unlimited access to lectures at any time via the University's "Microsoft Teams" system. This introduces a fully spatially and temporally asynchronous model of digital education as an additional form of support for students who were unable to attend the teaching process directly.

Additionally, students have access to edited recordings of all lectures for a specific course from the last three academic years ("MS Teams" – the learning system platform), as well as recordings of the complete ongoing lectures for every course in individual study programs.

CONSULTATIONS WITH STUDENTS

Live consultations (with the physical presence of teachers and students)

At the end of each completed lecture cycle, one block of live consultations is obligatorily organized for all courses and modules within the final lecture slot. This is designated for holding consultations and for preparation for exams.

Online Consultations

Mandatory online consultations are organized before each exam session. They are conducted

according to a published schedule, typically in one teaching block during the week prior to the exam schedule.

In addition to pre-exam online consultations, students are also entitled to continuous online consultations with teaching staff. Online consultations are generally conducted through written or electronic mail, other telecommunication, and software tools within the "MS Teams" application (announcements, chat/messages, notifications, meetings, collaborative work). They are also conducted via the "Microsoft Email" service established at the University and by telephone.

Continuous consultations carried out in written form are published by the teacher in response to student queries sent via email or text messages on the course channel. The teacher's responses to one student are made available to all other students in the group.

The consultation schedule is published on the faculty bulletin board and the University's "WEB" page. Detailed instructions on joining and using the "Microsoft Email" service and "MS Teams" tools are available on the University's "WEB" page in a special guide titled "Microsoft Teams for Education – Quick Start Guide for Students."

Regarding the use of digital services at the Pan-European University, first-year students undergo special training within the course titled "Study Orientation", typically organized at the beginning of the academic year.

All courses are already set up as informational channels in the "MS Teams" system within groups representing the University's faculties or organizational units. Logging into the "Microsoft Teams" service system is done directly from the University's "WEB" page. To log in, one needs to know their username and access password, which were previously set up by the University's service for all teachers and students.

DISTANCE LEARNING SYSTEM – "MS TEAMS"

All lectures, exams, and other teaching activities, including those conducted in laboratories, clinics, or in the field (e.g., activities in sports sciences), are recorded, then digitally processed in the Information and Communication Technology Laboratory, and finally optimized for distribution within the distance learning system and for control functions.

To ensure textbook support for the distance learning system, the Pan-European University "APEIRON", as a licensed publisher, has provided all textbooks, presentations, and other written sources in electronic format through a network of copyright protection agreements via its own publications, making them available in both print and electronic "WEB" editions.

Each student has access to the following materials through the distance learning system "MS Teams":

- Video recordings of all lectures, exercises, and other teaching activities for each course, including presentations used during teaching, organized within a unified timeline.
- Audio recordings and audio extracts from recorded lectures.
- Textbooks in hypertext electronic format and PDF files.
- All other written sources used in course processing, available electronically.
- Electronic presentations of all teaching content.
- Audio versions of certain textbooks.
- Video clips, animations, photo series, and slides used as supplemental educational resources, available in electronic format.
- Access to licensed databases, scientific periodicals, and knowledge bases subscribed to by the Pan-European University.

All students at the Pan-European University "APEIRON" are provided full access to the distance learning system. Each student receives user credentials to access multimedia content for their respective courses. Materials in the system are logically organized for ease of use and satisfaction during work. The "MS Teams" distance learning system reduces travel costs for students, ensures availability of textbooks and presentations, and offers flexibility in all aspects of learning. The system enhances classroom teaching, whether traditional or ICT-supported multimedia teaching, aiming to enrich knowledge in a new and engaging way. It also allows complete control over multimedia content published within the distance learning system.

Approximately 10,000 hours of video material containing recorded teaching activities have been published within the distance learning system.

ACADEMIC ELECTRONIC SERVICES

Students use the following academic electronic services developed within the integral information system of the Pan-European University:

- Resources of the distance learning system
- E-consultations and online teaching
- Interactive and collaborative (group) online learning
- Advanced forms of multimedia student communication via the "APEIRON" web service
- E-library with internet access to all electronic textbooks and books
- Access to leading global scientific journal and e-book databases
- "APEIRON" web-mail electronic service
- "APEIRON" web bulletin board
- University "FAQ" service
- Electronic versions of mandatory surveys conducted at the University
- Resources of the University Career Guidance Center
- "MS Teams" service for advanced online communication, enabling interactive video sessions, document sharing, event recording, and other forms of interaction
- Access to several other academic services developed in web-based electronic format.

Students, lecturers, and administrative staff can use all applications from the "Microsoft Office 365" package, allowing free usage of the Microsoft email service, document editing and storage online, the capability to hold web conferences, and file sharing. This intensifies communication and boosts the productivity of academic processes.

Anti-Plagiarism Service: The anti-plagiarism service is crucial as one of the key tools for preserving the quality and authenticity of written works. Its use is mandatory for all teaching staff at the University.

Microsoft Office 365 includes:

1. Outlook: Student email with added benefits;
2. Office applications (Word, Excel, PowerPoint, OneNote);
3. Web services (OneDrive, SharePoint, and others);
4. Cloud services;
5. Microsoft Teams.

Outlook: A service for sending emails that is part of the "Office 365" package offered by Microsoft, including task management, a calendar, and contact organization. Students receive a university-provided email with additional internet benefits due to long-standing collaboration with Microsoft. Many services offer free benefits for students.

Office Applications: University-provided free access to applications like Word, Excel, PowerPoint, and OneNote, available online or downloadable for five devices.

Cloud Services: Hosted on Microsoft servers (cloud), including OneDrive (1TB for storage) and SharePoint for file sharing.

Microsoft Teams: The primary system for conducting digital online teaching at "APEIRON", offering features like interactive video sessions, document sharing, event recording, and more.

Quality Assurance Center

- Functional Unit of the University: Since 2012
- Head: Doc. Dr. Živana Kljajić (2023–)
- Responsibilities: Ensuring and improving quality at the University
- Quality management system achievements at the University[1]:
  - Accredited institution and study programs. Accreditation validity period: until November 24, 2028 (Agency for Higher Education of Republika Srpska – AVORS)
  - Listed in the National Register of Accredited Higher Education Institutions and Study Programs. Accreditation validity period: from August 15, 2007, to November 24, 2028 (Agency for Development of Higher Education and Quality Assurance of BiH – HEA BiH)
  - Compliance with the Standards and Guidelines for Quality Assurance in the European Higher Education Area (ESG:ENQA)
- Number of staff employed: 3

Doc. Dr. Živana Kljajić, Head of the Quality Assurance Center at the Pan-European University "APEIRON" since 2023

HEAD

Doc. Dr. Živana Kljajić, Assistant Professor of Economics, was born on June 6, 1971, in Banja Luka. She graduated in 2009 from the Faculty of Business Economics in Banja Luka, where she also defended her Master's thesis in 2014 on the topic "TQM – Total Quality Management System as a Factor of Company Success." In 2022, she defended her doctoral dissertation and was promoted to Assistant Professor in December 2022. From 2010, she worked as a professional associate and was promoted to Senior Assistant in 2014. She has been a long-standing member of the editorial board of the renowned scientific journal EMC Review and an active participant in the international scientific conference Powercomm. She is also a member of the editorial board of the international journal AGORA. She was appointed Head of the Quality Assurance Center of the Pan-European University "APEIRON" in 2023.

FORMATION AND DEVELOPMENT

The Quality Assurance Center was established as a functional unit of the Pan-European University "APEIRON" in the academic year 2011/2012. The Center is responsible for ensuring and improving quality at the University (Article 253 of the Statute).

The Center monitors, proposes, implements, and controls the application of the Standards and Guidelines for Quality Assurance in Higher Education. It develops internal and external evaluation procedures, methods for exploring different aspects of quality improvement in education, and collects, analyzes, and processes information from all stakeholders and system users.

The Quality Assurance Center collaborates with all organizational units, professional services of the University, and representatives of the Uni-

[1] Information about the accreditation process for higher education institutions and study programs is provided in Chapter 1 of this publication, under the title "Accreditation".

versity's student body. According to the University's Statute, the Quality Assurance Center provides administrative and technical support in the quality assurance process. The Center serves as a functional unit of the University, supporting teaching, scientific research, and artistic work.

In accordance with the Quality Assurance Rulebook, the Center's responsibilities include:

- Establishing and improving the quality assurance network at the University and integrating it into national and international frameworks;
- Proposing standards and criteria for quality institutional functioning;
- Providing advice and recommendations to organizational units of the University to improve quality;
- Preparing, organizing, and coordinating evaluations of different segments of the University's functioning;
- Creating and maintaining relevant quality assurance documentation;
- Organizing seminars and workshops in the field of quality assurance;
- Providing and organizing professional development for teaching staff, associates, and management;
- Gathering information on system functionality quality through surveys;
- Ensuring feedback from students and directing their suggestions, proposals, and criticisms;
- Organizing, conducting, and processing student surveys related to teaching staff performance;
- Defining criteria for the University's efficient functioning;
- Gathering, processing, and analyzing information on quality from all users;
- Establishing a system of internal control and fundamental assumptions for quality management;
- Developing procedures for external and internal evaluations;
- Actively participating in the University's accreditation process in collaboration with the Agency for Higher Education of Republika Srpska.

The Quality Assurance Center collaborates with all organizational units and professional services of the University, and representatives of the student body actively participate in its programs and activities.

Staff

The Quality Assurance Center employs qualified personnel in the positions of senior officer, expert associate, administrator, and head of the Center. Throughout the history of the University, the following employees of the Pan-European University "APEIRON" have worked in the Center:

- Vanja Sredojević – Center Administrator – Senior Officer (PR, Career Guidance Center) from 2012 to 2018
- Rastko Milić – Center Administrator – Senior Officer (PR, Career Guidance Center) from 2012 to 2016
- Živana Kljajić – Quality Assurance Expert Associate (2015–2023); Head of the Quality Assurance Center (2023 to present)
- Elveldina Tatarević – Head of the Career Guidance Center from 2015 to 2022
- Anja Dragojević – Quality Assurance Expert Associate in 2022; Quality and Project Development Officer (2022–2023); Center Administrator – Senior Officer (Career Guidance Center) from 2023 to present
- Tanja Škorić Marjanac – Quality Assurance Expert Associate (2023 to present)
- Dragana Bulut – Quality Assurance Expert Associate (2024 to present)

Tanja Škorić Marjanac – Expert Associate for Quality Assurance, since 2023

QUALITY

The quality policy of the Pan-European University in the field of higher education is a priority in the overall business strategy of the institution. The goal is continuous improvement while fulfilling the requirements and meeting the needs of students, academic and business partners, employees, and society as a whole. Internal and external quality assurance procedures, standardized and aligned with the quality objectives and policies of the Pan-European University, are fully compliant with national and international higher education standards. Relevant standards for higher education in Republika Srpska and Bosnia and Herzegovina include the "Standards and Guidelines for Quality Assurance in the European Higher Education Area" adopted in 2005 by the European Association for Quality Assurance in Higher Education (ENQA), the Law on Quality Assurance in Higher Education RS (Official Gazette RS 67/20), the Rulebook on Accreditation of Higher Education Institutions and Study Programs, and the Standards for Accreditation of Higher Education Institutions and Study Programs adopted in 2022 by the Agency for Higher Education Development of RS. By prioritizing quality in its business policy, the University ensures the highest quality teaching and research services, consistent with the needs and expectations of its students and society as a whole. It provides a safe and healthy environment for all employees while continuously improving business processes and the overall system. The management of the Pan-European University "APEIRON" bears special responsibility for quality and its continuous improvement. Ensuring quality is the responsibility of every employee concerning the tasks they perform. (Career Guidance Center, 2024).

Quality Policy

Vision of the institution is to establish itself as a leader in higher education, professional training, and scientific research within the region, meeting the highest European standards in organizing studies, applying didactic methods, and creating curricula based on the best practices and traditions of American colleges, European universities, and the reform principles initiated by the Bologna Process of restructuring the European higher education system. The Pan-European University is capable of achieving a high level of academic and scientific processes in alignment with integration processes defined by the Bologna Declaration, ensuring quality services that provide lasting trust and satisfaction for students, industry, and society.

Quality policy of the Pan-European University "APEIRON" is a priority in its overall business strategy, aimed at continuous progress while fully meeting the demands and needs of all service users, business partners, employees, and society as a whole.

The quality management system focuses on continuous improvement of academic and scientific processes, along with ongoing innovation in workflows. It is based on ESG quality standards and will continuously direct resources towards the development of the quality system through internal and external system checks as part of the business strategy.

The management of the Pan-European University "APEIRON" holds a special responsibility for quality and its ongoing improvement. Ensuring quality is the duty of every employee concerning the tasks they perform.

Mission of the Pan-European University "APEIRON" is to contribute to improving the quality of life of the population and to take a significant role in the country's economic development by organizing academic studies for youth and lifelong learning programs. The University aims to educate future leaders capable of creating sustainable social, economic, and technological strategies for the country. It seeks to value human resources, preparing the young academic generation to face their civic and economic environment and challenges of the future. The University will continually improve the quality of teaching programs, develop the highest quality standards, and affirm the highest standards of teaching and evaluation of acquired knowledge. The quality policy is mandatory for all participants in the University's workflows.

Quality Objectives

The general objectives of the quality management system are:

- Maintain an effective Quality Management System at the Pan-European University "APEIRON" in accordance with international standards ISO 9001:2008 (Quality Management Systems – Requirements).
- Achieve and maintain a level of quality that enhances the reputation of the Pan-European University "APEIRON" among our students and other stakeholders.
- Provide the highest quality academic and scientific services tailored to the needs, expectations, and capabilities of our students and other stakeholders.
- Continuously increase the satisfaction of our students and other stakeholders.
- Ensure compliance of the University's operations with legal and safety regulations.
- Ensure a safe and healthy environment for all employees.
- Continuously improve our business processes, systems, and capabilities to increase the value of our services.

The highest management of the Pan-European University "APEIRON" has ensured that quality objectives are established at relevant functions and levels within the University. These objectives are measurable and aligned with the quality policy. Quality objectives are set across all relevant functions and levels within the University.

To fulfill its mission, Pan-European University "APEIRON" continually monitors, analyzes, and improves its processes through:

- Analysis of feedback responses;
- Monitoring the implementation of the teaching process;
- Analysis of study success;
- Monitoring the implementation of service processes;
- Applying methods and techniques for

Activities of the staff of the Quality Assurance Center – work meetings, seminars, and workshops for the implementation of the University's accreditation process

quality improvement;
- Tracking and analyzing business plans;
- Conducting internal audits;
- Executing corrective and preventive actions.

In this manner, continuous improvement of the established quality management system is ensured. The primary goal of the quality system is to achieve the highest quality in the provision of educational services, scientific-research activities, and non-teaching services. The quality management system is designed to meet the requirements of international standards in education and the Standards and Guidelines for Quality Assurance in the European Higher Education Area ESG:ENQA.

Internal Evaluation of the Quality System

In accordance with the Standards and Guidelines for Quality Assurance in the European Higher Education Area and Accreditation Criteria for Higher Education Institutions in Bosnia and Herzegovina, the University continuously conducts self-evaluation and assessment of the quality of its study programs, teaching, and measurement of user satisfaction. To successfully fulfill this requirement, the institution continuously surveys students in various areas, following quality assurance procedures for higher education institutions and self-evaluation criteria. Therefore, within the quality assurance system at Pan-European University, a set of student surveys has been established, along with defined rules for processing and interpreting survey results.

Career Guidance Center

- Functional unit of the University: Since February 12, 2011
- Number of student internship agreements with institutions and companies domestically and abroad:
  - In Bosnia and Herzegovina: 151
  - In Germany: 6
  - In the Russian Federation:[2] 8
- Employer and student meeting – "Career Days": Since 2018

Anja Dragojević, Center Administrator – Senior Officer (Career Guidance Center), from 2023 to the present

FORMATION AND DEVELOPMENT

The Career Guidance Center of Pan-European University "APEIRON" was established on February 12, 2011, with the aim of supporting students in developing knowledge and skills essential for professional advancement, playing a key role in their employment. Additionally, the center provides information on job offers, internships, seminars, training opportunities both domestically and internationally, as well as invitations for volunteer camps and scholarships.

The Career Guidance Center (College Career Guidance Center) develops a database within the University's information system to document the intellectual and professional capabilities of each student, the theoretical and practical knowledge they have acquired, and the established skills they have learned. This enables organized and systematic mediation in promoting University students to top companies and institutions, whether for organizing internships or for their further education and employment both locally and internationally (Article 253 of the Statute).

The primary goal of the Career Guidance Center is to create conditions for organized and systematic mediation in promoting Pan-European University "APEIRON" students in the job market (among companies and institutions), facilitating their employment, organizing student internships, or their further education and employment locally and abroad.

The second goal of the Center is to foster a university environment that enables and encourages the lifelong learning process (LLL – Lifelong Learning) of Pan-European University "APEIRON" students by raising awareness about the need for continuous learning and systematizing information about opportunities and options for further studies and learning through formal and informal methods at the University or within the higher education system both domestically and internationally. The assumption is that a student's career is not solely a work career, i.e., employment and progress at work or in the job market, but rather a life career that also encompasses further education, integration, and the interplay of formal and informal learning and work in building a personal curriculum and professional career for each student, which is an imperative of the knowledge society or learning society.

The third goal is to develop conditions through the Center's activities for formalizing and establishing the University's ALUMNI complex, which is not merely a group of former, current, and future students of Pan-European University "APEIRON" but also their mutual connections and influences derived from shared experiences during their studies

[2] Under the title International Cooperation with Educational Institutions from the Russian Federation (Chapter 4), more detailed information is given about international cooperation and student practices of the Faculty of Philological Sciences of the Pan-European University "APEIRON" with higher education institutions from Russia.

at the University. The Alumni network represents an organization that can play a significant role in lobbying and advocating for any significant social interests and values, as well as in promoting the University's interests. The Alumni network's role can also be significant in building the careers of individual students and members of the network.

The Center does not directly mediate in the employment of students but provides relevant employment information, connects students with employers for organizing professional internships, and organizes training sessions and seminars where students gain practical knowledge and skills. The Center's work includes, but is not limited to, the following activities:

Career guidance information:
- Providing information and counseling to students,
- Assistance with drafting resumes in English, German, and Serbian,
- Workshops, training sessions, and seminars for career development,
- Brochures with useful information for students.

Employment and networking with the business world:
- Information about job advertisements and available positions,
- Organizing professional internships in reputable companies, healthcare institutions, and government organizations,
- Presentations by successful local companies,
- Meetings with employers,
- Direct contact with the ALUMNA Employment Mediation Agency.

Counseling and education:
- Individual counseling for creating the "COMPETENCE PASSPORT",
- Workshops focused on developing business and negotiation skills,
- Simulated job interviews,
- Counseling for continuing education in the country and abroad.

The work of the Career Guidance Center involves analyzing all criteria related to the quality of working with students, preparing them for entering the job market, and improving the quality of study programs.

The Career Guidance Center at Pan-European University "APEIRON" traditionally organizes the event "Career Days" every year. This event is designed to provide students with the opportunity to directly interact with employers as they present their internship programs, scholarships, job openings, and other opportunities.

Career Days are intended for all students of Pan-European University "APEIRON", as well as alumni who have completed their studies. During these events, students have the opportunity to learn more about building a career in the corporate sector and internships in public administration institutions.

Special emphasis is placed on participation in internship programs and their importance for career development and integration into the job market. After completing an internship program, students have the opportunity to learn what to expect from the University's partner companies. Thanks to this event, many students gain the knowledge required for employment. A significant number of students have been employed in the same companies where they completed their internships. The Career Days event at Pan-European University "APEIRON" was first held in 2018 (May 30–June 1, 2018).

The Career Guidance Center office is located at the headquarters of Pan-European University in Banja Luka. The Center serves students of all years and cycles of study, as well as graduates and employees of Pan-European University "APEIRON."

Since its establishment, the following individuals have been engaged at or are currently employed in the Career Guidance Center office:
- Vanja Sredojević – Center Administrator – Senior Officer (PR, Career Guidance Center) from 2012 to 2018;
- Rastko Milić – Center Administrator – Senior Officer (PR, Career Guidance Center) from 2012 to 2016;
- Živana Kljajić – Quality Assurance Expert Associate (2015–2023); Head of the Quality Assurance Center (2023 to present);
- Elveldina Tatarević – Head of the Career

Guidance Center from 2015 to 2022;
- Anja Dragojević – Quality Assurance Expert Associate in 2022; Quality and Project Development Officer (2022–2023); Center Administrator – Senior Officer (Career Guidance Center) from 2023 to present;
- Tanja Škorić Marjanac – Quality Assurance Expert Associate (2023 to present).

STUDENT INTERNSHIPS

The university places significant emphasis on student development through various forms of internships, including paid, unpaid, and mandatory programs both domestically and internationally. The Career Guidance Center actively works to provide opportunities for students to participate in practical activities at prestigious companies, healthcare facilities, and government institutions within Bosnia and Herzegovina and abroad. By collaborating with over 150 organizations, the university enables students to develop skills and acquire practical knowledge necessary for their future careers. (Career Guidance Center, 2024)

Students in advanced years of study have the option to participate in internships, which can replace an elective subject and earn between 3 and 5 ECTS credits. Student experiences demonstrate that internships significantly enhance their knowledge and professional growth, comparing favorably to theoretical classes.

The Career Guidance Center (CGC) has organized a series of events and activities such as presentations on scholarships, volunteer programs, internships, and opportunities for continuing education abroad. This program has provided students access to the latest information about further education options, various training programs, as well as paid internships or work placements internationally.

CGC has also established numerous partnerships with relevant companies and institutions. Through the organization of internships in leading companies, healthcare facilities, and government institutions, CGC has enabled students to immerse themselves in the real-world business environment, helping them gain practical experience and prepare for their future careers after graduation.

Notable programs include internships at the company "EuroExpress brza pošta" d.o.o. Banja Luka and student internships in Germany for healthcare sciences students, which allowed students to explore specific business aspects and gain valuable experience. In collaboration with various organizations and agencies, CGC has provided students with a wide range of opportunities for internships, volunteering, and work placements abroad, further enhancing their readiness for the job market.

The Pan-European University "APEIRON" has concluded numerous agreements and contracts for student internships, which are administered through the Career Guidance Center and other university services.

For student internships in Bosnia and Herzegovina, the university has established agreements with 151 legal entities, while for students of the Faculty of Health Sciences at the Pan-European University "APEIRON" (PUA), six contracts for internships abroad (in Germany) have been secured.

The Faculty of Philological Sciences (PUA) has concluded eight agreements for international student exchange programs, including internships, with higher education institutions in the Russian Federation.

EDUCATION PROGRAMS FOR STUDENTS

The Career Guidance Center at the University "APEIRON" offers a diverse program of educational workshops, seminars, and training aimed at enhancing and preparing students for their future professional careers.

One of the key activities of the Center is the organization of workshops titled "BUSINESS CASE STUDIES – METHOD, ANALYZING AND SOLUTIONS", inspired by the methodology of solving real business challenges as applied at European universities. Prof. Dr. Vesna Damjanović, a professor at the Faculty of Organizational Sciences in Belgrade and a mentor at FON, led the workshop for Case Club APEIRON students, providing insights into the methodology of solving business cases and its application in marketing and entrepreneurship.

As part of the "Career Days" event, under the motto "BECOME EMPLOYABLE!", interactive workshops were organized to allow students to explore their potential and acquire necessary skills for a successful career. Workshops such as "Am I Entrepreneurial Material?", "How to Present Yourself to an Employer", "Communication and Presentation Skills", and "How to Make a Good PPT Presentation" focused on developing students' communication, presentation, and professional skills.

The project "EXPLORE THE PRACTICAL SIDE OF BUSINESS" enabled students to have direct contact with leading managers of the most successful companies, offering insights into the positive and negative aspects of modern business. Through this project, students visited companies like Info Media Group, Vitaminka, and Raiffeisen Bank, where they had the opportunity to talk directly with management and learn more about the operations and strategies of these companies.

Within the Case Study Club APEIRON, students actively participated in regional competitions in Belgrade and Zagreb, presenting their solutions to tasks set by Raiffeisen Bank. This form of collaboration with companies allows students to gain practical experience and directly apply theoretical knowledge from business cases.

In collaboration with the ALUMNA Agency in Banja Luka, the Career Guidance Center provides support to graduate students in employment, both through internship programs abroad and through counseling and education on employment opportunities, documentation preparation, and CV writing.

These programs are just part of the initiative of the Career Guidance Center at the University "APEIRON", which continuously works on connecting students with the business world and preparing them for a successful career in a modern environment.

International Relations Office

Functional Unit of the University: since 2019

Number of agreements with foreign higher education institutions (not including Erasmus+ program contracts): 61

Number of personnel involved: 3

FORMATION AND DEVELOPMENT

The International Relations Office (IRO) was established as a functional unit of the Pan-European University "APEIRON" during the academic year 2018/2019.

The International Relations Office of the Pan-European University "APEIRON" in Banja Luka plays a key role in building and developing international relations and academic cooperation. This office organizes various programs and activities that encourage student, teaching, and administrative staff mobility, as well as strengthening partnerships with foreign higher education institutions.

Special emphasis is placed on the Erasmus+ international exchange program, which represents one of the European Union's most significant tools for supporting education, training, youth, and sports across Europe. This program enables the students and staff of Pan-European University "APEIRON" to gain experiences abroad, enhance their knowledge and skills, and get acquainted with diverse cultures and educational systems.

Through participation in the Erasmus+ program, students, teaching staff, and administrative staff have the opportunity to engage in exchanges with many renowned universities across Europe. These exchanges not only contribute to personal and professional development but also enrich the University's academic environment with new ideas and knowledge. The International Relations Office actively informs and advises students on the opportunities provided by the Erasmus+ program, as well as on application procedures and ensuring financial support. Moreover, informative workshops and meetings with former program participants are organized to share their experiences and advice. Thanks to the active role of the International Relations Office, the Pan-European University "APEIRON" in Banja Luka strives to become an important contributor to the international academic community and provide its students with the best opportunities for education and experience on a global level. The main types and forms of international cooperation achieved by Pan-European University "APEIRON" are:

- mobility of teaching staff,
- mobility of students,
- mobility of non-teaching (administrative) staff,
- participation in joint educational and research projects,
- expansion and improvement of cooperation with universities,
- lectures by visiting domestic and foreign lecturers,
- participation of foreign professors in writing scientific papers published in the University's scientific periodicals,
- writing and publishing scientific and professional articles by the University's teaching staff in internationally recognized journals.

The documents used in the implementation of international cooperation are as follows:

- international cooperation strategy,
- Erasmus+ program guide,
- regulations on international mobility of students, teaching, and non-teaching staff within the Erasmus+ program.

From 2009 to 2024, the Pan-European University "APEIRON" concluded a total of 61 cooperation agreements with foreign higher education institutions. This record does not include agreements concluded within the Erasmus+ program and with Russia (Table 4).[3] Lista inostranih visokoškolskih

[3] In the title International Cooperation with Educational Institutions from the Russian Federation (Chapter 4), more detailed information is given about the international cooperation of the Faculty of Philological Sciences of the Pan-European University "APEIRON" with

International Cooperation within the European Union Program ERASMUS+

- Awarded the ERASMUS Charter for Higher Education for the period 2021-2027 (decision of the European Commission dated 26.6.2024)
- Number of agreements with foreign higher education institutions for the implementation of the ERASMUS+ mobility program (2020-2027): 15
- Number of participants in the ERASMUS+ mobility program (2020-2027): Outgoing mobility – students (44), staff (30) / incoming mobility – students (35), staff (28); Total: 137
- Program countries (10 countries) with which ERASMUS+ mobility agreements are implemented in the period 2020-2027: Serbia (1), Slovenia (1), Slovakia (1), Czech Republic (1), Italy (1), Spain (3), Bulgaria (1), Turkey (4), Latvia (1), and Poland (1).

EUROPEAN UNION PROGRAM ERASMUS+

Erasmus+ is the European Union program for education, training, youth, and sports, covering the period from 2021 to 2027 with a budget of €26.2 billion. Erasmus+ offers a wide range of opportunities for students, academic and non-academic staff to study or complete internships abroad, give lectures, pursue professional development, and build capacities and networks of cooperation between higher education institutions in EU member countries and other countries worldwide. The agreement between Bosnia and Herzegovina and the European Union on participation and the entry fee was signed in 2014. This agreement has allowed Bosnia and Herzegovina to participate in projects (learning mobility, cooperation projects, capacity building, policy reform support, youth activities, and the Jean Monnet initiative), European educational networks (Eurydice, Euroguidance, Europass), EQF (European Qualifications Framework), as well as IT platforms (eTwinning and EPALE). The implementation of the Erasmus+ program in Bosnia and Herzegovina is overseen by the National Erasmus+ Office in Bosnia and Herzegovina.

International Credit Mobility (KA107) is one of the most significant activities of the Erasmus+ program. It includes a specific period of studying or training abroad (aligned with the enrolled study program at the home university) to earn the required ECTS credits. Erasmus+ credit mobility is based on a previously signed interinstitutional agreement between two higher education institutions. At the end of the mobility period, students return to their home university to continue their studies. In essence, it involves mobility (studying or completing internships) outside the home university, lasting between one and two semesters (minimum 3 months, maximum 12 months) without the possibility of earning a degree.

Between 2020 and 2024, within the Erasmus+ program, Pan-European University "APEIRON" signed mobility agreements with 15 foreign higher education institutions from 10 countries – Serbia, Slovenia, Slovakia, Czech Republic, Italy, Spain, Bulgaria, Turkey, Latvia, and Poland (Table 5).

Outgoing mobility, according to Table 4, planned exchanges for 44 students and 30 teaching and administrative staff from Pan-European University "APEIRON." Incoming mobility from foreign higher education institutions in 10 program countries is planned for 35 student mobilities and 28 teaching and administrative mobilities. The total number of mobility agreements with partner institutions from program countries for the current period amounts to 137 individuals, representing a valuable potential to achieve full effects of international exchanges on the academic community and administrative staff of Pan-European University "APEIRON" in the medium and long term.

Thanks to the Erasmus+ project, our professors, students, and non-teaching staff have had the opportunity to visit universities across Europe, while also

hosting many foreign professors, students, and other staff from the partner higher education institutions of the University "APEIRON." As part of Erasmus+, we signed cooperation agreements with the Higher Business School B2 in Ljubljana, where our professors Jana Aleksić, Vesna Novaković, and Igor Grujić conducted lecture series for their students. Administrative staff, including Anja Dragojević, Živana Kljajić, Aljoša Kostić, Alen Tatarević, and Bojan Aleksić, also visited the school at different times. Additionally, "APEIRON" students Žarko Bajić and Ana Solarević spent one semester there, attending lectures and

taking exams, all conducted in English. "APEIRON" professors Darijana Antonić, Ljiljana Tadić Latinović, and Ilija Baroš visited the University of South Bohemia – České Budějovice in the Czech Republic, where they delivered lecture series to its students. Eleven of our students from the Faculty of Health Sciences spent two months at the same university and at the University Clinical Center in České Budějovice, attending practical lessons. Non-teaching staff, including Anja Dragojević, Filip Bajić, Živana Kljajić, and Elveldina Tatarević, also visited this Czech university. At Jan Kochanowski University in Kielce, Poland, "APEIRON" professor Vesna Novaković delivered lectures to undergraduate and master's students. Under a signed cooperation agreement with the University of Seville in Spain, "APEIRON" Rector Prof. Dr. Sanel Jakupović, Assistant Director for Legal Affairs Elveldina Tatarević, and Secretary Maja Dujaković spent seven days at this university.

Over the last three years, the University "APEIRON", as part of the ERASMUS+ program and incoming mobility activities, hosted the following guest lecturers who held lectures attended by our students:

- Nana Veber, professor at the B2 Business College in Ljubljana;
- Katarina Aškerc, professor at the B2 Business College in Ljubljana;
- Marcela Mikova, professor at the University of South Bohemia – Czech Republic;
- Sükrü Anıl TOYGAR, professor at Tarsus University in Turkey;
- Krzysztof Sielski, professor at Jan Kochanowski University – Kielce, Poland; and
- Anna Dybala, professor at Jan Kochanowski University – Kielce, Poland.

ERASMUS CHARTER FOR HIGHER EDUCATION

By the decision of the European Commission dated June 26, 2024, the Pan-European University "APEIRON" in Banja Luka was awarded the Erasmus Charter for Higher Education (ECHE) for the period 2021–2027 (European Commission, 2024).

The Erasmus Charter for Higher Education serves as a general qualitative framework for higher education institutions for conducting European and international cooperation activities under the Erasmus+ program. The awarding of this Charter recognizes the commitment of the Pan-European University "APEIRON" to enhancing the quality of work and teaching processes, as well as fostering internationalization and improving international cooperation, especially in the area of student and staff exchanges and participation in international projects. This Charter also enables participation and implementation of Erasmus+ projects during the period 2021–2027. ECHE is a fundamental requirement for all higher education institutions in program-participating countries that wish to engage in individual learning mobility and/or collaborate to achieve innovation and best practices under the Erasmus+ program.

The principles of the Erasmus Charter for Higher Education have been adapted to the new priorities of the Erasmus+ program for the period 2021–2027, such as digitalization, inclusion, and sustainability. In this regard, some of the most important novelties of the Charter are the determination to reach underrepresented groups in mobility through inclusion strategies, the application of green practices in the organization of Erasmus+ program activities, the implementation of digitalization through the European student card initiative and the Erasmus+ mobile application, as well as the determination to increase the civic engagement of mobile students.

ERASMUS POVELJA U VISOKOM OBRAZOVANJU 2021-2027

Europska komisija dodjeljuje ovu Povelju:

PANEVROPSKI UNIVERZITET APEIRON ZA MULTIDISCIPLINARNE I VIRTUELNE STUDIJE BANJA LUKA

Visoko u#ilište se obvezuje:

- u potpunosti poštovati na#ela nediskriminacije, transparentnosti i uklju#ivosti utvr#ena u programu Erasmus+;
- osigurati jednak i pravedan pristup i prilike sadašnjim i budu#im sudionicima iz svih sredina, obra#aju#i posebnu pozornost na uklju#ivanje osoba s manje mogu#nosti;
- osigurati potpuno automatsko priznavanje svih bodova (na temelju Europskog sustava prijenosa i prikupljanja bodova – ECTS) ste#enih za ishode u#enja koji su uspješno postignuti tijekom razdoblja studija/osposobljavanja u inozemstvu, uklju#uju#i tijekom kombinirane mobilnosti;
- u slu#aju mobilnosti u svrhu stjecanja bodova ne napla#ivati mobilnim studentima nikakve naknade za školarinu, upis, ispite ili pristup laboratoriju i knjižnici;
- osigurati kvalitetu aktivnosti mobilnosti i projekata suradnje u svim fazama prijave i provedbe;
- provoditi prioritete programa Erasmus+:
  - poduzimanjem potrebnih koraka za digitalizaciju administrativne provedbe mobilnosti u skladu s tehni#kim standardima inicijative za europsku studentsku iskaznicu,
  - promicanjem postupaka prihvatljivih za okoliš u svim aktivnostima povezanima s programom;
  - poticanjem sudjelovanja osoba s manje mogu#nosti u programu;
  - promicanjem gra#anskog angažmana i poticanjem studenata i osoblja da se uklju#e kao aktivni gra#ani prije, tijekom i nakon sudjelovanja u aktivnostima mobilnosti ili projektima suradnje.

PRI SUDJELOVANJU U AKTIVNOSTIMA MOBILNOSTI

Prije mobilnosti

- osigurati da su postupci odabira za aktivnosti mobilnosti pravedni, transparentni, dosljedni i dokumentirani;
- objaviti i redovito ažurirati katalog kolegija na svojim internetskim stranicama dovoljno prije razdoblja mobilnosti kako bi bio transparentan svim stranama i kako bi se mobilnim studentima omogu#ilo da dobro odaberu kolegije koje #e poha#ati;
- objaviti i redovito ažurirati informacije o korištenom sustavu ocjenjivanja i tablice distribucije ocjena za sve studijske programe, osigurati da studenti dobiju jasne i transparentne informacije o postupcima priznavanja i konverzije ocjena;
- provoditi mobilnost u svrhu studiranja i pou#avanja samo ako je s drugim visokim u#ilištem potpisan sporazum kojim se utvr#uju uloge i odgovornosti stranaka te njihove obveze primjene zajedni#kih kriterija kvalitete u odabiru, pripremi, prijemu, potpori i integraciji sudionika u programu mobilnosti;
- osigurati da su odlazni sudionici u programu mobilnosti dobro pripremljeni za svoje aktivnosti u inozemstvu, uklju#uju#i kombiniranu mobilnost, provedbom aktivnosti za postizanje potrebne razine jezi#ne i me#ukulturne kompetencije;
- osigurati da se mobilnost studenata i osoblja temelji na sporazumu o u#enju za studente i sporazumu o mobilnosti za osoblje i da su te sporazume prethodno odobrili mati#na ustanova i ustanova doma#in ili poduze#e te sami sudionici;
- pomo#i dolaznim sudionicima u programu mobilnosti u pronalaženju smještaja;
- ako je potrebno, pružiti potporu odlaznim i dolaznim sudionicima u programu mobilnosti u postupku isho#enja viza;
- ako je potrebno, pružiti potporu odlaznim i dolaznim sudionicima u programu mobilnosti u pogledu ugovaranja osiguranja;
- osigurati da su studenti upoznati sa svojim pravima i obvezama kako su definirani u Erasmus studentskoj povelji.

Tijekom mobilnosti

- osigurati jednako akademsko postupanje i kvalitetu usluga za dolazne studente;
- promicati mjere za sigurnost odlaznih i dolaznih sudionika u programu mobilnosti;
- integrirati dolazne sudionike u programu mobilnosti u širu studentsku zajednicu i u svakodnevni život na visokom u#ilištu, potaknuti ih da djeluju kao ambasadori programa Erasmus+ i podijele svoja iskustva u podru#ju mobilnosti;
- osigurati odgovaraju#e mentore i potporu sudionicima u programu mobilnosti, uklju#uju#i one koji sudjeluju u kombiniranim mobilnostima;
- osigurati odgovaraju#u jezi#nu potporu dolaznim sudionicima u programu mobilnosti.

Nakon mobilnosti

- dostaviti dolaznim studentima u programu mobilnosti i njihovim mati#nim ustanovama dokumente koji sadržavaju potpun, to#an i pravovremen prijepis njihovih postignu#a na kraju razdoblja mobilnosti;
- u završno izvješ#e o studentskom uspjehu (dopunska isprava o studiju) uvrstiti podatke o uspješno završenom dijelu studija ili stru#noj praksi u okviru mobilnosti;

- osigurati da se svi ECTS bodovi ste#eni za ishode u#enja koji su uspješno postignuti tijekom razdoblja studija/osposobljavanja u inozemstvu, uklju#uju#i tijekom kombinirane mobilnosti, u potpunosti i automatski priznaju u skladu sa sporazumom o u#enju te budu potvr#eni prijepisom ocjena / potvrdom o stru#noj praksi; prenijeti te bodove bez odgode u evidenciju o studentu, ubrojiti ih u ukupni broj bodova koji je potreban za diplomu bez dodatnih obveza za studenta ili ocjenjivanja te ih unijeti u prijepis ocjena i dopunsku ispravu o studiju;
- poticati i podupirati sudionike u programu mobilnosti da nakon povratka postanu ambasadori programa Erasmus+, promi#u prednosti mobilnosti i aktivno sudjeluju u stvaranju zajednica bivših sudionika (alumnija);
- osigurati da se osoblju na temelju sporazuma o mobilnosti i u skladu sa strategijom visokog u#ilišta priznaju aktivnosti pou#avanja i osposobljavanja u kojima su sudjelovali tijekom razdoblja mobilnosti.

PRI SUDJELOVANJU U EUROPSKIM I ME#UNARODNIM PROJEKTIMA SURADNJE

- osigurati da aktivnosti suradnje doprinose ostvarivanju strategije visokog u#ilišta;
- promicati mogu#nosti koje nude projekti suradnje i pružati odgovaraju#u potporu osoblju i studentima zainteresiranima za sudjelovanje u tim aktivnostima u fazama prijave i provedbe;
- osigurati da se suradnjom ostvaruju održivi rezultati s korisnim u#incima za sve partnere;
- poticati aktivnosti uzajamnog u#enja i iskorištavati rezultate projekata tako da njihov u#inak na pojedince, druge ustanove sudionice i širu akademsku zajednicu bude što ve#i.

ZA POTREBE PROVEDBE I PRA#ENJA

- osigurati da dugoro#na strategija visokog u#ilišta i njezina povezanost s ciljevima i prioritetima programa Erasmus+ budu predstavljeni u Izjavi o razvojnoj strategiji programa Erasmus;
- osigurati da su na#ela Povelje dobro poznata i da ih osoblje na svim razinama visokog u#ilišta jednako primjenjuje;
- koristiti Smjernice za ECHE i ECHE-ov alat za samoprocjenu kako bi se osigurala potpuna provedba na#ela ove Povelje;
- redovito promicati aktivnosti koje se podupiru u okviru programa Erasmus+, zajedno s njihovim rezultatima;
- objaviti ovu Povelju i povezanu Izjavu o razvojnoj strategiji programa Erasmus na vidljivom mjestu na svojim internetskim stranicama i u drugim relevantnim medijima.

Visoko u#ilište prihva#a da #e provedbu Povelje pratiti nacionalna agencija za Erasmus+ te da u slu#aju kršenja prethodno navedenih na#ela i obveza Europska komisija Povelju može povu#i.

Pe#at	Ime, prezime i potpis zakonskog predstavnika

International Cooperation with Educational Institutions from the Russian Federation

In this regard, some of the most important novelties of the Charter are the determination to reach underrepresented groups in mobility through strategies.

Number of agreements on international cooperation with higher education institutions from the Russian Federation (2009 – 2024): 20

Number of higher education institutions in Russia for the practice of students of the Faculty of Philological Sciences: 8

The number of students of the Faculty of Philological Sciences who completed student internships in Russia: 40

Cabinet for learning the Russian language: "Russkiy Mir" (Russian world) Foundation

INTERNATIONAL COOPERATION OF THE FACULTY OF PHILOLOGICAL SCIENCES WITH EDUCATIONAL INSTITUTIONS FROM THE RUSSIAN FEDERATION

The Faculty of Philological Sciences at Pan-European University "APEIRON" has significant and visible results in collaboration with numerous Russian universities and the Institute for Slavic Studies of the Russian Academy of Sciences, as the center of Russian Slavistics. This cooperation includes joint organization of scientific gatherings and conferences, establishing a quality environment and prerequisites for scientific research (libraries, scientific publications, and databases), as well as fostering international and inter-university collaboration. This serves as a foundation for teaching and scientific activities and for transferring philological knowledge and skills to generations of students. Additionally, the Faculty enables serious scientific research and individual professional development for professors and assistants through an extensive network of partner institutions from the same linguistic area.

The Faculty of Philological Sciences has signed international cooperation agreements with Russian higher education institutions such as Moscow State University "Lomonosov", Russian New University in Moscow, the State Institute of Russian Language "A.S. Pushkin", Russian Peoples' Friendship University (Moscow), Saint Petersburg State University, Russian State Pedagogical University "Herzen", and others (see the list of agreements in Table 6).

According to the curriculum of the Faculty of Philological Sciences, students are required to complete part of their academic activities lasting one to two semesters at partner universities in Russia. At all these universities, students deepen the knowledge acquired at their home faculty, familiarize themselves with Russian culture, traditions, and customs, and participate in international scientific conferences, where they present the results of their scientific research to an international audience. So far, over 40 students have stayed at the aforementioned Russian universities as part of international exchange programs.

Following an established tradition, the Faculty of Philological Sciences organizes, in collaboration with the Higher School (Faculty) of Translation at Moscow State University "Lomonosov" and the Institute for Slavic Studies of the Russian Academy of Sciences, the International Scientific Conference "New and Traditional in Translation Studies and Teaching Russian as a Foreign Language."

Additionally, the Faculty, along with the Higher School of Translation at Moscow State University "Lomonosov", organizes the International Student Conference "The Russian Language in the Modern World" (Faculty of Philological Sciences, 2024).

Between 2009 and 2024, Pan-European University "APEIRON" signed twenty agreements for international cooperation with higher education institutions in Russia.

RUSSIAN LANGUAGE CABINET OF THE "RUSSKIY MIR" (RUSSIAN WORLD) FOUNDATION

The Russian Language Cabinet of the "Russkiy Mir" (Russian World) Foundation was established at the Pan-European University "APEIRON" in 2012. The Cabinet's activities aim to popularize the Russian language and culture, support programs for their study, expand cultural and humanitarian cooperation between foreign countries and the Russian Federation, and ensure access to Rus-

sian online educational resources in the Russian language.

To achieve these goals, the Cabinet organized the opening of a Russian library at the Pan-European University "APEIRON." Currently, the Cabinet's library holds 600 books, which were donated by the "Russian Humanitarian Mission" to the Faculty of Philologal Sciences in 2020. Visitors to the Cabinet have access to artistic, lexicographical, and encyclopedic publications, as well as textbooks and dictionaries of Russian as a foreign language.

Additionally, in recent years, the Cabinet has hosted cultural and educational programs both at the faculty and university levels, including: "Russian Language Day at the Faculty of Philological Sciences", "Literary Evening in Honor of the 125th Anniversary of Sergei Yesenin's Birth", "Days of Slavic Literacy", "Literary Evening Dedicated to Alexander Pushkin", and much more.

The "Russkiy Mir" Foundation was founded in Russia on June 21, 2007. The foundation's goals include supporting and promoting the Russian language worldwide, strengthening its position as a language of international communication, and serving as a key tool for enhancing the significance of the Russian Federation in the global humanitarian space.

Representatives of the "Russian World" Foundation and the representative of the Embassy of the Russian Federation in Bosnia and Herzegovina, Aleksey Leonidovich Kerestejianac, visited "APEIRON" in May 2012

Project Management Office

- Functional unit of the University: since 2018
- Scope of duties: administrative-professional and information-technological support for project management
- Coordinator: Prof. Dr. Vesna Novaković (2021–)
- Results of the Office (2018–2024):
  - Number and value of realized research projects through the Ministry of Scientific and Technological Development and Higher Education of Republika Srpska: 9 projects / 80,376.00 BAM
  - Total value of realized projects of the European Union (€): 1,068,061.14

COORDINATOR

Prof. Dr. Vesna Novaković, Doctor of Economic Sciences, was born on May 20, 1978, in Foča. Since 2021, she has held the title of Associate Professor at the Pan-European University "APEIRON", specializing in the scientific fields of management and entrepreneurial economics. She has been engaged in teaching at the Faculty of Business Economics at the Pan-European University "APEIRON", Banja Luka, since 2016. In 2021, she was appointed as the head of the master's study program "Entrepreneurial Management – 60 ECTS" and "Entrepreneurial Management – 120 ECTS." Since 2022, she has been appointed as the head of the study program "Entrepreneurial Management – 180 ECTS" and the study program "Entrepreneurial Management – 240 ECTS." She specializes in internal financial controls, strategic and financial planning, and program-based budgeting. Prof. Novaković possesses proven skills in preparing plans and programs for workshops on budgeting, financial planning, and internal financial control systems. Her expertise extends particularly to the following economic sectors: innovation management, SMEs, public administration, as well as collaboration with private and international organizations (USAID, Sida, UNDP). She has participated in numerous international conferences since 2011 and is the author of cited works in the fields of management, entrepreneurship, innovation, and public finance. By 2023, she had published monographs and textbooks addressing topics such as youth entrepreneurship, public finance, and innovation. Prof. Novaković has been honored with the "Kapetan Miša Anastasijević" award for her professional contribution to the promotion of entrepreneurial and social creativity in Republika Srpska.

Prof. Dr. Vesna Novaković, Coordinator of the Project Management Office at the Pan-European University "APEIRON" since 2021

FORMATION AND DEVELOPMENT

The Project Management Office (PMO) was established as a functional unit of the Pan-European University "APEIRON" in the academic year 2018/2019. year. At its session on May 18, 2020, the Management Board of the Pan-European University "APEIRON" adopted the Rulebook on Project Management at the University (act of the PUA Board of Directors, number: 1.3.-347-8120 dated May 18, 2020), which determined the establishment of the Project Management Office. (International Relations Office, 2024). In accordance with the provisions of the given rulebook, the Of-

fice (PMO) consists of a manager and professional-administrative and information technology associates, as needed. Jobs and tasks are organized and carried out in the office, such as:

- Preparation and support of project contracting (EU);
- Establishing the knowledge base – gathering organizational knowledge, which includes experiences, methods, solutions, patents, examples of contracts and contractual documentation;
- Information about the possibilities and sources of project financing: international (e.g. HORIZON 2026; IPA funds; ERASMUS; USAID; foreign embassies), National (e.g. GOVERNMENT OF RS; cantonal governments; ministries of BiH, etc.), other projects;
- Researching competitions and calls for project applications;
- Monitoring, procurement and publication of sources and documentation bases of calls for proposals (Call for Proposals);
- Cooperation with partner, subcontractor and collaborative institutions;
- Support in the preparation and submission of tender documents;
- Methodological and information technology support in the submission of tender documents;
- Support in preparations for project negotiation and contracting;
- Support in project management;
- Support in the preparation and implementation of public procurement;
- Support in the organization and execution of education;
- Informing about the project;
- Support in concluding and archiving the project;
- Legal (copyright protection and patent application assistance), ethical, financial and administrative support;
- Administrative and information-communication-technology jobs.

PROJECTS

The Pan-European University "APEIRON" implements projects funded by the European Union, the Ministry of Scientific and Technological Development and Higher Education, as well as projects financed from its own resources. In recent years, the funded projects have focused on areas such as ecology, biodiversity and genetic modifications of plant products in the territory of Republika Srpska, diabetic retinopathy, organic agricultural production, entrepreneurial economics, the role of lifelong learning in public-private partnerships, the reproduction of sustainable development of the population of Republika Srpska, juvenile delinquency, research of recreational sports resources, development projects of digital interactive television, the development of symbiotic learning, and an international project for the digitization of European cultural heritage.

Project "REPRO Initiation of Digital Transformation Services"

The project titled "REPRO Initiation of Digital Transformation Services", part of EU4DigitalSME, was approved for the Development Agency of the City of Prijedor, "PREDA." The "APEIRON" University is a member of the consortium, which comprises eight members in total. The project coordinator is the Development Agency of the City of Prijedor, "Preda", and a co-applicant is the "Drvo" cluster, consisting of six companies. The project is supported within the framework of "Innovation and Digitization of Small and Medium Enterprises in Bosnia and Herzegovina – EU4DigitalSME", co-financed by the European Union and the German Federal Government, and implemented by Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH. The project's general goal is to accelerate the technological (digital) transformation and digital innovation of small and medium enterprises (SMEs) to mitigate the impact of COVID-19 on Bosnia and Herzegovina's economy. The specific objective is to develop and provide digital transformation services for enterprises, primarily focusing on the local wood and furniture industries. The project's total value is €131,150.14, with approved grant funds amounting to €99,998.14. The project implementation period is from 2023 to 2024.

Capacity-Building Projects under the Erasmus+ Program (KA2)

The Erasmus+ Capacity-Building Program (KA2), implemented at the University in collaboration with higher education institution (HEI) partners from program countries, focuses on executing activities to enhance capacities in higher education. The activities supported by this program are based on multilateral partnerships among organizations active in higher education. The activities and outcomes of these projects must benefit eligible third countries not associated with the program and their higher education institutions. This initiative supports the relevance, quality, modernization, and responsiveness of the higher education sector in third countries not associated with the program, particularly in the context of socioeconomic recovery, growth, and prosperity. It also addresses new

developments, especially economic globalization, as well as recent setbacks in human development, instabilities, and growing social, economic, and environmental inequalities.

Project "Strengthening Capacities and Mechanisms for Enhancement of Quality Assurance System in Higher Education in Bosnia and Herzegovina – SMEQA"

This project, funded by the European Commission, involves a consortium of 19 institutions from Bosnia and Herzegovina, Slovenia, and Croatia (including universities, ministries, and agencies). The University of Zenica is the project coordinator. In addition to the Pan-European University "APEIRON", the project includes 18 other institutions, including HEIs from Bosnia and Herzegovina, the relevant education ministries, the Agency for Development of Higher Education and Quality Assurance in Bosnia and Herzegovina, the Accreditation Agency of Republika Srpska HEIs, as well as HEIs from Slovenia and Croatia. The consortium also includes the Croatian Agency for Science and Higher Education and the National Agency of the Republic of Slovenia for Quality Assurance in Higher Education. The project's activities focus on establishing a mechanism for coordination and harmonization of the quality assurance system in higher education through the development of an accreditation model for study programs in Bosnia and Herzegovina, strengthening human capacities in Bosnian institutions, improving cooperation between institutions involved in the accreditation process, creating a training plan for accreditation experts in Bosnia and Herzegovina, and more. A special emphasis is placed on empowering higher education institutions in Bosnia and Herzegovina to develop internal quality assurance procedures. The project value is €936,911, or 1,832,439 BAM, with a realization period from 2024 to 2027.

Staff of the Pan-European University "APEIRON," December 2021

General Affairs Service

University's professional service: Since 2005

Responsibilities and general affairs:
- Accounting, bookkeeping, and financial operations,
- Human resources,
- Technical maintenance, security, and fire protection,
- Hospitality and procurement.

SERVICE TASKS

The **General Affairs Service** of the Pan-European University "APEIRON" was established in 2005 as a **General Service** to support all administrative and organizational activities within the institution. This service encompasses various sectors and professional roles ensuring the seamless functioning of the University. Based on the systematization and job descriptions, this service is organized to cover the following types of tasks (Pan-European University Apeiron, 2015):

Accounting

The Accounting Department performs tasks related to invoicing, posting statements, posting suppliers, cash operations, payroll calculation, preparing reports, and final accounts in compliance with legal regulations. The positions within the department are systematized as follows:
- Head of Accounting Service: Responsible for managing the entire accounting process, including planning and monitoring financial activities
- Liquidation and Cash Desk – Officer: Handles all financial transactions, manages the cash desk, and processes obligations
- Financial Operations – Officer: Engages in administrative tasks related to financial operations, including reporting and analysis
- Bookkeeper – Senior Officer: Responsible for maintaining bookkeeping records and preparing financial reports
- Bookkeeper – Officer: Handles daily record keeping and supports senior bookkeepers.

Staff of the Accounting Department at the Pan-European University "APEIRON"

General Affairs (Other)

The Department for Other General Affairs covers a wide range of activities related to the daily functioning of the University:

- General Affairs – Senior HR Officer: This position involves coordination and supervision of various general tasks related to the personnel records of human resources employed at the Pan-European University "APEIRON".
- Head of Technical Maintenance, Security, and Fire Protection: Responsible for maintaining the technical facilities, as well as ensuring the safety and protection of people and property.
- Technical Maintenance – Officer: Tasked with performing regular maintenance and repairs within the University premises.
- Porter-Gatekeeper: Responsible for monitoring entry into University buildings and providing basic information to visitors.
- Cleaner/Janitor: Ensures cleanliness and hygiene within the University's premises.
- Gatekeeper/Night Guard: Responsible for securing the premises during nighttime hours and maintaining order.
- Driver: Responsible for transporting employees and students, as well as delivering necessary materials.
- Hospitality and Procurement Sector.

SERVICE STAFF

Head of the Accounting Department (2012–):

Mirjana Kotur, Head of the Accounting Department at the Pan-European University "APEIRON" since 2012

Mirjana Kotur, born on March 9, 1957, in Bugojno, holds a degree in Economics and serves as the Head of the Accounting Department. She graduated from the Faculty of Economics in Sarajevo. She previously worked in UNIS in Bugojno as the Head of Material Accounting, and in Belgrade at an accounting office. Later, she worked in Gradiška at Gamatex and UTP Interkom, and in Laktaši at Župa Komerc as the Head of Accounting. She was appointed as the Head of the Accounting Department at the Pan-European University "APEIRON" on January 15, 2012.

Below are the names of the staff who were employed in the Accounting Department from its formation to 2024:

- Mihajlović Stevo, Head of the Accounting Department
- Jović Dragan
- Dujaković Maja
- Popović Nada
- Topić Nada

As of 2024, the accounting department of the Pan-European University "APEIRON" employs the following persons:

- Kotur Mirjana, head of the Accounting

Department,
- Dugonjić Zorica, liquidation and treasury-officer,
- Stjepanović Bosa, accountant-senior officer, and
- Tanja Smoljić, bookkeeper-officer.

Head of Hospitality and Procurement Sector (2005–)

Head of Technical Maintenance, Security and Fire Protection (2017–)

Radovan Vučenović, Head of the Hospitality and Procurement Service at the Pan-European University "APEIRON" since 2005

Radovan Vučenović was born on July 14, 1968, in Mrkonjić Grad, where he completed primary and secondary education. He graduated in 2009 from the Faculty of Business Economics at Pan-European University "APEIRON." From 2001 to 2004, he worked at the company "Vizija" on the project of the Cultural and Educational Center "Klub Banja" in Laktaši and the Student Club "Cedubal" in Banja Luka. He has been employed at Pan-European University "APEIRON" since 2005 as the Head of the Hospitality and Procurement Sector. As Head of the Hospitality Sector, he organizes ceremonial and business events at the University, such as scientific conferences, celebrations of various occasions, and events marking the defense of students' final papers, among others. Since 2017, he has served as Head of Technical Maintenance at the University. In this role, he ensures monitoring, control, and servicing of the technical functionality of the University's equipment and infrastructure. In the Procurement role, he oversees the procurement of goods based on orders, monitors price trends, maintains daily communication with suppliers, collects offers, and consistently tracks costs associated with procurement. In collaboration with the University administration and professors, he orga-

Staff of the General Affairs Service at the Pan-European University "APEIRON"

nized the ICASUS conference. He has participated in several humanitarian actions, including the 2016 action titled “Be Humane, Be Healthy.”

In the text below, we list the names of personnel who have been or are still employed in the roles of this service from its formation to 2024:

- Cleaner / Janitor

Božičković Miladinka, Ćeranić Mirjana, Damjanović Slavica, Gajić Vesna, Mišić Dragica, Mitrović Rosa, Savanović Helena, Ubović Branka, Vesić Slavica, Vučenović Brankica.

- Security / Night Guards

Ćeranić Nedeljko[4], Ćirković Milenko, Ćopić Milenko, Đurović Radosav, Mišić Miodrag, Popović Petar, Šašić Zoran, Tadić Dušan, Krčić Željko.

- Technical Maintenance

Tolimir Boško, Vučenović Radovan (Heads), Amidžić Goran, Babić Siniša, Ubović Dragomir.

- Drivers

Đaković Slobodan, Knežević Ranko, Zrnić Dragan.

Human Resources

Since 2005, Vesna Čičić has been employed as a Senior Human Resources Officer.

Vesna Čičić, Senior Officer for Personnel Affairs, since 2005

The General Affairs Service plays a vital role in maintaining the efficiency and functionality of the Pan-European University "APEIRON", enabling other organizational units (sectors) to focus on the University's core activities, which include education and scientific research.

Student Organization, Scholarships, and Alumni Network

Student Pariament

- Established: November 1, 2010
- First Chair of the SPPUA: Lana Vukčević
- Members are elected through representatives from their faculties for a term of one academic year
- Activities:
  - Annual humanitarian blood donation campaign
  - Humanitarian campaign for children at the UCC Pediatric Clinic
  - Support for the "Inclusive Sports Days" event
  - Support for the organization of the international "IEEE STUDENTS AND YOUNG PROFESSIONALS" congress in 2019
  - "APEIRON" student sports games

Aleksandra Roljić, Chair of the Student Parliament at the Pan-European University "APEIRON," for the academic years 2022/23 and 2023/24

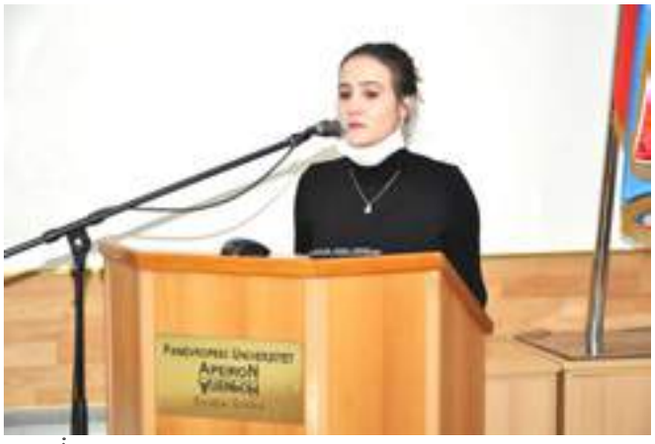
Lidija Žunić, Chair of the Student Parliament at the Pan-European University "APEIRON," for the academic year 2021/22

KEY INFORMATION

The Parliament of the Student Union of Pan-European University "APEIRON" (SPPUA), or the Student Parliament, was established on November 1, 2010, as the highest representative body of the students of Pan-European University "APEIRON." It consists of elected representatives of students from all faculties/organizational units of the University for a term of one year. The Parliament elects the SPPUA management during its session, which includes the chair, vice-chair, and secretary. Student representatives and members of the Parliament are elected in SPPUA elections through secret and direct voting. (Parliament of the Student Union of Pan-European University Apeiron, 2010).

The main goals of SPPUA are:

- Improvement of working conditions and the position of students;
- Enhancement of teaching quality and acceleration of higher education transformation, aligning it with European and global programs;
- Protection of students' rights and interests;
- Improvement of student standards and contribution to the social, cultural, academic, and physical-recreational needs of students;
- Representation of students before other public and private higher education institutions, state management bodies, and other international associations and authorities;
- Support for university autonomy and international recognition of diplomas;
- Development of international cooperation and full membership in international student associations, including student exchanges.



Đana Pilipović, Chair of the Student Parliament at the Pan-European University "APEIRON," for the academic year 2020/21

Mario Skeja, Chair of the Student Parliament at the Pan-European University "APEIRON," for the academic year 2011/12

Žarko Bajić, Chair of the Student Parliament at the Pan-European University "APEIRON," for the academic year 2019/20

Lana Vukčević, Chair of the Student Parliament at the Pan-European University "APEIRON," for the academic year 2010/11

To achieve its goals, SPPUA directly cooperates with:

- The University administration and its other organizational units;
- Scientific, cultural, and student organizations in the country and abroad.

The work of SPPUA is public, and its management is obliged to take all necessary measures to ensure the transparency of its work and fully inform members about the organization's activities. In its previous work, the Student Parliament of the Pan-European University "APEIRON" has carried out numerous activities and projects that were significant not only for students and the University but also for the community. Some of the most notable activities include:

- Annual humanitarian blood donation campaign;
- Humanitarian campaign for children at the UCC Pediatric Clinic;
- Support for the "Inclusive Sports Days" event;
- Support for the organization of the international IEEE STUDENTS AND YOUNG PROFESSIONALS congress in 2019.

The leadership and decision-making process of SPPUA, election rules, as well as other issues related to SPPUA's operations, are regulated by the Statute of the Student Parliament of the Pan-European University "APEIRON."

MANAGEMENT OF THE STUDENT PARLIAMENT

Term (2023/2024):

- Chair of the Student Parliament **Aleksandra Roljić**, Faculty of Health Sciences
- Vice-chair of the Student Parliament **Žana Šukalo**, Faculty of Traffic
- Secretary of the Student Parliament **Anastasija Dragonić-Uremović**, Faculty of Information Technologies
- Representative of the Faculty of Business Economics **Anja Dragojević**
- Representative of the Faculty of Information Technologies **Anastasija Dragonić-Uremović**
- Representative of the Faculty of Sports Sciences **Marina Zec**
- Representative of the Faculty of Health Sciences **Aleksandra Roljić**
- Representative of the Faculty of Legal Sciences **Luka Dražić**
- Representative of the Faculty of Traffic **Žana Šukalo**

Sessions of the Student Parliament at the Pan-European University "APEIRON," 2010–2025

APEIRON

APEIRON

APEIRON

Alumni Network

Alumni Association:
Established in 2011

Numerous examples of successful "APEIRON" alumni both domestically and internationally

KEY INFORMATION

The Alumni Association is a voluntary organization whose members include all students who have completed undergraduate, master's, specialist, or doctoral studies at the Pan-European University "APEIRON," as well as students currently enrolled, with the aim of connecting all generations of students to foster their ongoing collaboration (Alumni Association of Students of Pan-European University "APEIRON," 2011).

Members of the Alumni Association of Pan-European University "APEIRON" can also include other academic citizens from both the country and abroad, who wish to join and meet the ethical, social, and humanistic values that the University is based upon and promotes. Membership in the Alumni Association of Pan-European University "APEIRON" is obtained voluntarily by completing an online application.

The Alumni Center will provide its members with an active connection to the Pan-European University "APEIRON," utilizing the University's resources to enhance their competencies, as well as actively engaging in the creation of content that the University distributes to its students and other users of modern educational, scientific, and professional achievements. By updating its database on members, the Alumni Center enables mutual connections among members to support the further development of their professional relationships, as well as to preserve the philanthropic dedication to the Pan-European University. Members of the Alumni Association of Pan-European University "APEIRON" collectively contribute to creating value and improving the status of the University, its students, employees, and partners, as well as entire communities in which they operate.

Goals of the Alumni Network:

- Connecting former students through the Alumni Association,
- Creating an alumni database with their information to facilitate future business connections,
- Organizing joint presentations of the Alumni Association to third parties/institutions,
- Collaborating with organizations, companies, including chambers of commerce, labor markets, etc.,
- Regularly informing members about updates at the University,
- Enhancing academic skills and training to meet the demands of industry, public sectors, and other interest groups,
- Organizing official meetings of Alumni Association members (anniversaries, celebrations, conferences, seminars, trips) for the professional and personal development of alumni,
- Providing special privileges such as access to the library, ability to search databases (research information), online catalogs, bibliographies, etc.,
- Designing and nurturing a culture of work and living.

The University maintains connections with former students by organizing various educational events such as Career Days, giving them the opportunity to present themselves and share their experiences with current students. The University also stays in touch with alumni through a form they fill out after completing their studies. This form allows alumni to express their interest in career mentorship, access to the EBCO database as a member of the Alumni Association, visibility of their information in the alumni email directory, connecting with other members of the Alumni Association, participation in Alumni Association activities, and receiving updates about University events. This ensures the University provides support and remains in contact with its alumni after graduation.

EXAMPLES OF SUCCESSFUL STUDENTS[1]

- **KRUNOSLAV RIS – FACULTY OF INFORMATION TECHNOLOGIES**
  (Doctoral Studies)

Krunoslav Ris, alumnus of the Faculty of Information Technologies

Krunoslav Ris, from Osijek, with a rich career and impressive achievements in the field of information technologies, completed doctoral studies at the Faculty of Information Technologies, further solidifying his education and expertise. At just 37 years old, Krunoslav has over 400 projects worldwide, from South Africa to Europe, making him a distinguished figure in his field. He began his career with his own IT companies and subsequently transitioned to the international stage as a university lecturer at the International Institute of Education in Beijing. Krunoslav served as IT sector director for Hitachi in South Africa and gained invaluable experience working for T-Mobile in Austria and Germany, as well as Sonatel in Senegal. "The comprehensive knowledge I gained during my undergraduate and master's studies, coupled with the experience I acquired, resulted in skills and competencies that opened doors to the world," emphasized Krunoslav. He highlighted Pan-European University "APEIRON" as key to his academic and professional development, providing him with the foundation for further advancement in his career. Doctoral studies were a logical step in his pursuit of excellence in his field, promising him new challenges and greater responsibilities. His role as the head of application software for UniCredit Group in Croatia demonstrates his dedication and ability to apply his knowledge in complex business environments, continuously contributing to the development of global technological solutions.

- **NEMANJA MARIĆ – FACULTY OF BUSINESS ECONOMICS**
  (Undergraduate Studies)

Nemanja Marić, alumnus of the Faculty of Business Economics

Nemanja is a successful manager of several multinational companies headquartered in China. After studying at renowned international schools in China and France, he chose to pursue economics studies at the Faculty of Business Economics of Pan-European University "APEIRON." He tailored his educational path to modern study models of distance learning and contact mentoring and research classes, enabling him to develop a broad range of skills necessary for managerial positions in international environments.

Currently living and working in Beijing, Nemanja successfully manages various international projects and significant business challenges across Asia and the globe. From his experience, education at the University "APEIRON" significantly aided him

[1] Statements from successful students – alumni of the University were given shortly after their graduation and completion of studies at the University. Below are the graduation dates of the mentioned students: Krunoslav Ris - January 26, 2021; Nemanja Marić - June 20, 2017; Snežana Ružičić - July 18, 2014; Ajdin Mešić - April 28, 2016; Armina Đuzel - June 4, 2014; Fahrudin Sabljaković - September 30, 2016; Vedran Šupuković - June 11, 2018; Rada Kovač – Statement taken on February 14, 2022; Anton Petričević - July 14, 2015; Julijana Delač - September 23, 2015; Katica Tomić - January 18, 2018; Biljana Bradić - March 27, 2015.

in practice, empowering him for complex managerial decisions and strategic initiatives. He states that, along with academic and professional training at the Faculty of Business Economics, he gained a deep understanding of economic and business processes that he applies in his work. For this reason, he announces his intent to pursue a master's degree in economics at his alma mater, University "APEIRON." This decision arises from his belief that additional education will enable him to further contribute to the international business environment and manage complex projects even more successfully. As an active participant in international business relations, Nemanja invites students and the business community in the Western Balkans to express interest in advancing and collaborating with China within the framework of the Central European Initiative 16+1. His engagement and approach clearly demonstrate how education and experience can significantly impact career development and global presence in the modern world.

- **SNEŽANA RUŽIČIĆ – FACULTY OF LEGAL SCIENCES**
  (Undergraduate Studies)

Snežana Ružičić, alumna of the Faculty of Legal Sciences

Snežana Ružičič, the mayor of Jezero Municipality, who earned a degree in law from the Faculty of Legal Sciences, represents an example of a successful career in the legal profession. With work experience at the Council of Peoples of the Republic of Srpska, specifically in the Department for Legislative and Legal Affairs, and rich experience in international community projects in the fields of ecology and tourism, her education and professional path make her an excellent example for young law students. When it comes to education, the mayor emphasizes the importance of general and operational knowledge gained through the curriculum at the Faculty of Legal Sciences. She highlights the significance of applying modern learning methods, including legal clinics, practical teaching, and student research projects, which are crucial in preparing students for their future careers. This combination of educational methods not only enriches the student experience but also ensures that future lawyers are equipped to face the challenges and demands of the contemporary job market. Through her experience and recognition of the importance of education in the legal profession, the mayor of Jezero sends a message to future lawyers about the importance of strategic preparation for professional careers. She underscores that combining theoretical knowledge with practical skills is key to successfully meeting the challenges they will face in their work. In summary, Snežana Ružičić exemplifies an integrated approach to legal education, demonstrating how modern educational methods can significantly influence the development and success of future legal professionals

- **AJDIN MEŠIĆ - FACULTY OF BUSINESS ECONOMICS** (Master's Studies)

Ajdin Mešić, alumnus of the Faculty of Business Economics

Ajdin Mešić is the production manager at Cromex d.o.o. Prijedor and a leader of multimillion-dollar international development projects. Ajdin is an ideal representative of a generation of young people who have embraced the modern challenges of dynamic

changes in business, technology, and education, becoming successful professionals. He permanently returned to Bosnia and Herzegovina from Croatia. After completing a bachelor's degree in economics in Zagreb, he joined the reputable Bosnian company Cromex d.o.o. Prijedor, which specializes in metal processing, employs around 40 people, and is export-oriented to EU, EFTA, and CEFTA markets. He successfully completed his master's studies at the Faculty of Business Economics of the "APEIRON" University. The primary goal of his research, under the mentorship of Prof. Dr. Sanel Jakupović, focused on the role and significance of CAD/CAM technologies and the CIM concept on the efficiency of business systems in the metal industry sector in Bosnia and Herzegovina. This helped him successfully apply the acquired knowledge and scientific methods in the company where he is employed. Ajdin is the coordinator of a joint project involving the company Cromex, the Development Agency "PREDA," and "APEIRON" University for developing a quality system and marketing strategy in his company. "I wish to continue my professional development and scientific research at 'APEIRON' University as part of the doctoral program in business logistics, which specifically focuses on applying scientific methods in managing business logistics systems," emphasized Ajdin. He urged young people in Bosnia and Herzegovina to carefully consider their options before deciding to leave the country and to actively work on their own training, education, and development, aiming to create business opportunities and remain in Bosnia and Herzegovina.

- **ARMINA ĐUZEL – FACULTY OF LEGAL SCIENCES**
  (Undergraduate and Master's Studies)

Armina Đuzel, a Senior Expert Associate for Normative Legal Affairs in the Sector for the Execution of Criminal Sanctions at the Ministry of Justice of the Republic of Srpska represents an example of a specialized and educated legal professional. With a degree in law from the Faculty of Legal Sciences at the University "APEIRON" and active participation in master studies at the same faculty, she continuously enhances her knowledge and skills in the legal profession. At the University "APEIRON," students are required to acquire both general and operational knowledge

Armina Đuzel, alumna of the Faculty of Legal Sciences

in various areas of law, incorporating innovations in classical legal sciences with a pragmatic and modern approach. This combination of theoretical learning and practical skills ensures students are well-prepared for a successful entry into the professional world of legal affairs. As a Senior Expert Associate, she is engaged in the execution of criminal sanctions at the Ministry of Justice, demonstrating a deep understanding of legal processes and procedures. Her education at the University "APEIRON" provided her with the necessary foundations for efficient and responsible management in complex legal cases and issues requiring expertise and a solid grounding in law. She emphasizes the significance of the universality of legal principles and normative standards applicable to all. She also reminds of the importance of respecting legal norms and fundamental rights, regardless of the context or location. As an active member of the legal community in Republika Srpska, she has called on students and the legal community to continue participating in advanced cooperation and the promotion of legal standards within their communities.

- **FAHRUDIN SABLjAKOVIĆ – FACULTY OF LEGAL SCIENCES**
  (Master's Studies)

A young man from Cazin, Fahrudin Sabljaković, has, since his student days, belonged to that part of the youth who did not aspire to leave their country once they obtained a diploma and degree. "I wanted

Fahrudin Sabljaković, alumnus of the Faculty of Legal Sciences

to stay in my Cazin. I love this city and its people, and I knew I needed quality education to look for a job among my fellow citizens. Cazin is full of intellectuals from various fields with brilliant careers, and my ambitions were tied to catching up with them. I could only achieve that through knowledge, proper competencies, and skills. I enrolled at the Faculty of Legal Sciences of Pan-European University "APEIRON" in Banja Luka in 2009. Back then, I wasn't fully aware of what this higher education institution could offer me. I was an active member of the Student Parliament and tried to take advantage of everything I could during those four years of studies. I attended all the lectures organized by the University that were not part of the curriculum but were closely related to the profession I wanted to pursue. I graduated on the topic 'The Role of the Police, Judiciary, and Other Protection Entities in Preventing Violence Against Children in the Family,' obtaining the title of Bachelor of Laws. The same year, I enrolled in master's studies under the mentorship of Prof. Dr. Aleksandar Milić with the topic 'Extent and Intensity of Psychological Expertise in Court Proceedings,' and I defended it with a grade of 10 in 2016. Everything I learned at Pan-European University was my ticket to having the Municipal Court of Bosanska Krupa open its doors to a professional career. I am currently undergoing an internship specialization to continue my professional work position, and I am also preparing for the bar exam," said Fahrudin. This young Master of Legal Sciences stated that the most important thing for him is that he could stay in his country and among the people he grew up with. However, he notes that the condition for this is finding adequate employment, which is not always possible. "I managed to enter the business world and the job I love with the help of a lot of knowledge I acquired through both theoretical and practical teaching during my studies, and we had plenty of that. Our teachers were excellent lecturers whose goal was to teach us properly what would be expected of us in the real-world application of law, and to use our skills and acquired scientific knowledge to make our hometown a better place to live," added Fahrudin.

- **VEDRAN ŠUPUKOVIĆ – FACULTY OF BUSINESS ECONOMICS**
  (Doctoral Studies)

Vedran Šupuković, alumnus of the Faculty of Business Economics

The director of the handball club Prvo Plinarsko Društvo Zagreb successfully defended his doctoral dissertation at the Pan-European University, earning the title of Doctor of Economic Sciences. For him, this achievement is the pinnacle of academic education, providing assurance for continued success in achieving top business results through expert knowledge and the University's excellent plan and program. Vedran began his education at the renowned Faculty of Tourism and Foreign Trade in Dubrovnik, where he completed his undergraduate studies. Following that, he earned his master's degree at the Faculty of Business Economics at the Pan-European University "APEIRON," which further prepared him for the challenges he faced later in his career. With seven years of experience as General

Director at CIAK, the largest company for secondary waste management in Croatia, which also deals in auto parts trade, Vedran gained deep understanding of business processes and management. Thanks to his dedication and advanced education, Vedran remained actively involved in project activities at the handball club in Zagreb, bringing new enthusiasm and ideas. His doctoral title will further strengthen his role in advancing club projects and contributing to the sports community.

- **RADA KOVAČ – FACULTY OF BUSINESS ECONOMICS**
  (Master's Studies)

Rada Kovač, alumna of the Faculty of Business Economics

Mechanical Engineer and a master's student in Entrepreneurial Management. "Many engineering problems I encountered in practice required knowledge of economics to arrive at the most optimal solution. Nowadays, engineers are expected, besides technical knowledge, to be familiar with other scientific disciplines to successfully implement various projects, optimize processes, reduce production costs, and increase efficiency," emphasizes Rada Kovač. Rada is now a master's student at the University "APEIRON," and in 2019 she graduated from the Faculty of Mechanical Engineering. She held the position of Production Supervisor at MAHLE Electric Drives Bosnia, with its branch office in Laktaši. This position involves managing a production team of approximately 60 people. "My main task is to ensure maximum efficient production while constantly maintaining quality and employee safety. The position I hold and the daily challenges I encountered led me to expand my knowledge in the field of economics, and the Entrepreneurial Management program at the Faculty of Business Economics, University "APEIRON," seemed like the right choice. The Pan-European University offers a wide selection of programs tailored to all of us working "hybrid" jobs, where knowing only one scientific field is not sufficient. Furthermore, this University provides high flexibility and modern learning methods, helping working students balance their professional, private, and academic commitments in the most optimal way possible. The company MAHLE, where Rada is employed, is a leading international supplier for the automotive industry headquartered in Germany, with their products integrated into every second vehicle worldwide. They achieved sales totaling nearly 10 billion euros and have 72,184 employees.

- **ANTON PETRIČEVIĆ – FACULTY OF LEGAL SCIENCES**
  (doktorski studij)

Anton Petričević, alumnus of the Faculty of Legal Sciences

After successfully completing Doctoral Studies at the Faculty of Legal Sciences of the Pan-European University "APEIRON," he achieved outstanding success by being elected as an assistant professor in the Department of Labor Law and Social Sciences at the Faculty of Law, Josip Juraj Strossmayer University in Osijek. His education

also includes a master's degree, which he successfully completed at the Pan-European University, both of which were recognized by the Agency for Science and Higher Education in Zagreb (ENIC-NARIC Office). During his studies, Anton showed a strong inclination toward scientific research, focusing on areas such as protection against discrimination and workplace harassment, as well as legal protection for people with special needs. He actively participates in domestic and international scientific conferences, contributing to the academic community and the dissemination of knowledge in his field. "At the University 'APEIRON,' I adopted scientific discipline and gained quality guidelines, which were essential for my academic development," emphasized Assistant Professor Dr. Anton Petričević. His doctoral research included a study visit to the University of Tokyo, Faculty of Law, which further enriched his academic experience and perspective. Anton Petričević is an example of a dedicated doctoral candidate whose expertise and commitment to education contribute to the advancement of legal science and labor rights protection in the Republic of Croatia and beyond.

- **JULIJANA DELAČ – FACULTY OF LEGAL SCIENCES**
  (Undergraduate Studies)

Julijana Delač, alumna of the Faculty of Legal Sciences

A Croatian student who began her academic journey at the Pan-European University "APEIRON," Julijana now successfully lives and works in Ireland, sharing her experiences of integrating into the business world of Dublin. Her choice of studies at the University "APEIRON" was motivated by the desire to obtain a recognized diploma that is acknowledged across Europe, which is crucial for a successful career in an international environment. Financing her education by working in an accounting office, Julijana simultaneously gained practical knowledge in finance, which later proved beneficial in her professional life. After graduating and earning the title of Bachelor of Laws, Julijana moved to Ireland. Although she was already proficient in English thanks to her previous education, she realized that improving her business English skills was essential for further career advancement. Her first job in hospitality gave her the opportunity to enhance her communication skills and familiarize herself with the local culture, while at the same time exploring possibilities for entering specialized legal work. Facing challenges in the labor market where the Common Law system remains dominant, Julijana understood that she would need additional education to pursue a legal career in Ireland. She decided on a basic bookkeeping course to acquire additional knowledge demanded in the Irish job market. Her education at the University "APEIRON" and additional professional training were key in her job search, quickly attracting the attention of employers thanks to her impressive resume that highlighted a wide range of specialized subjects and interests.

Today, Julijana works as an accounting trainee, which allows her to further gain experience and prepare for future studies at the master's program of the University "APEIRON," including ACCA studies. Her experience demonstrates the importance of education and professional development in achieving success in foreign labor markets, emphasizing how education at the University "APEIRON" was crucial for her professional integration in Ireland. Julijana's story highlights the importance of a positive approach to learning and advancement, as well as persistence in seeking opportunities and improving language skills and abilities essential for success in an international business environment.

■ **KATICA TOMIĆ – FACULTY OF LEGAL SCIENCES**
(Master's studies)

Katica Tomić, alumna of the Faculty of Legal Sciences

She graduated from the Faculty of Legal Sciences at the Pan-European University "APEIRON" after completing a four-year undergraduate program, where she also successfully defended her master's thesis. Following the completion of her master's studies, she decided to continue her academic advancement at the same university by enrolling in Doctoral Studies. Simultaneously, she also enrolled in doctoral studies at the Faculty of Law, University of Vienna (Rechtswissenschaftliche Fakultät, Universität Wien), further expanding her legal competencies and perspectives. She began her professional career at the Rechtsanwälte BVM law firm in Vienna, specializing in legal areas aligned with her academic interests and research work. Through her work, Katica Tomić has contributed to the scientific field by publishing several significant papers in internationally recognized scientific journals. Her publications, "Product intervention of supervisory authorities in financial services" and "Insurance-based investment products in the EU legal framework," represent a significant contribution to the legal regulation of financial services in the European Union. Her research has also covered topics such as arbitration in the insurance industry and modern technology in the banking-insurance sector, resulting in the acceptance of her papers in journals like Young Arbitration Review – YAR in Lisbon, Portugal, and Versicherungsgeschichte Österreichs in Vienna. These works have not only expanded her academic field but also confirmed her expertise and engagement in the legal community. Through her academic studies, research, and professional involvement, Katica Tomić continues to inspire and contribute to the development of the legal and academic fields, demonstrating a high level of dedication and expertise in her area.

■ **BILjANA BRADIĆ – FACULTY OF HEALTH SCIENCES**
(osnovni studij)

Biljana Bradić, alumna of the Faculty of Health Sciences

A prominent figure in the medical community, particularly known for her impressive achievements and dedication in the field of healthcare. Starting her career at the Military Medical Academy (MMA) in 1995 in the Apartment Department, Biljana quickly showcased exceptional abilities and was transferred to the Clinic for Anesthesiology and Resuscitation as early as 1997. Her expertise and dedication did not go unnoticed, and in 1998 she was employed full-time at the Clinic for Nephrology, where she continues to actively contribute to patient care today. Her education is equally impressive – she earned the title of Bachelor of Nursing (180 ECTS) from the Faculty of Health Sciences at the Pan-European University "APEIRON"

in 2013, and in 2015 she completed a study program in Healthcare Management, earning the title of Bachelor of Healthcare Management (240 ECTS). This combination of theoretical knowledge and practical skills has allowed her to become a leader in her field. Biljana is also an active member of the Coordinating Committee of the Association of Nephrology Nurses of Serbia, where her engagement contributes to the advancement of the profession and the education of her colleagues. Her dedication, expertise, and continuous pursuit of professional development make her a role model in the medical community, while her contributions in the fields of nephrology and healthcare management remain indelible.

The "Dr. Risto Kozomara" Scholarship Fund

- Established: January 30, 2014, in memory of the esteemed professor and rector of the Pan-European University "APEIRON," Prof. Dr. Risto Kozomara, during his tenure from 2009 to 2013
- First scholarship recipient: Aleksandra Živković (February 14, 2014)
- Number of scholarships awarded (2014-2023): 24

Prof. Dr. Risto Kozomara, Rector of the Pan-European University "APEIRON" during the term 2009–2013

The Scholarship Fund for students of the Pan-European University "Dr. Risto Kozomara" was established on January 30, 2014, in memory of Prof. Dr. Risto Kozomara, a distinguished doctor, professor, scientist, and rector of the Pan-European University "APEIRON." Prof. Dr. Risto Kozomara (born in Glamoč, August 17, 1948 – died in Banja Luka, November 18, 2013) was a renowned ophthalmologist, university professor, and the second rector of the Pan-European University "APEIRON" during his mandate from 2009 to 2013. [2]

[2] To read the biography of Professor Dr. Risto Kozomara, refer to Chapter 1 (Rectors) in this publication.

OBJECTIVES AND ACTIVITIES OF THE FUND

The objectives of the Fund are:

- providing financial support to the most talented students of the first cycle of studies;
- encouraging students to do scientific research work;
- promotion of the achieved results of scholarship recipients;
- providing support in the development of the scholar's professional and scientific research career;
- cooperation with other institutions and organizations of importance for University students.

The headquarters of the Fund is the Pan-European University. The Fund is represented by the director of the Pan-European University "APEIRON." Since its establishment, the University has provided scholarships to more than 30 extraordinary students who are employed at the Pan-European University "APEIRON" (its own staff/recruitment). Scholarships are also granted to prominent athletes who are students of the University (Fund "Dr. Risto Kozomara," 2014). The selection of scholarship candidates is based on the highest average grade achieved by third-year students in the first cycle of studies. Starting from the 2023/24 academic year, scholarships have been extended to the best students in the final year of master's studies (second cycle). Since the establishment of the Fund for Scholarships "Dr. Risto Kozomara," the University "APEIRON" has awarded scholarships to a total of 24 students.

The Pan-European University "APEIRON" annually grants a scholarship, covering tuition fees for every year of undergraduate studies, to the top graduate of the Secondary School Center "Gemit-APEIRON." Since its founding, the University has also provided scholarships to all of its employees who have ambitions and a desire for advancement, as well as to members of their families. Certain residents of the Rada Vranješević Home for Children and Youth without Parental Care and successful athletes from Republika Srpska and Bosnia and Herzegovina have also been scholarship recipients of "APEIRON."

Student Aleksandra Živković, the first recipient of the "Dr. Risto Kozomara" Fund scholarship, 2014

Student Olivera Štiklica, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2016

Student Stefan Glamočak, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2016

Student Sanja Ljuboja, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2016

Student Aleksa Vranješ, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2017

Student Darija Votoupal, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2017

Student Snežana Popović, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2017

Student Biljana Buzaković - Bagić, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2018

Student Ivana Živković, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2018

Student Nadalina Pelagić, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2018

Student Dijana Ilić, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2019

Student Jana Ivanović, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2019

Student Nataša Šinik, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2019

Student Aljoša Kostić, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2020

Student Bojana Radović, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2020

Student Dejan Bajić, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2020

Student Siniša Gligorić, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2020

Student Dajana Đukić, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2021

Student Tatjana Đukić, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2021

Student Teodora Kaplarski, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2021

Student Bosiljka Grčić, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2022

Student Marko Babić, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2022

Student Milan Panić, recipient of the "Dr. Risto Kozomara" Fund scholarship, 2022

SCHOLARSHIP RECIPIENTS

The recipients of the scholarship, covering tuition fees for one year of studies, between 2014 and 2021 were the following regular students of the Pan-European University "APEIRON" (Fund "Dr. Risto Kozomara," 2023):

2023

- David Raković, Faculty of Business Economics,
- Aleksandra Roljić, Faculty of Health Sciences,
- Žarko Bajić, Faculty of Business Economics.

2022
- Marko Babić, Faculty of Health Sciences,
- Milan Panić, Faculty of Information Technologies,
- Bosiljka Grcić, Faculty of Philological Sciences.

2021
- Tatjana Đukić, Faculty of Philological Sciences,
- Dajana Đukić, Faculty of Legal Sciences,
- Teodora Kaplarski, Faculty of Health Sciences.

2020
- Aljoša Kostić, Faculty of Business Economics,
- Dejan Bajić, Faculty of Information Technologies,
- Bojana Radović, Faculty of Philological Sciences,
- Siniša Gligorić, Faculty of Information Technologies.

2019
- Jana Ivanović, Faculty of Legal Sciences,
- Nataša Šinik, Faculty of Health Sciences,
- Dijana Ilić, Faculty of Philological Sciences.

2018
- Biljana Buzaković-Bagić, Faculty of Legal Sciences,
- Nadalina Pelagić, Faculty of Traffic,
- Ivana Živković, Faculty of Sports Sciences.

2017
- Snežana Popović, Faculty of Philological Sciences,
- Darija Votoupal, Faculty of Health Sciences,
- Aleksa Vranješ, Faculty of Business Economics.

2016
- Stefan Glamočak, Fakultet informacionih tehnlogija,
- Sanja Ljuboja, Faculty of Health Sciences,
- Olivera Štiklica, Faculty of Business Economics.

2015
- Suzana Bjelošević, Faculty of Philological Sciences.

2014
- Aleksandra Živković, Faculty of Business Economics.

The "APEIRON Trophy" Student Sports Games

The "APEIRON Trophy" Student Sports Games represent a significant event in the realm of student sports, first held in 2012. This event serves as a platform for young athletes to compete, encouraging them to showcase their skills and team spirit. Most recently, the event was held from May 24 to May 26, 2023, once again drawing substantial attention and participation. That year, over 140 participants joined the tournament, where they had the opportunity to compete in various sports disciplines, including table tennis, volleyball, futsal, and basketball. This diversity of sports activities allowed students to demonstrate their talents and showcase their abilities across multiple sports.

The initiative to organize this sports event was launched by the Student Parliament, with students making significant contributions through their volunteer engagement. Their involvement not only helped in organizing the event but also contributed to creating an atmosphere of unity and active student participation in sports activities.

Student Sports Games "APEIRON Trophy," 2012

The event was organized for all students and pupils of the Secondary School Center "Gemit-Apeiron," further enhancing the competitive spirit and fostering the development of sports among youth. The Faculty of Sports Sciences at the Pan-European University "APEIRON," as the organizer, provided a strong and friendly environment, contributing to the success of this event.

The "APEIRON Trophy" Student Sports Games offer an excellent opportunity for students not only to compete but also to connect, form friendships, and develop their skills in sports and teamwork. This event remains an essential part of university life, encouraging young people to lead active and healthy lifestyles.

CHAPTER 6

SOCIAL RESPONSIBILITY

Acts of humanity, inclusion, sports and health, culture and media

Social Responsibility Mission

Pan-European University APEIRON implements principles of social responsibility in all aspects of its work, aiming to contribute to positive changes in the local community and wider society. This responsibility encompasses acts of humanity, inclusion, sports and health, as well as culture and media, fostering not only academic development but also social awareness about the importance of these issues.

Acts of Humanity

Pan-European University actively participates in humanitarian actions and projects aimed at supporting vulnerable groups in society. Students and employees engage in volunteer activities, fundraising for humanitarian purposes, and organizing educational programs that empower individuals and communities. These activities not only aid those in need but also develop awareness of the importance of solidarity and support.

Inclusion

Through inclusion programs, Pan-European University "APEIRON" ensures that all students, regardless of their differences, have equal opportunities for education and development. The University actively promotes gender equality and the inclusion of individuals with disabilities and other marginalized groups. Tailored teaching and accessible resources contribute to the creation of an inclusive environment that allows all students to realize their potential.

Sports and Health

Awareness of the significance of physical activity and a healthy lifestyle is an important aspect of Pan-European University's social responsibility. The University organizes various sports activities and competitions, encouraging students to actively participate and develop healthy living habits. Additionally, workshops and lectures on mental health and well-being are held, contributing to the overall welfare of students.

Culture and Media

Pan-European University actively promotes culture and art through various events, exhibitions, and workshops. The University supports young artists and creators and initiates programs that encourage creativity and innovation. Furthermore, the network of media platforms developed by the University serves as a space for critical debate and the exchange of ideas, enabling students to actively engage in public discourse.

Acts of Humanity

From its very establishment, acts of humanity have been embedded in the mission of the Pan-European University "APEIRON". Our university continuously strives to contribute to society and the community by providing assistance to those who need it the most.

One of the most cherished traditions we uphold is helping the young residents of the "Rada Vranješević" Home for Children and Youth Without Parental Care. Students and university staff regularly visit this home, bringing gifts and cheerful smiles to the children. Their favorite gifts are scholarships, as they have allowed them to receive free education at the "Apeiron" University. Most often, they choose our Faculty of Health Sciences.

In line with our mission, students and professors from the Faculty of Health Sciences have organized free health check-ups and measurements of blood sugar and blood pressure for the residents of Banja Luka, Doboj, and Bijeljina. This initiative not only improved the health of the local community but also fostered trust and closeness between the University and the citizens.

When catastrophic floods struck our region in 2014, the "APEIRON" University did not remain passive. We organized fundraising and donated equipment worth 20,000 KM to the Faculty of Transport in Doboj, part of the University of East Sarajevo, which had suffered significant material damage. During this period, over 5,000 KM was raised by professors to purchase essential supplies, and we also provided a donation of beds for residents of Bijeljina whose properties were damaged.

The Pan-European University donated 10,000 KM to a special account set up by the Ministry of Finance of the Republic of Srpska for flood relief efforts

Visit to the Home for Children and Youth Without Parental Care "Rada Vranješević," September 2009

in May 2014. Professors raised over 5,000 KM, which was used to purchase cleaning supplies, hygiene products for children and adults, food, and clothing. With additional aid collected by students and pupils of the "Gemit-APEIRON" Secondary School Center, following the call of the Student Parliament of the Pan-European University, all these supplies were delivered to the residents of Doboj.

Employees of the Pan-European University whose property was destroyed in the natural disaster received 3,000 KM. On July 24, the Pan-European University donated 17 beds to the residents of Bijeljina whose property was destroyed in the May floods, in the Batković local community. The beds were delivered to households in the Batković settlement, following the list and priorities established by the City of Bijeljina. "APEIRON" also contributed manpower, and at the invitation of the mayor of Banja Luka, "APEIRON" workers helped clean flooded areas of the city.

Student assistance was not left out either. Third-year students of the Faculty of Health Sciences at the Pan-European University "APEIRON," studying Sanitary Engineering, were engaged alongside workers of the company "EKO-BeL" in cleaning and disinfecting more than 650 flooded households in the Banja Luka neighborhoods of Priječani, Česma, Lazarevo, and Trn.

Our mission of humanity did not stop even after the floods. During February and March 2021, the Student Parliament, led by Đana Pilipović, organized a humanitarian campaign to help a family whose house burned down in a fire in the Bistrica neighborhood. This campaign once again proved that the "APEIRON" community is ready to extend a helping hand at any moment.

Additionally, the Pan-European University "APEIRON" and the "Gemit-APEIRON" Secondary School Center organized the campaign "Be Humane, Stay Healthy – Help Yourself and Others." From June 7 to 10, 2016, a series of activities emphasized the importance of preserving and promoting human health. The "Humane Week" began on June 7 with a lecture on "Healthy Habits – Nutrition and Health," held by Prof. Dr. Branislav Mihajlović, Vice Dean of the Faculty of Health Sciences, for teachers, students, and interested citizens. On the same day, Professor Aleksandar Milić spoke about "Addiction Diseases." On June 8, voluntary blood donation by students and employees of the university and the "Gemit-APEIRON" SSC was organized at the Transfusion Medicine Institute of the Republic of Srpska in Banja Luka. Physical activities in nature were held at Banj brdo on June 9. On June 10, scoliosis screenings with advice were provided for children and youth by Dr. Branislava Marjanović, a specialist in physical medicine, and Prof. Dr. Gordan Bajić, in the physiotherapy laboratory of the Pan-European University.

On June 11, 2019, students and employees of the Pan-European University "APEIRON" organized a blood donation campaign in cooperation with the Transfusion Medicine Institute of the Republic of Srpska. This noble gesture was not only a reflection of our social responsibility but also an expression of solidarity with those in need of blood for treatment and recovery. The campaign attracted a large number of participants who enthusiastically responded to the call for blood donation. Our university community demonstrated strong will and empathy, aware that their decision could save lives.

Additionally, in November 2021, the student community actively participated in collecting food for the public kitchen "Mosaic of Friendship," showing that humanity knows no boundaries and that small acts can make a big difference.

When everything is taken into account, acts of humanity are at the heart of who we are and what we strive to be at the Pan-European University "APEIRON." Our commitment to helping others is permanent and tireless, representing the foundation of a community that cares, loves, and shares. Our goal is not just to provide education but to develop awareness of humanity, empathy, and solidarity, because we believe that in this way our actions will last forever.

"Inclusive Sports Days"

The event was first held in 2017.

Program Coordinator: Prof. Dr. Kada Delić-Selimović

Inclusive sports involve integrating children with specific needs or disabilities into the regular educational system. Since 2017, the Faculty of Sports Sciences of the Pan-European University "APEIRON" and the Special Olympics of Bosnia and Herzegovina have organized the sports event "Days of Inclusive Sports at APEIRON." The program coordinator is Prof. Dr. Kada Delić-Selimović, a responsible lecturer at the Pan-European University "APEIRON" and the executive director of the Special Olympics of Bosnia and Herzegovina.

Over the years, participants in inclusive competitions in basketball, football, volleyball, and table tennis included students from the "Zaštiti me" (Protect Me) Center in Banja Luka, the "Sunce" Center in Prijedor, the Special Sports Club "Banja Luka," the "Hrabro srce" (Brave Heart) Association of Parents and Individuals with Special Needs in Banja Luka, the "Neven" Association in Prijedor, the Special Sports Club Tuzla, the Table Tennis Club for People with Disabilities "Banja Luka," as well as students from elementary and secondary schools in Banja Luka. Volunteer support is regularly provided by students, teachers, and associates of the University "APEIRON." Anthropometric measurements for individuals with developmental difficulties were conducted by professors, assistants, and students, along with inclusive training sessions for children under the age of seven from the "Marija Madžar" preschool institution, with which the University has a long-term partnership. A series of lectures was also held on topics such as the health care of athletes, nutrition for athletes with diabetes, safety in sports (women's sports), and the role of parents in involving children with developmental difficulties.

Additionally, the Special Olympics BiH, University "APEIRON," and the City of Banja Luka, in collaboration with the United Nations Population Fund (UNFPA), hosted the "Inclusive Fusion Fiesta" festival on October 26, 2023. The sports games gathered participants from seven cities in the Republic of Srpska and Bosnia and Herzegovina. Inclusive teams from Banja Luka, Tuzla, Bijeljina, East Sarajevo, Sarajevo, Bosanski Petrovac, and Brčko played basketball, table tennis, and participated in football training on the "APEIRON" University campus, where a health program was also organized. This project, funded by the Italian Embassy in BiH, emphasizes inclusion through sports as a key means of connecting young people and fostering understanding of different cultures.

Cultural Events at "APEIRON"

Literary promotions

Exhibitions

The Pan-European University "APEIRON" has recently organized a series of significant cultural events that enriched "University Life" and promoted culture. Through these events, the University created a platform for exchanging ideas and fostering creativity among students, professors, and the surrounding community.

Literary promotions at the University were particularly inspiring. Among the notable cultural events, the following are highlighted:

- " Slavic Literacy and Culture Days" / Faculty of Philological Sciences
- "Russian Language Day" / Faculty of Philological Sciences
- "Chekhov Days" / Faculty of Philological Sciences
- "Homage to Pushkin" / Faculty of Philological Sciences
- Promotion of the book "Smisao i besmisao" (Sense and Absurdity) by Jana Aleksić
- Promotion of the book "Pešak u bespuću" (A Wanderer in the Void) by Zorka Grandov

In addition to literary promotions, the University "APEIRON" also organized several remarkable exhibitions:

- Exhibition "Milanković"
- Exhibition "Libada"
- Exhibition "Mileva Marić Einstein"
- Exhibition "Frescoes in Bosnia and Herzegovina"
- Exhibition "Mihajlo Pupin"
- Photo Exhibition "Vrbas Boat – Dajak"

Overall, cultural events at the Pan-European University "APEIRON" represent an essential aspect of "University Life," promoting cultural awareness and encouraging young people to actively participate in cultural activities and develop their creative potential.

Fitness Club "APEIRON" Association

Wellbeing and Holistic Fitness Programs

The association was founded in 2015.

Founders: Jana Aleksić and Sanja Gajić

Programs (group and individual):
- Holistic fitness – live sessions
- Wellbeing and holistic fitness – live and online sessions
- Yoga and breathing exercises
- Energy-psychological treatments
- Bowen therapy
- Career counseling and coaching (HD analysis)

Program facilitators:
- Jana Aleksić, Associate Professor, practitioner of psychological-energy techniques (EFT, TH, and TLH), and leader of the holistic fitness program
- Sanja Gajić, Physical Education Teacher, physiotherapist, and Bowen therapist
- Bojana Blažević, Senior Assistant, career coach, mindfulness and yoga teacher, NLP master

The Fitness Club "APEIRON" logo was designed by Sanja Šaula during the association's registration in 2015.

Program Leaders for Wellbeing and Holistic Fitness at the Fitness Club "APEIRON," October 2024

KEY INFORMATION

The Fitness Club "APEIRON" Association in Banja Luka was founded in 2015. After several years of informal gatherings for exercise in the gymnasium of the "APEIRON" University, the Association officially began its work in 2015. Today, the club offers holistic fitness training for women. Holistic fitness involves working with both the body and the mind. The founders and trainers of the association are Jana Aleksić and Sanja Gajić (Aleksić, Blažević, & Gajić, 2024).

The content of holistic fitness training includes:
- Conscious breathing
- Body preparation exercises
- Dance, cardio, and strength exercises
- Meditation, tapping, and other relaxation methods

The purpose of the training is:
- To connect with the body
- To learn proper exercise techniques
- To learn proper breathing techniques

- To achieve individual goals
- To promote physical health
- To promote mental health
- To encourage relaxation and release burdens
- To attain physical and spiritual ease

The mission of this association is to contribute to the women they work with and to the community in which they live and beyond. “Our mission and vision is to bring more awareness to our surroundings, to offer women a space for growth, a place for enjoyment, and to provide them with encouragement to be on the path of self-love. The path of love is a gradual process, and we invite women to be ready to progress in this area daily.”

Since March 2024, a Wellbeing space has been created within the association. The Wellbeing space, which is an integral part of the Association, hosts:

Group programs:

- Holistic fitness – live sessions
- Wellbeing and holistic fitness – live and online sessions
- Yoga and breathing exercises

Individual treatments and programs:

- Energy-psychological treatments
- Bowen therapy
- Career counseling and coaching (HD analysis)

The Wellbeing space is operated by Jana Aleksić, Sanja Gajić, and Bojana Blažević. Prof. Sanja Gajić is a physical education professor, physiotherapist, and Bowen therapist. Prof. Dr. Jana Aleksić holds a doctorate in economics, is a fitness trainer, and a practitioner of EFT, TLH, and TH therapies (Emotional Freedom Techniques, Timeline Healing, and Theta Healing). Bojana Blažević, a master of economics, is a yoga instructor, NLP master, and career coach.

Fitness Club "APEIRON"

Others About Us

Since its establishment in 2005, the Pan-European University "APEIRON" in Banja Luka has attracted significant media attention both locally and nationally.

Over the years, the University has been at the center of information related to the digital concept of education, educational and research projects, cultural activities, and the achievements of students and employees. Media coverage of the University's work has provided a broad perspective on all important aspects of the functioning of this educational institution.

Periodic articles, reports, and interviews have shown that the University not only fulfills its educational role but also actively contributes to the development of society as a whole. For the future, the continuation of media support and interest in the University's work and initiatives is expected.

This section presents media reports on the work of the Pan-European University "APEIRON" over the past 20 years.

Enclosed: printed media excerpts reporting on the work of the Pan-European University "APEIRON" (2005–2025)

Студенти "Апеирона" иновацијом за дјецу с потешкоћама у развоју одушевили жири и учеснике фестивала у Сарајеву

Младим иноваторима награда за најбољи научноистраживачки рад

БАЊАЛУКА - Студенти Факултета информационих технологија Универзитета "Апеирон" Даниел Меналовић, Јелена Радановић, Никола Ранић и Зоран Гламочак освојили су специјалну награду "Др Бранислава Перуничић" за најбоље оцијењен студентски рад на "Sarajevo Innovation Festival".

Њихов пројект - RC платформа контролисана помоћу "PlayStation 4" контролера оцјењивали су: професор емеритус на Електротехничком факултету Универзитета у Сарајеву и академик Академије наука и умјетности БиХ acc. dr sc. Бранислава Перуничић, остали чланови жирија и сви учесници фестивала.

Дводневне су и додијељене награде у другим категоријама оцјењивање само од стране жирија.

Поред "Апеирона" награду је уручила лично професорица Перуничић, а похвале су добили и од директорице "Tehnach Фондације", оснивача фестивала, Маје Туруновић.

- Турсуновић је истакла изузетно културолошки карактер овог пројекта, јер смо обједињали

[illegible] је раније одобрила новац за сваку могућа, да се развијамо.

...вештине из подручја програмирања, роботике и медицине и успјешно остварила амбициозни пројекат који има циљ превентивно да побољша живот дјеце с потешкоћама у развоју - рекао је Даниел Меналовић.

Нагласио је да је сврха иновације да ублажи моторичке способности и емоционално стање малишана кроз игру им могућност управљања роботом.

- На фестивалу је примијећено да смо у фокус ставили сиромашну будућност дјеце којима је потребна подршка - истакао је Меналовић.

На фестивалу који је одржан 28. октобра сте годину, колаборирали су студенти из цијеле БиХ који су у претходном периоду вриједно радили на својим научноистраживачким достигнућима.

МЕНТАЛНИ И ЦИЉ КВАЛИТЕТНИЈИ ЖИВОТ МАЛИШАНА

"Sarajevo Innovation Festival" већ седам година организује СТЕЛЕКС, Удружење студената Електротехничког факултета Универзитета у Сарајеву. Представља смотру студентских радова, младих иноватора из области електротехнике, информационих технологија, машинства и других сродних области. Досадашњи су окупљали водеће ИТ компаније у БиХ.

Источни Стари Град

Награђени спасиоци који су ишли у Турску

ИСТРАЖИВАЊЕ У ДОБОЈУ И ТЕСЛИЋУ ПОКАЗАЛО ДА ЈЕ ГРАЂАНИМА НАЈСНА ДЕФИНИЦИЈА ШТА ЈЕ ТО ДОМАЋИ ПРОИЗВОД

ИСТОЧНО САРАЈЕВО - Начелник општине Источни Стари Град Бојо Гашановић организовао је пријем за припаднике Горске службе спасавања (ГСС) Источни Стари Град који су учествовали у спасилачкој мисији у Турској након разорних земљотреса.

Гашановић је члановима ГСС уручио пригодне награде за рад и залагање у учешћу у спасилачкој мисији.

- Заиста смо поносни на момке који су одговорили овом задатку, али и на нашу локалну заједницу која, иако мала, усмјерена да организује спасилачку службу која може да буде на помоћи било када и било гдје - истакао је Гашановић. (Срна)

СУРОВИМ ИСПИТИВАЊЕМ ПРЕДСТАВНИЦА ФОРУМА ЗА ЗАШТИТУ ПОТРОШАЧА "ТОПЛЕР"

Универзитет "Апеирон" организује стручно усавршавање инструктора, предавача и испитивача

Безбједнији саобраћај уз добро обучене возаче

БАЊАЛУКА - Паневропски Универзитет "Апеирон" Бањалука организује стручно усавршавање инструктора, предавача и испитивача из управљања моторним возилом.

Сертификовано стручно усавршавање инструктора, лиценцираних предавача теоретског наставе, испитивача теоретског дијела испита и испитивача из управљања моторним возилом биће одржано сутра у 10.30 часова у организацији Саобраћајног факултета Универзитета "Апеирон", а уз сагласност Министарства просвјете и културе Републике Српске и Завода за образовање одраслих.

Више од 100 учесника пријавило се за стручно усавршавање чији исход су сертификати важећи за издавање лиценци у БиХ.

- Циљ усавршавање у сарадњи на путовима тражи конкретне одговоре и акције у рјешавању проблема са којима се свакодневно суочавамо. Саобраћајни факултет у оквиру активности комуникационих повећању нивоа безбједности саобраћаја на путевима организовао је стручно усавршавање оних који предводе нове возаче - нагласио је декан Саобраћајног факултета и предсједник Организационог одбора Данислав Драшковић.

ВИШЕ ОД 100 ПРИЈАВЉЕНИХ УЧЕСНИКА

Овакав вид стручног усавршавања већ шест пута је организован на Универзитету "Апеирон", а из Саобраћајног факултета најављују да ће и у наредном периоду бити организовани слични догађаји.

Паневропски универзитет "Апеирон"

Отворен Кутак руске литературе

БАЊАЛУКА - На Паневропском универзитету "Апеирон" у петак је отворен Кутак руске литературе, захваљујући донацији Руске хуманитарне мисије која је Факултету филолошких наука поклонила 600 књига, обрадовану, непедагошку и белетристичку литературу.

Донацију је уручио шеф Руске хуманитарне мисије на Балкану Бранимир Нешић, који је изразио задовољство сарадњом са универзитетом "Апеирон" и додао да се Факултет филолошких наука овим донацијом сврстао у уред високошколских установа са најбогатијом литературом на руском језику на Балкану.

- Надам се да ће са овом малом помоћи, за коју очекујем да ће у будућности бити и већа, овдје бити центар за изучавање руског језика не само у Републици Српској него и у БиХ, али и шире. Желим да Кутак руске литературе зовне пуним плућима, да има све више и више студената - казао је Нешић.

Специфичан гост на свечаности била је атташе за културу Амбасаде Руске Федерације Анастасија Гајдаленок, која је захвалила "Апеирону" јер је пружа бављењу руског језика и књижевности. Она је навела да ће се руска амбасада и даље залагати за сарадњу Паневропском универзитету.

РУСКА ХУМАНИТАРНА МИСИЈА ПОКЛОНИЛА 600 КЊИГА

- Захваљујем и Руској хуманитарној мисији са којом сарађујемо неколико година и надамо се да ће та сарадња још више јачати - истакла је она.

Декан Факултета филолошких наука Лариса Чанић захвалила је донаторима на поклону од 600 књига врхунске руске литературе.

У оквиру свечаности одржано је и књижевно вече посвећено 125. годишњици

рођења Сергеја Јесењина. Вечером о Јесењину говорили су професор Бранимир Чанић и студенти Факултета филолошких наука. Путем "Зум" видеопоруке поводом Јесењина у програм су се укључили и учесници Економске школе из Добоја, који је за ову манифестацију припремио њихов професор руског језика, а сарадник студент "Апеирона" Борислав Марић.

А. Т.

БАЊАЛУКА - Међународна научна конференција "Ново и традиционално у транслатологији и настави руског језика као страног" почела је данас, а биће обрађене теме онлајн технологија у учењу руског језика као страног и проблеми његовог превођења.

Панел дискусија се одржала путем "Зум" платформе, а научници ће закључак за данас саопштити касније.

Конференцију су организовали Факултет филолошких наука Паневрпског универзитета "Апеирон", "Руски нови универзитет" из Москве, Савез преводилаца Русије и Удружење преводилаца Србије.

Расправљаће се на теме превода, језика и културе, проблема и перспективе учења на даљину руског језика као страног, те руског језика у систему обуке специјалиста интернационалне комуникације и многе друге.

Према речима организатора, биће организована и секција за младе научнике, магистранте и докторанде.

- Ово је велики допринос научној сарадњи посебном питањима глобалног система дидактичких сегмената онлајн технологија у учењу руског језика као страног и проблемима превођења - казала је професорица Лариса Чанић, декан Факултета филолошких наука и председник Организационог одбора Конференције.

Почела онлајн међународна научна конференција на "Апеирону"

Руски језик између модерног и традиционалног

УВОДНО ИЗЛАГАЊЕ ОДРЖАЋЕ АКАДЕМИК НИКОЛАЈ ГАРБОВСКИ

Након њега ће научни руководилац међународних удружених лабораторија "Иновативне технологије у области мултикултурног образовања" Елизавета Кудрјавцева из Берлина изложити тему "Културолошки приход у осмишљавању универзитетског читања - Лермонтова" из "Героја".

Путем излагања своје научне радове изложиће више од 80 аутора из Русије, Словачке, Шпаније, Републике Српске, Грчке, Србије, БиХ, Македоније, Немачке, Чешке, Индије, Кине, Турске, Узбекистана и Кипра.

"Апеирон" је ове године шест година ову конференцију организовао са Московском државном универзитетом "Ломоносов", а ни ове године није изостала подршка. Са Руском академијом наука 2017. године Апеирон је такође организовао конференцију посвећену истом тематика.

Панорама

Фочански ватрогасци

Уз ново возило јачи у борби против ватре

ФОЧА - Територијална ватрогасна јединица Фоча у летњој је испоручено најсавременије возило за гашење пожара и брзе интервенције, за чију набавку су Републички савез РС и општина Фоча издвојили 250.000 марака.

Поред овог возила ватрогасци су добили ватрогасни комбинезон који ће им увелико олакшити рад, јер поседује најбоље карактеристике, као и одређену опрему за рад.

- Возило има резервоар запремине 5.500 литара воде и 300 литара пјене. Оно нам је веома неопходно и значи нам пуно - рекао је командир Територијалне ватрогасне јединице Фоча Радивој Малеш.

"Дани инклузивног спорта" на Паневропском универзитету "Апеирон"

Спорт брише границе

БАЊАЛУКА - Стрелица у разним спортским дисциплинама показало је више од 200 учесника манифестације "Дани инклузивног спорта на Апеирону", која је одржана у петак.

Они су се такмичили у кошарци, фудбалу, одбојци, стоном тенису, док су се на полигону надметала деца од пет до осам година. Манифестација, која је уз дефиле отворена на спортском терену испред Паневропског универзитета "Апеирон", одржала је и у фискултурној сали Средњошколског центра "Тимо-Апеирон" и на плажи код Зеленог језера.

Учествовали су малишани бањалучких Центра "Завичајче" и Клуба спортских спортова, као и Центра "Сунце" Приједор, освајачи медаља Специјалне олимпијаде у Аустрији и Бугарској из бањалучких школа.

Декан Факултета спортских наука Велибор Срећковић истакао је да је циљ манифестације да се шири друштвено, научна и стручна јавност активније укључи у побољшање квалитета живота особа са посебним потребама.

- Пандора кутија је и да се деца која директно раде са особама које се баве спортским активностима додатно оснажују и стичу неопходна искуства за даље активности - казао је Срећковић.

Извршна директорица Специјалне олимпијаде БиХ Каја Дејић-Селимовић казала је да ће овај начин рада мајдановом спектаклу да побољшају статус особа са инвалидитетом.

Д.С.

ИЗДВАЈАМО

ИНДИАН ВЕЛС - Бившу Миланову Каћановића у Индијан Велсу прекинуо је Милош Раонић (63, 6-4), али млади српски тенисер нема разлога за тугу. Као срећни губитник дошао је до четвртфинала мастерса, обезбеђивши 180 бодова који му гарантују скок са 98. на 94. место АТП листе. Каћановић је имао шанси и против Раонића, посебно у другом сету, али то није било довољно за игранка полут Канађанина. Раонић ће у полуфиналу играти са Домиником Тимом који је меч био борбе предао Гаел Монфис.

Девета међународна конференција "Спортске науке и здравље"

Науком до бољег здравља спортиста

БАЊАЛУКА - Девета међународна конференција "Спортске науке и здравље" на Паневропском универзитету "Апеирон" у Бањалуци окупила је учеснике из шест држава, а представљено је 46 радова као и три увидна реферата.

- Успјели смо да окупимо велики број педагога физичког васпитања, физиотерапеута, лекара, спортских стручњака и свих људи који су у комплементарним областима са спортском науком и здрављем. Основни циљ наше манифестације је да утврдимо који је то утицај спорта на здравље човјека и како побољшати оптимални здравствени статус спортиста и рекреативца. Посебно смо срећни што поред научника имамо велики број стручњака-практичара из различитих области који су препознали значај конференције јер је наука неодвојива од праксе - рекао је декан Факултета спортских наука и предсједник Организационог одбора конференције Велибор Срећковић.

М.З.

"Дани каријере" на Паневропском универзитету "Апеирон"

Студентима шанса за праксу и запослење

Веома је важно за једног студента и будућег радника не само да прође кроз техничке ствари и изазове које ће једног дана од њега посао тражити, већ генерално да осјети на својој кожи то радно окружење у којем ће се у будућности наћи, рекао Марчета

ПИШЕ: ЈАНА ЖИВИЋ
jana.k@glassrpske.com

БАЊАЛУКА - Паневропски универзитет "Апеирон" има одличну вишегодишњу сарадњу са бројним фирмама широм земље па у том духу на већ традиционалном "Данима каријере" 15 лидерских компанија студентима нуди могућност пракси, стипендија, али и запослења.

Дводневни "Дани каријере", који су почели јучe у организацији Центра за кариjере, осим студентима Паневропског универзитета "Апеирон" намијењени су и за дипломце који су завршили студије те су у потрази за послом или даљом едукацијом.

Током првог дана понуду су пред студенте изнијеле компаније "Лавазо", Procredit banka, "Електропривреда", "Интеграл инжењеринг", "Јединствени ПДВ", "Ministry of Programming", "Telelink", "Symphony", "Zen-Dev" и "Моја дигитална академија", а данас ће своје презентације излагати компаније "Mistral", "Planetsoft", "JS Guru", "Mint" и "Nomasi".

Ректор Паневропског универзитета "Апеирон" Самел Јакуповић рекао је за "Глас Српске" да се "Дани каријере" већ традиционално одржавају те да увијек комбинује најбоље резултате.

- Веома нас радује што 15 најуспјешнијих фирми из БиХ презентује своју понуду студентима Свеобухватног факултета, Факултета информационих технологија и Факултета пословне економије малог универзитета - рекао је Јакуповић додавши да има више од 200 студената ова три факултета.

Како каже, веома је важно повезати Универзитет и студенте са самом праксом.

- У интервјуима видимо да су веома задовољни студенти, шаљу нам односно фирме, али и они, као руководство - казао је Јакуповић.

РЉ компаније "Лавазо" Новак Чечковић рекао је да њихова компанија већ 16. година расписује конкурс за летњу стручну праксу те да велики број људи остане и добије запослење.

- На летњу праксу могу да се пријаве сви студенти техничких факултета из БиХ и Србије. Они тада пролазе рад у фирми и ради код нас осам сати и све им буде плаћено - рекао је Чечковић. Објасниво је да студентима који дођу из БиХ буде плаћен смјештај, храна, као и тих баладних.

Студент Алекса Марчета каже да је био три мјесеца на пракси те да је задовољан искуством које је стекао.

МОГУЋНОСТИ

Предсједница Студентског парламента Лидија Жунић каже да је сад добра вијест што нам, јер доста студената раније није било упућено у могућности које нуди.

- Није исто кад сви то виде на неком сајму и када компаније дођу и лично представе шта нуде. Сајам је одличан и то што факултет подржава сваки вид догађаја треба похвалити, јер он у центар пажње ипак ставља наше студенте - рекла је Жунићева.

ЈАКУПОВИЋ: МАНИФЕСТАЦИЈОМ ЗАДОВОЉНИ СВИ

- Веома је важно за једног студента и будућег радника не само да прође кроз техничке ствари и изазове које ће једног дана од њега посао тражити, већ генерално да осјети на својој кожи то радно окружење у којем ће се у будућности наћи - рекао је Марчета. Опште манифестације, како каже, подижу свијест да и на домаћем тржишту има лидерских компанија те да није све на Западу.

Јубиларна конференција у организацији Паневропског универзитета "Апеирон"

"ЕДАСОЛ 2020" окупља научнике са три континента

БАЊАЛУКА - Јубиларна, десета конференција о економском развоју и економском стандарду "ЕДАСОЛ 2020" данас ће окупити научнике са три континента који ће презентовати радове на многе теме, а главна ће бити посљедица "корона 19".

Конференцију, коју организује Факултет пословне економије Паневропског универзитета "Апеирон", због епидемиолошке ситуације ове године биће одржана онлајн, путем платформе "Зоом", а отварање је предсједник Владе РС Радован Вишковић, који учествује и са два научна рада.

Како је наведено у саопштењу овог универзитета, главна тема овогодишње конференције биће тема "Економски изазови и посљедице пандемије covid 19 на земље у развоју".

- О значају конференције говори и то да су пријављени учесници из земаља друге временске зоне, као на примјер професор Јозе Варгас Нетцилдез из Мексика, који ће излагати свој рад у три часа ујутро. По локалном времену то је 12.40 - рекао је техничког секретар конференције Алоша Костић.

Ове године "ЕДАСОЛ" је сабрао 41 научно-стручни рад, 95 аутора из 11 земаља - Мексика, Саудијске Арабије, Турске, Јужне, Словеније, Пољске, Аустрије, Србије, Хрватске, Словеније Македоније и земље домаћина.

Предсједник Организационог одбора "ЕДАСОЛ 2020" Самел Јакуповић истакао је да су задовољни, будући да је овогодишња конференција постигла знатно већи успјех него протекле три у погледу броја пријављених радова.

- Презентовани радови ће бити прослијеђени уредницима одборима на рецензију и они који задовоље критеријуме биће публиковани у међународном научном часопису "EMC REVIEW", који је индексиран у бази података ESCI (WoS) - рекао је Јакуповић.

Партнери научног скупа су Тамбовски државни универзитет из Русије, Јаотонг универзитет из Кине, Trakya универзитет из Турске, Економски факултет Универзитета у Загребу, Факултет за логистику у Целју Универзитета у Марибору, Факултет за економију и информатику Универзитета у Новом Месту, ФОН Универзитет у Скопљу, Универзитет "Универ Никола Тесла" у Београду, Универзитет у Зеници, те Интернационални Burch универзитет у Сарајеву.

KONGRES ZA STUDENTE I MLADE PROFESIONALCE U BANJALUCI

Izazov je ostati u BiH i imati karijeru

M. MILOJEVIĆ

Veštačka inteligencija, sajber-bezbednost, preduzetništvo, javni nastup i komunikacija teme su koje su dominirale na Kongresu IEEE za studente i mlade profesionalce.

Na kongresu IEEE, nedavno održanom u Banjaluci u prostorijama Panevropskog univerziteta „Apeiron" više od 200 mladih učesnika iz šest zemalja imalo je priliku da čuje iskustva domaćih i evropskih eksperata.

Među ekspertima koji su svoje znanje i veštine podelili da studentima i mladim profesionalcima bili su osnivač i menadžer Fondacije „Mozaik" Zoran Puljić, motivacioni govornik iz Holandije Rari Janzon, profesor programskih sistema iz Osijeka Josip Balen, te mlada Banjalučanka Tatjana Vučić, direktorka „Bit alijanse", koalicije IT industrije u BiH.

Svoja iskustva je sa drugim učesnicima podelila i Erna Šošević, osnivačica startupa Bizbook.ba. Šoševićeva smatra da je, uprkos tome što mnogi mladi ljudi odlaze iz Bosne i Hercegovine, budućnost ipak u ostanku.

– Svaki problem našeg društva možemo posmatrati i kao izazov i kao priliku. Ukoliko nemamo potrebna znanja i veštine da bi neki problem rešili, jasno je da edukaciju treba tražiti i van granica zemlje. Nakon toga možemo razgovarati o načinima realizacije tog rešenja, jer načina za podršku ima ukoliko ih tražite – smatra Erna. Šošević, koja sa puno optimizma gradi svoj mali biznis.

Kaže da je odlučila da prihvati izazov i trči maraton do zadatog cilja, a to je digitalna ekonomska transformacija za koju je Bizbook.ba već dobio međunarodno priznanje ove godine.

– Dakle, moguće je izgraditi biznis u Bosni i Hercegovini, ali to zahteva upornost, vizija i posvećenost. Bizbook.ba je već imao dve ponude za investiciju od dva evropska investiciona fonda. Oni su, međutim, tražili da preselimo sedište kompanije u inostranstvo, a mi to nismo prihvatili jer smatramo da je naša budućnost vezana za Bosnu i Hercegovinu – kaže mlada preduzetnica iz Sarajeva sa već zanimljivom biografijom.

Kenan Kurdić, šef marketinga Fondacije „Budućnost u BiH", koja je bila jedan od organizatora ovog kongresa, čvrsti da mladi u Bosni i Hercegovini retko imaju prilika da uče od iskusnih stručnjaka koriste veštine.

– Posebno je bitno da mladi ljudi na početku karijere razvijaju svoje sposobnosti komunikacije, jer bilo kojim poslom da se bavite, biti izvrstan majstor komunikacije je uvek prednost. Mi u Fondaciji ovo smatramo izuzetno važnim jer znamo kako je bitno povezati dijasporu da ljudima koji žive u Bosni i Hercegovini da bi što pre počeli pretvarati svoje ideje u biznise. I to je, u stvari, posebna vrsta komunikacije – kaže Kenan Kurdić.

Suorganizator Kongresa je bio Univerzitet „Apeiron" u Banjaluci, a rektor ovog univerziteta Zoran Avramović kaže da mladi ne moraju ići iz BiH da bi uspeli jer prilika za uspeh ima i u Bosni i Hercegovini.

– To je ključna poruka kongresa. Ovoliko sjajnih mladih ljudi na jednom mestu bude nadu u budućnost na ovim prostorima. Ovo je prilika da mladima pokažemo kako mogu uspešnu internacionalnu poslovnu karijeru razvijati iz Bosne i Hercegovine – poručio je Avramović.

Skup je održan pod sloganom "Vaša karijera počinje ovde" i trajao je tri dana.

Kongres za studente i mlade profesionalce BiH 2019, koji je po prvi put organizovan u Banjaluci, a već tri puta u Sarajevu, podržala je i Fondacija budućnosti u Bosni i Hercegovini kao suorganizator.

Program je obuhvatao i studentska izlaganja, mnogobrojne prilike za govorkanje, te profesionalne radionice.

Skup je završen gala večerom na kojoj su dodeljeni sertifikati o učešću. ■

NASLEDNICI TESLE I PUPINA

Organizatori Kongresa su bili Institut inženjera elektrotehnike i elektronike IEEE, Fondacija budućnosti u BiH i Panevropski univerzitet "Apeiron" Banjaluka.

– Nikola Tesla i Mihajlo Pupin, dva genija koji su imala neizmeran uticaj na nauku, rođeni su nedaleko odavde. Izuzetno sam ponosan što naš Univerzitet danas ima čast da ugosti sve ove mlade ljude koji imaju potencijal da postanu njihovi naslednici – izjavio je akademik Zoran Avramović, rektor Panevropskog univerziteta "Apeiron".

Паневропски универзитет "Апеирон"

И "ковид" међу темама скупа "Спортске науке и здравље"

БАЊАЛУКА – Излагањем професорице Наташе Зенић са Економског факултета из Сплита о теми "Ковид 19 и тјелесне активности адолесцената" јуче је почела 11. међународна научна конференција "Спортске науке и здравље" у организацији Паневропског универзитета "Апеирон" Бањалука и њених чланица, Факултета спортских наука и Факултета здравствених наука.

Двогодишња конференција одржава се онлајн, а са 37 реферата учествује више од стотину аутора из Србије, Хрватске, Сјеверне Македоније, Црне Горе, Републике Српске и БиХ, који ће дати допринос актуелним темама у области спорта и здравља.

– Три су тематске области научног скупа – спорт и здравље, физичко васпитање и школски спорт, тренажна технологија у спорту и превентивно се баве психологијом спорта и здравља човјека. Нећемо се бавити само "ковидом", већ и другим врло интересантних тема – рекао је предсједник Организационог одбора конференције Велибор Сриђић, који је и декан Факултета спортских наука Универзитета "Апеирон".

Град и "Апеирон" проширују сарадњу

Градска власт је спремна да подржи реализацију одређених програмских садржаја универзитета "Апеирон".

Ово је јуче изјавио градоначелник Славиша Гавриновић послије састанка са ректором Паневропског универзитета "Апеирон" Ристом Козомаром, на којем је договорено проширење сарадње града и овог универзитета.

– Рејон је о активностима из области здравства, односно производње, коју су студенти "Апеирона" и раније организовали. Јавне здравствене установе из нашег града треба да испуњавају потребе да студентима обезбиједе приступ информацијама и јавним сајтовима, како би успјешно завршили студије – рекао је Гавриновић и додао да ће ускоро бити потписан споразум који ће дефинисати њихову сарадњу.

Предавање на Паневропском универзитету Апеирон

ЕЈОФ прилика да се боље представимо

БАЊАЛУКА - Директор Европског зимског олимпијског фестивала младих (ЕЈОФ) Семинид Годинац одржао је предавање на Паневрпском универзитету Апеирон о значају предстојећег догађаја који ће од 9. до 16. фебруара бити одржан у Источном Сарајеву и Сарајеву.

Студентима и средњошколцима говорио је о значају ЈОФ-а, како ће он бити организован као и о маркетиншким активностима потребним за један овако велики спортски догађај. Представници Апеирона потписали су партнерски уговор са представницима ЕЈОФ-а и прошле године одржали већ један дио посла у вези са промоцијом и дио су те приче.

- Преостали едукативни дио промотивних активности биће обављен на најбољи могући начин и поред овог предавања биће предвиђене за наше студенте у Новом Граду, Бијељини и Београду док ће поред студената бити обухваћени и средњошколци који су циљна група овог догађаја - рекао је декан факултета спортских наука на Апеирону Велибор Срдић.

Такмичари ће наступити у осам спортова (алпско скијање, биатлон, крос кантри, карлинг, уметничко клизање, хокеј на леду, скијање и брзо клизање на кратким стазама).

- Са задовољством могу да кажем да смо у финалном припремама самог догађаја и борилишта ће за која дан бити спремна. Интерес је огроман не само у земљи него и ван ње па ће нам утростручити велики број аудиторијума који је рекао најбоље говори о значају Е

Дарија Скрипникова самостално држала вјежбе студентима

ФОТО: ПС СПОС

Дарија Скрипникова боравила на специјализацији у Бањалуци

Са "Апеирона" носи знање у Русију

Имала сам прилику да користим сјајне информационе технологије којима располаже "Апеирон". Овдје се активно користе методе учења на даљину, каже Скрипникова

РАЗГОВАРАЛА: ДАНИЈЕЛА СТОКАНИЋ
danijelas@glassrpske.com

Паневрпски универзитет "Апеирон" има плодну вишегодишњу сарадњу са бројним универзитетима у Русији и већ десет година ради на ширењу руског језика, традиције и културе у Републици Српској. Ових дана сам имала прилику да своје знање усавршим управо на овој високошколској установи.

Ријеч је о докторанткама Московског државног регионалног универзитета Дарији Скрипниковој, која је у октобру боравила на једномјесечној специјализацији на "Апеирону".

Дарија долази са катедре Методике наставе руског језика, а тема њене докторске дисертације је "Методика наставе руског језика на материјалу интерференције у односу изговора на средњем говорном нивоу".

ГЛАС: Шта је био циљ Вашег боравка на Паневрпском универзитету?

СКРИПНИКОВА: Желела сам себи нова знања о методици наставе руског језика за стране студенте, усавршити своја знања и вјештине, сакупити материјал за писање докторске дисертације и стећи међународно искуство предавања на високошколској институцији.

ГЛАС: Какве сте организационе активности на Универзитету?

СКРИПНИКОВА: Посјетила сам средњеваш и пријатељице држале сам часовима руског језика и лингвистике, а радним данима држала сам од два до четири часа говорних и писмених вјежби за студенте. Користила сам различите методе предавања као што су, на примјер, час у учионици. Имала сам прилику да користим сјајне информационе технологије којима располаже "Апеирон". Овдје се активно користе методе учења на даљину, изграђена је виртуална средина, а студенти могу слушати предавања са било које тачке свијета. Видјела сам шта су то интернет-конференције чиме се студенти на исти начин могућност да чују информације од наставника, постављају питања и разговарају о важним темама.

ГЛАС: Са каквим утисцима се враћате у Русију?

СКРИПНИКОВА: Акумулирала сам веома много нових и корисних знања за мој професионалан рад, сакупила огроман материјал за писање дисертације. Искуство са "Апеирона" биће ми од велике користи у успјешној изради и одбрани докторске дисертације и изградњи моје каријере.

САКУПИЛА ОГРОМАН МАТЕРИЈАЛ ЗА ПИСАЊЕ ДОКТОРСКЕ ДИСЕРТАЦИЈЕ

ГЛАС: Какав је Бањалука град?

СКРИПНИКОВА: Прелијеп, чист и топао град у коме је задовољство живјети. Ваздух је чист, природа прелијепа, храна природна, а Бањалучани фантастични домаћини. Бањалука ми је дала незаборавних мјесеци дана за памћење.

РУСКИ ЈЕЗИК

ГЛАС: Каква су Ваша искуства са студентима факултета филолошких наука?

СКРИПНИКОВА: Студенти су били мојим колегама, трудили су се да редовно долазе на предавања, пажљиво су радили домаће задатке. Трудила сам се не само да побољшам њихо разговорне и писане вјеште код студената, већ и да им пренесем много информација о мојој отаџбини. Желела сам да одете руски језик кроз руску културу, како би се могли сналазити са њеним живота у Русији. На предавања су долазили и професори од којих сам добила корисне савјете.

Паневрпски универзитет "Апеирон"

Промовисана књига "Смисао и бесмисао"

БАЊАЛУКА - Промоција књиге "Смисао и бесмисао" ауторке Јане Алексић-Анђелић, доцента на Паневрпском универзитету "Апеирон", одржана је у среду више пред многобројном публиком у просторијама универзитета.

- Ова књижица сведочи о трагању пројектом о смислу живота, с циљем да читаоцима пружи моја лична достигнућа у промишљању и закључцима. Можда ми нисам дала одг но покушао - рекла је Алексић-Анђелић обраћајући се присутнима.

Рецензент књиге Слово Пантић истакао је да се ово дјело може окарактерисати као научно-актуарни роман.

- Научно, јер садржи садржаје датог низа научних дисциплина, попут филозофије, социологије, медицине, психологије, а популарно, јер се бави проналаском - рекао је Пантић и додао да је главна личност романа живот, са свим својим елементима, али и ми као његов саставни дио.

А. Ј.

МЕЂУНАРОДНИ ДАН СМАЊЕЊА РИЗИКА ОД КАТАСТРОФА

Знање нас штити

У свијету се 13. октобар обиљежава као Међународни дан смањења ризика од катастрофа и тим поводом су Паневропски универзитет „Апеирон", Ронилачки клуб „Наутилус" и Црвени крст Републике Српске организовали манифестацију с циљем скретања пажње јавности на проблем природних катастрофа и на потребу квалитетног одговора и припремљености заједнице на њих

Процјене говоре да је број катастрофа на глобалном нивоу у порасту, те да је од 2000. године око три милијарде људи погођено неким видом катастрофе.

- Међународни дан смањења ризика од катастрофа установљен је Резолуцијом Генералне скупштине УН 2009. године, а 13. октобар проглашен као дан посвећен изградњи и јачању јавне свијести о ризицима катастрофа, очувању животне средине и спречавању даљег уништавања планете Земље, речено је на скупу под називом „Знање нас штити" које је одржано на Универзитету „Апеирон".

Како је истакнуто, циљ организовања овог скупа у Бијељини је јачање свијести и анимирање јавности, те повећање степена разумијевања опасности од катастрофа, као и представљање оптималних начина за смањење ризика и спремности да се на адекватан начин одговори на несреће, те да се покажу различите праксе и инструменти за пружање помоћи становништву у случају потребе, односно, да се оснажи партнерство и сарадња свих надлежних и заинтересованих актера. Професор др Драган Колев је говорио о катастрофама, како природним, тако и оним изазваним дјеловањем људи, док се професор др Вељко Ђурић осврнуо на економске посљедице катастрофа. О значају ове теме говорио и чињеница да широм свијета велики број људи изгуби животе и материјална добра због природних несрећа као што су поплаве, пожари, суше, олује, топлотни удари, клизишта и остале природне непогоде које узрокују велике људске и материјалне губитке.

На значај превентивног и перманентног дјеловања у овој области указали су и чланови Ронилачког клуба „Наутилус", наводећи да су активности на смањењу ризика од катастрофа у самом врху њихових приоритета.

- Будући да природна катастрофа као што је поплава неријетко погађа становнике Семберије, неопходно је континуирано и организовано дјеловати у правцу смањења учинка природних катастрофа на људски живот, каже предсједник РК „Наутилус" Мирослав Беновић, подсјећајући на искуства из 2014. године, када је трећина БиХ била захваћена поплавама и клизиштима, а што је проузроковало губитке људских живота и угрозило егзистенцију значајног дијела становништва.

Александар Панић, у име Републичког црвеног крста, истиче да су природне непогоде које узрокују велике материјалне и људске губитке постале свакодневница, те да од наше спремности, али и превентивних активности, зависи висина штете коју ће проузроковати.

-Црвени крст највише брине о смјештају и храни угроженог становништва, али са оваквим професионалцима, као што су рониоци, ми ћемо далеко лакше доћи до угрожених, каже Панић.

М.Ракићевић

Даровали крв

На Међународни дан смањења ризика од катастрофа чланови Ронилачког клуба „Наутилус", запослени на Паневропском универзитету „Апеирон", студенти овог универзитета, те чланови Црвеног крста РС, даровали су крв у бијељинској служби Завода за трансфузијску медицину Републике Српске.

Чланови РК „Наутилус" су се кроз ову акцију и званично учланили у Црвени крст РС, чиме су, како је истакнуто, унаприједили систем заштите са посебним фокусом на јачање отпорности локалне заједнице и на бољу припрему да одговоре на природне и друге катастрофе.

Паневропски универзитет "Апеирон" Бањалука уручио донацију у Добоју

Саобраћајном факултету опрема вриједна 20.000 КМ

ДОБОЈ - Паневропски универзитет "Апеирон" из Бањалуке донирао је Саобраћајном факултету у Добоју, који ради у склопу Универзитета у Источном Сарајеву, опрему вриједну 20.000 марака.

Овај факултет је претрпио огромну материјалну штету током мајских поплава. "Апеирон" је донирао рачунарско-комуникациску опрему вриједну око 14.500 марака и намјештај, чија је вриједност око 5.500 КМ, да би обезбиједили услове за наставак наставе.

ПРОЦИЈЕЊЕНА ШТЕТА ОД ПОПЛАВА 1,75 МИЛИОНА КМ

- Наша мисија је образовање. С обзиром на то да Паневропски универзитет сноси огромне губитке у поплавама - изјавио је в.д. ректора Паневропског универзитета "Апеирон" Есад Јакуповић.

Према ријечима декана Саобраћајног факултета Перице Гојковића, процијењена штета од поплава у овој установи износи око 1,75 милиона, а сређују се други установи овог типа. Желимо да ово донирање обнови добровољност Саобраћајног факултета, односно да на неки начин надокнадимо њихове велике губитке у поплавама - изјавио је в.д. ректора Паневропског универзитета "Апеирон" Есад Јакуповић.

Према ријечима декана Саобраћајног факултета Перице Гојковића, процијењена штета од поплава у овој установи износи око 1,75 милиона, а сређују се други установи овог типа. Д. Д.

Ректор Есад Јакуповић – поносан сам на своје студенте

ДО ПОСЛА ПРЕКО САВРЕМЕНИХ НАСТАВНИХ ПРОГРАМА И ДОБРЕ ПРАКСЕ

Поводом предстојеће академске године о високом образовању, студентима, научној дјелатности и другим питањима разговарали смо са ректором Паневропског универзитета "Апеирон" академиком Есадом Јакуповићем

- **Паневропски универзитет уписује петнаесту генерацију студената. На какво образовање могу рачунати они који вас одаберу?**

Ми смо Универзитет оријентисан према студенту. Шампионско студенте оспособљење да буду учесници ризика - привредног, образовног, научно-истраживачког и усвојеног цјелокупног друштва. Настојимо да им пружимо креативне услове и у интернационалним активностима, који ће их боље позиционирати у научном и пословном свијету. Индикативно је један пример, а има их пуно. "Апеирон" је једини универзитет из Републике Српске који је Мајкрософт одабрао за организовање Microsoft skills центра и имам, као и други студенти преко Паневропског универзитета имају могућност стицања престижних Мајкрософт сертификата. У Босни и Херцеговини само још три државна универзитета спроводе овај програм.

- **Где су "Апеиронови" студенти након студија?**

Наш Центар за вођење каријере прати кретање студената на тржишту рада, али их и повезује са истим. С обзиром на то да Универзитет има 7 факултета и 20 студијских програма бројне су и области и мјеста гдје су знаковски сврстани студенти. Министарства у РС и БиХ, болнице, школе, универзитети, банке, адвокатске канцеларије, судови, универзитети, приватне компаније, властити бизнис, све су то сфере у којима се запошљавају они који су нам дали повјерење у образовању највишег академског нивоа.

- **Да ли је велики број оних који након студија одлазе у иностранство?**

Прије неколико година, када су нам се јављали наши студенти из различитих земаља са информацијама о својим пословима са нашом дипломом, сви на Универзитету били смо поносни. То нам је била потврда да радимо по европским и свјетским стандардима и узорима и број се су земље у којима наши студенти налазе пуно. Тада то није било тако масовно. Данас је већ другачија, тужнија слика. Много већи је проценат оних који су се већ од прве године опредијелили да иду се оспособљавају, послије траже у иностранству. Они који послије "Апеирона" одлазе у иностранство на мастер или докторске студије, у малом броју се враћају нашој земљи. Било би нам драже да у већем броју остају у нашој земљи и уложе на њен развој.

- **"Апеиронови" научни часописи је први из БиХ у Thomson Rojters-u. Зашто је та цитатна база толико дражи часописима из БиХ?**

Критеријуми по којима ова база бира часописе су високи и домаћи легислатива издвојила научних публикација које регулисана на други начин као нпр. у Хрватској и Србији. За EMC Review - Часопис за транзицију комуникације Thomson Reuters није био циљ, него последица улагања у квалитет домаћих и међународних рецензената, аутора и уредништва. И у другим часописима које издаје Универзитет "Апеирон" настојимо постићи исти квалитет.

- **Колико наставни кадар Паневропског универзитета посвећује пажњу писању научних радова и објављивању истих у научним часописима?**

Апеирон је кроз организацију до сада 12 међународних конференција врло често био домаћин научним радницима из земаља широм свијета који су учествовали на хиљаде радова из различитих научних области. Сваког да су и наши професори потписници значајног броја радова, јер свакако од њих за каријерно напредовање потребни су такви радови и учешће на научно-стручним скуповима. Даље, у буџету Универзитета издвајају се средства за финансирање учешћа наших наставног кадра у научним конференцијама универзитета широм свијета. Универзитетски професор нема изговор да стагнира, а ми им дајемо добре услове да се научно надограђују. Објављивање научних радова је нешто што се подразумијева и очекује од академских радника.

- **Имају ли студенти могућност да учествују на таквим научним конференцијама?**

Свакако. И то је једна од најзначајнијих активности које сами покрећемо. Научни и стручни радови студената су најбољи, и на то се углавном односе студенти завршне године првог циклуса и студенти мастер и докторских студија који су тада спремни за одбрану пројекат научни. Када напишу рад и презентују га на научном скупу, студенти добију одређен број бодова који се реализује кроз изборни програм.

- **Колико "Апеирон" сарађује у практичној настави?**

Пракса је нешто на чему се стално ради. Бројне су институције са којима имамо сарадњу у погледу практичне наставе, а циљ је да се тај број константно повећава. Управа за индиректно опорезивање БиХ, Административна служба града Бањалука, Инвестиционо-развојна банка РС, Бањалучка пивара, Raiffeisen банка БиХ, Министарство правде РС, Аутопревоз а.д. Бањалука, Републичка управа за инспекцијске послове Бањалука, Универзитетски клинички центар РС, само су неке од институција које су отворила своја врата нашим студентима за праксу. Студенти Факултета здравствених наука имају могућност за практичну наставу у великим клиникама, а студенти Факултета филолошких наука по наставном плану и програму један дио студија бораве и школују се у Русији на факултетима са којима имамо сарадњу. Центар за вођење каријере је тај који повезује студенте са установама и кроз њихов рад. Врло често се дешава да студент добије понуду за посао у установи у којој је обављао стручну праксу, јер је она у комбинацији са пакетом савремених наставних планова пресудна за запослење.

- **Како рјешавате проблем плагираних односно преписаних радова?**

Прије четири године Универзитет је купио најбољи софтвер за откривање плагијата. Статутом Универзитета прописана је обавезна провјера радова путем тог софтвера, а од стране свих наставника и асистената ангажованих у наставном процесу. Провјеравају се сви студентски радови, дипломски, магистарски, докторски као и радови који се објављују у научним часописима и конференцијама. На овај начин значајно смо смањили плагијарске радове и веома нам је драго што и друге високошколске установе размишљају о увођењу програма за откривање плагијата.

- **На којим активностима Паневропски универзитет "Апеирон" ради у наредном периоду?**

Академска 2017/18. почиње брзо. Поред наставе биће нам се и научне конференције које су карактеристичне за јесен. Већ припремљен научни скуп у сарадњи информатике, ИТеО, за немањску дана обиљежити се деветој години заредом, а одмах послије њега УДАСОЈ, посвећен економском развоју и горњем стандарду. Данас смо расписали конкурс за докторске студије на Факултету пословне економије и Факултету информационих технологија. Конкурси за први и други циклус студија су такође отворени. У припрати су и нови просторни капацитети од 1.850 м2, који ће у наредних мјесец дана бити спаљени за расположење студентима и наставницима. У критном претходном периоду уложено је око 250.000 КМ за ове намјене, а у дио овог простора биће усељена лабораторија Свеобухватног факултета са врхунском опремом.

Свечаност поводом дана Паневропског универзитета "Апеирон"

Дипломе "Апеирона" признате широм свијета

"Апеирон" је стасао у озбиљан универзитет који је до сада изњедрио шест генерација, док тренутно на шест факултета студира више од 3.500 студената, рекао Козомара

Дипломе Паневропског универзитета "Апеирон" Бањалука признате су широм Европе, САД и Аустралије, што говори о квалитету наставе, кадра, простора и свега онога што болонски процес подразумијева у стварању високообразованих кадра.

Ректор Универзитета Ристо Козомара на свечаној свечаности организованој поводом седамнаесте обљетнице високошколске установе.

Козомара је истакао да је предност Универзитета "Апеирон" у томе што је са прве дана почео са примјеном болоњског процеса.

- "Апеирон" је израстао из једног Факултета пословне економије који је некад био у Лакташима, а сада има шест факултета, 16 студијских група и проширењем је и изван граница БиХ - рекао је Козомара.

На Универзитету "Апеирон" данас студира и студенти из Федерације БиХ, Србије, Црне Горе, Хрватске, док захваљујући међународној размјени домаће и студенти из Њемачке.

- "Апеирон" је стасао у озбиљан универзитет који је до сада изњедрио шест генерација, док тренутно на шест факултета студира више од 3.500 студената - рекао је Козомара и додао да у актуелном периоду Универзитет са повећањем броја студената планира и ширење.

Ректор Универзитета у Бањалуци Стево Стаић је нагласио да је приликом формирања првих приватних високошколских установа у Српској било одређене зебње у вези с тим какав ће бити квалитет наставног процеса.

- Дошао је времена у коме не треба правити разлику између приватних и државних високошколских установа, већ само разлику у квалитету - истакао је Стаић.

Лијепо је да су две јавне универзитета потписале отворена за сарадњу са приватним универзитетима у Српској.

- Ново вријеме прокрчиће и сходе универзитета на државне и приватне. Свима је у интересу да Српска има одличне стручњаке, без обзира на то да ли су они диплому стекли на државном или приватном универзитету - рекао је Стаић.

Предсједник Академије наука и умјетности Републике Српске академик Радо Кузмановић упутио је честитке студентима и професорима.

- "Апеирон" је носилац културног, образовног и свеукупног развитка - казао је Кузмановић.

Поводом обиљежавања годишњице Универзитета "Апеирон", зимских градоначелника Бањалуке Јасна Јарић отворила је ући у ову установу изложбу фотографија Слободана Рашића "Зрбиски чамци - дани".

Свечаности су присуствовали и министар породице, омладине и спорта РС Нада Тешановић, као и велики број званица из јавног, културног и политичког живота Бањалуке и РС.

Доктор економских наука Максим Александрович Пахомов, истакнути професор са Тамбовског државног Универзитета из Тамбова (Руска Федерација), 1. октобра одржао је предавање бањалучанима и студентима Паневропског универзитета на тему „Инфраструктурна подршка пословних активности у Русији.

- У Русији се активно ради на финансирању пројеката као што су бизнис инкубатори, технопаркови, индустријски паркови, Центар за развој социјалног предузетништва, који ће побољшати инвестициона улагања у нашу земљу, истакао је пофесор Пахомов, који је и генерални директор Корпорације за развој Тамбовске области, замјеник катедре пословне информатике и математике, директор Института елитног образовања Тамбовског државног универзитета.

Представници „Апеирона" професору Пахомову и делегацији са Липецког државног универзитета, у склопу посјете Паневропском универзитету 1. октобра омогућили су посјету и Технолошком бизнис парку Бања Лука, чији је оснивач Град, а у саставу је Агенције за развој града Бања Лука. Посјета је резултирала договором о потпису споразума о техничко-технолошкој сарадњи Агенције и Тамбовске корпорације, која би подразумијевала помоћ Граду у производњи пољопривредних производа и њихов извоз у Тамбовску област, која је површином већа од Босне и Херцеговине. Руску делегацију и делегацију са Универзитета „Апеирон" тим поводом 02. октобра примио је и Слободан Гавриновић, градоначелник Бањалуке и поздравио овакву будућу сарадњу.

- За сваку похвалу је сарадња Паневропског универзитета, не само са Тамбовским државним универзитетом и Универзитетом из Липецка, већ и са многим другим Универзитетима из Русије. Једна таква веза омогућиће и сјајан ангажман града Бање Луке у извозу наших производа, истакао је градоначелник.

Повод за септембарску посјету Универзитету „Апеирон" делегација поменута два универзитета из Русије, била је 6. међународна научна конференција Информационе технологије за е-образовање, на којој су руски професори имали уводна излагања.

Предавање професора Пахомова могуће је погледати на интернет страници www. apeiron-uni.tv

Плодови сарадње „Апеирона" и руских Универзитета

ТАМБОВ И БАЊАЛУКА У ЗАЈЕДНИЧКЕ ПРОЈЕКТЕ

PRESS
ČETVRTAK, 25. SEPTEMBAR 2014.

PANEVROPSKI UNIVERZITET APEIRON ΑΠΕΙΡΟΝ Banja Luka

СТУДЕНТИМА СЕСТРИНСТВА ПЛАЋЕНА ПРАКСА У ЊЕМАЧКОЈ

Четири студенткиње Факултета здравствених наука, са студијског програма Сестринство, од почетка септембра 2014. године стручну праксу обављају у њемачкој клиници Seniorenhof Schulze Eggenvodde. Клиника је за студенте обезбиједила путне трошкове, смјештај, храну, те мјесечну накнаду у износу од 500 еура.

- Пракса ће трајати један мјесец, а након тога врло вјероватно је да ће студенткиње у нашој клиници закључити радни однос, рекао је Berthold Schulze Eggenvodde, власник клинике, приликом посјете Универзитету "Апеирон" у августу ове године.

Предуслов за брзо и лако сналажење на тржишту рада јесте добра обученост у практичном дијелу образовања. То је водила менаџмента Паневропског универзитета и Центра за вођење каријере у посљедњости и отварању нових могућности за извођење студентске праксе.

Пракса је обавезан и саставни дио наставе за будуће медицинаре здравственог њега на свим студијским програмима, као и за остале студенте свих 18 студијских програма.

Ријеткост на високошколским установама, обезбиједила студентима Физиотерапије и радне терапије Универзитета "Апеирон", јесте тродимензионални облик студија. Прва у низу је теоретска настава, послије које долазе вјежбе у кабинетима Универзитета. Ту се изучавају савремене технике физиотерапије, односно студенти пролазе кроз комплетан рехабилитациони програм од електротерапије, термотерапије, кинезитерапије и специјалне технике из области неурологије, педијатрије, ортопедије, физикалне медицине, реуматологије итд.

- Последња фаза су специјализовани центри за рехабилитацију, гдје са стручним особљем (физијатри, физиотерапеути, кардиолози, интернисти) студенти пролазе све третмане са пацијентима са различитим болестима, рјечи су Породна Бојића, виши асистента на Факултету здравствених наука. Студенти који су се одлучили за овај факултет традиционално имају велики избор и могућности за практичну наставу. Здравствено туристички центар "Бања Врућица" Теслић већ пет година студентима Универзитета "Апеирон" омогућава обављање практичне наставе, обезбјеђујући им поред тога смјештај и оброке.

- Обавком да директно учествују у процесу рада, студенти Паневропског универзитета меркантно добијају похвале од особља, али и од пацијената. Врло предано и савјесно обављају све активности повјерене од стране њихових ментора, објашњава др Јелена Богдановић, специјалиста физикалне медицине у "Бањи Врућици".

Универзитетска болница Клинички центар Бања Лука, Дом здравља Лакташи, Јавно здравствена установа "Свети архангели" Бијељина, Институт за заштиту здравља Републике Српске, институције су на којима студенти похађају практичну наставу.

Од октобра школске 2014/2015. године прва група студента Факултета пословне економије, правних наука и информационих технологија на пракси ће ићи у Инвестиционо-развојну банку Републике Српске. Студенти посљедњих факултета практичну наставу похађају у Административној служби града Бања Лука, као и Управи за индиректно опорезивање Босне и Херцеговине, закључивши уговору који је Универзитет недавно потписао са овом институцијом.

- О ПДВ-у, царинама, акцизама студенти уче на лицу мјеста од врхунских стручњака у Управи, а студенти здравствених наука праксу ће обављати у Одјељку за царинску лабораторију Управе, напомиње мр Вања Средојевић из Центра за вођење каријере Универзитета "Апеирон".

Будући правницима своја врата за праксу отворило је и Министарство правде Републике Српске и Републички центар за истраживање рата, ратних злочина и тражење нестали лица.

- Одабране групе студената са којима радимо врло успјешно спајају знање које су научили у клупама и практични рад у нашим центру, истиче Снежана Раковић, руководилац практичне наставе овог центра.

Студенти Факултета пословне економије на праксу иду и у Бањалучку берзу.

Плесни клуб "Тема" Бања Лука, Спортски центар "Енергија" и "Life-center" д.о.о., друштво за рехабилитационе – рекреативне активности омогућили су праксу за студенте Факултета спортских наука. У оквиру стручних предмета, студенти овог факултета, такође знања и вјештине стичу кроз активности које Универзитет организује на ријеци Врбас, језеру Балкана, на Јахорини, Градском стадиону Бања Лука, Градском олимпијском базену, те разним мјестима широм земље, гдје се могу усавршити практичне вјештине. Пливање, рафтинг, скијање, планинарење, неке су од вјештина које студенти уз помоћ професора, асистената и сарадника током студија савладају са лакоћом.

За студенте Факултета филолошких наука по наставном плану и програму предвиђено је да једну академску годину студирају у Русији. На тај начин усавршавају знање руског језика и методу при изговору, што је, по мишљењу студената, за њих највећа пракса. "Апеирон" је потписао споразум са Московским државним регионалним универзитетом, Липецким државним универзитетом и Тамбовским државним универзитетом, према којем ће студенти постати власници двојних дипломa – "Апеиронове" и дипломе једног од поменутих универзитета на којем су током школовања боравили.

Захваљујући сарадњи са Иновационим центром Бањалука, студенти Факултета информационих технологија протекле љета били су укључени у програм "Моја пракса", који је у Босни и Херцеговини спровела Америчка агенција за Међународни развој УСАИД у оквиру пројекта "Партнерство за иновације".

- Не смијемо заборавити ни Бањалучку пивару, нити предузеће "Финиус" који су такође у свом радном колективу направили простора студентима да уче теоријско на практичан начин, додала је мр Вања Средојевић.

ГЛАС СРПСКЕ петак, 31. маја 2013. 9

"Апеирон" угостио једног од најеминентнијих свјетских радиолога

Љекари прате нове трендове

БАЊАЛУКА - Један од најеминентнијих свјетских радиолога, професор Шоџи Тадакава, са "Тохоку Универзитета" у Токију учи је одржао предавање на Паневропском универзитету "Апеирон".

Тема о којој је говорио је "Идентификација мјеста и жељеног мозга помоћу магнетне резонанце".

- Говорио сам о вишеслојној помоћу магнетне резонанце мапи кранног сулкуса мозга који су од огромног значаја што што они могу да пуку и изазову крварење у мозгу, што је опасно по живот. Могу да буду и запушени па да изазову инфаркт мозга - казао је Тадакава.

РАДИОЛОГИЈА ОД ОГРОМНОГ ЗНАЧАЈА

Дошао је да је радиологија од огромног значаја у савременој медицини за постављање прецизне дијагнозе а самим тим и за неупоредиво боље њечење пацијента.

Ректор универзитета Ристо Кокотовић је истакао да је значај предавања у томе што се окупио велики број младих доктора да чује ово предавање које би им било од велике користи.

- Ово је дошао да пренесе наше тренутно у науци и тако ћемо и даље наставити. Колико доктора медицине је, толико, препознаје значај овог предавања због чега је сву присутне лекаре бодовала са по два бода, а предавање са три - нагласио је Кокотовић.

Предавању су присуствовали радиолози, неурологи, неурохирурзи и остали бројни лекари из БиХ, као и студенти, ученици и професори.

MOJA BANJALUKA

Senka Trivić, novinarka

Brzaci na Vrbasu

U Banjaluci volim nedelju, kada je ritam života mirniji, kada se smiri buka, pa mogu da obratim pažnju na njene ulice, reku, zelenilo, na one male stvari pored kojih svakodnevno prolazimo, a retko ih primećujemo.

Naročito volim proleće u Banjaluci, kad ozelene grane, kad se bude emocije i kad nas Vrbas, šaputom žalosnih vrba, zove na svoje obale, da zagledani u brzake smirimo misli. Kad god sam na obali Vrbasa, uvek pomislim: Kako izgleda grad bez reke? Takvi gradovi su, verovatno, tužni i tmurni gradovi.

NA OBALI VRBASA UVEK POMISLIM KAKO IZGLEDA GRAD BEZ REKE? TAKVI GRADOVI SU, VEROVATNO, TUŽNI I TMURNI

Raduje me kad u Gospodskoj ulici sretnem uličnog svirača. Ima nečeg nezemaljski lepog u zvuku koji se odbija od zidova radnji.

Previše automobila, slabo grejanje, skupe režije, nedovoljna izdvajanja za mlade, sportiste, kulturne radnike - mnogo je mana koje me znaju s vremena na vreme naljutiti i čak „izbaciti iz takta". A pogled na tvrđavu Kastel me uvek rastuži. I na kraju, jako mi nedostaje stara fontana u Parku Petar Kočić.

> SVEČANOST: Pred brojnim pripadnicima akademskog i kulturnog života RS predstavljeni zavidni rezultati

Srednjoškolski centar i Univerzitet „Apeiron" proslavili rođendan

PRVA STIPENDIJA FONDA "PROF. DR RISTO KOZOMARA"

BANJALUKA >> Srednjoškolski centar „Gemit Apeiron" proslavio je juče šest, a Panevropski univerzitet „Apeiron" 11 godina postojanja i uspešnog rada.

Dodeljena je i prva stipendija novoosnovanog Fonda „Prof. dr Risto Kozomara".

Na svečanosti, kojoj su prisustvovali brojni pripadnici akademskog i kulturnog života Srpske, predstavljeni su zavidni rezultati ovih školskih ustanova.

- Već više od deseticeća nata zadaća je da pružimo znanje mladom čoveku kuji sutra treba da bude stub razvoja društva i duhovna snaga našeg naroda. Ponosni smo što smo ove godine upisali prva generacija studenata Saobraćajnog fakulteta, podigli kvalitet rada i uložili značajna sredstva u fizičku i akademsku infrastrukturu - rekao je vd. rektora Univerziteta dr Esad Jakupović.

On je dodao da tematično, u okviru Univerziteta, postoji sedam fakulteta sa 17 studijskih programa na kojima predaju brojni eminentni profesori.

Menadžerka Srednjoškolskog centra „Gemit-Apeiron" Milanka Aleksić rekla je da već šest godina u klupama tri srednje škole pripremaju kadar za studije i rad.

- Menadžment u saradnji sa profesorima Gimnazije, Ekonomske i Medicinske škole svesrdno se zalaže da edukacija učenika nimalo ne zaostaje za evropskim školama. Najsavremeniji kabineti, laboratorije i oprema osiguravaju đacima da će dobiti sve što su od svoje škole očekivali - kaže Aleksićeva.

Juče je uručena prva stipendija Fonda za stipendiranje „Prof. dr Risto Kozomara", a koji je osnovan u znak sećanja na istaknutog profesora i rektora ovog Univerziteta, koji je preminuo prošle godine.

Stipendista, Aleksandra Živković, studentkinja treće godine, sa prosečnom ocenom devet, dobila je jednogodišnju stipendiju u iznosu od 2.590 KM.

- Čast mi je što sam prva dobila stipendiju koja nosi ime profesora kojeg smo svi voleli i poštovali. Na ovaj način poštovaoci će sačuvati uspomenu na lik i delo profesora Kozomare - rekla je Živkovićeva.

Menadžment „Apeirona" dodelio je juče diplome za 11 svršenih doktora nauka, a posetioci su uživali u nastupima Etno-grupe „Iva", učenika „Gemit-Apeirona", glumca Narodnog pozorišta Republike Srpske Vladimira Đorđevića i studenata Akademije umetnosti Banjaluka. M. Ranilović

Naučni skup na Panevropskom univerzitetu "Apeiron"
FOTO A. ĆAJIĆ

Društveni napredak putem e-obrazovanja

D. STANKOVIĆ

BANJALUKA - Međunarodni naučnostručni skup "Informacione tehnologije za e-obrazovanje - IteO", u organizaciji Fakulteta informacionih tehnologija Panevropskog univerziteta "Apeiron" održan je u Banjaluci.

Ovaj skup, koji je počeo u petak, a završava se u subotu, prvi je na cilj da se ukaže upotrebu s principima i specifičnostima elektronskog obrazovanja i učenja, tehnologijama i procesima na kojima se ono temelji, u različitim mogućnosti primjene informaciono-komunikacionih tehnologija.

Vinko Bogdan, pomoćnik ministra za nauku i tehnologije RS, naglašava da Ministarstvo ima najveće interesovanje za razvojem informacionog društva u RS.

"Informacione tehnologije vrše sve značajniji uticaj u procesu obrazovanja, jer postoji i cjeloživotno obrazovanje kada pojedinac u svakoj životnoj dobi ima potrebu da pristupi informacijama", istakao je Bogdan.

Prema njegovim riječima, zakonom je predviđeno uvođenje informacionih tehnologija, ali, kako navodi, i čitavi novi sadržaji nove principe i modele komunikacije.

Darko Uremović, predsjednik Upravnog odbora Panevropskog univerziteta "Apeiron", ističe da je ovo međunarodni naučni skup, jer je ovo kompleksna tematika.

"Putem modela e-obrazovanja i informacionih tehnologija ostvaruje se društveno značaj i društveno angažovanje", kazao je on, ističući da je Panevropski univerzitet "Apeiron" pionir u razvoju informacionih tehnologija.

Prof. dr Goran Sučić iz Splita smatra da je budućnost obrazovanja upravo u digitalnim tehnologijama.

Svijet

U svijetu se više od 50 odsto obrazovanja ostvaruje putem elektronskog obrazovanja

"U Hrvatskoj su podijeljena stajališta po tema elektronskog obrazovanja, jer pedagozi znaju svoja stajališta i principe koji se ostvarivati, a informatičari ne znaju ništa o tome. Ja sam zagovornik da se u svijetu više od 50 odsto obrazovanja ostvaruje putem elektronskog obrazovanja.

Dražen Kovač, dekan Strojarskog fakulteta u Slavonskom Brodu, ističe da se e-obrazovanje na njegovom fakultetu koristi u svakodnevnom radu sa studentima.

"Sva obavještenja koja su vezana za ispite, literaturu i ostalo nalaze se na Internetu. Također izuzetno dosta portala na kojima se mogu naći korisne informacije za nastavu", istakao je Kovač.

Na skupu su predstavljena praktična rješenja na razvoj IT sistema, kao i načini primjene elektronskog obrazovanja. Učešće je uzelo više od 250 učesnika iz Makedonije, Bugarske, Srbije, Kine, Kosova, SAD i BiH.

Pokrovitelji manifestacije su: Akademija nauka i umjetnosti RS, Ministarstvo prosvjete i kulture RS i Ministarstvo nauke i tehnologije.

Obilježen "Dan slovenske pismenosti i kulture"

M. SUBOTIĆ

BANJALUKA - Svečanost povodom "Dana slovenske pismenosti i kulture" održana je jučer u prostorijama Panevropskog univerziteta APEIRON u Banjaluci, na kojoj su istaknute zasluge svete braće Ćirila i Metodija, koji su prevodili bogoslužbene knjige na jezike Slovena.

Lutvo Ćivić, dekan Fakulteta filoloških nauka Panevropskog univerziteta, kazala je da je ova svečanost organizovana u okviru obilježavanja 24. maja, Dana Ćirila i Metodija, koji obilježavaju sva slovenska zemlja, te da će nastojati da ova manifestacija ovaj put postane tradicija.

"Govornika našeg jezika ima oko stotinu miliona, tako da svaki jezik zaslužuje svoje mjesto

FOTO D. SUBLAN

Svečanost u prostorijama Panevropskog univerziteta APEIRON

Ona je dodala da svaki narod veliča svoju kulturu i bori se za nju, tako da i ovi naredni odbrani taj kontinuitet.

"Treba da znamo da su naši studenti s Rusije na njihovim fakultetima, a nastojimo da ovakav način školovanja postane praksa", istakla je Ćivićeva.

APEIRON, kazao je da se kod nas ovaj događaj proslavlja vrlo skromno, dok je u drugim zemljama veoma državno-praznično.

"Nitko se neće zamjeriti 'Oh naš' koji se izgovori na staroslovenskom jeziku, to je pjesma o ljepoti i svako od nas to nosi u sebi", istakao je Uremović.

On je kazao da nastojimo i dalje uspostavljati studije našeg jezika te proširiti saradnju sa ruskim univerzitetima.

"Bitno je istaknuti da naredni studenata i njihovo školovanje u konzorcijumu nisu upitni i da je to već postala tradicija koja se odvija s najboljim stručnim redu", naglasio je Uremović.

Rektor Banjalučkog univerziteta, **Stanko Stanić**, rekao je kako je trebalo vremena da se privikneno da postoji obrazovanje u privatnim školskim ustanovama.

- Činjenica jeste da je vrijeme ko ko više ne treba praviti razliku između privatnih i državnih fakulteta, te da samo treba staviti akcenat na kvalitet obrazovanja.

Panevropski univerzitet "Apeiron" pokazao je svoj kvalitet, te iza u narednom perioda želim uspjeh kao i do sada - kazao je Stanić, te dodao da nam je svima u interesu da dobijemo stručnjake, bilo da studiraju na Banjalučkom univerzitetu ili Univerzitetu "Apeiron".

Povodom obilježavanja godišnjice Univerziteta "Apeiron", zamjenica gradonačelnika Banje Luke, **Jasna Brkić**, otvorila je u holu ove visokoškolske ustanove izložbu fotografija **Slobodana Rašića** "Vrbaški čamac - dajak".

Svečanosti obilježavanja godišnjice pomenutog univerziteta prisustvovala je ministarka porodice, omladine i sporta, **Nada Tešanović**, kao i veliki broj zvanica iz javnog, kulturnog i političkog života Banje Luke i Srpske.

Godina zavidnih rezultata

Protekla 2011. godina za Panevropski univerzitet "Apeiron" bila je godina rada i izvrsnih rezultata. European Business Assembly iz Oksforda dodijelila je ovom univerzitetu nagradu za kvalitet u obrazovanju.

Na 13. Međunarodnoj izložbi ideja, inovacija i stvaralaštva "Inost-eladih 2011", nagradu za najbolji rad dobili su "Apeironovi" studenti. I u 2012. godini ušli su s dobrim sportskim rezultatom. Pobjednik 36. tradicionalnog turnira u malom fudbalu "Borik 2012" je ekipa univerziteta "Apeiron".

РЕПУБЛИКА СРПСКА

Паневропски универзитет "Апеирон", Бања Лука

ЗНАЊЕ ПО СВЈЕТСКИМ СТАНДАРДИМА

Висока мотивација студената и висока професија бисћиму се блок система наставе, програма и уџбеника формираним према болоњској матрици, интерактивним радом у учионици са малим групама, ефикасним коришћењем медијских радионица

Паневропски универзитет "Апеирон", за мултидисциплинарне и мердивални студије, јесте савремено-научна високошколска установа у приватном власништву, која своју дјелатност обавља на основу дозволе Министарства просвјете и културе Републике Српске од 1. августа 2007. године.

Универзитет је основан 2005. године и уписан је као високошколска установа у Судском регистру Основног суда у Бањој Луци 2006. године, као и у Регистру високошколских установа Министарства просвјете и културе Републике Српске.

Уџбенички је сет предмета и остала литература формирана су према болоњским стандардима и студенти могу да их набаве у Центру за издавачку дјелатност Универзитета.

Образовна концепција установљена је на европским и свјетским стандардима у свјетову оцјењивања, организације студија, дидактичким методама и наставним плановима и програмима. Пролаз на Универзитету безбједан је на најбољим искуствима и традицијама европских универзитета и примјени свих реформских праваца на европским болоњским просторима *реформе европског високог друштва*.

На Универзитету се изучавају искључиво једносеместрални предмети. Студентима је омогућена максимална самосталност избора факултативних и изборних предмета (њих има 25 одсто), чиме оперативније сваки студент у оквиру мултидисциплинарног студијског програма. Висока мотивација студената и висока професионалност на студију (80 одсто комбинације продавости) повезане са блок системом наставе, наставним програмима и уџбеницима формираним према болоњској матрици студија, интерактивним радом у учионици са малим групама студената, организованим педагошким радионица (семинари, студије случаја, правне клинике, ВИП семинари, симулације, инструктивним камповима, студијским посјетама и сл.).

Паневропски универзитет "Апеирон" обухвата, према типу студија: студије првог циклуса (средње и више на даљину), студије другог циклуса, докторске студије трећег циклуса (3 године/6 семестара), програме доквалификације и усавршавања (изузетно скраћена студија), програме сталног стручног оспособљавања и усавршавања (изузетно скраћена студија), програме преквалификације (изузетно скраћена студија).

Универзитет чини шест факултета, и то: Факултет економских наука, Факултет правних наука, Факултет информационих технологија, Факултет здравствених наука, Факултет спортских наука, Факултет филозофских наука.

Факултет економских наука чине студијски програми - Предузетнички менаџмент и пословна економија, Менаџмент банкарства, финансија и трговине, Менаџмент јавне управе; *bachelor* степен првог циклуса у трајању од 3 године (6 семестара) -180 ECTS, студије првог циклуса у трајању од 4 године (8 семестара) - 240 ECTS - са или без *integrated* усмјерења/специјалистичког степена, магистарски (мастер) студије другог циклуса у трајању од укупно 5 година (10 семестара) - 300 ECTS (са одбраном магистарског рада).

Факултет правних наука чине: студијски програми - Опште-правна студијска група и Пословно-правне науке - bachelor степен првог циклуса у трајању од 3 године (6 семестара) - 180 ECTS, студије првог циклуса у трајању од 4 године (8 семестара) - 240 ECTS - са или без *integrated* усмјерења/специјалистичког степена, магистарске (мастер) студије другог циклуса у трајању од укупно 5 година (10 семестара) - 300 ECTS (са одбраном магистарског рада).

Факултет информационих технологија чине: студијски програми - Пословна информатика (Менаџмент информационих технологија), Настава/наука информатике; наука - bachelor степен првог циклуса у трајању од 3 године (6 семестара) - 180 ECTS, студије првог циклуса у трајању од 4 године (8 семестара) - 240 ECTS - са или без *integrated* усмјерења/специјалистичког степена, магистарске (мастер) студије другог циклуса у трајању од укупно 5 година (10 семестара) - 300 ECTS (са одбраном магистарског рада).

Факултет здравствених наука чине: студијски програми - Спортски менаџмент, Спортска тренер и Педагогико-наставни студијски програм у спорту; наука - bachelor степен првог циклуса у трајању од 3 године (6 семестара) - 180 ECTS, студије првог циклуса у трајању од 4 године (8 семестара) - 240 ECTS - са или без *integrated* усмјерења/специјалистичког степена, магистарске (мастер) студије другог циклуса у трајању од укупно 5 година (10 семестара) - 300 ECTS (са одбраном магистарског рада).

Факултет спортских наука чине студијски програми - Опште-правна студијска група и Пословно-правне науке - bachelor степен првог циклуса у трајању од 3 године (6 семестара) - 180 ECTS, студије првог циклуса у трајању од 4 године (8 семестара) - 240 ECTS - са или без *integrated* усмјерења/специјалистичког степена, магистарске (мастер) студије другог циклуса у трајању од укупно 5 година (10 семестара) - 300 ECTS (са одбраном магистарског рада).

Студијски програм Руски језик чине: наука - bachelor степен првог циклуса у трајању од 3 године (6 семестара) - 180 ECTS, студије првог циклуса у трајању од 4 године (8 семестара) - 240 ECTS - са или без *integrated* усмјерења/специјалистичког степена, магистарске (мастер) студије другог циклуса у трајању од укупно 5 година (10 семестара) - 300 ECTS (са одбраном магистарског рада).

Јавност, транспарентност и кумулативне оцјене обима рада студента карактеристични су елемент оцјењивања у којем се оцјена формира на основу предиспитних свих облика рада студента (рад у настави током процеса, рад у оквиру слободних педагошких форми и процјена активног односа на испиту).

У систему вредновања преноситељ студената током студија, примјењује се ECTS - Европски кредитни бодовни систем, а бодују се и остали облици рада студената поред наставе, радно искуство, објављивање радова и рад у неформалним студентским организацијама.

Студенти се упознају са основним предностима свога избора рада студената

СРЕДЊОШКОЛСКИ ЦЕНТАР

Средњошколски центар "Гимназија-Апеирон" има најсавременију едукативну опрему и наставна средства, едукативну и телекомуникациону опрему. Настава се одвија са истицањем бројних учионица и кабинета за информатику са широко појасним дистрибутивним приступом интернету, кабинетима за хемију, биологију, географију, здравствену његу, физиотерапију, стоматологију и протетику.

Библиотека и читаонице су богате збирком стручне литературе, као и књиге за лектиру. Простор унутар школе је организован тако да стално подстиче интерактиван рад ученика и наставника.

Наставни облик настава одвија се рада свеобухватна радионица: градска, реализација истраживачког пројекта, као и због потребе за проширивањем знања и вештина.

Консултативна настава за ученике који у довољној мјери не могу да савладају градиво који обухвата редовна настава.

ПОКАЗАТЕЉ НАПРЕТКА

Ректор Паневропског универзитета "Апеирон" проф. др Ристо Козомара о високој професији образовања каже:

– Показатељ напретка сваког образовања је и чињеница да сви наши студенти након завршетка универзитетских студија на приватном раду боље успјех рада, а приватни универзитети обезбеђују своје студенте стално едукацијом и стручним оспособљавањем, не заборављајући на традиције и знање које им даје бити од користи у пракси. Знам да је дио данашње и дјела трећих приватних факултета, или у Средњовјековној Америчкој Државној од 10 најбољих универзитета, само за практичне, на неки начин, а данашњем свијету важно је само чињеница да образовање, шта знате да радите и чињеница шта знате у томе. У 21. веку систем образовања и напредак дио подлоге чврсто повезан са чињеницом знања. Зато ми свакодневно да "чекају" знање где год и за шта год могу, да радите успјешно у предузећу и истраживачком сектору јавној или приватној управи, информатичкој корпорацији, стручној школи, итд. Успјешан у образовању је најбољи министарство у будућност.

САРАДЊА С РОДИТЕЉИМА

Концепт рада Средњошколског центра "Гимназија-Апеирон" Бања Лука подразумијева [illegible] сарадњу са родитељима ученика. Комуникација са породицом остварује се [illegible] начина. Основни вид сарадње са родитељима је лични контакт са разредним старешином, наставницима и управом школе. Комуникација се остварује и путем комуникационе дневника. Родитељи путем интернета у сваком тренутку могу да врше увид у [illegible] активности свога дјетета и остваривају двосмерну комуникацију.

Поред наставе заједнице и студијска путовања ученика, са различитим садржајима и циљевима, организују се уз сагласност ученика и њихових родитеља или старатеља. Програмски рад школе одвијаће се кроз пројекте, радионице и кроз остварење студијских посјета и екскурзија уз активно учешће Савјета ученика и Савјета родитеља.

средње школе у једну образовно-[illegible] научну јединицу, а то су: Гимназија [illegible] смјерова - општи смјер и смјер [illegible] математичко-рачунарски смјер, Економ[illegible] ска школа за стручне послове, Ме[illegible] дицинска школа за стручне послове.

– Наша жеља је омогућити [illegible] деци могућности стицања свеобухватних знања у областима савремених природних, друштвених, економских и информатичких технологија. Очекујемо повећано [illegible] сљедећих година заинтересованост основношколаца за наше школе, повећано [illegible] број наших ученика на тржишту рада, као и [illegible] високом завршном знању, способности и [illegible] у каријери свих наших ученика да будуће високошколско образовање и стручно усавршавање – наглашава директор Средњошколског центра "Гимназија-Апеирон" Алексић.

Средњошколски центар "Гимназија-Апеирон" је четворогодишњег школовања пружа могућности за образовно-васпитни рад са ученицима.

Ученици имају могућност изражавања својих [illegible] у раду Савјета ученика. Средњошколски центар "Гимназија-Апеирон" има [illegible] спортске активности, а у чијим [illegible] су изражени таленат ученика [illegible] међународних сусрета које се организује за ученике.

Врата о здравој ученика [illegible] ру је врло отвореног [illegible] матских прегледа ученика.

Безбједност и сигурности у [illegible] 2008. године. Испуњени су сви законом прописани услови и прибављена лиценца за рад.

– Наш циљ је да створимо школу будућности коју ће ученици са задовољством похађати, у којој су ученици у центру пажње. У угодној и пријатној атмосфери наши ученици са стручним, расположеним и вредним професорима свакодневно у настави мотивацију. У инспирационим условима, коришћењем савремених метода и уз помоћ модерних наставних учила и опреме, ученици лако и брзо стичу знања и вјештине из одређених области.

– Ми смо једнаквима установа и имамо конкурсне предности у односу на остале средње школе – каже директор "Апеирона" Саша Алексић.

Наставни планови и програми, на основу којих се изводи наставни процес, одобрени су од надлежног Министарства просвјете и културе.

Средњошколски центар "Гимназија-Апеирон" [illegible] школа основана је посебна пажња [illegible] ко би у школи избегли појаву [illegible] прекршајних дјела, малолетничке делинквенције и вршњачког насиља.

Пријемни испити Панепрофесионалног универзитета "Апеирон" и Средњошколског центра "Гимназија-Апеирон" се одржавају да разговора са одговорним, регуларно [illegible] и услови студирања и учења и у [illegible] дости наглашеног идентификују радионице, активности ове специфичне врсте високошколске и средњошколске установе. Отвато је да се ради о једном врло организованом, добро [illegible] ављеној и одржаваној установи [illegible] је окупили изузетно кадрове и [illegible] рела све претпоставке за вишеструко стваралачко-научно-образовних радионица, оспособљавање студената у [illegible] струкама које су програмски усмјерени на студирање на факултетима, ученике у Средњошколском центру, који ће чудо да је интерес за ове [illegible] културе и средње школе у састав [illegible]

Међународна конференција о економском развоју и животном стандарду "ЕДАСОЛ 2016" у Бањалуци

Већа конкурентност привреде најважнији задатак на путу у ЕУ

Хрватски произвођачи су још конкурентнији на тржишту CEFTA региона него на европском. Ништа боља није ни конкурентност произвођача из БиХ јер су економији потребне бројне структурне реформе, индустријализација, опипљив раст и развој, казао Канцијa

ПИШЕ: ЖЕЉКА КОКОТ
zeljkak@glassrpske.com

БАЊАЛУКА - Пут БиХ ка Европској унији отежавају сложена уставна структура и нејасне стратешке политике, а задатак академске заједнице је да проактивним ставом олакша приступ европском тржишту и убрза боље реформе које пут до пуноправног чланства могу учинити трновитом.

Факултет пословне економије Универзитета "Апеирон" организовао је у петак у Бањалуци конференцију о економском развоју и животном стандарду "ЕДАСОЛ 2016", а тема скоријег научног скупа је била "Европска унија, интеграције и западни Балкан - изазов и шанса за друштвено-економски развој". Учесници скупа су разматрали позицију земаља западног Балкана у сфери европских интеграционих процеса. Посебна пажња је посвећена развојним аспектима политичких, економских и других друштвених процеса у посматраном земљама и стању унутар институција ЕУ и земаља чланица.

Декан Факултета пословне економије Универзитета "Апеирон" Синиша Лагумџић каже да се на овогодишњој конференцији "ЕДАСОЛ 2016" представило 85 аутора најчешће из земаља окружења, Аустрије и Њемачке кроз 36 научних радова.

- Академска заједница је покушала допринети да природне и политичке заједнице, односно покушали смо утврдити шансе и могућности за позиционирање у процесу уласка у ЕУ - каже Лагумџић и додаје да је "ЕДАСОЛ 2016" окарактерисао широк спектар тема.

АКАДЕМСКА ЗАЈЕДНИЦА МОЖЕ ДА ПОМОГНЕ ПРИВРЕДИ НА ПУТУ КА ЕУ

Професор Економских факултета у Ријеци Весна Кандија рекао је у уводном излагању о теми "Приступање БиХ Европској унији и IPA фондови - тежак, реструктурисана и конкурентнија" да само улазак у ЕУ може рефлектити бројне позитивне и економске проблеме са којима се БиХ тренутно суочава.

- БиХ може учити из примјера Хрватске која је прије три године постала дио ЕУ. Ми смо тада морали повећати конкурентност у истом омјеру у којем је смањена царина, или до сада се то није десило. Наши произвођачи су још конкурентнији на тржишту CEFTA региона него на европском тржишту. Ништа боља није ни конкурентност произвођача из БиХ јер су економији потребне бројне структурне реформе, индустријализација, опипљив раст и развој да би коначним спајањем ових тема земља постала пуноправни члан ЕУ - каже Кандија.

Партнери научног скупа

Партнери конференције "ЕДАСОЛ 2016" су Тамбовски државни универзитет Русија, Интернационални Бурч Универзитет Сарајево, Факултет за логистику Универзитета у Марибору, Економски факултет у Суботици, Висока школа тржишних комуникација у Београду, Економски факултет - ФОН Универзитет у Скопљу и Свеучилиште Сјеверо Барокани.

Predavanjima protiv korupcije

U. VUKIĆ

BANJALUKA - Predstavnici Ministarstva pravde i Ministarstva unutrašnjih poslova RS, u okviru "Antikorupcijskih dana", nastavili su s predavanjima o temi "Borba protiv korupcije i unapređenje sistema integriteta".

Na predavanju, koje je održano na Fakultetu pravnih nauka Panevropskog univerziteta "Apeiron", bile je riječi o implementaciji Strategije borbe protiv korupcije u RS te istaknuta važnost jačanja svijesti i aktivne

JEDNAKOST

Korupcija ugrožava jednakost građana

Tokom predavanja pojašnjeni su i funkcija i rad aplikacije "Prijavi sumnju na korupciju i druge nepravilnosti", kojoj svi građani putem interneta, anonimno ili javno, mogu prijaviti sumnje na nepravilnosti u institucijama RS, a kojoj se može pristupiti putem internet stranica svih ministarstva u Vladi RS.

Naredno predavanje u okviru "Antikorupcijski dani" biće održano danas u Gimnaziji u Ba-

protiv korupcije pokazuju.

Бањалучки Паневропски универзитет "Апеирон" домаћин међународне конференције "ИТеО"

Научним радовима граде будућност

Трудимо се да фокус ставимо на студенте, да они истражују, пишу и презентују своје научне радове и на тај начин се припреме за даље школовање или посао, рекла Радићева

ПИШЕ: ДАНИЈЕЛА СТОЈАНИЋ
danijela@glassrpske.com

БАЊАЛУКА - Стицање нових сазнања путем интернета, употреба платформи за е-учење у обиљу контроле дигитала, те значај дигиталног потписа у последњој иновацији само су неке од тема које су у петак представљене на међународној научној конференцији "ИТеО" у Бањалуци.

Ријеч је о конференцији која је осми пут заредом у организацији Паневропског универзитета "Апеирон" у Бањалуци окупила велики број стручњака ове области из РС, БиХ и Србије.

ИЗЛАГАЧ

На конференцији је учествовала и професор информатике Сања Бирс из Котора, а тема њеног излагања била је "Да ли образовање смислити у Облаку", односно стицање нових знања путем интернета.

- Мишљења о том питању су подијељена, али нешто постоје иницијативе да ће пословање у Облаку бити нешто сасвим нормално и сад је добрим дијелом то присутно, али ће у будућности бити још нормалније, јер је то један дефинитиван вид образовања - рекла је Бирсова.

"АПЕИРОН" ЛИДЕР У ОВОЈ ОБЛАСТИ ОБРАЗОВАЊА

Кроз организацију сам научног скупа "Апеирон" настоји да уз свој учешће са својим наставним ИЦТ у електронском образовању, формалном и неформалном, као и у електронском пословању.

Предсједник Организационог одбора конференције Горанка Радић истакла је да су и ове године покровитељ конференције Академија наука и умјетности РС, Министарство просвјете и културе и Министарство науке и технологије РС.

- Трудимо се да фокус ставимо на студенте, да они истражују, пишу и презентују научне радове и да се на тај начин припреме за даље школовање или посао. У ту сврху организујемо и округле столове, а у протекле две године имали смо video-конференције са руским студентима. - рекла је Радићева. -

Ове године су, како је објаснила, путем video-конференције са Округлом столу учествовали студенти Паневропског универзитета и њихове колеге из Зеленограда, са Техничког факултета "Михаило Пупин".

У протекле осам година "ИТеО" је изнједрио више од 250 научноистраживачких радова које потписују домаћи и страни научни експерти, док су ове године богатији за још око 20 радова.

Најбољи радови "ИТеО" биће објављени у међународном научном часопису Универзитета "Апеирон" - ЈТЕА (Journal of Information Technology and Application).

Предсједник научног Одбора конференције "ИТеО" Зоран Аврамовић истиче је да ова конференција има за циљ да окупи оне који користе информационе технологије у електронском образовању како би размијенили искуства и мишљења.

- "ИТеО" је сваке године све успјешнија. Паневропски универзитет "Апеирон" је, без сумњивости могу рећи, лидер у овој области образовања, не само у БиХ него и шире - рекао је Аврамовић.

На Паневропском универзитету "Апеирон" одржана међународна конференција

Превођење и двојне дипломе у фокусу

БАЊАЛУКА - Двојне дипломе за студенте Паневропског универзитета "Апеирон" који одлуче да студирају на једном од руских факултета, само су једна од тема конференције "Ново и традиционално у транслатологији и настави руског језика као страног" која је у петак одржана.

Ријеч је о другој по реду међународној конференцији коју су организовали Институт за славистику Руске академије наука, Факултет филолошких наука Паневропског универзитета "Апеирон" и удружење "Српско-руска мост". Осим двојних диплома, на овом скупу се говорило и о преводењу и култури, те методологији умјетничког преводења.

Према ријечима декана Факултета филолошких наука Универзитета "Апеирон" Ларисе Човаић, неопходне теме су биле и преводење и вербална лингвистика, учење на даљину у систему високог образовања те синхрона и асинхрона комуникација у учењу руског језика на даљину.

- Руски језик заиста заузима до сад свог изражај и заузима своје право место на овом подручју. Да је тако потврђује чињеница да се све више студената на овом факултету опредјељује за руски језик - рекла је Човаићева и додала да сви студенти овог факултета имају право да проведу годину у Русији у склопу сарадње са неког руских универзитета.

Декан Факултета за преводење Московског државног универзитета "Ломоносов" Николај Константинович Гарбовски на овој конференцији говорио је о теми Семиотика умјетничког преводења.

ХУМАНА НЕДЈЕЉА УНИВЕРЗИТЕТА „АПЕИРОН"

Помозимо себи и другима

Паневропски универзитет „Апеирон" и Средњошколски центар „Гемит Апеирон" Бања Лука организовали су акцију „Будимо хумани, будимо здрави - помозимо себи и другима" у којој је кроз активности наглашен значај очувања и унапређења здравља.

-Сваке године учествујемо у хуманитарним акцијама, а ове године почнемо предавањем на тему „Здраве навике- исхрана и здравље", које ће за наставнике, студенте и заинтересовано грађане одржати проф. на Факултету здравствених наука професор др Бранислав Михајловић, потврдила је Весна Перић, техничка секретарка Паневропског универзитета „Апеирон", Одјељење Бијељина.

Професор Михајловић је истакао да је нарасло интересовање за теме здравља и здравих навика исхране, а основни принципи здраве прехране подразумијевају редовност оброка, разноврсност и умјереност, јер, како стара изрека каже, ко год да је отац болести, мајка му је неправилна исхрана.

-Захваљујући антибиотицима и другим лијековима тренд заразних болести се смањио, док се тренд хроничних незаразних болести повећао, а посебно се повећао број кардиоваскуларних болести, дебљина и болести централног нервног система. Може се рећи да постоји епидемија тих тихих убица", каже професор Михајловић, који је, говорећи о важности правилне исхране, подсјетио на Хипократову поруку „нека храна буде ваш лијек", јер, како указује професор Михајловић, у царству савремених болести примат имају болести које су повезане са исхраном.

Након предавања на тему здравих навика у исхрани, уследило је предавање на тему која, такође, плијени велику пажњу, а то су болести зависности. О овом великом проблему данашњице говорио је професор Александар Милић.

- Болести зависности имају хроничан ток и воде до тешких промјена психичког и тјелесног здравља младих, односно, угрожавају или заустављају њихов нормалан психофизички развој, негативно утичу на њихову социјалну позицију и позицију њихових породица, као и безбједност друштва у цјелини, указао је професор Милић.

Хумана недјеља Паневропског универзитета „Апеирон", Одјељење у Бијељини садржала је и акцију добровољног давања крви студената и запослених. Акција је организована у Заводу за трансфузијску медицину РС у Бијељини, а том приликом је истакута важност овог хуманог чина у очувању здравља и живота других људи. М.Р.

Бањалучки Паневропски универзитет "Апеирон" организовао међународну конференцију

Студенти усавршавају писање научних радова

БАЊАЛУКА - Основни циљ међународне научне конференције "ТТоО" је да наши студенти науче да пишу научне радове, да их презентују и да се на тај начин припреме за даље школовање или посао.

Казала је ово у пятак професор на "Апеирону" Горјана Радић током седме научне конференције.

- Наши студенти, нарочито они који похађају мастер студије, обавезни су да пишу радове, да оду на конференцију да би видјели и чули како треба радити на одређеном проблему, те како се проблем презентује и рјешава - истакла је Радићева.

Конференција, на којој су приказана 22 студентска рада, почела је у петак, а завршава у суботу.

Током дводневне конференције бројни студенти ће презентовати своје радове, а уводно предавање односило се на теме у вези са економском анализом и великом бизнис одлукама.

Професор на овом универзитету Душан Стојчевић је нагласио да је задовољан бројем студената који су заинтересовани за рад у области истраживања, иако то није обавезујуће у академском образовању.

- Није ријеч о великом броју студената, али то је радујуће што што је истраживачки рад само за радознале и студенте које жеље више - казао је Стојчевић.

Он је додао да је најважније то што ти студенти касније, захваљујући раду и труду, одлазе на докторске студије у иностранство или се тамо запошљавају.

Лингвиста Николај Гарбовски са Московског државног универзитета "Ломоносов" гостовао у Бањалуци

Ријечи често нестају у преводу

Код овог специфичног превода, када је ријеч о умјетности, битно је да утисак на читаоца буде идентичан као код онога ко чита изворни текст, каже Гарбовски

Словенски дух

- Уверен сам да наши би се нашли сви на овим просторима, не би био усамљен, без обзира на одређену језичку баријеру. Ми то питање само зафрканцију, блиског сродног језика, него заједничког словенског духа - каже професор Николај Гарбовски.

ОДЛИЧНА САРАДЊА СА УНИВЕРЗИТЕТОМ "АЛЕИРОН"

ПИШЕ: АЛЕКСАНДРА ГЛИШИЋ
aleksandrag@glassrpske.com

БАЊАЛУКА - Ралђи експеримент о губљењу ријечи у преводу данима смо до врха занимљивих података. Компаративна анализа, која је добро позната у лингвистици, показала је да мање од једног одсто изворног остане у преводу.

Ријечи су ово проф. др Николај Гарбовски са Московског државног универзитета "Ломоносов", који је гостовао на Пан-европском универзитету "Апеирон" у Бањалуци. Гарбовски, који је професор на Факултету за преводилаштво на "Ломоносову", одржао је два предавања за "Апеирону", насловљена као "Руска школа превода" и "Преводи у глобалном свијету".

- А ако запамтимо семантику и обратимо пажњу на естетску страну која карактерише преводне поезије и прозе, јасна је популарност још мања. Код овог специфичног превода, када је ријеч о умјетности, битно је да утисак на читаоца буде идентичан као код онога ко чита изворни текст - прокоментарисао је Гарбовски.

Осврнуо се и на специфичности руске школе превођења.

- Битно је истаћи да је прошлу годину обиљежила вишевјековна традиција и да није тога било, не би ова школа имала своје посебно мјесто не само у Русији већ и у свијету јер је ова школа примљена међу 40 главних школа широм планете - каже Гарбовски.

Истакао је да је сарадња са "Апеироном", која траје већ неколико година, одлична.

- Од прве године те сарадње је била на научном нивоу. Прво је била одржана једна научна конференција, а постепено смо почели још комплетније да сарађујемо, што је подразумијевало академску област, размјену студената. Код нас су боравили студенти са "Апеирона". Такође, наши професори одржали су предавања у Бањалуци, што представља заиста велики допринос - рекао је Гарбовски.

Пријатно је да су професори са "Апеирона" учествовали на научне конференције организоване у Русији, али и у другим земљама.

ОДРЖАО ПРЕДАВАЊА "РУСКА ШКОЛА ПРЕВОДА" И "ПРЕВОДИ У ГЛОБАЛНОМ СВИЈЕТУ"

- "Апеирон" је врхунски одлично организован, а не смијемо ни заборавити на касе све научне конференције се одржавају на овом универзитету. Мој утисак је на овој страни искрен, квалификован научни и наставни кадрови. А мени је посебно важно што осјећам да су неодвојиве ланце области, сазнања и научна. Ово је врло добра институција са којом треба и убудуће развити на заједничким научноистраживачким пројектима - сматра Гарбовски.

Стево Мирјанић, министар пољопривреде

Мраз нанио штету од 50 милиона КМ

ГРАДИШКА - Министар пољопривреде, шумарства и водопривреде РС Стево Мирјанић рекао је јуче да штета коју је у пољопривреди ледњачу сезоне окотила изазвао мраз крајем априла износи око 50 милиона КМ, али да то још није коначно утврђено.

Мирјанић је након састанка са воћарима у Доњим Подградцима и обиласка воћњака у Потпоклају истакао да ће пројекти штете бити завршени до 20. јуна. Дијело је да ће одбори дати битне исходиште и дио пута за пописивање за пољопривреду из 2015. који износи око 14 милиона КМ. Предсједник Удружења воћара РС Драгица Дубравац поручио је да воћари очекују значајну помоћ од Владе РС на основу штете од мраза. (Срна)

Хумана недјеља у "Апеирону"

Будимо хумани, будимо здрави

БАЊАЛУКА - Вишедневна акција "Здраво хумани, будимо здрави - помозимо себи и другима", која почиње сутра, циљ нам истицати најважније здраве очувања и унапређења здравља.

Ова акција, коју организује Панеуропски универзитет "Апеирон" и Средњошколски центар "Пимо-Апеирон", почиње предавањем на тему "Здраве навике - исправно и правилно".

- Ово предавање за све заинтересоване, студенте и наставнике, одржаће проф. др Јосип Чабрајац у великом амфитеатру Панеуропског универзитета, а одржаће га продекан на Факултету здравствених наука Бранислав Михајловић. О теми "Болести зависности" сат касније говорице професор Александар Милић - саопштено је из "Апеирона".

Нагласили су да је за среду планирано добровољно давање крви студената и запослених на универзитету у бањалучком Залеђу за трансфузијску медицину РС.

- Дан касније на Бан брду планиране су физичке активности у природи. Завршетак, који буду обиљежили са наставницима и асистентима Факултета спортских наука, добобе и савјете како одржати добру форму тијела за здрав живот. Пријем је планиран у дјест часова испред Универзитета и предвиђена је око седам километара - навођено је у саопштењу.

Осим тога, у оквиру ове хумане недјеље, у петак ће у кабинету за физиотерапију овог универзитета бити омогућен преглед свакоме уз сајет.

6 уторак, 10. март 2015. ГЛАС СРПСКЕ

Прва научна конференција Филолошког факултета Паневропског универзитета и Универзитета "Ломоносов" из Москве

НА "АПЕИРОНУ" ДЕКАНИ СА ШЕСТ УНИВЕРЗИТЕТА ИЗ РУСИЈЕ

У организацији Факултета филолошких наука Паневропског универзитета "Апеирон" и Московског државног универзитета "Ломоносов" одржана је Прва међународна конференција с темом **"НОВО И ТРАДИЦИОНАЛНО У ТРАНСЛАТОЛОГИЦИ И НАСТАВИ РУСКОГ ЈЕЗИКА КАО СТРАНОГ"**, у суботу, 7. марта.

На Конференцији су учествовали проф. др Николај Тарбовски, декан Факултета за преводилаштво Московског државног универзитета "Ломоносов"; проф. др Олга Иванова, декан Факултета хуманитарних технологија Руског новог универзитета у Москви; проф. др Марија Есипова, декан Факултета за руски језик као страни Московског државног универзитета РКИ.ло и представници Репрезентације Министарства иностраних послова Руске Федерације, професори са Магнитогорског техничког универзитета, Југославенског државног универзитета "Курск" Русија, Пермске државне фармацеутске академије те стални представници Руског културног центра Руске Федерације у Босни и Херцеговини.

"Током успјешне сарадње "Апеирона" и Универзитета "Ломоносов" прије годинама. Студенти Факултета филолошких наука Паневропског универзитета увијек су добродошли у Русију. Кад нас усавршавају руски језик и заједно учествују на међународним конференцијама, округлим столовима и научним дискусијама", истакао је проф. др Николај Тарбовски, декан Факултета за преводилаштво Московског државног универзитета "Ломоносов".

Амбасадор Руске Федерације у Босни и Херцеговини Петр Иванов свечано је отворио Конференцију.

"Сарадња Русије и Републике Српске у области образовања, културе и науке је веома добра, а ова Конференција то потврђује", истакао је амбасадор.

На научном скупу учествовали су и професори Универзитета "Свети Кирило и Методије" из Скопља, Филозофског факултета Универзитета у Београду, Филозофског факултета Универзитета у Нишу, Филолошког факултета Универзитета у Новом Саду, Филозофског факултета Универзитета у Косовској Митровици, генерални секретар Удружења научних и стручних преводилаца Србије, главни и одговорни уредник часописа "Превођење".

Преко 25 научника из Русије, Грчке, Молдавије, Пољске, Србије, Републике Српске, Босне и Херцеговине, Црне Горе и Македоније презентовали су радове о теми која је посвећена проблемима превођења и наставама глобалног система изградњи специјалних области технологија у учењу руског језика као страног.

8 1. и 2. новембар 2014. ГЛАС СРПСКЕ

Паневропски универзитет и Jiaotong универзитет у Пекингу договорили сарадњу

АПЕИРОН ПРВИ И У КИНИ

Делегација Паневропског универзитета посјетила је у октобру Beijing Jiaotong универзитет у Пекингу и том приликом потписан је споразум о разумијевању и сарадњи ове двије високошколске установе.

Споразумом ће бити омогућена размјена студената и наставника, те сарадња два Универзитета која је усмјерена на обезбјеђење врхунског квалитета у настави, развој заједничких студијских програма, научно-истраживачки рад и друге академске пројекте.

Потпредсједник пекиншког Jiaotong универзитета Chen Feng истакао је да њихов Универзитет ради на пројекту кинеске владе у области образовања и културе који је у Пекингу договорен са 16 земаља из Југоисточне Европе.

– Паневропски универзитет је први из Босне и Херцеговине на путу на реализацији нашег пројекта, са свим својим ресурсима, капацитетима, својом иновативности, сјајним резултатима на научном и образовном пољу. Акценат наше сарадње у почетној фази ставили смо на мобилност студената и професора ова два Универзитета, додао је Chen Feng.

Иницијативу за ову сарадњу покренуо је кинески Универзитет, посредством амбасадора Босне и Херцеговине у Народној Републици Кини, господина Борислава Марића.

Jiaotong универзитет је један од најквалитетнијих универзитета у Народној Републици Кини, основан 1896. године, који само у Пекингу има више од 30 000 студената и има још пет кампуса широм земље.

Ректор Универзитета Апеирон проф. др Есад Јакуповић нагласио је да студенти који буду заинтересовани за програм размјене са Jiaotong универзитетом морају добро владати енглеским језиком, с обзиром да ће се сва предавања изводити на том језику.

– У наредном периоду са нашим новим партнером из Кине крећемо у заједничку организацију конференција и семинара, истраживања, заједнички рад на научним програмима и курсевима, а све за добробит наших студената којима смо управо помјерили границе могућности у образовању, рекао је предсједник Управног одбора Паневропског универзитета «АПЕИРОН», господин Дарко Уремовић.

Делегација из Пекинга ће узвратити посјету на прољеће наредне године, када ће се договорити о заједничком раду проширити.

Studij drugog ciklusa na Panevropskom univerzitetu "Apeiron"

MASTER NA OSAM STUDIJSKIH PROGRAMA

Prof. dr Esad Jakupović, rektor Univerziteta

Panevropski univerzitet „Apeiron" raspisao je konkurs za upis četvrte generacije studenata na master studije u školsku 2014/15. godinu.

Za sve studente koji su završili osnovne trogodišnje studije i koji su stekli 180 ECTS bodova, master studij je organizovan u četiri semestra, odnosno dvije godine. Oni koji imaju 240 ECTS bodova i četvorogodišnje studije, studij drugog ciklusa će pohađati jednu godinu, odnosno dva semestra. Izuzetak je studijski program Sport u ciljanim grupama, koji mogu da upišu samo kandidati koji imaju završene četvorogodišnje studije i 240 ECTS bodova.

Prof. dr Esad Jakupović, rektor Univerziteta, odgovorio je na nekoliko pitanja koja su u žiži interesovanja brojnih diplomaca.

- **Na kojim studijskim programima kandidati mogu upisati master studij u školskoj 2014/15. godini?**

Master studij izvode četiri fakulteta Panevropskog univerziteta na osam studijskih programa. Fakultet poslovne ekonomije sa studijskim programima Preduzetnički menadžment i Menadžment bankarstva, finansije i trgovine već četiri godine nudi studentima mogućnost da upišu studij drugog ciklusa. Fakultet pravnih nauka izvodi master studije na Opšte-pravnom studijskom programu. Poslovna informatika – inženjering informacionih tehnologija je studijski program koji nudi Fakultet informacionih tehnologija. Sport u ciljanim grupama i Sportski menadžment su studijski programi Fakulteta sportskih nauka, za čije izvođenje smo dobili dozvolu prije mjesec dana. Na Fakultetu zdravstvenih nauka takođe od ove školske godine Sestrinstvo i Sanitarni inženjering pružaju mogućnost sticanja master diplome.

- **Nakon što je kandidat upisao master studije, koji su sljedeći koraci?**

Student predlaže temu i ima mogućnost da samostalno predloži i mentora. Nastavno-naučno vijeće prihvata prijedlog ukoliko mentor ima izbor u zvanje iz odgovarajuće naučne oblasti.

Čekam doktorski studij

Azmira Fejzić, ne prakticira stručni saradnik za normativno-pravne poslove u kancelariji za zakonodavstvo Vlade Unsko-sanskog kantona.

Zvanje sa master studija sa Fakulteta pravnih nauka pomoći će mi da bolje obavljam posao. Stečene stručne kompetencije savršeno odgovaraju zahtjevima profesionalnog okruženja. Na stavljam tačku na obrazovanje i čekam doktorski studij.

- **Po čemu je karakterističan master studij Panevropskog univerziteta?**

Studij drugog ciklusa na našem Univerzitetu nudi jedinstvenu prednost, jer studentima omogućava da učestvuju u izradi takozvanog „individualnog nastavnog plana i programa". To znači da studenti mogu da realizuju najveći mogući stepen vlastitih ambicija za sticanje specifičnih kompetencija, znanja i vještina. Plan i program kreiraju mentor i kandidat prema kandidatovim preferencijama.

- **Šta obuhvata nastavni program drugog ciklusa?**

To je, zapravo, zbir obaveznog i izbornog nastavnog programa, te istraživanje u okviru završnog rada. Opšte kompetencije student će steći kroz obavezne predmete, a dopunu istih obezbijediće specijalističke kompetencije koje se stiču kroz individualni plan i program.

- **Da li je moguće upisati master studij nakon fakulteta koji nije potpuno matičan sa studijskim programom na drugom ciklusu?**

Ono što je isto za sve studijske programe jeste da master studij u trajanju od jedne godine, bez ikakvog diferencijalnog programa, mogu upisati studenti čiji je osnovni studij potpuno matičan sa odabranim programom drugog ciklusa. Ukoliko je studij prvog ciklusa djelimično matičan, kandidatu se određuje diferencijalni program, kojim će nadoknaditi nedostajuće kompetencije. Što se tiče nematičnosti, različita su pravila. Studenti sa nematičnih studijskih programa nemaju mogućnost upisa na Fakultet zdravstvenih nauka, kao ni na Fakultet pravnih nauka. Na ostale fakultete upisuju se na dvogodišnji master studij.

- **Na Univerzitetu je angažovano 100 nastavnika i velika je mogućnost izbora mentora. Koliko je važna uloga mentora na studijima drugog ciklusa?**

Odgovorna je i velika, u smislu maksimalne angažovanosti, dostupnosti i posvećenosti svakom kandidatu ponaosob. On je istovremeno i savjetnik i motivator. Za studenta je veoma bitan izbor teme, koncipiranje individualnog plana i programa, organizacija studija, odabir literature, dodatni izvori koji će pomoći da završni rad bude na vrhunskom nivou.

Logičan nastavak

Nadežda Sikanjić, mr računarstva i informatike

Master studije su logičan nastavak školovanja. Zato je osam polaznika što ovo na Panevropskom Univerzitetu završilo i drugi sklop studija. Opredijelili i doktorski studij kada Fakultet informacionih tehnologija bude organizovao treći ciklus.

- **Jesu li studenti zadovoljni kvalitetom nastave na drugom ciklusu?**

Osnovni studij je danas postao skoro pa obaveza, pa je studentima nekada i zamoran. Master studij je nadogradnja onog već poznatog, nešto što čovjek želi zarad sebe, ličnog usavršavanja i nešto što se „ne mora". Tu se kandidati ne zaustavljaju, već uvijek traže pojašnjenja, imaju brojna pitanja i dileme koje sa svojim mentorima i ostatkom „profesorske ekipe" koja je uvrštena u njihov studij, postupno rješavaju i otklanjaju. To su studenti koji pišu naučno-stručne radove, a Univerzitet im, kroz brojne naučne konferencije, daje mogućnost da postanu dio naučnih timova.

- **Više od 50 studenata završilo je master studije, koji se na Univerzitetu „Apeiron" izvode od 2011 godine. Gdje su danas ti studenti?**

Na Univerzitetu, Centar za vođenje karijere, prati dalji rad svih svršenih studenata, pa tako i onih koji su ponijeli zvanje mastera sa Panevropskog univerziteta. To su uspješni poslovni ljudi, sa sjajnim karijerama kod nas i u inostranstvu.

- **Vaša poruka studentima koji još uvijek donose odluku o upisu na master studije?**

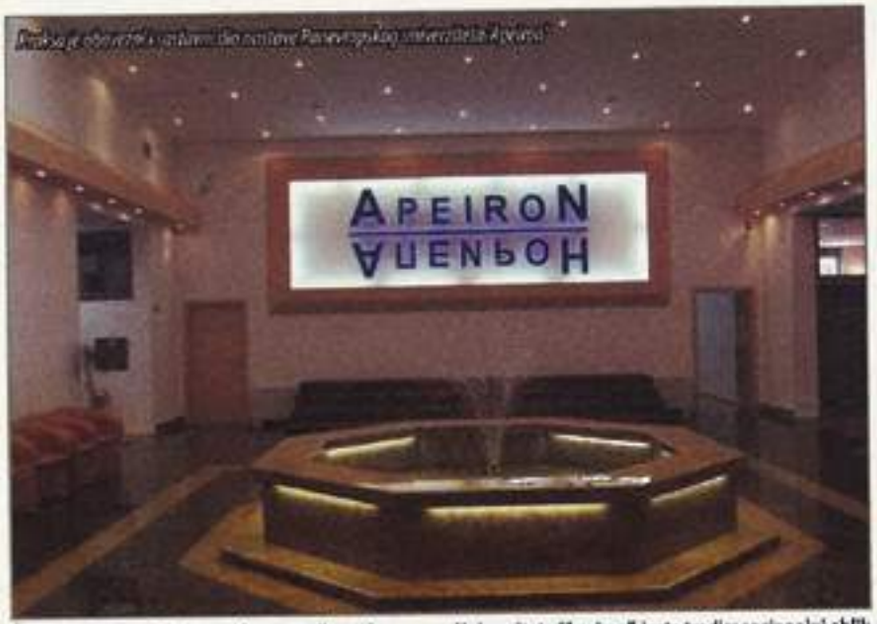
Zanimanje je procenat visoko obrazovanih, pa tako i onih sa diplomom mastera u Republici Srpskoj i u Bosni i Hercegovini. Našoj državi su potrebni ljudi koji ne smiju praviti limite u obrazovanju, ni formalnom, ni neformalnom, cjeloživotnom. Sa master studija ponijeće zvanje mastera, dosta prošireno znanje dodiplomskih studija i sjajnu pripremu za studij trećeg ciklusa. Dalje, naši dodiplomci i postdiplomci Fakulteta zdravstvenih nauka, odnosno magistri zdravstvene njege i sanitarnog inženjerstva su kadar vrlo cijenjen i poželjan u zemljama Evropske unije i kadar po koji direktori svjetskih klinika dolaze i nude im posao. Zašto? Pa zato što praktične sposobnosti koje nose, u kombinaciji sa teoretskim dijelom sjajno kombinuju i primjenjuju. Takvi kadrovi potrebni su svima. Zbog toga su brojni studenti iz cijele Bosne i Hercegovine i zemalja regiona, a naročito iz Srbije i Hrvatske kojima je Panevropski univerzitet bio izbor za studije drugog ciklusa.

Informativni časopis STUDENT BROJ

Panevropski univerzitet "Apeiron" - nove mogućnosti za izvođenje studentske prakse

Studentima sestrinstva plaćena praksa u Njemačkoj

Preduslov za vješto i brzo snalaženje na tržištu rada jeste dobra obučenost u praktičnom dijelu obrazovan



Dvorana je obnovljena uvođenjem novog Panevropskog univerziteta "Apeiron"

Četiri studentice Fakulteta zdravstvenih nauka Panevropskog univerziteta „Apeiron", sa studijskog programa Sestrinstvo, od početka septembra 2014. godine stručnu praksu obavljaju u njemačkoj klinici Seniorenhof Schulze Eggenrodde. Klinika je za studente obezbijedila putne troškove, smještaj, hranu, te mjesečnu naknadu u iznosu od 500 eura.

„Praksa će trajati tri mjeseca, a nakon toga vrlo vjerovatno je da će studentice u našoj klinici zasnovati radni odnos", rekao je Berthold Schulze Eggenrodde, vlasnik klinike, prilikom posjete

Preduslov za vješto i brzo snalaženje na tržištu rada jeste dobra obučenost u praktičnom dijelu obrazovanja Univerzitetu "Apeiron" u avgustu ove godine.

To je vodilja menadžmenta Panevropskog univerziteta i Centra za vođenje karijere u posvećenosti i otvaranju novih mogućnosti za izvođenje studentske prakse.

Praksa je obavezan i sastavni dio nastave za buduće medicinare zdravstvene njege na svim studijskim programima, kao i za ostale studente svih 18 studijskih programa.

Trodimenzionalan oblik studija

Rijetkost na visokoškolskim ustanovama, obezbijeđena studentima Fizioterapije i radne terapije Univerziteta "Apeiron", jeste trodimenzionalni oblik studija. Prva u nizu je teoretska nastava, poslije koje dolaze vježbe u kabinetima Univerziteta. Tu se izučavaju odgovarajuće tehnike fizioterapije, odnosno studenti prolaze kroz kompletan rehabilitacioni program od elektroterapije, termoterapije, kineziterapije i specijalne tehnike iz oblasti neurologije, pedijatrije, gerijatrije, fizikalne medicine, reumatologije itd.

„Posljednja faza su specijalizovani centri za rehabilitaciju, gdje sa stručnim osobljem (fizijatri, fizioterapeuti, kardiolozi, internisti) studenti prolaze sve tretmane sa pacijentima različitih bolesti", riječi su Gordana Bajića, višeg asistenta na Fakultetu zdravstvenih nauka.

Studenti koji su se odlučili za ovaj fakultet tradicionalno imaju veliki izbor i mogućnosti za praktičnu nastavu.

Zdravstveno turistički centar "Banja Vrućica" Teslić već pet godina studentima Univerzteta "Apeiron" omogućava obavljanje praktične nastave, obezbjeđujući im pored toga smještaj i obroke.

„Obzirom da direktno učestvuju u procesu rada, studenti Panevropskog univerziteta nerijetko dobijaju pohvale od osoblja, ali i od pacijenata. Vrlo predano i savjesno obavljaju sve aktivnosti povjerene od strane njihovih mentora", objašnjava dr Jelena Bogdanić, specijalista fizikalne med u "Banji Vrućici".

Univerzitetska bolnica Klinički centar Banja L Dom zdravlja Laktaši, Zavod za fizikalnu med i rehabilitaciju dr Miroslav Zotović, Javno zdra stvena ustanova "Sveti vračevi" Bijeljina, Inst zaštitu zdravlja Republike Srpske, institucije kojima studenti pohađaju praktičnu nastavu.

Različiti oblici prakse

Od oktobra školske 2014/2015. godine prva studenta Fakulteta poslovne ekonomije, pra nauka i informacionih tehnologija na praksu u Investiciono- razvojnu banku Republike Sr Studenti pomenutih fakulteta praktičnu nas pohađaju u Administrativnoj službi grada Ba Luka, kao i upravi za indirektno oporezivanje sne i Hercegovine, zahvaljujući ugovoru koji verzitet nedavno potpisao sa ovom institucij „O PDV-u, carinama, akcizama studenti uče licu mjesta od vrhunskih stručnjaka u Upravi studenti zdravstvenih nauka praksu će obav Odsjeku za carinsku laboratoriju Uprave", na je mr. Vanja Sredojević iz Centra za vođenje Univerziteteta "Apeiron".

Domaćini sa „Apeironu" sa gostima iz Njemačke

Rezultat četvorogodišnje uspješne saradnje

Iz Njemačke Apeironu na poklon medicinska oprema

„Nastavljamo saradnju i u vidu specijalističkog obrazovanja nakon kojeg će studenti i učenici dobiti mog zaposlenja i daljeg napredovanja u karijeri u oblasti njege i sestrinstva", rekao je Berthold Schulze Egge

Vlasnik i menadžer zdravstvene ustanove Seniorenhof Schulze Eggerodde, Berthold Schulze i Peter Boeding tokom posjete Panevropskom univerzitetu „Apeiron", 12. i 13. oktobra darovali su medicinsku opremu Fakultetu zdravstvenih nauka i Medicinskoj školi Srednjoškolskog centra „Gemit - Apeiron".

Univerzitet i SŠC „Gemit-Apeiron", prije četiri godine potpisali su sporazum sa ovom njemačkom zdravstvenom ustanovom, koji obuhvata odlazak studenata i učenika na plaćenu praksu u Seniorenhof Schulze.

Nesebična podrška i aktivna saradnja

„Tokom proteklog perioda u našoj ustanovi u programu plaćene prakse učestvovalo je više od tri stotine studenata i učenika Panevropskog univerziteta i SŠC „Gemit - Apeiron". Nastavljamo saradnju i u vidu specijalističkog obrazovanja nakon kojeg će studenti i učenici dobiti mogućnost zaposlenja i daljeg napredovanja u karijeri u oblasti njege i sestrinstva", rekao je Berthold Schulze Eggenrodde, vlasnik ove zdravstvene ustanove iz okoline njemačkog grada Münstera. Dodao je, da donacija obuhvata krevet sa liftom i dušekom u vrijednosti od 5 hiljada evra, kolica za nepokretne osobe te mnogo sitnije medicinske opreme koja će učenicima i studentima biti od velike pomoći u pripremama za profesionalnu karijeru.

Rektor Panevropskog univerziteta, akademik prof. dr Esad Jakupović, uručio je zahvalnicu ustanovi Seniorenhof Schulze Eggenrodde i Bertholdu Schulze za nesebičnu podršku i aktivnu saradnju u omogućavanju studentske prakse, kao i za donaciju neophodne medicinske opreme, kao podsticaj a vanje studenata i učenika i veliku podršku akademskom osoblju u c stručnih kadrova.

Ustanova Seniorenhof Schulze Eggerodde sporazum je potpisala i sa Alumna, koja posreduje pri zapošljavanju i preporučuje medicinski publike Srpske i Bosne i Hercegovine. Alumna je i ovu posjetu iskori icima, studentima ali i drugim građanima koji su zainteresovani za praksu ili posao omogućila razgovor sa delegacijom iz Njemačke.

Ректорска конференција Републике Српске добила ново руководство

Проф. др Милан Кулић изабран је за новог предсједника, док је за замјеника предсједника изабран проф. др Санел Јакуповић

Нови предсједник Ректорске конференције проф. др Милан Кулић, ректор Универзитета Источно Сарајево, његов замјеник проф. др Санел Јакуповић, ректор Паневропског универзитета „Апеирон" На Паневропском универзитету „Апеирон" у Бањој Луци је 28. фебруара 2024. године одржана 41. редовна сједница Ректорске конференције Републике Српске на којој су разматрана бројна питања, међу којима и избор новог руководства Ректорске конференције, финансијски извјештај за прошлу годину, као и питања из области обезбјеђења квалитета у високом образовању. Проф. др Санел Јакуповић и проф. др Милан Кулић

Ugovor o akademskoj, naučnoj i poslovno-tehničkoj saradnji

Evropski univerzitet „Kallos" Tuzla i FK "Sloboda" Tuzla zaključili Ugovor o akademskoj, naučnoj i poslovno-tehničkoj saradnji

Evropski univerzitet "Kallos" Tuzla sa rektorom prof. dr Kemalom Brkićem i akademikom prof. dr Nedeljkom Stankovićem sklopili su Ugovor o akademskoj, naučnoj i poslovno-tehničkoj saradnji sa FK "Sloboda" Tuzla čiji je zastupnik direktor Eldar Jusufović. Ugovor je zaključen s ciljem međusobne saradnje dvije ustanove u budućem procesu obrazovanja, naučno-istraživačkog rada i drugih poslova u okviru registrovanih djelatnosti. Ciljevi saradnje su: razvoj i podsticanje zajedničkih istraživanja, seminara, međunarodnih konferencija , uz napore da se obezbijede eksterni izvori finansiranja; razvoj razmjene znanja i naučnih informacija kroz recipročnu razmjenu naučnih i stručnih publikacija, e-publikacija, akademskog materijala, stručnih izvora i drugih resursa; podsticanje i drugih akademskih projekata i aktivnosti upućenih prema drugim akademskim partnerima i ostalim izvorima finansiranja neprofitnih i akademskih projekata i podsticanje i drugih akademskih aktivnosti za koje se obje ugovorne strane slože da su od zajedničkog interesa i koristi. Fudbalski klub Sloboda Tuzla je bosanski profesionalni nogometni klub sa sjedištem u Tuzli, Bosna i Hercegovina. Klub je član Nogometnog saveza Bosne i Hercegovine i uglavnom je aktivan u Premier ligi Bosne i Hercegovine. FK Sloboda Tuzla osnovana je 1919. godine, kao dio Radničkog sportskog društva Gorki, nazvanog po velikom socijalističkom ruskom pjesniku Maximu Gorkyju. Nogometni klub i radničko društvo bili su popularni u širokom dijelu sportske javnosti u Tuzli i šire. Klub je osnovan na inicijativu tuzlanskog ogranka novoosnovane Komunističke partije Jugoslavije, pod utjecajem ideja Oktobarske revolucije 1917. godine i revolucionarnih pokreta u Jugoslaviji i Bo Hercegovini kao njegovog sastavnog dijela. balski Klub "Sloboda" Tuzla je jedan od najsta i najpoznatijih klubova na Balkanu sa tradic dugom od preko 100 godina.

Eldar Jusufović, akademik prof. dr Nedeljko Stanković i prof. dr Kemal Brkić
